

Memorandum

Date: September 2, 2008

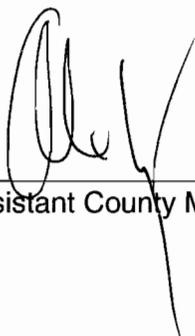

Agenda Item No. 5(H)

To: Honorable Chairman Bruno A. Barreiro and Members,
Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Class I Permit Application by Fisher Island Club, Inc. to Install a Fixed Concrete Pedestrian Bridge over a Privately Owned, Man-Made Boat Basin within a Marina on Fisher Island, Miami-Dade County

Attached, please find for your consideration an application by Fisher Island Club, Inc. for a Class I Permit. Also, attached is the recommendation of the Director of the Department of Environmental Resources Management and a Resolution seeking the Board's approval of the aforesaid Class I Permit.

Assistant County Manager

Date: September 2, 2008

To: George M. Burgess
County Manager

From: Carlos Espinosa, PE, Director
Environmental Resources Management

Subject: Class I Permit Application by Fisher Island Club, Inc. to Install a Fixed Concrete Pedestrian Bridge over a Privately Owned, Man-Made Boat Basin within a Marina on Fisher Island, Miami-Dade County

Recommendation

I have reviewed the Class I Permit application by Fisher Island Club, Inc. Based upon the applicable evaluation factors set forth in Chapter 24-48.3 of the Code of Miami-Dade County, Florida, I recommend that the Board of County Commissioners approve the issuance of a Class I Permit for the reasons set forth below.

Scope

The project site is located within a man-made boat basin at 1 Fisher Island Drive, Miami, Miami-Dade County, in Commission District 5 (Commissioner Bruno A. Barriero).

Fiscal Impact/Funding Source

Not Applicable

Track Record/Monitor

Not Applicable

Background

The subject Class I Permit application involves the installation of a forty-two (42) foot concrete pedestrian bridge located over tidal waters of Miami-Dade County. The project site is located over a man-made boat basin within a private marina at 1 Fisher Island Drive, Miami, Miami-Dade County, Florida.

Fisher Island is a residential community which includes two private marinas for the use of the residents. The project site is a boat basin within the marina located at the southern point of the island, adjacent to Biscayne Bay. The purpose of the Fisher Island pedestrian bridge is to add an access point from the marina to the Fisher Island Beach Club. Currently, marina patrons have to traverse the boat basin in order to gain access to the Beach Club. The current walking distance from the marina to the beach club can make it difficult for the handicapped and the elderly.

The proposed bridge is approximately twelve (12) feet wide by forty-two (42) feet long. It will be located across the mouth of the boat basin and set back approximately five (5) feet from the entrance. Said bridge will be supported by a concrete footer on either side of the boat basin. The footers will be built into the existing seawall, and concrete pours will stabilize the bridge connection in place. The elevation of the bottom of the bridge at its center point will be nine point four (9.4) feet above sea level.

The proposed project has been designed in accordance with all relevant Miami-Dade County coastal construction criteria and is consistent with all other Miami-Dade County coastal protection provisions. Please find attached a DERM Project Report which sets forth the reasons the proposed project is recommended for approval by DERM pursuant to the applicable evaluation factors set forth in Section 24-48.3 of the Code of Miami-Dade County, Florida. The conditions, limitations, and restrictions set forth in the Project Report attached hereto are incorporated herein by references hereto.

NOTICE OF PUBLIC HEARING ON AN APPLICATION
BY FISHER ISLAND CLUB, INC. FOR A CLASS I
PERMIT TO INSTALL A FIXED CONCRETE
PEDESTRIAN BRIDGE OVER A PRIVATELY OWNED
MAN-MADE BOAT BASIN WITHIN A MARINA AT 1
FISHER ISLAND DRIVE, MIAMI, MIAMI-DADE
COUNTY, FLORIDA.

BOARD OF COUNTY COMMISSIONERS
MIAMI-DADE COUNTY, FLORIDA

NOTICE IS HEREBY GIVEN pursuant to Article IV, Division 1 of Chapter 24 of the Code of Miami-Dade County that the Board of County Commissioners of Miami-Dade County will hold and conduct a Public Hearing on a request by Fisher Island Club, Inc. for a Class I Permit to install a fixed concrete pedestrian bridge over a privately owned, man-made boat basin within a marina on Fisher Island, Miami-Dade County. Such Public Hearing will be held on the 2nd day of September, 2008 at 9:30 AM at the County Commission Chambers on the 2nd Floor of the Stephen P. Clark Center, 111 NW 1st Street, Miami, Florida.

