

MEMORANDUM

Date: April 8, 2008
To: Honorable Chairman Bruno A. Barreiro and Members, Board of County Commissioners
From: George J. Burgess, County Manager

Agenda Item No. 8(R)(1)(A)

Subject: Contract Award Recommendation for Alexander Orr Jr. Water Treatment Plant Removal of Calcium Carbonate Deposit - Project No: N/A; Contract No: W-836

This item was amended at the March 11, 2008 Governmental Operations and Environment Committee due to scrivener's errors in the "Explanation" section (second paragraph, page 3). Specifically, item was amended to include Bid Item No.5, as well as to correct the estimate of \$6 million to \$5,925,000 and the difference in ranges from \$400,000-\$2,579,000 to \$50,000-\$2,504,000.

Recommendation

This Recommendation for Award of a construction Contract Number W-836 between Atlantic Civil, Inc., and Miami-Dade County has been prepared by the Miami-Dade Water and Sewer Department (MDWASD) and is recommended for approval. At the present time, the existing lagoon at the Alexander Orr Jr. Water Treatment Plant (AOWTP) is reaching full capacity; this project will provide MDWASD adequate storage capacity for the calcium carbonate residuals of water production operation at the AOWTP.

Scope

PROJECT NAME: Alexander Orr Jr. Water Treatment Plant Removal of Calcium Carbonate Deposit
PROJECT NO: N/A
CONTRACT NO: W-836

PROJECT DESCRIPTION: The project consists of furnishing all labor, materials and equipment necessary to haul and legally dispose of the calcium carbonate residuals in a lagoon produced at the AOWTP. The calcium carbonate is the material removed from the well during the water softening process. The material is inert and non-toxic, in its dry stage (very fine powder), but when mixed with water it forms a slurry paste.

The work includes, but is not limited to the following: clearing, excavating, loading trucks with watertight bodies and covers and hauling away approximately 175,000 cubic yards of calcium carbonate; furnishing all labor, materials and equipment necessary to breach the existing dike and reconstructing it upon completion of work; legally disposing of the material off site; constructing a truck wash station to be used for the duration of the project; removing the truck wash station at the end of the project; performing street cleaning along the calcium carbonate haul route; survey work; furnishing traffic control; and all other miscellaneous and appurtenant work for a complete project.

It is MDWASD's intent to obtain a complete, functional, and satisfactory installation under this project and any items of labor, equipment or materials (which may be reasonably assumed as necessary to accomplish this task) shall be supplied whether or not they are specifically shown on the plans or stated in the specifications. The contractor shall provide all sheeting, shoring, bracing and all other labor, material or equipment required to preclude damage to, or loss of functionality of, any existing facility or system.

EXPLANATION

MDWASD received ten bids for this project, seven of the bids were under the Engineer's estimate. The low bidder is 31 percent under the Engineer's estimate and the difference between the two lowest bidders is 2.6 percent.

Bid Item No. 4 and 5 – Loading, Hauling, and Legal Disposing of Calcium Carbonate - accounts for the difference between MDWASD's estimate of \$5,925 million and the lower bids received (the difference ranges from \$50,000 to \$2,504,000). The disposal location of the calcium carbonate residual has a significant impact on the contractor's price bid. The contractor that obtains the closets and most economical disposal site has the best chance of being the low bidder.

Therefore, MDWASD's recommendation is to award this contract to the lowest responsive and responsible bidder, Atlantic Civil, Inc. The Engineer has reviewed the unit prices submitted by Atlantic Civil and determined that the bid is reasonable. Atlantic Civil has been awarded five contracts in the last five years. Contract W-812 was with MDWASD, and was completed in a satisfactory manner. Because this was prior to implementation of AO 3-42, there are no evaluations listed in the CIIS database.

Water And Sewer Department

From: Penelope Townsley, Interim Director
Small Business Affairs/Department of Procurement Management

Subject: CSBE Compliance Review of Contract No: W-836, Removal of Calcium Carbonate from Alexander Orr, Jr. Water Treatment Plant to Southwest Well Field

Small Business Affairs/Department of Procurement Management (SBA/DPM) has completed its review of the above-referenced project for compliance with the Community Small Business Enterprise (CSBE) Program. The contract measure applicable to this project is a six percent (6%) CSBE subcontractor goal.

The Construction Contracts Section of The Miami-Dade Water and Sewer Department submitted bid documents from Atlantic Civil, Inc. for compliance review.

Atlantic Civil, Inc. submitted the required Schedule of Intent (SOI) Affidavit committing to utilize Leno Dredging & Hauling, a certified CSBE firm, to perform excavation and hauling work at 6%. Leno Dredging & Hauling signed the SOI Affidavit in agreement with the information listed. Atlantic Civil, Inc. has fulfilled the contract measure requirement and is in compliance with the CSBE Participation Provisions.

SBA/DPM staff only reviewed and addressed compliance with the CSBE program. The Construction Contracts Section of The Miami-Dade Water and Sewer Department is responsible for any other issues that may exist.

Should you have any questions or need any additional information, please do not hesitate to call Kelly Duncombe at (305) 375-3136.
