Subject: Application for FY 09 Federal Section 5309 Grant for American Recovery and Reinvestment Act (ARRA) Funds for the Fixed Guideway Infrastructure Investment in the Amount of \$2,847,483

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) authorize the execution and filing of a grant application on behalf of Miami-Dade County with the United States Department of Transportation (USDOT), Federal Transit Administration (FTA) for \$2,847,483 in Fiscal Year (FY) 2009 Fixed Guideway Infrastructure Investment funds under the American Recovery and Reinvestment Act, 2009 (ARRA). It is further recommended that the Board authorize this grant agreement pursuant to the application, as well as the receipt and expenditure of funds as specified in the agreement.

A public hearing is required in accordance with Federal Transit Administration (FTA) regulations.

SCOPE

As these funds provide support for bus and rail projects, the impact of this grant will be countywide.

FISCAL IMPACT

There will be no fiscal impact to the County since there is no required match for these funds under the ARRA.

TRACK RECORD/MONITOR

MDT has entered into numerous funding agreements with USDOT over the course of more than twenty-five (25) years. The project manager for these grant applications is Doug Greist, Manager, MDT Grants Administration.

DELEGATED AUTHORITY

In accordance with Section 2-8.3 of the Miami-Dade County Code related to identifying delegation of Board authority, there are no authorities beyond that specified in the resolution which include for the Mayor, or Mayor's designee, to execute the agreement and expend funds.

BACKGROUND

The "American Recovery and Reinvestment Act, 2009" (Pub. L. 111-5, "ARRA") signed into law by President Barack Obama on February 17, 2009, includes \$8.4 billion for transit capital improvements. Of these funds, the ARRA provides \$750 million for FTA's Fixed Guideway Infrastructure Investment program to modernize or improve existing fixed guideway systems. Maintaining the nation's rail transit system is considered a core responsibility of transit agencies across the country. FTA's biennial conditions and performance report gauges asset conditions and the level of investment needed to eliminate the backlog of repairs and necessary replacements. Current nationally published reports indicate that existing pending needs exceed \$25 billion.

Goals of the ARRA include the preservation or creation of jobs and promotion of economic recovery, as well as the investment in transportation, environmental protection and other infrastructure providing long-term economic benefits. Only capital expenditures are eligible for funding under the ARRA. Some of the eligible project areas include preventive maintenance, transit-related ITS, rehabilitating buses, and overhauling of rail rolling stock.

The projects included in MDT's application for the Fixed Guideway Infrastructure Investment funds under the ARRA include: refurbishment of the Metromover Bicentennial Park Station; implementation of a Wi-Fi System for the Metrorail; and miscellaneous refurbishment of the Metrorail Track and Guideway. Specific projects details are attached.

The refurbishment of the Metromover Bicentennial Park Station will include repair and replacement of the elevator and escalator, fare collection system, chain link fence, and other miscellaneous improvements. Although the station is currently closed, it is expected to reopen in 2012 to coincide with the opening of the new Museum Park/Bicentennial Park and other proposed economic redevelopment in the area.

Available funding from ARRA will also help support the eventual implementation of the Wi-Fi System on Metrorail and will facilitate public Wi-Fi access points at Metrorail platforms. The track and guideway refurbishments are part of an overall program to upgrade technical elements of the 25 year old Metrorail system that will reduce noise level and increase system safety along much of the mainline turnouts of the guideway.

In order to ensure receipt of these funds, the application must be submitted to FTA prior to June 1, 2009. It is expected that approximately sixty (60) days will be required for the review and approval process prior to the obligation of funds in August or September 2009.
