Subject: County Incentive Grant Program (CIGP) Agreement Between Miami-Dade County and the Florida Department of Transportation in the Amount of \$5,500,000 to Fund Rehabilitation of the Venetian Causeway Bridges

RECOMMENDATION

It is recommended that the Board of County Commissioners (BCC) authorize the County Mayor to execute a County Incentive Grant Program (CIGP) Agreement, in substantially the form attached, with the Florida Department of Transportation, (FDOT) in the amount of \$5,500,000, for the rehabilitation of the Venetian Causeway bridges.

SCOPE

This Agreement will provide funding for the rehabilitation of the Venetian Causeway bridges that connect the Cities of Miami and Miami Beach, and are located in Commission Districts 3 and 4.

FISCAL IMPACT/FUNDING SOURCE

The total estimated cost of the project is \$11,000,000. FDOT has programmed CIGP funding for this project in the amount of \$5,500,000. The project is listed in the 2008 Transportation Improvement Program (TIP) in the Primary State Highways and Intermodal Section. A local match in the amount of \$5,500,000 is required from the County, and will be provided by Public Works Department (PWD) Causeways Toll Revenue (\$2,000,000), and loan proceeds from the Sunshine State Governmental Financing Commission (\$3,500,000).

DELEGATION OF AUTHORITY

No additional authority is being requested within the body of this contract.

TRACK RECORD/MONITOR

PWD will administer all aspects of project construction. The project will be assigned to Marcos Redondo, P.E., Section Head, Highway Division Bridge Section, who will oversee inspections conducted by PWD staff.

BACKGROUND

The CIGP was created by Section 339.2817 of the Florida Statutes, as authorized by the 2000 State Legislature. Its purpose is "to provide grants to counties to improve a transportation facility which is located on the State Highway System or which relieves traffic congestion on the State Highway System".

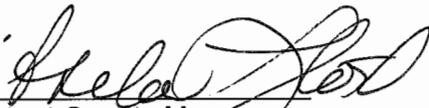

Over the last 75 years, the Venetian Causeway has undergone extreme environmental effects that have resulted in widespread deficiencies. The Causeway relieves traffic on the MacArthur Causeway (SR A1A) to the south and the Julia Tuttle Causeway (SR 112) to the north, and serves as an evacuation route for the residents of the Venetian Islands and the City of Miami Beach.

Funds were requested through an application to CIGP for rehabilitation of the existing bridge system to enable the continued safe operation of the Causeway. This application was subsequently approved, and under the CIGP funding formula, the costs for the project will be equally divided between the County and FDOT on a 50% basis, with the County supplying matching funding through Causeways Toll Revenue and loan proceeds from the Sunshine State Governmental Financing Commission.

Major rehabilitation to the Causeway bridges includes removing existing concrete and adding new reinforcing and concrete to the support beams. There are over 400 support beams in the 12 Venetian bridges. The application of Carbon Fiber Reinforced Polymer will also be included for those support beams requiring more extensive repairs. Major repairs will also be made to the diaphragms, deck, and support piers. In addition, a major cleaning and painting of the East Bascule bridge (near Miami Beach) will be undertaken as this bridge exhibits severe corrosion, mainly in the bolts.

PWD will implement a Public Involvement Plan (PIP) during the construction of the project to provide information to area residents of work to be performed in the area. The project is anticipated to commence by September 2008.

It should be noted that PWD is working concurrently on the design of the future replacement bridges.