Plans and details concerning the work requested in the application may be reviewed by interested persons at the office of the Miami-Dade County Department of Environmental Resources Management, 6th Floor, 701 NW 1st Court, Miami, Florida 33130.

Oral statements will be heard and appropriate records made. For accuracy of records all important facts and arguments should be prepared in writing in triplicate, with two copies being submitted to the Deputy Clerk of the County Commission at the hearing or mailed to her beforehand (Kay Sullivan, Deputy Clerk), 111 NW 1st Street, Stephen P. Clark Center, Suite 17-202, Miami, Florida 33128; and with one copy being submitted beforehand to the Miami-Dade County Department of Environmental Resources Management, 701 NW 1st Court, Miami, Florida 33130.

A person who decides to appeal any decision made by any Board, Agency, or Commission with respect to any matter considered at its meeting or hearing, will need a record of proceedings. Such person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which the appeal is to be based.

RESOLUTION NO. _____

RESOLUTION RELATING TO AN APPLICATION BY FISHER ISLAND CLUB, INC FOR A CLASS I PERMIT TO INSTALL A FIXED CONCRETE PEDESTRIAN BRIDGE OVER A PRIVATELY OWNED, MAN-MADE BOAT BASIN WITHIN A MARINA AT 1 FISHER ISLAND DRIVE, MIAMI, MIAMI-DADE COUNTY, FLORIDA

WHEREAS, this Board desires to accomplish the purposes outlined in the accompanying memorandum, a copy of which is incorporated herein by reference,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that this Board having considered all the applicable factors contained within Section 24-48.3 of the Code of Miami-Dade County, hereby approves the application by Fisher Island Club, Inc. for a Class I Permit to install a fixed concrete pedestrian bridge over a privately owned, man-made boat basin within a marina, subject to the conditions set forth in the memorandum from the Director of the Miami-Dade County Department of Environmental Resources Management, a copy of which is attached hereto and made a part hereof. The issuance of this approval does not relieve the applicant from obtaining all applicable Federal, State, and local permits.

The foregoing resolution was offered by Commissioner
who moved its adoption. The motion was seconded by Commissioner
and upon being put to a vote, the vote was as follows:

Bruno A. Barreiro, Chairman	
Barbara J. Jordan, Vice-Chairwoman	
Jose "Pepe" Diaz	Audrey M. Edmonson
Carlos A. Gimenez	Sally A. Heyman
Joe A. Martinez	Dennis C. Moss
Dorrin D. Rolle	Natacha Seijas
Katy Sorenson	Rebeca Sosa
Sen. Javier D. Souto	

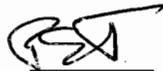

The Chairperson thereupon declared the resolution duly passed and adopted this
2nd day of September, 2008. This resolution shall become effective ten (10) days after
the date of its adoption unless vetoed by the Mayor, and if vetoed, shall become
effective only upon an override by this Board.

MIAMI-DADE COUNTY, FLORIDA
BY ITS BOARD OF
COUNTY COMMISSIONERS

HARVEY RUVIN, CLERK

By: _____
Deputy Clerk

Approved by County Attorney as
to form and legal sufficiency.

Re: Class I Standard Form Permit Application by Fisher Island Club, Inc. to Install a Fixed Concrete Pedestrian Bridge over a Privately Owned, Man-Made Boat Basin No. 2008-CLI-PER-00039

Dear Christine:

By the attached Class I Standard Form permit application with supporting documents, I, Douglas W. Mann, P.E., am the permit applicant's authorized agent and hereby request permission to construct a pedestrian bridge to traverse the Fisher Island Beach Club's 30 foot wide boat basin. The bridge's brick paver walkway is proposed to be 10 feet wide. I understand that a Miami-Dade County Class I Standard Form Permit is required to perform this work.

