PROJECT NO: N/A

CONTRACT NO: W-906

PROJECT DESCRIPTION: The project consists of furnishing all labor, materials and equipment necessary to excavate, haul and legally dispose of the calcium carbonate residuals from the west half of the Miami Springs Lagoon. The calcium carbonate is the material removed from the basins during the softening process. The material is inert and non-toxic, and in its dry stage it is a very fine powder.

The scope of work includes, but it is not limited to the following: clearing, grubbing, excavating, loading into trucks with watertight bodies and covers, and hauling away approximately 177,000 cubic yards of calcium carbonate,

and legally disposing of the material at an approved off-site location provided by the contractor; performing street cleaning along the calcium carbonate haul route; furnishing all labor, materials and equipment necessary to breach the existing dike, and reconstructing it with new limerock material upon completion of the work; furnishing and installing limerock fill as required; constructing a portable truck tire wash station to be used during the duration of the project, and turned over to WASD at the completion of the project; electrical work; mechanical work; survey work; furnishing traffic control; and all other miscellaneous and appurtenant work for a complete project.

TRACK RECORD / MONITOR

SBD HISTORY OF VIOLATIONS:	None
EXPLANATION:	WASD received eight bids for this project, and seven of the bids were under the Engineer's estimate. The low bidder is under the Engineer's

estimate by 52.8 percent, and the difference between the two lowest bidders is only 6.8 percent, showing good competition.

The cost estimate for this project was based in part on previous prices received for a similar project, Contract No. W-836: Alexander Orr Jr. Water Treatment Plant Removal of Calcium Carbonate Deposit, which was bid in 2007, with a Notice to Proceed date of May 5, 2008. Due to the volatile construction market conditions, WASD is experiencing an increased number of bidders and lower bid prices than estimated by the Engineer.

The Engineer has reviewed the unit prices submitted by Ric-Man Construction and determined that the bid is reasonable. Detailed analysis (Gap Analysis) is attached.

Therefore, award this contract to the low responsive and responsible bidder, Ric-Man Construction, Inc., is recommended for approval. A review of the Office of Capital Improvements CIIS database reflects that this is the first award by the County to Ric-Man Construction, Inc.

Small Business Development (SBD) has completed a compliance review for the above-referenced project with the Community Small Business Enterprise (CSBE) Program. The contract measure applicable to this project is a 14% CSBE goal. The Construction Contracts Section of The Miami-Dade Water and Sewer Department (WASD) submitted bid documents from Ric-Man Construction, Inc. and Trans Florida Development Corp. for compliance review.

Ric-Man Construction, Inc. submitted the required Schedule of Intent (SOI) Affidavits committing to utilize Duarte & Fonte Construction, a certified CSBE firm, to perform excavation and hauling work at 14% and Ruben Electric Tech, Inc., a certified CSBE firm, to perform electrical work at .62%. Each subcontractor signed its respective SOI Affidavit in agreement with the information listed. Ric-Man Construction has fulfilled the contract measure requirement and is in compliance with the CSBE Participation Provisions.

Subject: RE: W-906 Bid Tab Miami Springs sludge removal

The main reasons for the low bidder contractor are explained in the attached files. The proposal format estimate was prepared prior to bidding.

The estimate was based on data of W-836, which are listed below. We used $23.00/yard which was very aggressive per data of W-836 (average of 10 bidders' average unit price was $26.83 per cubic yard of disposal) . But the low bidder contractor offered $11.02/yard for main scope of 182,000 yard (47.9% to engineer's estimate), which is the main reason for the difference.

The data of latest bid of A Orr (W-836) were referenced in W-907 estimate:

W-836 bidders	$ per CY disposal
Low bidder	22.60
Bidder-2	20.30
Bidder-3	25.00
Bidder-4	18.55
Bidder-5	28.00
Bidder-6	31.00
Bidder-7	28.46
Bidder-8	29.00
Bidder-9	30.37

Bidder-10	35.00
Average	**26.83**

Good afternoon.

FYI

Rong, please prepare an analysis per Bid Items in proposal versus estimate, just as in the W-907 (SW Wellfield).

The comparison of the Estimate (biddable items) has to be with Item 11 in the Bid Tab. The low bidder is 111.87% under the estimate, if my math is correct. In this one they were even lower that the one bid the previous week, since the prices were already out.

Thank you.

HAVE A GREAT DAY!

Subject: CSBE Compliance Review of Project No: W-906, Miami Springs Calcium Carbonate Deposit Lagoon Calcium Carbonate Deposit Removal (West Half)

Small Business Development (SBD) has completed a compliance review for the above-referenced project with the Community Small Business Enterprise (CSBE) Program. The contract measure applicable to this project is a 14% CSBE goal. The Construction Contracts Section of The Miami-Dade Water and Sewer Department (WASD) submitted bid documents from Ric-Man Construction, Inc. and Trans Florida Development Corp. for compliance review.

Ric-Man Construction, Inc. submitted the required Schedule of Intent (SOI) Affidavits committing to utilize Duarte & Fonte Construction, a certified CSBE firm, to perform excavation and hauling work at 14% and Ruben Electric Tech, Inc., a certified CSBE firm, to perform electrical work at .62%. Each subcontractor signed its respective SOI Affidavit in agreement with the information listed. Ric-Man Construction has fulfilled the contract measure requirement and is in compliance with the CSBE Participation Provisions.

Trans Florida Development submitted the required SOI Affidavit committing to utilize Kailas Corp., a certified CSBE firm, to perform excavation/hauling work at 14%. Kailas Corp. signed the SOI Affidavit in agreement with the information listed. Trans Florida has fulfilled the contract measure requirement and is in compliance with the CSBE Participation Provisions.

SBD staff only reviewed and addressed compliance with the CSBE program and the established contract measure. The Construction Contracts Section of The Miami-Dade Water and Sewer Department is responsible for any other issues that may exist.
