

Memorandum

MIAMI-DADE
COUNTY

Date: June 3, 2008

To: Honorable Chairman Bruno A. Barreiro and Members,
Board of County Commissioners

From: George M. Burgess
County Manager 

Subject: Class IV Permit Application by 114 Acres Hialeah, LLC, to Impact 93.35 Acres of
Wetlands to Construct a Residential Development and Accept a Restrictive Covenant to
Preserve and Enhance 8.25 Acres On-site

Agenda Item No. 5(C)

Attached, please find for your consideration an application by 114 Acres Hialeah, LLC, for a Class IV Permit and Restrictive Covenant. Also attached is the recommendation of the Director of the Department of Environmental Resources Management and a Resolution seeking the Board's approval of the aforesaid Class IV Permit and Restrictive Covenant.

Assistant County Manager

Date: June 3, 2008

To: George M. Burgess
County Manager

From: Carlos Espinosa, P.E. Director
Environmental Resources Management

Subject: Class IV Permit Application by 114 Acres Hialeah, LLC, to Impact 93.35 Acres of Wetlands to Construct a Residential Development and Accept a Restrictive Covenant to Preserve and Enhance 8.25 Acres On-site

Recommendation

I have reviewed the application for a Class IV Permit and Restrictive Covenant by 114 Acres Hialeah, LLC. Based upon the applicable evaluation factors set forth in Section 24-48.3 of the Code of Miami-Dade County, I recommend that the Board of County Commissioners approve the issuance of a Class IV Permit and the acceptance of the restrictive covenant for the reasons set forth below.

Scope

The subject property is located between theoretical NW 146 and NW 154 Streets and between NW 97 Avenue and Interstate 75, which is within County Commission District 12.

Fiscal Impact/Funding Source

Not applicable.

Track Record/Monitor

Not applicable.

Background

The subject Class IV Permit application involves the proposed dredging and filling of 93.35 acres of wetlands not supporting halophytic vegetation to construct a residential development and accept a restrictive covenant to preserve and enhance 8.25 acres on-site. The subject property is located between theoretical NW 146 and NW 154 Streets and between NW 97 Avenue and Interstate 75 in Section 21, Township 52 South, Range 40 East in Miami-Dade County. The proposed project site is adjacent to residential and mixed-use developments and quarried lakes. The proposed project site is located within the Urban Development Boundary.

The wetlands that will be impacted within the project site are characterized as herbaceous with generally high densities of *Melaleuca*, an invasive exotic plant species. Compensatory mitigation for the ecological impacts related to the removal of wetland plant communities will be accomplished by purchasing 33.75 herbaceous wetland mitigation credits in the Everglades Mitigation Bank, owned and managed by Florida Power & Light Company. The Everglades Mitigation Bank Wetland Restoration and Enhancement Project has enhanced property in the South Dade Wetland Basin by removing exotic vegetation, replanting with native species, restoration of filled areas to natural wetland grade, and the implementation of a fire management program. In addition to the purchase of off-site mitigation credits, the applicant has proffered a restrictive covenant for the preservation and enhancement of an 8.25-acre on-site preservation area.

The proposed project has been designed in accordance with all relevant Miami-Dade County Class IV Permit criteria and is consistent with all other Miami-Dade County wetland protection provisions. Please find attached a Project Report from the Department of Environmental Resources Management (DERM) Wetland Resources Section, which sets forth in more detail the reasons this project is recommended

for approval by DERM pursuant to the applicable evaluation factors set forth in Section 24-48.3 of the Code of Miami-Dade County, Florida. The conditions, limitations, and restrictions set forth in the Project Report attached hereto are incorporated herein by reference hereto.