If approval is granted for the proposed work by the Board of County Commissioners, complete and detailed plans and calculations of the proposed work shall be prepared by an engineer registered/licensed in the State of Florida in accordance with the minimum requirements of Chapter 24 of the Code of Miami-Dade County, Florida. Said plans and calculations shall be subject to the review and approval of the Department of Environmental Resources Management. The permit applicant will secure the services of an engineer registered/licensed in the State of Florida to conduct inspections throughout the construction period, and said engineer shall prepare all required drawings of record. In the event that the proposed work which is the subject of this Class I Permit application involves the cutting or trimming of a mangrove tree(s), a detailed plan of the proposed cutting or trimming shall be prepared by a licensed landscape architect and submitted to the Department for review and approval, and the permit applicant will secure the services of a licensed landscape architect to supervise the trimming or cutting.

Very truly yours,

COASTAL PLANNING & ENGINEERING, INC.

**Re: Engineer Letter of Certification
Class I Standard Form Permit Application by Fisher Island Club, Inc. to Install a
Fixed Concrete Pedestrian Bridge over a Privately Owned, Man-Made Boat Basin
No. 2008-CLI-PER-00039**

Dear Christine:

This letter will certify that I am an engineer registered/licensed in the State of Florida, qualified by education and experience in the area of construction, and that to the best of my knowledge and belief, the proposed work does not violate any laws of the State of Florida or any provision of the Code of Miami-Dade County which may be applicable, that diligence and recognized standard practices of the engineering profession have been exercised in the engineer's design process for the proposed work, and in my opinion based on my knowledge and belief, the following will not occur:

- a. Harmful obstruction or undesirable alteration of the natural flow of the water within the area of the proposed work.
- b. Harmful or increased erosion, shoaling of channels or stagnant areas of water.
- c. Material injury to adjacent property.

Further, I have been retained by the applicant to provide inspections throughout the construction period and to prepare a set of reproducible record prints of drawings showing changes made during the construction process based upon the marked-up prints, drawings, and other data furnished by the contractor to me.

