MIA is the port of entry for 79% of all international traffic arriving by air to Florida. The Airport is the world's largest Latin American/Caribbean gateway, offering over 1,100 weekly departures with direct service to 62 destinations in the region. With 46% of total passenger traffic being international, MIA maintains one of the highest international to domestic passenger ratios of any US airport.

MIA offers an extensive air service network stretching to nearly 150 destinations on four continents. Air service is provided by a total of 69 scheduled and 18 charter carriers.

Parking: Two long-term parking garages – Dolphin and Flamingo – and two short-term lots provide approximately 7,885 spaces, including those reserved for persons with disabilities. There is also a high-vehicle lot adjacent to the Dolphin Garage.

Airport Improvements: The Airport's \$6.2 billion Capital Improvement Program is well under way, encompassing all aspects of Airport operations, from the terminal and roadways to the cargo facilities and the airfield.

Fourth Runway: One of the major projects of the CIP was the construction of MIA's Fourth Runway. Operational in September 2003, the 8,600-foot runway has increased MIA's airfield capacity by 25%, extending the ability of the Airport to sustain growth, while decreasing the cost of delays to airlines and passengers.

Terminal: Extending from MIA's Central, South and North Terminal will add over 4 million square feet to MIA's existing 3.5 million square feet of

space. The South Terminal opening added 1.7 million square feet to MIA. The North Terminal will encompass more than 3.2 million square feet upon its phased completion in 2011. At that point, the North and South Terminals will have a total of 130 gates, with 100 international gates and 30 domestic gates. The Terminal will have 556 ticket counters and 120 self-service check-in devices.

Cargo: MIA's cargo facility development program that began in 1992 has been completed, providing the Airport with over 2.7 million square feet in seventeen new cargo buildings. Apron space has grown to over 3.8 million square feet, with 41 common-use cargo positions and 23 leased cargo positions.

Roadway Improvements

Central Boulevard: To accommodate forecasted growth, improvement programs include: widening of Central Boulevard, new service roads, wider bridges and improved access to parking facilities.

25th Street Viaduct: Construction is currently underway on the East Segment of the NW 25th Viaduct Project. The limits for the East segment of the project are from SR826 to NW67th Avenue. The FDOT project includes the reconstruction/widening of NW 25th Street and the construction of a viaduct from just east of SR826 to NW 68th Avenue where it curves south terminating at NW 22nd Street, adjacent to the MIA Westside cargo area.

Concession Information: Part of the Airport CIP includes the refurbishment of Terminal interiors and construction of new concession locations. There are approximately 124 retail/food and beverage locations at MIA. With the build-out of new concessions, MIA will more than double to 250 locations.

The Airport is divided into three terminals: North (currently Terminal/Concourses A-D), Central (Terminal/Concourses E, F and G) and South Terminals (Terminal/Concourses H and J).

The North Terminal is currently under construction. The North Terminal will be opened in phases with an expected completion in 2011. Approximately 65% of the passenger traffic will utilize the North Terminal.

The North Terminal has 44,000 square feet of existing concession space. There are duty free stores, news/gifts stores, specialty retail stores, sundries store and food and beverage establishments.

The Central Terminal has a majority of the retail space located on the pre-security portion of the Terminal.

Existing concessions include duty free stores, news/gifts stores, specialty

retail stores and food and beverage establishments totaling 73,000 square feet.

There is a food court in the Central Terminal with recognized brands including *Starbucks*, *California Pizza Kitchen*, *Great American Bagel*, *Burger King* and *Cafe' Bacardi*. Additional brands throughout the landside include *Chili's*, *Cafe Versailles*, *Villa Pizza*, *Au Bon Pain*, and *Cozolli's*. Concourse concessions include *Chili's to Go* and *Guava-Java*.

The **South Terminal** is home to the *Star Alliance* and *Skyteam Alliance* which include *United Airlines*, *U.S. Airways*, *Delta Airlines* and their code share and marketing Alliance partners. Approximately 22% of all passenger traffic is expected to flow through the South Terminal with 24 airlines planned to occupy the Terminal.

The South Terminal was opened in September 2007 and offers a vast and exquisite mix of food and beverages establishments, retail stores and duty free stores. Some of the brands available in the South Terminals are: *Nathan's Famous*, *Starbucks*, *ILLY*, *Bongos* (Bar), *Haagen Dazs* (yogurt/pastry), (café/bar), *McDonalds*, *Gilbert's foodbar* (Latin), *Island Chicken Grill* (Caribbean) and *Famous Famiglia Pizzeria* (Italian), *Duty Free Americas*, *Navarro*, *Hugo Boss*, *Rosetta Stone*, *Sunglass Hut*.

during the past (10) years. Failure to disclose such conviction may result in the debarment of the Proposer who knowingly fails to make the required disclosure or to falsify information.