NOTICE OF PUBLIC HEARING ON AN APPLICATION BY 114 ACRES HIALEAH, LLC, FOR A CLASS IV PERMIT TO IMPACT 93.35 ACRES OF WETLANDS TO CONSTRUCT A RESIDENTIAL DEVELOPMENT AND ACCEPT A RESTRICTIVE COVENANT TO PRESERVE AND ENHANCE 8.25 ACRES ON-SITE BETWEEN THEORETICAL NW 146 AND 154 STREETS AND BETWEEN NW 97 AVENUE AND INTERSTATE 75 IN SECTION 21, TOWNSHIP 52 SOUTH, RANGE 40 EAST, MIAMI-DADE COUNTY, FLORIDA

BOARD OF COUNTY COMMISSIONERS
MIAMI-DADE COUNTY, FLORIDA

NOTICE IS HEREBY GIVEN pursuant to Article IV, Division 1 of Chapter 24 of the Code of Miami-Dade County that the Board of County Commissioners of Miami-Dade County will hold and conduct a Public Hearing on a request by 114 Acres Hialeah, LLC, for a Class IV Permit to impact 93.35 acres of wetlands to construct a residential development and accept a restrictive covenant to preserve and enhance 8.25 acres on-site. Such Public Hearing will be held on the 3rd day of June 2008, at 9:30 am, at the County Commission Chambers on the 2nd Floor of the Stephen P. Clark Center, 111 NW 1st Street, Miami, Florida.

Plans and details concerning the work requested in the application may be reviewed by interested persons at the office of the Miami-Dade County Department of Environmental Resources Management, 701 NW 1st Court, Suite 400, Miami, Florida, 33136-3912.

Oral statements will be heard and appropriate records made. For accuracy of records, all important facts and arguments should be prepared in writing in triplicate, with two copies being submitted to the Deputy Clerk of the County Commission at the hearing or mailed to her beforehand (Kay Sullivan, Deputy Clerk), 111 NW 1st Street, Stephen P. Clark Center, Suite 17-202, Miami, Florida 33128; and with one copy being submitted beforehand to the Miami-Dade County Department of Environmental Resources Management, 701 NW 1st Court, Suite 400, Miami, Florida, 33136.

A person who decides to appeal any decision made by any Board, Agency, or Commission with respect to any matter considered at its meeting or hearing, will need a record of proceedings. Such person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which the appeal is to be based.

Override _____

Agenda Item No. 5(c)
6-3-08

RESOLUTION NO. _____

RESOLUTION RELATING TO AN APPLICATION BY 114 ACRES HIALEAH, LLC, FOR A CLASS IV PERMIT TO IMPACT 93.35 ACRES OF WETLANDS TO CONSTRUCT A RESIDENTIAL DEVELOPMENT AND ACCEPT A RESTRICTIVE COVENANT TO PRESERVE AND ENHANCE 8.25 ACRES ON-SITE BETWEEN THEORETICAL NW 146 AND 154 STREETS AND BETWEEN NW 97 AVENUE AND INTERSTATE 75 IN SECTION 21, TOWNSHIP 52 SOUTH, RANGE 40 EAST, MIAMI-DADE COUNTY, FLORIDA

WHEREAS, this Board desires to accomplish the purposes outlined in the accompanying memorandum, a copy of which is incorporated herein by reference,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that this Board having considered all the applicable factors contained within Section 24-48.3 of the Code of Miami-Dade County hereby approves the application by 114 Acres Hialeah, LLC for a Class IV Permit to impact 93.35 acres of wetlands to construct a residential development and accept a restrictive covenant to preserve and enhance 8.25 acres on-site, subject to the conditions set forth in the memorandum from the Director of the Miami-Dade County Department of Environmental Resources Management, a copy of which is attached hereto and made a part hereof. The issuance of this approval does not relieve the applicant from obtaining all applicable Federal, State, and local permits.

The foregoing resolution was offered by Commissioner
who moved its adoption. The motion was seconded by Commissioner
and upon being put to a vote, the vote was as follows:

Bruno A. Barreiro, Chairman	
Barbara J. Jordan, Vice-Chairwoman	
Jose "Pepe" Diaz	Audrey M. Edmonson
Carlos A. Gimenez	Sally A. Heyman
Joe A. Martinez	Dennis C. Moss
Dorrin D. Rolle	Natacha Seijas
Katy Sorenson	Rebeca Sosa
Sen. Javier D. Souto	

The Chairperson thereupon declared the resolution duly passed and adopted this
3rd day of June, 2008. This resolution shall become effective ten (10) days after the
date of its adoption unless vetoed by the Mayor, and if vetoed, shall become effective
only upon an override by this Board.