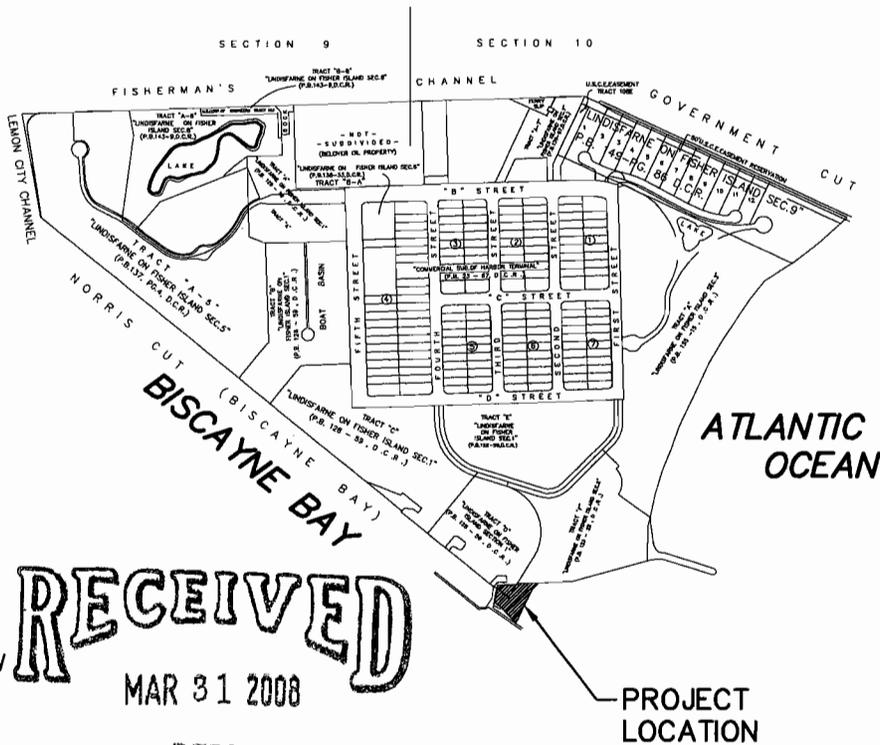

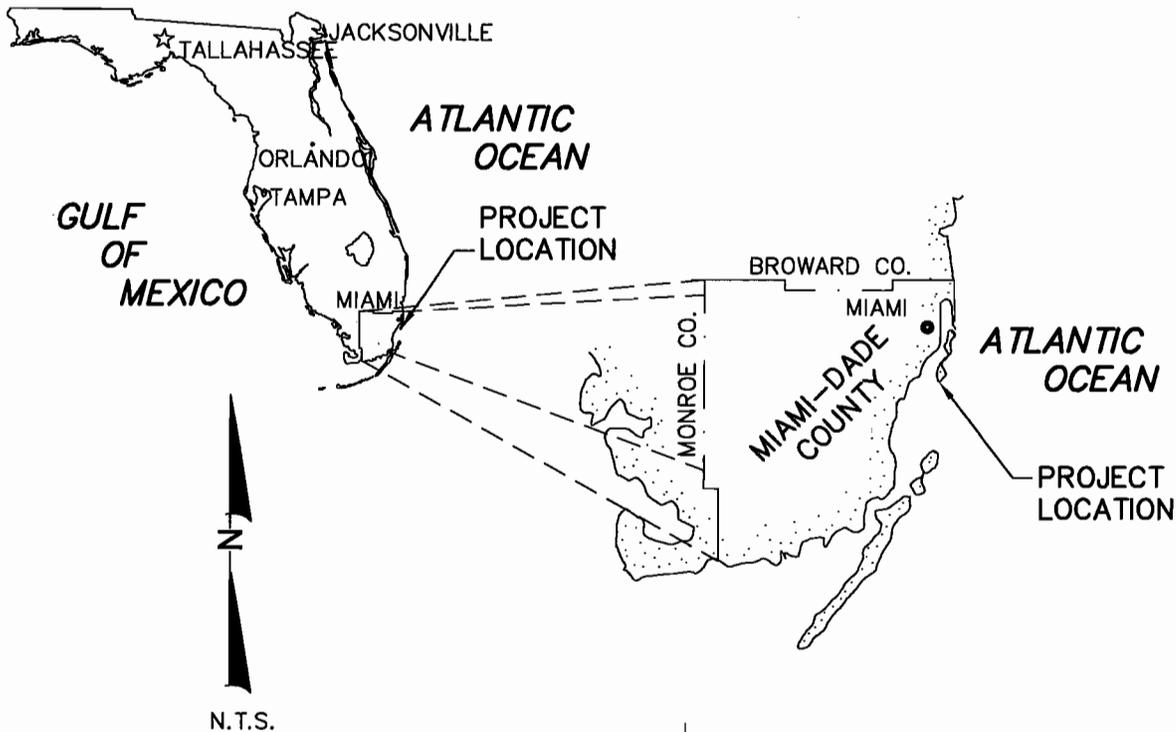

Very truly yours,

Handwritten initials "CH" in black ink, written over the name Christine D. Hopps.

Subject:

Class I Permit Application By Fisher Island Club, Inc. to Install a Fixed Concrete Pedestrian Bridge Over a Privately Owned, Man-Made Boat Basin Within a Marina.

Pursuant to Section 24-48.2(II)(A)(7), Code of Miami-Dade County, Florida, a substantiating letter shall be submitted by the applicant stating that the proposed project does not violate any zoning laws. Said letter will be submitted after approval by the Miami-Dade County Board of County Commissioners and prior to issuance of the Class I Permit.

PROJECT REPORT

CLASS I PERMIT APPLICATION NO. 2008 CLI -PER 00039

**FISHER ISLAND CLUB, INC. FOR A CLASS I PERMIT TO
INSTALL A FIXED CONCRETE PEDESTRIAN BRIDGE OVER
A PRIVATELY OWNED, MAN-MADE BOAT BASIN WITHIN A
MARINA**

Date: July 28, 2008

Staff's recommendation of approval for the above-referenced permit application is based on the applicable evaluation factors under Section 24-48.3 of the Code of Miami-Dade County, Florida. The following is a summary of the proposed project with respect to each applicable evaluation factor:

