ESTIMATED BID ISSUE DATE:

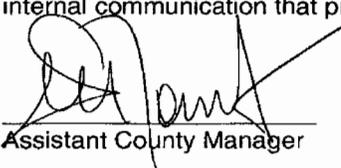

After approval by the Board of County Commissioners and expiration of the mayoral veto period.

BACKGROUND

This contract is for purchase and delivery of an estimated 3,025, one ton cylinders of liquid chlorine to the Virginia Key and North and South District Wastewater Treatment Plants, and an estimated five hundred and twenty (520) 150 lb. cylinders to other Miami-Dade Water and Sewer Department (WASD) locations.

WASD requires this commodity to be delivered in one ton and 150 lb. cylinders because there are no railroad tracks leading into the three wastewater treatment plants. Therefore, this chemical must be offloaded from rail cars, and transported and delivered by truck in the requested packaging. This is the only packaging option for the purchase of liquid chlorine available for this type of delivery. This contract will replace the existing contract which expires on May 31, 2009. The decrease in the contract amount is due to market conditions.

The bid was advertised on the County's website and in four local newspapers. A total of 406 vendors were notified, and 21 packages were downloaded. Two responses were received. One of the offers was a "no bid". Due to the small number of vendors responding, staff conducted a survey of the remaining 19 vendors who download the solicitation. Of these 19, two responded. One indicated that their firm was not able to provide the specified product. The second responding vendor indicated that there were issues with their firm's internal communication that prevented the firm from participating in the process.

BACKGROUND

This contract will replace an existing contract which expires on May 31, 2009. Liquid caustic soda is utilized by the Water and Sewer Department as a softening agent in the water treatment process, and for odor control in the wastewater treatment process.

The increase in allocation and usage is due to the continual increase in the flow rate of wastewater due to ongoing residential and commercial development in the area. Additional reasons include the dramatic increases in raw material, transportation, energy costs, as well as the ongoing global supply and demand imbalance in the liquid caustic soda market.

Award of Group B, for installation, is being recommended to the three lowest priced responsive, responsible certified Small Business Enterprise (SBE) firms as primary, secondary and tertiary. The Small Business Development compliance review is attached.

The original award memo dated October 24, 2008 recommended KM Engineering (KM) as the primary vendor for Group B. ESTIMATED CONTRACT
COMMENCEMENT DATE:

Upon approval by the Board of County Commissioners and expiration of the Mayoral veto period.

BACKGROUND

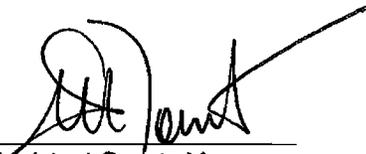

This contract will replace three current contracts for electrical and electronic parts and supplies, ballasts and lamps which expire on: 11/30/2008 (Bid No. 0548-3/08-3), 2/07/2009 (Bid No. 4990-3/10-1), and 3/31/2009 (Bid No. 0127-4/10-2). Bid No. 0548-3/08 is currently exercising its third and final OTR while the other two contracts still have two more OTR years remaining. This will allow the County to purchase a variety of electrical and electronic tools, parts, and components under one contract.

The County intends to award the contract to all responsive, responsible bidders who met the minimum qualifications established in the solicitation in two groups:

- (1) Group A: **Electrical tools, components, parts and supplies:** Vendors pre-qualified in this group will participate in future spot market quotes for electrical tools, components, parts and supplies.
- (2) Group B: **Electronic tools, components, parts and supplies:** Vendors pre-qualified in this group will participate in future spot market quotes for electronic tools, components, parts and supplies.

The Miami-Dade Corrections & Rehabilitation, Public Works (PWD), and Miami-Dade Water and Sewer (WASD) departments have identified projects that require increased allocations. Projects include replacement of lighting in jail facility day rooms, upgrade of parking lights and perimeter lighting at the Turner Guilford Knight facility, upgrade wastewater pump stations electrical panels and control instruments, maintenance to the Rickenbacker and Venetian Toll Facilities. The increased allocation is for the purchase of electrical and electronic parts and supplies related to these projects. This contract establishes a pool of pre-qualified vendors to participate in future price competition for the purchase of electrical and electronic tools, parts and components. Additional vendors meeting the minimum qualifications outlined in the solicitation may be added to the pool at any time during the term of the contract.

BACKGROUND

The County issued a solicitation requesting proposals to develop and operate the Haulover Park Marina Restaurant. Two proposals were submitted in response to the solicitation and evaluated by the Evaluation/Selection Committee. Both proposals received low scores due to the lack of detail and clarity. One proposer had no relevant experience, proposed a longer, contract term (not allowable due to the County's Home Rule Amendment and Charter), and had unacceptable financial projections. The other proposer offered a restaurant that included a live-in studio concept which is not allowed at the Park. The proposers did not demonstrate the ability to attain the County's goal for this project in order to be recommended by the Committee for further consideration.

This modification will allow sufficient funding for the additional systems.