MIAMI-DADE COUNTY, FLORIDA
BY ITS BOARD OF
COUNTY COMMISSIONERS

HARVEY RUVIN, CLERK

**RESTRICTIVE COVENANT RUNNING WITH THE LAND IN FAVOR OF
MIAMI-DADE COUNTY**

The undersigned, 114 Acres Hialeah, LLC, being the present owner(s) of the following real property (hereinafter called "the Property"), lying, being and situated in Miami-Dade County, Florida, to wit:

See Exhibit A

pursuant to Section 24-48.2(I)(B)(2)(b) of the Code of Miami-Dade County, Florida hereby proffers this executed Restrictive Covenant Running With The Land in Favor of Miami-Dade County, Florida as part of Miami-Dade County Department of Environmental Resources Management Class IV Permit Application Number FW 07-090:

1. The owner, its heirs, successors, assigns and grantees, covenants to Miami-Dade County to comply with all conditions set forth in the Miami-Dade County Class IV Wetland Permit No. FW 07-090 attached hereto as Exhibit B and incorporated herein by reference.
2. The owner, its heirs, successors, assigns and grantees, covenants to Miami-Dade County that neither native trees nor native understory shall be removed from the Property without the prior written consent of the Miami-Dade County Department of Environmental Resources.
3. The owner, its heirs, successors, assigns and grantees, shall notify Miami-Dade County in writing not later than thirty (30) days after any conveyance, sale, grant or transfer of the Property or any portion thereof, to any heirs, successors, assigns or grantees.
4. The owner, its heirs, successors, assigns and grantees, covenants to Miami-Dade County to prohibit and prevent public access to all areas of the Property except the boardwalk. In the event that the Property is being degraded (i.e., the area is being destroyed or damaged, plants removed or trampled upon or trash and debris are accumulating in the area), then Miami-Dade County may require the owner to install protective barriers around any area within the Property, which has been degraded.
5. This Restrictive Covenant shall run with the land and shall be recorded in the Public Records of Miami-Dade County, Florida and shall remain in full force and effect and be binding upon the undersigned, and their heirs, successors, grantees and assigns until such time as the same is modified or released in writing by Miami-Dade County, Florida.

6. The undersigned agree(s) and covenant(s) that this Restrictive Covenant and the provisions contained herein may be enforced against any person permitting, allowing, letting, causing or suffering any violation of the terms of this Restrictive Covenant by the Department of Environmental Resources Management, or its successor, by temporary, permanent, prohibitory, and mandatory injunctive relief as well as otherwise provided by law or ordinance and also may include an action for and to recover civil penalties, damages, costs and expenses, and attorney's fees in favor of Miami-Dade County against said person(s) as authorized by law or ordinance. All of the remedies provided herein shall be deemed to be independent and cumulative and shall be deemed to be supplemental to any remedies provided by law or ordinance.

IN WITNESS WHEREOF, the undersigned have caused this Covenant to be executed this 5 day of May, 2008

Applicants/Agents Letter

Engineer's Certification Letter

PERMIT APPLICANT/ AUTHORIZED AGENT STATEMENT

Date: May 2, 2008

To:

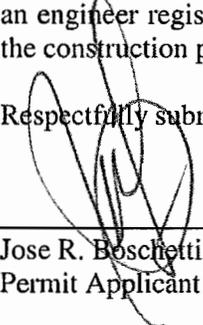

Miami Dade County DERM
Wetland Resources Section
701 NW 1st Court
Miami, FL 33136

Re: Class IV Standard Form Permit Application Number FW 07-090, 114 Acres Hialeah, LLC to Impact 93.35 Acres of Wetlands for the Construction of a Residential Development and for the Enhancement of 8.25 Acres of Wetlands in Section 21, Township 52S, Range 40E.