1. **Potential Adverse Environmental Impact** – The potential adverse environmental impacts from the installation of a fixed concrete pedestrian bridge over a privately owned man-made boat basin within a marina are minimal.
2. **Potential Cumulative Adverse Environmental Impact** – Not Applicable.
3. **Hydrology** - The proposed project, as designed, is not reasonably expected to adversely affect surface water drainage or retention of stormwater.
4. **Water Quality** – The proposed project is not reasonably expected to adversely affect water quality. The Class I Permit will include a condition that requires the applicant to use best management practices to ensure that construction debris does not enter the water. In addition, a performance bond shall be held to ensure compliance with said condition.
5. **Wellfields** – Not applicable.
6. **Water Supply** – Not applicable.
7. **Aquifer Recharge** – Not applicable.
8. **Aesthetics** – The proposed project is not reasonably expected to have negative aesthetic impacts. However, during construction there may be temporary aesthetic impacts related to the presence of construction equipment.
9. **Navigation** – The proposed project is not reasonably expected to adversely affect navigation.
10. **Public Health** - The proposed project is not reasonably expected to adversely affect public health.
11. **Historic Values** - The proposed project is not reasonably expected to adversely affect historic values.
12. **Archaeological Values** - The proposed project is not reasonably expected to adversely affect archaeological values
13. **Air Quality** – The proposed project is not reasonably expected to adversely affect air quality.
14. **Marine and Wildlife Habitats** – The proposed work is not reasonably expected to adversely affect marine and wildlife habitats.
15. **Wetland Soils Suitable for Habitat** – There are no wetland soils suitable for habitat in the footprint of the proposed work.

16. **Floral Values** – The proposed project is not reasonably expected to adversely affect marine flora.
17. **Fauna Values** - The proposed project is not reasonably expected to adversely affect marine fauna.
18. **Rare, Threatened and Endangered Species** – The project area is located within essential habitat for the West Indian Manatee (*Trichechus manatus*), however, the proposed project is not reasonably expected to result in adverse effects to rare, threatened or endangered species provided standard manatee protection measures are implemented. Additionally, the Class I Permit will require that all standard manatee conditions for construction permits shall be followed during all in-water construction operations.
19. **Natural Flood Damage Protection** - The proposed project is not reasonably expected to adversely affect surface water drainage or retention of stormwater.
20. **Wetland Values** - The proposed project does not involve dredging or filling of wetlands.
21. **Land Use Classification** – Pursuant to Section 24-48.2(II)(A)(7), of the Code of Miami-Dade County, Florida, a substantiating letter shall be submitted stating that the proposed project does not violate any zoning laws. Said letter will be submitted after the approval by the Board of County Commissioners and prior to the issuance of a Class I Permit.
22. **Recreation** - The proposed project does not conflict with the recreation element of the Miami-Dade County Comprehensive Development Master Plan and recreation element of the Biscayne Bay Management Plan recreation elements.
23. **Other Environmental Values Affecting the Public Interest** – The proposed project is not reasonably expected to adversely affect environmental values affecting the public interest.
24. **Conformance with Standard Construction Procedures and Practices and Design and Performance Standards** – The proposed project complies with the standard construction procedures and practices and design and performance standards of the applicable portions of the following:
 - a. Miami-Dade County Public Works Manual
 - b. Biscayne Bay Management Plan (Section 33D-1 through 33-D-4 of the Code of Miami-Dade County)
 - c. Chapter 33B of the Code of Miami-Dade County
25. **Comprehensive Environmental Impact Statement (CEIS)** – In the opinion of the Director, the proposed project will result in neither adverse environmental impacts nor cumulative adverse environmental impacts. Therefore, a CEIS was not required by DERM to evaluate the project.

26. **Conformance with All Applicable Federal, State and Local Laws and Regulations** - The proposed project is in conformance with the following applicable State, Federal and local laws and regulations:
- Chapter 24 of the Code of Miami-Dade County
 - United States Clean Water Act (Army Corps of Engineers permit is required)
 - Florida Department of Environmental Protection Regulations (FDEP permit is required)
27. **Conformance with the Miami-Dade County Comprehensive Development Master Plan (CDMP)** - In the opinion of DERM, the proposed project is in conformance with the CDMP. The following is a summary of the proposed project as it relates to the CDMP:

LAND USE ELEMENT I:

Objective 2/Policy 2A - Level of Service. The proposed project does not involve new or significant expansion of existing urban land uses.