Following contract award, if a principal of the contracting entity is convicted of a felony, the County may terminate the contract.

B. CONDITION OF AWARD REQUIREMENTS

1. The following documents are condition of award requirements and may be submitted with the Proposal. If a Proposer does not submit said condition of award documents with its Proposal, the Proposer should state in its Proposal when such documents will be provided, which shall be no later than within seven (7) calendar days of notification of the intent to recommend for award, unless otherwise specified.

Pursuant to Section 2-8.1 of the Code of Miami-Dade County, effective June 1, 2008, vendors (Proposers) are required to complete a new Vendor Registration Package, including a Uniform Affidavit Packet (Vendor Affidavits Form), before being awarded a new contract. b) Subcontracting Policies

Pursuant to Section 2-8.8(4) of the Code, the Proposer on County contracts, wherein subcontractors/subconsultants may be used, shall, prior to contract award, provide a detailed statement of their policies and procedures for awarding subcontracts which:

- 3) provides local subcontractors/subconsultants access to information necessary to prepare and formulate a subcontracting bid;
- 4) allows local subcontractors/subconsultants to meet with appropriate personnel of the Proposer to discuss the Proposer's requirements; and

with the Proposer's stated objectives.

The Proposer who fails to provide the required statement shall be precluded from receiving the contract.

Section 10-34 of the Code requires that on County or Public Health Trust contracts, which involve the expenditure of \$100,000 or more, that the entity contracting with the County shall, as a condition of award, provide a listing which identifies all first tier subcontractors/subconsultants who will perform any part of the contract work, describes the portion of the work such subcontractor/subconsultant will perform, identifies all suppliers who will supply materials for the contract work directly to the Proposer, and describes the materials to be so supplied.

A Proposer who is awarded the contract shall not change or substitute first tier subcontractors/subconsultants, direct suppliers, the portions of the work to be performed, or the materials to be supplied from those identified in the listing provided, except upon written approval by the County.

Submission of the SRP Package is a condition of award and not a requirement of proposal submission. The SRP Package

will not be considered in the evaluation process and will not be opened as part of the proposal evaluation or presented to the Selection Committee.

Nonetheless, Proposers are encouraged to submit the SRP Package in order to facilitate the review process; MDAD may therefore open this envelope and conduct a preliminary review of the SRP Package, but such review shall not be presented to the Selection Committee. The Proposers will be allowed to cure deficiencies in the SRP Package once submitted, however, such deficiencies may delay the review process.

A SRP Package must be submitted to MDAD by the highest ranked responsive and responsible Proposer within seven (7) days of the County Manager recommending award of the Proposal to such Proposer or recommending that a negotiation committee be formed to negotiate with such Proposer.

The SRP Package should be submitted in a sealed separate envelope stamped "Confidential".

Failure of a principal to file the

form required by the preceding sentence may be considered in the evaluation of this Proposal as evidence that a Proposer is not a responsible Proposer.

The County's Ethics Commission has also adopted rules delineating the responsibilities of lobbyists and County personnel in implementing the requirements of the lobbying section of the Conflict of Interest and Code of Ethics Ordinance (see **Appendix H**). The Proposer shall comply with these requirements.

The terms of this provision herein apply to the Proposer, its officers, agents, employees and Subcontractors/Subconsultants. Nothing contained in this provision shall impair any independent right of the County to conduct, audit or investigate the operations, activities and performance of the Proposer in connection with this RFP or any Contract issued as a result of this RFP. The terms of this provision are neither intended nor shall the Proposer or any third party construe them to impose any liability on the County.

3.5 CONFLICT OF INTEREST AND CODE OF ETHICS

Pursuant to Section 2-11.1 of the Code, no County employee or his or her immediate family shall be prevented from entering into any contract, individually or through a firm, corporation, partnership or business entity, in which the employee or any member of his or her immediate family has a controlling financial interest with the County, or any person or agency acting for the County, as long as (1) entering into the contract would not interfere with the full and faithful discharge by the employee of his or her duties to the County, (2) the employee has not participated in determining the subject contract requirements or awarding the contract, and (3) the employee's job responsibilities and job description will not require him or her to be involved with the contract in any way, including, but not limited to, its enforcement, oversight, administration, amendment, extension, termination or forbearance. However, this limited exclusion shall not be construed to authorize an employee or his or her immediate family member to enter into a contract with the County or any person or agency acting for the County, if the employee works in the County department that will enforce, oversee or administer the subject contract.

