To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

Agenda Item No. 8(P)(1)(E)

From: George M. Burgess
County Manager

Subject: Contract Award Recommendation in the Amount of \$409,139.01 Between Republic Intelligent Transportation Services, Inc. and Miami-Dade County for the People's Transportation Plan (PTP) Project Entitled Internally Illuminated Street Name Signs Installation Contract - Countywide (**Project - CICC 7360-0/08 Request for Price Quotation (RPQ) No. 20070820**)

Recommendation

The attached Contact Award Recommendation for an Internally Illuminated Street Name Signs Installation Contract - Countywide (Project - CICC 7360-0/08 RPQ No. 20070820), in the amount of \$409,139.01, between Republic Intelligent Transportation Services, Inc. and Miami-Dade County has been prepared by the Public Works Department (PWD) and is recommended for approval. Proceeds from the Charter County Transit System Sales Surtax (the Surtax) will be used to fund this project, therefore, approval by the Board of County Commissioners (BCC) and Citizens' Independent Transportation Trust (CITT) is required.

Scope

The work to be performed under this contract includes internally illuminated street name sign installation at various locations within Miami-Dade County. Three (3) intersections have been identified for this contract and are listed as follows: NW 5 Avenue and NW 29 Street; NW 5 Avenue and NW 103 Street and NW 5 Avenue and NW 119 Street, located within Commission District 3. Additional sites may be added during the course of the contract.

Fiscal Impact/Funding Source

The fiscal impact will be \$409,139.01 and will be funded from the Surtax. The proposed improvements qualify under the allowable work categories included in the PTP Neighborhood Improvements Section. Specific funding for this project will be allocated from the respective Commission District PTP yearly allocations. The base contract amount is \$358,606.25, but the total allocated amount is \$409,139.01, which is inclusive of the contingency and dedicated allowances.

Delegation of Authority

No additional authority is being requested within the body of this contract.

Track Record/Monitor

The contractor, Republic Intelligent Transportation Services, Inc., is currently performing work for the PWD at a satisfactory level as reported by the Project Manager. Additionally, the Office of Capital Improvement (OCI) database list one (1) awarded construction contract. However, since the contractor is new to Miami-Dade County, there are no listed contractor performance evaluations on file, since the contracts are still under construction or in the preliminary stages. In addition, the Department of Small Business Development's (SBD) History of Violation's report lists no violation for this contractor.

Following PWD's standard operating procedures, after award of this contract, a pre-construction meeting will be scheduled.

Throughout all PTP projects, the responsible staff person in PWD will be the PTP Coordinator, Mr. Frank Aira, P.E. Following completion of the award process, the project will be assigned to Mr. Oscar Rubio, P.E., Project Manager, for day to day responsibilities.

According to the Florida Department of State, Division of Corporations, Republic Intelligent Transportation Services, Inc., Company Principals are: Wade L. White, Dennis L. Walther and Jeffrey L. Asch and the Company's address is listed as: 371 Bel Marin Keys Blvd., Suite 200, Novato, California 94949.

Background

In an effort to accelerate the continued success of the PTP Neighborhood Improvements initiative, PWD is taking advantage of various contracting mechanisms such as the subject Miscellaneous Construction Contracting (MCC) process available under OCI contract CICC 7360-0/08. Through this process, PWD forwards the RPQ, by way of facsimile transmission and US-mail, to a pool of firms that have registered with OCI for the subject trade. Additionally, PWD advertises the project in the Daily Business Review as well as providing courtesy notifications in the Diario De Las Americas, Miami Herald, Miami Times, Haiti en Marche, Le Floridien, and Kiskeya Herald. The project award evaluation is based upon the lowest sum bid submitted by the responsive, responsible bidder for the project.

This project was previously advertised under RPQ No. 20070782 CICC 7040-0/07; however, the bids exceeded the Department's estimate and the lowest responsive, responsible bidder would not agree to negotiate their prices. Therefore, the Department rejected all bids and subsequently re-advertised the project on January 8, 2008 under a new number (20070820) and forwarded it to a list of 41 pre-registered firms from the OCI database as noted above. During this advertisement, none of the contract documents were sold by the time the Department held the pre-bid meeting; revealing that there was insufficient contractor availability under the CICC 7040 set-aside program. On January 22, 2008 PWD contacted the SBD and OCI and obtained their concurrence in changing the project to the CICC 7360 process to allow for increased participation. Through the CICC 7360 process, seven (7) firms subsequently purchased contract documents and four (4) firms proffered a bid. As a result, on March 4, 2008, PWD issued a recommendation of award for RPQ 20070820 to Republic Intelligent Transportation Services, Inc., with the stipulation that approval of this project must be obtained from the BCC and the CITT due to guidelines associated with the funding source.

The work to be accomplished for this project consists of, but is not limited to, furnishing all supervision, labor, required materials, tools and equipments required to provide the installation of internally illuminated street name signs at various intersections in Miami-Dade County. The work includes the removal of existing overhead signs, relocation of existing signal heads and tree trimming in conflict with the proposed scope of work as directed by the Engineer. The Contractor shall keep the Engineer informed at all times of his work schedule, in order for the project to be inspected during all phases of installation, including wire splicing, installation of conductors and any work involving the electrical connections at the controller cabinet.