Objective 3/Policies 3A, 3B, 3C - Protection of natural resources and systems. – The proposed project is consistent with the Conservation and Coastal Management Elements of the CDMP. The project is compatible with surrounding land uses in Biscayne Bay and does not involve development in the Big Cypress area of Critical State Concern or the East Everglades.

TRANSPORTATION ELEMENT II

Aviation Subelement/Objective 9 - Aviation System Expansion - There is no aviation element to the proposed project.

Port of Miami River Subelement/Objective 3 - Minimization of impacts to estuarine water quality and marine resources. The proposed project will not take place within the Miami River.

CONSERVATION, AQUIFER RECHARGES AND DRAINAGE ELEMENT IV:

Objective 3/Policies 3A, 3B, 3D - Wellfield protection area protection. - The proposed project is not located within a wellfield protection area.

Objective 3/Policy 3E - Limestone mining within the area bounded by the Florida Turnpike, the Miami-Dade/Broward Levee, N.W. 12 Street and Okeechobee Road. - The proposed project is not located within this area.

Objective 4/Policies 4A, 4B, 4C - Water storage, aquifer recharge potential and maintenance of natural surface water drainage. - The proposed project will not adversely affect water storage, aquifer recharge potential or natural surface water drainage. The proposed project does not involve positive drainage of wetland area and will not affect water storage or aquifer recharge potential.

Objective 5/Policies 5A, 5B, 5F - Flood protection and cut and fill criteria. – The proposed project does not compromise flood protection, involve filling for development purposes, and is not related to cut and fill activities.

Objective 6/Policy 6A - Areas of highest suitability for mineral extraction. - The proposed project is not located in an area proposed or suitable for mineral extraction.

Objective 6/Policy 6B - Guidelines for rock quarries for the re-establishment of native flora and fauna. - The proposed project is not located in a rock quarry.

Objective 6/Policy 6D - Suitable fill material for the support of development. – The proposed project does not involve filling for the purposes of development.

Objective 7/Policy 7A - No net loss of high quality, relatively unstressed wetlands. – The proposed project will not result in a net loss of any such wetlands.

Objective 9/Policies 9A, 9B, 9C - The project area is located within essential habitat for the West Indian Manatee (*Trichechus manatus*), however, the proposed project is not reasonably expected to result in adverse effects to rare, threatened or endangered species provided standard manatee protection measures are implemented. Additionally, the Class I Permit will require that all standard manatee conditions for construction permits shall be followed during all in-water construction operations.

COASTAL MANAGEMENT ELEMENT VII:

Objective 1/Policy 1A - Tidally connected mangroves in mangrove protection areas – The project is not located within a designated “Mangrove Protection Area.”

Objective 1/ Policy 1B - Natural surface flow into and through coastal wetlands. – The project will not affect natural surface flow into and through coastal wetlands.

Objective 1/ Policy 1C - Elevated boardwalk access through mangroves. – The project does not involve access through mangroves

Objective 1/Policy 1D - Protection and maintenance of mangrove forests and related natural vegetational communities. - The proposed project does not involve work in mangrove forests, coastal hammock, or other natural vegetational communities.

Objective 1/Policy 1E - Mitigation for the degradation and destruction of coastal wetlands. Monitoring and maintenance of mitigation areas. – The proposed project does not involve the degradation and destruction of coastal wetlands and therefore does not involve monitoring of mitigation for impacts to coastal wetlands.

Objective 1/Policy 1G - Prohibition on dredging or filling of grass/algal flats, hard bottom or other viable benthic communities, except as provided for in Chapter 24 of the Code of Miami-Dade County, Florida. – The project does not involve the dredging or filling of grass/algal flats, hard bottom or other viable benthic communities.

Objective 2/Policies 2A, 2B - Beach restoration and renourishment objectives. - The proposed project does not involve beach restoration or renourishment.

Objective 3/Policy 3E, 3F - Location of new cut and spoil areas for proper stabilization and minimization of damages. - The proposed project does not involve the development or identification of new cut or spoil areas.

