

Memorandum

Date: October 7, 2008

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Resolution Authorizing Award of Competitive Contracts

Agenda Item No. 8(O)(1)(C)

Recommendation

It is recommended that the Board of County Commissioners approve the attached award of competitive contracts, with authority to exercise options-to-renew and contract modifications. ***Contract amounts and department allocations represent the maximum spending authority based on past utilization. This action does not guarantee that the total contract amount/value will be expended by County departments and/or agencies.***

Scope

The impact of the items in the accompanying Award of Competitive Contracts Package is countywide in nature.

Fiscal Impact/Funding Source

The accompanying Award of Competitive Contracts Package states the allocation amount and funding source for each department utilizing a contract. ***Funding will be expended only if departmental budgets can support the expenditures approved in their Resource Allocation Plan adopted annually by the Board.***

Track Record/Monitor

There are past performance issues involving Hydraulic Technician, Inc. in Item 3.3, Original Equipment Manufacturer (OEM) Mobile Equipment Parts. Details are noted in the item. Each department's contract manager is reflected in the accompanying Award of Competitive Contracts Package.

Delegated Authority

If this item is approved, the County Mayor, or designee will have the authority to exercise in their discretion, subsequent options-to-renew, and extend contracts for purchase of goods and services in accordance with the terms and conditions of the contracts listed in the accompanying Award of Competitive Contracts Package.

Background

Section 1 AWARD OF COMPETITIVE BIDS

CONTRACT MANAGER(S): Albert Falcon, Department of Procurement Management
 Gregory D. Hicks, Miami-Dade Water and Sewer Department

ESTIMATED CONTRACT COMMENCEMENT DATE: Upon approval by the Board and expiration of the Mayoral veto period.

BACKGROUND

This contract will provide hauling and disposal services of class "B" wet sewage sludge for the Miami-Dade Water and Sewer Department's (WASD) wastewater treatment plants, as required by federal, state and local laws. This service requires extensive hauling by truck to the Northern part of the State of Florida. Fuel and manpower costs have increased since the current contract was awarded; therefore, the contract reflects an increase in prices received and WASD's allocation.

Market research was conducted and revealed a very limited vendor pool for this service in the State of Florida. A solicitation was drafted with a formula that allocates and distributes Sludge "B" tonnage among the three lowest responsive and responsible bidders. The solicitation attempts to include as many participants as possible in the bidding process, and awarded to three vendors. Three vendors responded to the solicitation and award is recommended to all three to some capacity.

CONTRACT MANAGER(S): Thelma Rodriguez, Department of Procurement Management
Neivy Garcia, Miami-Dade Aviation Department
Luciano Soto, Public Works Department

ESTIMATED CONTRACT

COMMENCEMENT DATE: Upon approval by the Board of County Commissioners and expiration of the Mayoral veto period.

BACKGROUND

This solicitation establishes a contract for the purchase of signage materials for Miami-Dade Aviation (MDAD) and Public Works departments.

MDAD is transitioning to a new signage system. In an effort to improve customer service and ease of navigation in Miami International Airport (MIA), MDAD conducted a study which resulted in the development of the "Way Finder Signage System". This System consists of retro reflective sign sheeting, screen processing ink, and film overlay materials. Installation of this system will result in clear signage and directions to passengers navigating throughout the airport. The installation of the new signage will be done in phases. Public Works will utilize the contract for reflective sheeting and pavement markers for roadway signage throughout the County.

Contract Managers: Pablo Martinez, Department of Procurement Management

This contract includes allocations for eight departments. Each department has a designated contract manager.

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional time and spending authority for automotive parts, truck parts, accessories, and specialized repair services to various County departments. This contract covers the purchase of replacement and aftermarket auto parts, truck parts, accessories and specialized repair services for County-owned vehicles for various departments. This modification extends the current contract term for a four-month period and increases the total contract value by \$2,166,432. This amount represents prorated funding for various departments based on recent monthly expenditures in the current contract term.

The Department of Procurement Management has been working with client departments to finalize the solicitation and specification requirements for the replacement contract. The current contract structure allows vendors to offer a percentage discount off the manufacturer's catalog list prices, and a labor rate for repair services. The replacement contract will allow vendors to offer a percentage discount off the manufacturer's suggested retail price for parts and accessories, and a competitive labor rate for specialized repair services, based on the County's estimated usage. This will allow the application of the Small Business Enterprise and Local Business Preferences.

This modification is necessary to allow continuity of services until the replacement contract is awarded.

This contract includes allocations for nine departments. Each department has a designated contract manager.
- Contract Effective Date:** Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional spending authority for gasoline and diesel fuel for various County departments. When this contract was initially awarded, the cost of crude oil was \$95 per barrel. Crude oil prices are now close to \$150 per barrel (an increase of more than 60 percent). This significant increase has prematurely depleted departmental allocations.