Any affected County employee shall seek a conflict of interest opinion from the County Commission on Ethics and Public Trust ("the Ethics Commission") prior to submittal of a bid, response, or application, of any type, to contract with the County by the employee or his or her immediate family. A request for a conflict of interest opinion shall be made in writing and shall set forth and include all pertinent facts and relevant documents. The submission of any information to the County in connection with this Solicitation shall be deemed a waiver of any trade secret or other protection, which would otherwise be available to Proposer. In the event that the Proposer submits information to the County in violation of this restriction, either inadvertently or intentionally, and clearly identifies that information in the Proposal as protected or confidential, the County shall endeavor to redact or return that information to the Proposer as practicable, and if appropriate, evaluate the balance of the Proposal. The redaction or return of information pursuant to this clause may render a Proposal non-responsive. **Pursuant to Appendix M, Proposers shall submit a SRP Package as a condition of award. Such information is confidential and exempt from public access and disclosure pursuant to Fla. Stat. Sec. 281.301. Therefore, the SRP Package should be submitted in a sealed separate envelope stamped "confidential".**

Any person or entity that fails to submit the required affidavit shall be ineligible for contract award.

SECTION 4.0 AIRPORT CONCESSION DISADVANTAGED BUSINESS ENTERPRISES

4.1. ACDBE REQUIREMENTS

It is the policy of the County that ACDBE's shall have the maximum practical opportunity to participate in the performance of County agreements. As used in this Solicitation, the term "Airport Concession Disadvantaged Business Enterprises (ACDBE)" means a small business concern, which (a) is at least fifty-one percent (51%) owned by one or more socially and economically disadvantaged individuals, or in the case of any publicly owned business, at least fifty-one percent (51%) of the stock which is owned by one or more socially and economically disadvantaged individuals; and (b) whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it as set forth in 49 CFR Part 23, Code of Federal Regulations. **The County has established an ACDBE concession specific goal of thirty percent (30%) percent of gross revenues for this Solicitation.** The ACDBE overall goal can be achieved either through the Proposer being an ACDBE itself, a partnership or joint venture, or subcontracting a percentage of gross revenues.

The Airport Concession Disadvantaged Business Enterprise (ACDBE) Plan must be submitted with the Proposal in accordance with **Appendix I, Section II** and its supporting documents. The Successful Proposer will be required to submit to the Department's Minority Affairs Division, Monthly Utilization Reports (MUR) reflecting ACDBE revenue and operational expenses, commencing 90 days after beneficial occupancy and monthly thereafter, on or before the 10th of every month.

4.2 COUNTING ACDBE PARTICIPATION TOWARD CONTRACT GOALS

1. When an ACDBE participates in a contract, only the value of the work actually performed by the ACDBE toward the ACDBE goal will be counted.
2. When an ACDBE performs as a participant in a joint venture, a portion of the total dollar value of the contract **during the complete contract term**, equal to the distinct clearly defined portion of the work of the contract that the ACDBE performs will be counted toward ACDBE goals as outlined in **Appendix I**.
3. Expenditures to an ACDBE contractor toward ACDBE goals will be counted only if the ACDBE is performing a commercially useful function as defined below:

- (a) An ACDBE performs a commercially useful function when it is responsible for execution of specific quantifiable work of the contract and is carrying out its responsibilities by actually performing, or managing, or supervising the specific identified work.

MDAD will determine whether an ACDBE is performing a commercially useful function by evaluating the specific duties outlined in the Joint Venture Agreement; the subcontract agreement or other agreements in accordance with industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and other relevant factors.

- (b) An ACDBE does not perform a commercially useful function if its role is limited to that of an extra participant in a financial or other transaction, contract, or project through which funds are passed in order to obtain the appearance of ACDBE participation.
- (c) If an ACDBE does not perform or exercise responsibility for at least their percentage of its participation or if the ACDBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that the ACDBE is not performing a commercially useful function.
- (d) When an ACDBE is presumed not to be performing a commercially useful function as provided in paragraph (c) of this section, the ACDBE may present evidence to rebut this presumption. MDAD will determine that the firm is performing a commercially useful function given the type of work involved and normal industry practices.

