

Memorandum

Date: July 1, 2008

To: Honorable Chairman Bruno A. Barreiro and Members,
Board of County Commissioners

From: George M. Burgess
County Manager

Agenda Item No. 8(R)(1)(B)

Subject: Execution of a grant agreement between Miami-Dade County and the Department of Housing and Urban Development in the amount of \$148,500 for water main replacements in Miami-Dade County

RECOMMENDATION

It is recommended that the Board of County Commissioners approve the attached resolution authorizing the County Mayor or his designee's to execute a grant agreement between Miami-Dade County and the Housing and Urban Development (HUD) in order to receive and expend funds in the amount of \$148,500 from its Economic Development Initiative Special Project Grant (EDI-SP Grant) for seven water main replacements at six locations in the county.

SCOPE OF AGENDA ITEM

The seven water main replacements are in Commission District 3.

FISCAL IMPACT/FUNDING SOURCE

This item provides \$148,500 in grant funds to the Miami-Dade Water and Sewer Department (WASD) for the design and construction of seven water main replacements. No additional WASD funds will be expended.

TRACK RECORD/MONITOR

WASD's Assistant Director for Finance will monitor this agreement.

BACKGROUND

On November 16, 2007, the County submitted a grant application for, and was subsequently awarded, \$148,500 in EDI-SP Grant monies through HUD for the replacement and installation of approximately 4,910 linear feet of water mains at six locations in Northwest and Northeast Miami-Dade County (Attachment A). The seven projects, which will replace 2-inch galvanized water mains with high density polyethylene water mains, were selected because they are old and have been in service for 30 to 50 years. Installation of the new high density polyethylene water mains will stop existing problems with water main breaks, leaks and low water pressure, therefore providing overall improved and reliable water service to WASD customers.

The conditions and terms of the EDI-SP Grant require that the attached grant agreement be fully executed by September 30, 2008. The County is required to submit a semi-annual progress report to HUD after the effective date of the agreement, and provide a narrative of the work accomplished during the reporting period as well as a financial status report. The County will submit to HUD a written request to close-out the grant 30 days after the County has drawn down on all the funds available. The funds will remain available for expenditure until the end of Fiscal Year 2013.

The improvements will be designed and constructed by WASD's in-house forces. WASD anticipates beginning work in the fourth quarter of 2008, and will continue to schedule projects according to the availability of its Pipebursting Crew and other workload considerations.

Project Description

The project will replace approximately 4,910 linear feet of 2-inch galvanized water mains with high density polyethylene water mains. The locations shown on attachment "A" were selected because of the age of the water mains, approximately thirty to fifty years in the ground. Installation of the new 2-inch high density polyethylene water mains will provide better service to the public, stop existing problems with water main breaks, leaks, low water pressure and in some cases loss of water supply to various customers. The improvement will provide an overall improved and reliable water service to the existing customers and future customers in the area.

Dear Mr. Burgess:

SUBJECT: **Removal of Environmental Grant Condition**
Project: **Rehabilitation - Various Programs**
HUD Number: **B-2005-UC-12-0006 / M-2005-UC-12-0202**

The U.S. Department of Housing and Urban Development received your Request for Release of Funds and Certification (RROF), form HUD-7015.15 indicating that the environmental reviews for the above project has been completed. It includes: *Acquisition or Disposition in Urban Areas; Commercial Rehabilitation; Demolition of Unsafe Structures; Infrastructure Improvements; Residential Rehabilitation; Single Family Residential Rehabilitation; and Single Family Residential New Construction.*

The RROF has been held for fifteen (15) days as required by HUD regulations **24 CFR Part 58** to allow the public the opportunity to object to the use of HUD funds for this project. Since there were no valid objections, the grant condition requiring this project to be environmentally cleared before committing program funds was removed on April 16, 2005. This clearance will remain in effect as long as the related environmental review is valid. Only if a new review is required will it be necessary to submit another RROF.