This contract establishes a pool of pre-qualified vendors who compete in weekly spot market bidding for the supply of gasoline and diesel fuel. The vendors are prequalified in two groups. Group 1 provides regular transport and tank wagon deliveries of gasoline and diesel fuel as required by the user departments. The awarded vendors submit weekly spot market pricing applicable to fuel purchases in the subsequent week. Group 2 provides storage and provision of emergency fuel for County use during declared emergencies. The vendors will provide spot quotes for the supply, storage, and delivery of fuel in the quantities and types required by the County. This provision allows user departments to have access to stored fuel supplies immediately before, during, and/or after an emergency event.

Performance Data: There are no performance issues with any of the 28 firms.

Compliance Data: Hydraulic Technician, Inc. was issued a Notice of Violation on August 4, 2005, for failure to pay the appropriate rate to one employee in the amount of \$236.88, on Contract No. 0924-2/04-2. This contract is no longer in effect. This violation has been resolved and closed.

Contract Measure: Small Business Enterprise Bid Preference

Review Committee Date: April 11, 2007; Item #6-10

Local Preference: Applied in accordance with the Local Preference Ordinance.

Living Wage: The Living Wage Ordinance does not apply.

User Access Program: This contract includes the User Access Program provision. The 2% program discount is being collected on all purchases.

Contract Managers: Pablo Martinez, Department of Procurement Management

This contract includes allocations for nine departments. Each department has a designated contract manager.

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional spending authority for original equipment manufacturer and aftermarket parts for mobile equipment owned and operated by various County departments. Of the 453 line items solicited, 300 were awarded by the Board on May 6, 2008. In accordance with Section 2, Paragraphs 2.25 and 2.6 of the bid solicitation, the balance of the line items were re-bid. As a result, items not previously awarded are being added to the contract at this time. The additional allocations are for 153 items not awarded on May 6, 2008.

Item 3.4

Contract No.: 5840-4/12-1

Contract Title: **Polymeric Flocculants**

Description: To modify this contract for additional spending authority to allow the Miami-Dade Water and Sewer Department (WASD) to purchase polymeric flocculants used by the County's water treatment plants.

Type of Change: Additional spending authority

Existing Allocation: **\$ 950,000 for one year**

Increase By/Managing Agency/Funding Source: **\$ 106,400 for WASD – Operating Revenue**

Modified Allocation: **\$1,056,400 for one year**

Contract Managers: Herman Ramsey, Department of Procurement Management
Lydia Manners, Miami-Dade Water and Sewer Department

25

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional spending authority to purchase polymeric flocculants used by the County's wastewater treatment plants. This modification is requested due to the increased quantities required due to the underperforming system, and an increase in the incoming flow of processed sludge. The original quantity of 400,000 pounds of dewatering polymer estimated for the initial contract year is expected to increase to 456,000 pounds during the current term. At the current contract price of \$1.90 per pound, the additional allocation required is \$106,400.

The Miami-Dade Water and Sewer Department (WASD) uses two polymers (gravity thickening and dewatering) in the wastewater treatment process. The amount of polymers used are determined by the quantity required to treat 1,000 gallons of processed sludge to meet the required capture rates.

The South District Water Treatment Plant's existing polymer system is underperforming due to age and obsolescence. Larger quantities of polymers are required to maintain operations. A new polymer processing system has been ordered. A full and open competitive bidding process will be conducted to procure the installation of the system. The new system is scheduled to be installed by July 2009.

Item 3.5

Contract No.: 7594-4/12

Contract Title: **Mobile Fuel Supply and Delivery Service**

Description: To modify this contract for additional spending authority to allow Miami-Dade Park and Recreation (MDPR) and Seaport departments to purchase fuel for non-mobile equipment and patrol boats.

Type of Change: Additional spending authority

Existing Allocation: **\$1,017,700 for one year**

Increase By/Managing Agencies/Funding Sources: \$ 200,000 for MDPR – General Fund and Proprietary Revenue
\$ 25,000 for Seaport – Operating Revenue

Contract Managers: Km! Ra, Department of Procurement Management
Bill Solomon, Miami-Dade Park and Recreation
Philip Rose, Seaport Department

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional spending authority for the delivery of fuel to the Miami-Dade Park and Recreation (MDPR) and Seaport departments.

MDPR requires an additional \$200,000 in allocation to purchase fuel for non-mobile equipment including generators, light towers, rental equipment and equipment used during special events. MDPR previously purchased fuel for non-mobile equipment through the General Services Administration. Individual departments will now assume responsibility for the fueling of non-mobile equipment that require quantities in excess of 20 gallons per day. The Seaport Department requires an additional allocation of \$25,000 for fueling two newly purchased patrol boats for the Seaport.