3. MDAD's decision on commercially useful function matters, are final.

4.3 ACDBE GOAL ACHIEVED THROUGH JOINT VENTURE ("JV") PARTNERING

Proposers may decide to satisfy a part of the ACDBE goal by Joint Venturing with an ACDBE. The ACDBE partner must meet the eligibility standards set forth in 49 CFR Part 23. A "joint venture" or ("JV") shall mean and may be referred to as an "association" of two or more businesses acting as a concessionaire and performing or providing services on a contract, in which each joint venture or association partner combines property, capital, efforts, skill, and/or knowledge. The joint

venture agreement must specify the following:

- (1) Each ACDBE joint venture ("JV) partner must be responsible for a clearly defined portion of the work to be performed. The work should be detailed separately from the work performed by the non-ACDBE JV partner.

The work should be submitted as part of this solicitation and annually thereafter to MDAD's Minority Affairs Division. The work to be performed by the ACDBE joint venture partner should be store specific with regards to tasks and Locations.

The ACDBE Joint Venture partner will be required to spend the minimum amount of aggregate time on-site, focused on the operation of the concession. Such "minimum amount of aggregate time" is defined as ten hours per week.

- (2) Each Joint Venture partner must submit a notarized Monthly Utilization Report and a notarized Monthly Report of ACDBE Joint Venture Activity providing details of how the performance objectives were achieved and providing documentation of that achievement on the form. This information should include, but not be limited to:
 - a. Details of training sessions, including class rosters and lesson plans.
 - b. Deliverables and work products.
 - c. Time sheets of partner employees used to fulfill objectives. Time sheets must accurately reflect hours worked and compensation earned.
 - d. Proof that employees of partners, actually work for them (payroll, payroll tax returns and the like).
- (3) Each ACDBE partner must share in the ownership, control, management, and administrative responsibilities, risks and profits of the JV in direct proportion to its stated level of JV participation.
- (4) Each ACDBE JV partner must perform work that is commensurate with the Lease Agreement.

As described below, each Proposer must submit, as part of its Proposal, a plan for the achievement of the ACDBE goal, including Schedule of Participation and the Letter of Intent from ACDBE's who are Certified or have applied for Certification to the Miami-Dade County Department of Business Development as required by Airport Concession Disadvantaged Business Enterprise (ACDBE) Participation Plan.

Without limiting the requirements of the Agreement, the County will have the right to review and approve all agreements utilized for the achievement of these goals. Such agreements must be submitted with the Proposal.

The Proposer agrees to provide, upon request, any additional information that may be required by the Committee or the County. In addition, the Committee reserves the right to inspect the facilities at which the Proposer conducts its business and provides services. If the Committee deems that a Proposer is non-responsive it may either (1) decline to evaluate that proposal, or (2) evaluate that proposal, giving such scores as each member of the Committee feels are reflective of the lack of responsibility.

A determination by the Committee that a Proposer is responsible shall not be binding, on the County, and the County reserves the right to deem the Proposer non-responsible irrespective of prior action by the Committee.

5.3 EVALUATION PROCESS

Criteria, has been established based upon the goals and objectives as provided in this RFP. Based on the Committee's evaluation of the written Technical Proposal and oral presentations, if required, the Committee shall rate and rank the responsive and responsible firms on their Proposal based on the Technical Criteria listed below. The Technical Criteria listed below are not of equal value or decision weight nor are they necessarily ranked in order of importance. The Technical Criteria are itemized with their respective weights for a maximum total of five hundred (500) points per each voting Committee member, for all Technical Criteria. A Proposer

may receive the maximum points or a portion of this score depending on the merit of its Proposal, as determined by the Committee member in accordance with the criteria listed below. Different members of the Committee may weight the various Criteria differently.

If there is only one (1) responsive, responsible Proposer, the Committee may, following evaluation of the Price Proposal, recommend to award or negotiate an Agreement or to reject the sole responsive responsible Proposal.

TECHNICAL PROPOSAL EVALUATION

<u>Criteria</u>	<u>Maximum Points</u>
1) Financial Capacity to Perform/Financing	150
2) Experience, qualifications, capabilities, and past performance in providing the type of services described in this RFP	100
3) Managing, Operating and Maintenance Plan	100
4) Equipment Design and Function	100
5) ACBDE Plan and Participation	50
Technical Proposal Maximum Points	500

PRICE PROPOSAL EVALUATION

<u>Criteria</u>	<u>Maximum Pts.</u>
1) MAG proposed	300
2) Percentage Fee Proposed	200
Financial Proposal Maximum Points	500
TOTAL MAXIMUM EVALUATION POINTS	1000

5.4 PRICE PROPOSAL EVALUATION

After the Evaluation/Selection Committee evaluates the Technical Proposals in light of the oral presentation (if necessary), it will then

evaluate the Price Proposals.

