

Memorandum

Date: January 22, 2009

To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Interlocal Agreement between the Miami-Dade County and the City of North Miami relating to the County's Pump Station Number 347

Agenda Item No. 8(R)(1)(A)

RECOMMENDATION

It is recommended that the Board of County Commissioners adopt the attached resolution approving an interlocal agreement between Miami-Dade County and the City of North Miami relating to Miami-Dade Water and Sewer Department (WASD) Pump Station Number 347.

SCOPE OF AGENDA ITEM

The item relates to Pump Station Number 347 located at 1823 NE 150 Street, Commission District 4.

FISCAL IMPACT/FUNDING SOURCE

The County will pay \$5,000 for the compilation of documents required by the Florida Department of Environmental Protection (FDEP) and Department of Environmental Resources Management (DERM) to obtain a conditional closure for contamination at the pump station. Costs will be charged to WASD's sewer regional pump station operating and maintenance expenditures account. If the conditional closure is obtained, there will be a yearly savings to WASD of approximately \$10,000.

TRACK RECORD/MONITOR

WASD's Hazardous Materials Management Division Manager will monitor this agreement.

BACKGROUND

In 1977, the City of North Miami granted an easement to the Miami-Dade Water and Sewer Authority (now WASD) for property located at 1823 NE 150 Street (Folio No. 06-2221-012-0030), Exhibit B. The easement was conveyed for the construction of Pump Station Number 347 which is operated and maintained by WASD.

On February 16, 1999, a diesel fuel discharge took place at the pump station. WASD performed the cleanup, and has since monitored the site for possible contamination underneath. No further contamination has been detected; therefore WASD is now requesting a conditional closure from FDEP and DERM. If obtained, WASD will discontinue monitoring the site for contamination which will result in approximately \$10,000 in savings to WASD per year (for site sampling and other tasks performed such as soil delineation). No further work will be required unless the pump station is renovated or upgraded.

In order to obtain the conditional closure, the City is required to execute and record a document entitled "Covenant Running with the Land." If the City decides to sell the property, this "Covenant" document will serve to advise the new property owner(s) of possible contamination underneath the pump station site and will hold the City responsible for making sure any contamination discovered in the future is remediated by WASD. The City approved this agreement on October 6, 2008.