Objective 4/Policy 4A, 4C, 4E, 4F – Protection of endangered or threatened species habitat, implementation of the Miami-Dade County Manatee Protection Plan, and minimizing the overlap between manatees and boat travel patterns. The project area is located within essential habitat for the West Indian Manatee (*Trichechus manatus*), however, the proposed project is not reasonably expected to result in adverse effects to rare, threatened or endangered species provided standard manatee protection measures are implemented. Additionally, the Class I Permit will require that all standard manatee conditions for construction permits shall be followed during all in-water construction operations.

Objective 5/Policy 5B - Existing and new areas for water-dependent uses. - The proposed project will not affect existing water-dependent uses.

Objective 5/Policy 5D - Consistency with Chapter 33D, Miami-Dade County Code (shoreline access, environmental compatibility of shoreline development) - The applicant has applied for a “Need for Compliance Review” by the Shoreline Development Review Committee.

Objective 5/Policy 5F - The siting of water dependent facilities. - The proposed project does not involve the creation of any new water dependent facilities.

28. **Conformance with Chapter 33B, Miami-Dade County Code** (East Everglades Zoning Overlay Ordinance) – The proposed project is not located within the East Everglades Area.
29. **Conformance with Miami-Dade County Ordinance 81-19** (Biscayne Bay Management Plan Section 33D-1 through 33D-4) - The proposed project is in conformance with the Biscayne Bay Management Plan.
30. **Conformance with the Miami-Dade County Manatee Protection Plan** - The project area is located within essential habitat for the West Indian Manatee (*Trichechus manatus*), however, the proposed project is not reasonably expected to result in adverse effects to rare, threatened or endangered species provided standard manatee protection measures are implemented. Additionally, the Class I Permit will require that all standard manatee construction permit conditions shall be followed during all in-water construction operations.
31. **Consistency with Miami-Dade County Criteria for Lake Excavation** – The proposed project does not involve lake excavation.
32. **Municipality Recommendation** – Pursuant to Section 24-48.2(II)(A)(7), Code of Miami-Dade County, Florida, a substantiating letter shall be submitted stating that the proposed project does not violate any zoning laws. Said letter will be submitted after the approval by the Board of County Commissioners and prior to the issuance of the Class I Permit.
33. **Coastal Resources Management Line** - A coastal resources management line was not required for the proposed project, pursuant to Section 24-48.2(II)(A)(10)(b) of the Code of Miami-Dade County, Florida.
34. **Maximum Protection of a Wetland’s Hydrological and Biological Functions** – The proposed project is not expected to impact wetland hydrological and biological functions.

35. **Class I Permit Applications Proposing to Exceed the Boundaries Described in Section D-5.03(2)(a) of the Miami-Dade County Public Works Manual** – DERM has considered the following factors:

- i. **Whether the proposed exceedance is the minimum necessary to avoid seagrasses or other valuable environmental resources** – Not applicable.
- ii. **Whether the proposed exceedance is the minimum necessary to achieve adequate water depth for mooring of a vessel** – Not applicable.
- iii. **Whether the applicant has provided notarized letters of consent to DERM from adjoining riparian property owners** – Not applicable.
- iv. **Whether any letters of objection from adjoining riparian property owners were received by DERM** – Not applicable.

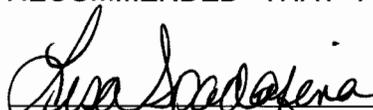

The proposed project was also evaluated for compliance with the standards contained in Section 24-48.3(2),(3), and (4) of the Code of Miami-Dade County, Florida. The following is a summary of how the standards relate to the proposed project:

24-48.3 (2) Dredging and Filling for Class I Permit - The proposed project does not involve dredging and filling activities.

24-48.3 (3) Minimum Water Depth Required for Boat Slips Created by the Construction or Placement of Fixed or Floating Docks and Piers, Piles and Other Structures Requiring a Permit Under Article IV, Division 1 of Chapter 24 of the Code of Miami-Dade County - The proposed project does not involve the creation of a boat slip.

24-48.3 (4) Clean Fill in Wetlands – The proposed project does not involve placing clean fill in wetlands.

BASED ON THE FOREGOING, IT IS RECOMMENDED THAT A CLASS I PERMIT BE APPROVED.

Lisa M. Spadafina, Manager
Coastal Resources Section

Christine Hopps, Biologist II
Coastal Resources Section