By the attached Class IV Standard Form permit application with supporting documents, I, Jose R. Boschetti, am the permit applicant and hereby request permission to perform the following: Class IV Standard Form Permit Application Number FW 07-090, 114 Acres Hialeah, LLC to Impact 93.35 Acres of Wetlands for the Construction of a Residential Development and for the Enhancement of 8.25 Acres of Wetlands in Section 21, Township 52S, Range 40E.

If approval is granted for the proposed work by the Board of County Commissioners, complete and detailed plans and calculations of the proposed work shall be prepared by an engineer registered/licensed in the State of Florida in accordance with the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida. Said plans and calculations shall be subject to the review and approval of the Department of Environmental Resources Management. The permit applicant will secure the services of an engineer registered/licensed in the State of Florida to conduct inspections throughout the construction period, and said engineer shall prepare all required drawings of record.

Respectfully submitted,

Jose R. Boschetti, Managing Member, 114 Acres Hialeah, LLC
Permit Applicant

December 18, 2007

Miami-Dade County DERM
Wetland Resources Section
22 SW 2nd Avenue, Suite 400
Miami, Florida 33130-1540

Re: Class IV Standard Form Permit Application Number FW 07-090, 114 Acres Hialeah, LLC to Impact 93.35 Acres of Wetlands for the Construction of a Residential Development and for the Enhancement of 8.25 Acres of Wetlands in Section 21, Township 52S, Range 40E.

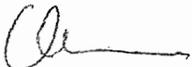

Ladies and Gentlemen:

This letter will certify that I am an engineer registered/licensed in the State of Florida, qualified by education and experience in the area of construction, and that to the best of my knowledge and belief, the proposed work does not violate any laws of the State of Florida or any provision of the Code of Miami Dade County which may be applicable, that diligence and recognized standard practices of the engineering profession have been exercised in the engineer's design process for the proposed work, and in my opinion based upon my knowledge and belief, the following will not occur:

- a. Harmful obstruction or undesirable alteration of the natural flow of the water within the area of the proposed work.
- b. Harmful of increased erosion, shoaling of channels or stagnant areas of water. (Not applicable to class IV permits)
- c. Material injury to adjacent property.
- d. Adverse environmental impacts form changes in water quality or quantity. (Applicable to class IV permits only)

Further, I have been retained by the applicant to provide inspections throughout the construction period and prepare a set of reproducible record prints of drawings showing changes made during the construction process based upon the marked-up prints, drawings, and other data furnished by the contractor to me.

Sincerely,

Oliverio Sanchez, P.E.

Memorandum

Date: March 25, 2008

To: Lazaro Quintino, ERPS
Wetlands Resources Section

From: J.M. (Manny) Tobon, P.E.
Chief, Water Control Section

Subject: 114-Acres Hialeah, LLC (a.k.a. Hialeah Palms)
Located in Section 21-52-40, Miami-Dade County
Cut & Fill No. 504

J.M. / 2 3/25/08

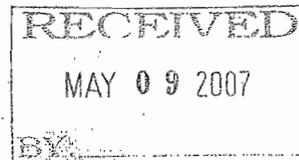

The Water Control Section (WCS) has reviewed the Drainage Report and Site Plan dated November 2007, as prepared by SRS Engineering, Inc., in connection to the above referenced development. Based on the information provided, we have concluded that the proposed surface water management areas comply with the Basin "B" Cut and Fill requirements. Therefore, the WCS offers no objection to the issuance of the Class IV Permit.

If you should have any questions, please advise.

114 Acres Hialeah, LLC
Mr. Jose R. Boschetti
1200 Ponce De Leon Blvd.-1st Floor
Coral Gables, Florida 33016

RE: Everglades Mitigation Bank Purchase and Sale Agreement by and between Florida Power & Light Company and 114 Acres Hialeah LLC dated May 7, 2007.

Dear Mr. Boschetti:

Enclosed herein is one (1) fully executed Purchase and Sale Agreement reflecting the purchase of 33.75 Freshwater Herbaceous mitigation credits at a cost of \$1,687,500.00 from the Everglades Mitigation Bank based upon anticipated permit requirements from the South Florida Water Management District (SFWMD) and Miami-Dade Department of Environmental Protection (DERM).