Contract Managers: Marcelo Cam, Department of Procurement Management
Philip Rose, Seaport Department

29

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional spending authority to allow the Seaport Department to provide shuttle services to passengers at the Port of Miami.

The Seaport Department uses this contract to provide shuttle services for cruise passengers to and from the terminals and parking lots. The Port has experienced an increase in passenger cruise activity which has caused an increased demand for shuttle services. The department expended their allocation during the previous term of this contract which expired on July 31, 2008. Based on the increased demand for these services, an increase in allocation will be required to provide an uninterrupted source of supply for the remainder of the current term.

Contract Managers: Thelma Rodriguez, Department of Procurement Management

Peter Cam, Finance Department

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional spending authority to provide printing and mailing services for the Finance Department.

The Finance Department uses this contract to provide printing and mailing services for auto, vessel, mobile home, parking permit, and tag registration renewal reminder notices. The estimated quantities advertised in the solicitation covered the Finance Department's requirements for a one-year period. The contract was awarded with an initial term of two years with three, one-year options-to-renew. This modification is necessary to ensure an adequate allocation for the second year of the initial term.

Item 3.9

Contract Managers: Melissa Adames, Department of Procurement Management
Steve Schmugeter, General Services Administration

35

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization for additional funding is requested to allow General Services Administration (GSA) to purchase ongoing software maintenance and equipment support for years two through six of the contract agreement to ensure continuity of services.

The GSA Print Shop prints all ballots for the Elections Department. When the competitive Request for Proposals was issued to establish this contract, the scope was developed to operate with the new optical ballot scanners purchased by the County and provided by Election Systems & Software (ES&S). These ballot scanners were to be used at polling locations and were to read folded ballots. On June 5, 2008, after this contract was awarded, ES&S notified the County that the ballot scanners could not be certified by the State of Florida to read folded ballots as originally intended.

The requirements of the initial scope included in the contract had to be amended to meet the new State requirement changing the ballot size of 8.5" x 9.5" to 8.5" x 17". This required upgrading the feeders to accept the larger size flat ballot. Alles of Florida, the awarded vendor, was able to accommodate the change and meet the delivery deadline. With the added expense to accommodate the feeders required for the August 26th and November 4th Elections, GSA utilized funds awarded for maintenance and support services in the contract to pay for this modification. The additional allocation will allow GSA to replenish the funds required to sustain the equipment and obtain ongoing maintenance and support services.

Contract Managers: Km! Ra, Department of Procurement Management

This contract includes allocations for seven departments. Each department has designated a contract manager.

Contract Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is requested for additional spending authority to purchase petroleum products for various County departments. This contract covers purchase of motor oil, lubricants and other petroleum products for County-owned vehicles for various departments. This modification will increase the total contract value by \$10,340,103. This amount represents additional funding for various departments based on the trend of current expenditures.

The significant increase in fuel prices has prematurely depleted certain departmental allocations. The requested modification is needed to fund the purchase of petroleum products for the five year- term.

REASON FOR CHANGE

Authorization is necessary to extend the current contract term to allow Miami-Dade Transit (MDT) to continue to obtain audit services of bus operator performance, and compliance with Americans with Disabilities Act (ADA) regulations while a successor contract is processed for award.

This modification will allow MDT to continue to monitor transit bus operators' performance in providing services to the general public, including those related to compliance with ADA regulations. The replacement contract is expected to be presented to the Board for approval in November and subsequently to the Citizens' Independent Transportation Trust.

Contract Managers: Sherry Clentscale, Department of Procurement Management
Debra Graham, Miami-Dade Corrections and Rehabilitation
Gale Aldrich, Department of Human Services
Marianela Betancourt, Miami-Dade Fire Rescue

Modification Effective Date: Upon approval by the Board and expiration of the mayoral veto period.

REASON FOR CHANGE

Authorization is necessary for additional spending authority to allow Miami-Dade Corrections and Rehabilitation (MDCR) and the Human Services (DHS) departments to continue to access the Miami-Dade School Board contract for bakery products while a replacement County contract is advertised and awarded. MDCR and DHS use this contract to provide bakery products to inmates and clients, respectively. In addition, Miami-Dade Fire Rescue (MDFR) will access the contract for the purchase of bakery items for the employee/visitor cafeteria at MDFR Headquarters.

The County advertised a replacement solicitation on February 20, 2008, and all bids received are being rejected due to excessive pricing. The rejection will be presented to the Budget and Finance Committee for approval in October 2008. The Board's approval of the rejection is required before a new solicitation can be issued. In order to provide continuity of service, the School Board contract for bakery products was accessed for a period of four months under the Department of Procurement Management's delegated authority. This modification will allow the County to continue to access the School Board contract until a replacement contract is awarded in March 2009.
