

Memorandum

Date: March 17, 2009

To: Honorable Chairman Dennis C. Moss and Members,
Board of County Commissioners

Agenda Item No. 3(B)(1)(A)

From: George M. Burgess
County Manager

Subject: Resolution Authorizing the County Mayor or County Mayor's Designee to Apply for up to \$550,000 in Grant Funds from the Florida Inland Navigation District Waterways Assistance Program 2009 to Fund Shoreline Stabilization and Replace Two Culverts at R. Hardy Matheson Preserve

Recommendation

It is recommended that the Board of County Commissioners approve the attached resolution authorizing the County Mayor or his designee to apply for up to \$550,000 in grant funds from the Florida Inland Navigation District Waterways Assistance Program 2009.

Scope

The proposed work will be conducted along the Snapper Creek Canal in Commission District 7 (Commissioner Gimenez). The improvements in water quality discharging to Biscayne Bay will have countywide benefit.

Fiscal Impact/Funding Source

This grant will contribute up to \$550,000 toward the \$1,100,000 cost of the project. The balance of the needed funding will be available from the Biscayne Bay Environmental Enhancement Trust Fund.

Track Record/Monitor

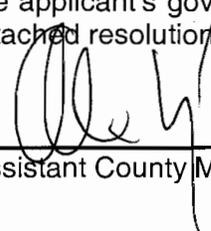

The Florida Inland Navigation District's Waterways Assistance Program has awarded more than \$5,000,000 to Miami-Dade County since 2002. The Director of the Department of Environmental Resources Management (DERM) will monitor this contract.

Background

The Florida Inland Navigation District is a Special State Taxing District for the continued management and maintenance of the Atlantic Intracoastal Waterway. The Waterways Assistance Program is a grant program established by the Florida Legislature and the Florida Inland Navigation District to financially cooperate with local governments to alleviate problems associated with the Atlantic Intracoastal Waterway and associated waterways within the Florida Inland Navigation District.

As part of the Biscayne Bay Restoration and Enhancement Program, DERM conducts various environmental restoration and enhancement activities throughout Biscayne Bay. The restoration activities under this Florida Inland Navigation District grant will be conducted at the R. Hardy Matheson Preserve, located at 9610 Old Cutler Road and managed by the Miami-Dade County Park and Recreation Department. The proposed project consists of the stabilization of the eroding portions of the manmade shoreline (approximately one mile) along the north shore of the Snapper Creek Canal and the replacement of two (2) 24" concrete culverts through the man-made spoil bank to enhance tidal flushing to an adjacent existing mangrove forest located to the north of the canal.

The Waterways Assistance Program requires that grant applications include an official resolution from the applicant's governing board that conforms to Chapter 66B-2.006(3) of the Florida Statutes. The attached resolution complies with said requirement and is recommended for approval.