Please provide me with a copy of both the SFWMD and the DERM permits once they have been issued. Following receipt of the permits a set of closing documents will be provided evidencing that special conditions of the permits have been met to offset the proposed unavoidable wetland impact.

The Everglades Mitigation Bank appreciates your business. Should you have any questions regarding the enclosed Agreement or need additional information regarding the purchase of mitigation credits, please contact me at (561) 694-6388.

Regards,

Joseph R. Sicbaldi

South Florida Water Management District Permit No. 050425-5
Miami-Dade Department of Environmental Protection Permit No. FW05-051
Hialeah Heights 114 Project**

Dear Mr. Boschetti:

Please be advised that the Everglades Mitigation Bank (the "EMB") has reserved the 33.75 Freshwater Herbaceous mitigation credits necessary to offset the unavoidable wetland impact for the above referenced project. Phase II of the EMB has a signed Mitigation Banking Instrument acknowledged by both FDEP and USACE and sufficient credits are currently available on the EMB ledger to offset the proposed impacts. The EMB acknowledges receiving a deposit for the above referenced credits.

Please contact me at 561-694-6388 for any additional information or questions regarding this matter.

Project Report

PROJECT REPORT

CLASS IV PERMIT APPLICATION NO. FW 07-090

114 Acres Hialeah, LLC

April 09, 2008

Staff's recommendation of approval for the above-referenced project is based upon the applicable evaluation factors set forth in Section 24-48.3, Code of Miami-Dade County. The following is a summary evaluation of the proposed project with respect to each applicable evaluation factor:

1. Potential Adverse Environmental Impact – The proposed project will result in an adverse environmental impact to 93.35 acres of wetlands. However, the mitigation, as set forth in Number 14 below, will compensate for the loss of wetland values associated with the proposed project. No mitigation for adjacent secondary impacts was required because adequately sized planted buffer areas will be built around the majority of the on-site wetland preserve areas.
2. Potential Cumulative Adverse Environmental Impact – The proposed project will result in minimal cumulative adverse environmental impacts. However, the mitigation, as set forth in Number 14 below, will compensate for the loss of wetland values associated with the proposed project within the subject property.
3. Hydrology - The proposed project, as designed, is not reasonably expected to adversely affect surface water drainage or retention of storm water.
4. Water Quality – The proposed project, as designed, is not reasonably expected to adversely affect applicable Miami-Dade County water quality standards.
5. Wellfields – The proposed project is not located within a wellfield protection area as designed and is not reasonably expected to adversely affect the Northwest Wellfield.
6. Water Supply – The proposed project is not reasonably expected to adversely affect the water supply.
7. Aquifer Recharge – The proposed project is not reasonably expected to adversely affect aquifer recharge.
8. Aesthetics - The proposed project is designed to be aesthetically compatible with the surrounding area.
9. Navigation – Not applicable.
10. Public Health - The proposed project is not reasonably expected to adversely affect the public health.
11. Historic Values – The proposed project is not reasonably expected to adversely affect historic values.
12. Archaeological Values – There is no known archaeological site located within the boundaries of this application.