This letter should be placed in the Environmental Review Record (ERR) for this project to show that the prescribed environmental review has been completed and the condition satisfied.

If you have any questions or need additional information, please contact Al Cazzoli, Environmental Officer at (305) 536-5678, extension 2276.

Step 4. Written Strategy:

This written strategy identifies the issues in the Statutory Checklist that are applicable for review of specific sites under this activity/project.

Toxic and Hazardous Chemicals. The site will be checked for nearby toxic and hazardous chemicals contamination. If site is contaminated conditions will be placed in the Environmental Review Record.

State or Local Statutes. Other applicable state/local statutes may affect the site.

Documentation/Justification for the Statutory Checklist:

As previously stated, this project consists of repair, improvement, reconstruction, or rehabilitation of public facilities (other than buildings) in Miami-Dade County when the facilities and improvements are in place and will be retained in the same use without change in size or capacity of more than 20%. Since we are dealing with infrastructure improvements resulting in replacement/rehabilitation of existing facilities without significantly changing the size (20%) and the use, we can assertively state that the following issues of the Statutory Checklist are not applicable to these sites:

Historic Properties;
Floodplain Management;
Wetlands protection;
Coastal areas protection and management;
Water quality;
Endangered species;
Wild and scenic rivers;
Air quality;
Farmlands protection;
Noise;

GRANT AGREEMENT

This Grant Agreement between the Department of Housing and Urban Development (HUD) and Miami Dade County (the Grantee) is made pursuant to the authority of Public Law 109-115 (Department of Housing and Urban Development Appropriation Act of 2006) and a listing of certain specific Economic Development Initiative Special Projects specified in the Congressional Record of November 18, 2005. The amount shown below is 99.00% of the amount specified in the Congressional Record of November 18, 2005, because of a 1.00% rescission mandated in the Act. The Grantee's application package, as may be amended by the provisions of this Grant Agreement, is hereby incorporated into this Agreement.

In reliance upon and in consideration of the mutual representations and obligations hereunder, HUD and the Grantee agree as follows:

Subject to the provisions of the Grant Agreement, HUD will make grant funds in the amount of \$148,500 available to the Grantee.

The Grantee agrees to abide by the following:

ARTICLE I. HUD Requirements.

The Grantee agrees to comply with the following requirements for which HUD has enforcement responsibility.

A. The grant funds will only be used for activities described in the application, which is incorporated by reference and made part of this Agreement as may be modified by Article VII (A) of this Grant Agreement.

B. EQUAL OPPORTUNITY REQUIREMENTS

6. The requirements of Executive Orders 11625 and 12432 (concerning Minority Business Enterprise), and 12138 concerning Women's Business Enterprise). Consistent with HUD's responsibilities under these Orders, the Grantee must make efforts to encourage the use of minority and women's business enterprises in connection with grant funded activities. - B. Any other conditions listed in Article VII (C) of this Grant Agreement.

ARTICLE III. Draw Downs.

- B. The Grantee recognizes that the close-out process may entail a review by HUD to determine compliance with the Grant Agreement by the Grantee and all participating parties. The Grantee agrees to cooperate with any review in any way possible, including making available records requested by HUD and the project for on-site HUD inspection.

- C. The Grantee shall provide to HUD the following documentation:
1. A Certification of Project Completion.
 2. A Grant Close-out Agreement.
 3. A final financial report giving the amount and types of project costs charged to the grant (that meet the allowability and allocability requirements of OMB Circular A-122, A-87 or A-21 as applicable, including the "necessary and reasonable" standard); a certification of the costs; and the amounts and sources of other project funds.
 4. A final performance report providing a comparison of actual accomplishments with each of the project commitments and objectives in the approved application, the reasons for slippage if established objectives were not met and additional pertinent information including explanation of significant cost overruns.
- D. The Grantee agrees that the grant funds are allowable only to the extent that the project costs, meeting the standard of OMB Circular A-122, A-87 or A-21 as applicable, equal the grant amount plus other sources of project funds provided.