50

13. Air Quality – The proposed project is not reasonably expected to adversely affect air quality.
14. Marine and Wildlife Habitats - The proposed project will result in the dredging and filling of 93.35 acres of wetlands. The wetlands that will be impacted within the project site are characterized as herbaceous with generally high densities of *Melaleuca*, an invasive exotic plant species. Compensatory mitigation for the ecological impacts related to the removal of wetland plant communities will be accomplished by purchasing 33.75 herbaceous wetland mitigation credits in the Everglades Mitigation Bank, owned and managed by Florida Power & Light Company. The Everglades Mitigation Bank Wetland Restoration and Enhancement Project has enhanced property in the South Dade Wetland Basin by removing exotic vegetation, replanting with native species, restoring filled areas to natural wetland grade, and the implementation of a fire management program. In addition, a covenant has been proffered for the preservation and enhancement of an 8.25-acre on-site preservation area.
15. Wetland Soils Suitable for Habitat - The proposed project will result in the permanent removal of wetland soils except for area being preserved and enhanced. However, the mitigation, as set forth in Number 14, will result in the enhancement of existing wetland habitat and soils by restoring appropriate wetland elevations and removing exotics, thereby promoting re-vegetation with native wetland plant species and soil-vegetative interactions.
16. Floral Values - The proposed project will impact herbaceous wetlands. However, the mitigation, as set forth in Number 14 above, will provide for the establishment of native wetland vegetation appropriate for promoting the natural ecosystem.
17. Faunal Values - The proposed project will disturb native wildlife habitat. However, the mitigation, as set forth in Number 14 above, will provide for high quality habitat for native fauna.
18. Rare, Threatened and/or Endangered Species – The proposed project is not reasonably expected to result in adverse impacts to rare, threatened or endangered species.
19. Natural Flood Damage Protection - The water management features of the project have been reviewed by DERM's Water Control Section and are in compliance with DERM's cut and fill criteria for development in this area. (see attachment C).
20. Wetland Values – The proposed project will result in the dredging and filling of 93.35 acres of jurisdictional wetlands. However, the mitigation, as set forth in Number 14 above, will compensate for the loss of wetland values associated with the proposed project.

21. Land Use Classification - The City of Hialeah Planning and Zoning Department has determined the proposed work does not violate any zoning law applicable to the area of the proposed work. (See Attachment C)
22. Recreation -- The proposed project does not conflict with the recreation element of the Miami-Dade County Comprehensive Development Master Plan and the recreation element of the Biscayne Bay Management Plan recreation elements.
23. Other Environmental Values Affecting the Public Interest – There are no other known environmental factors that will affect the public interest.
24. Standard Construction Procedures and Practices and Design and Performance Standards - The proposed project complies with the standard construction procedures and practices and design and performance standards of the applicable portions of the following:
 - a. Miami-Dade County Public Works Manual
 - b. Chapter 33B of the Code of Miami-Dade County
25. Comprehensive Environmental Impact Statement (CEIS) - In the opinion of the Director, the proposed mitigation plan will compensate for the loss of wetland values associated with the proposed project. Additionally the majority of on-site high quality wetlands are being preserved and enhanced. As such, a CEIS was not required by DERM to evaluate the proposed project.
26. Conformance with All Applicable Federal and State Laws and Regulations – The proposed project is in conformance with the following applicable State, Federal and local laws and regulations:
 - a) United States Clean Water Act (US Army Corps of Engineers and US Environmental Protection Agency)
 - b) Federal Endangered Species Act (US Fish & Wildlife Service)
 - c) Florida Department of Environmental Protection Regulations
 - c) Chapter 24 of the Code of Miami-Dade County
 - d) Rules of the South Florida Water Management District
 - e) Basis of Review for Surface Water Management Permit Applications Within the South Florida Water Management District

27. Conformance with the Miami-Dade County Comprehensive Development Master Plan (CDMP) – In the opinion of DERM, the proposed land use is consistent with the CDMP. Specifically, the proposed project complies with the following CDMP Elements and Policies:

LAND USE ELEMENT:

Objective 1 – Growth management - The proposed project is generally consistent with the goals, objectives and policies contained in the Conservation, Aquifer Recharge and Drainage Element.

Objective 3/Policies 3B, 3C - Protection of natural resources and systems. - The proposed project is consistent with all applicable environmental regulations, as well as all other elements of the CDMP. The proposed project is compatible with surrounding land uses and does not involve development in the Big Cypress area of Critical State concern or the East Everglades.

CONSERVATION, AQUIFER RECHARGE AND DRAINAGE ELEMENT:

Objective 2/Policy 2A – Protection of ground and surface water resources – The proposed project adheres to all relevant storm water management criteria.

Objective 3/Policies 3A, 3B, 3D - Wellfield protection area protection. - The proposed project is located over 2 miles outside of the maximum cone of influence for the Northwest Wellfield protection area. The project, as designed, is not reasonably expected to adversely affect the water quality reaching the Northwest Wellfield.

Objective 3/Policy 3E - Limestone mining within the area bounded by the Florida Turnpike, the Miami-Dade/Broward Levee, N.W. 12 Street and Okeechobee Road. - The proposed project is not located within the above area.

Objective 4/Policies 4A, 4B, 4C - Water storage, aquifer recharge potential and maintenance of natural surface water drainage. - The proposed project is not reasonably expected to adversely affect water storage, aquifer recharge potential, or natural surface water drainage.

Objective 5/Policies 5A, 5B, 5F - Flood protection and cut and fill criteria - The water management features of the proposed project have been reviewed by DERM's Water Control Section and are in compliance with DERM's cut and fill criteria for development in this area.

Objective 6/Policy 6A - Areas of highest suitability for mineral extraction. - The proposed project is not located in an area proposed or suitable for mineral extraction.

Objective 6/Policy 6B - Guidelines for rock quarries for the re-establishment of native flora and fauna. – Not applicable.

Objective 6/Policy 6D - Suitable fill material for the support of development. – The proposed project will not cause premature urban encroachment. The proposed project must use suitable fill material in order to meet the requirements of Chapter 24 of the Code of Miami-Dade County.

Objective 7/Policy 7A - No net loss of high quality, relatively unstressed wetlands. – The wetlands associated with this project are not high quality. The loss of wetland values associated with the proposed project will be mitigated as set forth in Number 14 above.

Objective 9/Policies 9A, 9B, 9C - Protection of habitat critical to Federal or State-designated threatened or endangered species. - The proposed project is not expected to affect any rare, threatened, or endangered species.

28. Conformance with Chapter 33B, Code of Miami-Dade County (East Everglades Zoning Overlay Ordinance) – The proposed project is not within the East Everglades Zoning overlay area.
29. Conformance with Miami-Dade County Ordinance 81-19 (Biscayne Bay Management Plan) – The proposed project is not within the area of the Biscayne Bay Management Plan.
30. Conformance with Manatee Protection Plan – Not applicable.
31. Consistency with Miami-Dade County Criteria for Lake Excavation – Not applicable.
32. Municipality Recommendation - The City of Hialeah Planning and Zoning Department has determined the proposed work does not violate any zoning law applicable to the area of the proposed work. (See Attachment C)
33. Coastal Resources Management Line – Not Applicable.
34. Maximum Protection of a Wetland's Hydrological and Biological Functions Through Adherence to the Following Fill Limitations: -
 - i) Placement of the minimum fill necessary to provide for the land usage alternative which results in the least adverse environmental impact and the least cumulative adverse environmental impact – The proposed project uses the minimum amount of fill necessary to provide for the proposed land usage alternative.
 - ii) Placement of temporary fill pads and fill roads for the purpose of conducting rock mining. - Not applicable.

The proposed project was also evaluated for compliance with the minimum required standards contained in Section 24-48.3 (2), (3), and (4) of the Code of Miami-Dade County. The following is a summary of the proposed project's compliance with said standards:

24-48.3 (2) Dredging and/or Filling for Class I Permit – Not applicable.

24-48.3 (3) Docks and Piers for Mooring Purposes - Not applicable.

24-48.3 (4) Clean Fill in Wetlands - The proposed project involves the placement of clean fill material only.

24-48.3 (6) Basin B Fill Criteria - The proposed project complies with criteria for the total volume of fill material placed on a project. Specifically, the applicants have provided calculations showing engineering alternatives to the standard formula that provide for the full on-site retention of storm water without exceeding established stages for the 100-year, three-day storm. Additionally the side slopes of the storm water management areas comply with the 4:1 slope criteria.

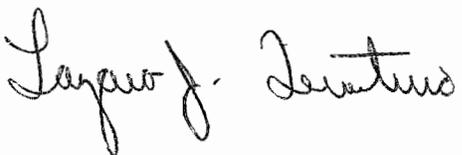

SUMMARY

BASED ON THE FOREGOING, IT IS RECOMMENDED THAT A CLASS IV PERMIT BE APPROVED.

Matthew Davis, Manager