The sealed Price envelopes of the responsive/responsible Proposers will then be opened. The Price Proposals will be considered separately and only after the evaluation of the Technical (Quality) Proposals has been completed by the Evaluation/Selection Committee.

The Price Proposal will be assigned a maximum of 500 points per each voting Evaluation/Selection Committee member, which will be comprised of a maximum of 300 points for the Minimum Annual Guarantee ("MAG") proposed and a maximum of 200 points for the Percentage Fee proposed. The Price Proposals will be evaluated in the following manner:

MAG Criteria:

1. The responsive/responsible proposal with the highest proposed MAG will be given the full weight of 300 points assigned to the MAG criterion.
2. Every other responsive/responsible proposal will be given points proportionately in relation to the highest proposed MAG. This point total will be calculated by dividing the MAG of the proposal being evaluated by the highest proposed MAG with the result being multiplied by the maximum weight for the MAG of 300 points to arrive at a Price score of less than the full score for the MAG criterion.

$$\text{Example: } \frac{\text{Proposer's Proposed MAG}}{\text{Highest Proposed MAG}} \times \text{Total Points for MAG} = \text{MAG Score}$$

Percentage Fee Criteria:

1. The responsive/responsible proposal with the highest proposed Percentage Fee will be given the full weight of 200 points assigned to the Percentage Fee criterion.
2. Every other responsive/responsible proposal will be given points proportionately in relation to the highest proposed Percentage Fee. This point total will be calculated by dividing the Percentage Fee of the proposal being evaluated by the highest proposed Percentage Fee with the result being multiplied by the maximum weight for the Percentage Fee of 200 points to arrive at a Price score of less than the full score for the Percentage Fee criterion.

$$\text{Example: } \frac{\text{Proposer's Proposed Percentage Fee}}{\text{Highest Proposed Percentage Fee}} \times \text{Total Points for \% Fee} = \% \text{ Fee Score}$$

The MAG score and the Percentage Fee Score will then be added for each Proposer to come up with a total Price Proposal score.

The application of the above formula will result in a uniform assignment of points relative to the Price criterion.

5.5 OVERALL RANKING

The Evaluation/Selection Committee will then determine the overall ranking by adding the Price Proposal score with the Technical (Quality) Proposal evaluation score and all other applicable additional points specified in this Solicitation, if any, to determine the overall ranking.

Following the evaluation and overall ranking of the proposals, the Evaluation/Selection Committee will recommend to the County Manager that a contract be awarded to the highest ranked responsive and responsible Proposer or that a contract be negotiated with the highest ranked responsive and responsible Proposer (see also Section 5.7).

5.6 LOCAL PREFERENCE

Pursuant to Section 2-8.5 of the Code, a local preference is provided as follows:

1. Local business means the vendor has a valid occupational license issued by Miami-Dade County at least one (1) year prior to bid or proposal submission to do business within Miami-Dade County that authorizes the business to provide the goods, services or construction to be purchased, and a physical business address located within the limits of Miami-Dade County from which the vendor operates or performs business. Post Office Boxes are not verifiable and shall not be used for the purpose of establishing said physical address. In addition to the foregoing, a vendor shall not be considered a "local business" unless it contributes to the economic development and well-being of Miami-Dade County in a verifiable and measurable way. This may include, but not be limited to the retention and expansion of employment opportunities and the support and increase to the County's tax base. Vendors shall affirm in writing their compliance with the foregoing at the time of submitting their bid or proposal to be eligible for consideration as a "local business" under this section. A vendor who misrepresents the Local Preference status of its firm in a proposal or bid submitted to the County will lose the privilege to claim local preference status for a period of up to one (1) year. The County Manager, in his discretion, may also recommend that the firm be referred for debarment in accordance with Section 2-8.4.1 of the Code. Where the proposing entity is a joint venture, that joint venture must demonstrate that it meets the above requirements, irrespective of whether some or all of the constituent parts of such entity would otherwise qualify for local preference.
2. Request for proposals, qualifications or other submittals and competitive negotiation and selection. If, following the completion of final rankings (technical and price combined, if applicable) by the

- selection committee, a non-local business is the highest ranked Proposer, and the ranking of a local Proposer is within 5% of the ranking obtained by the non-local Proposer, then the highest ranked local Proposer shall have the opportunity to proceed to negotiations with the County under the applicable sections of the Code.
3. If a tie occurs between two (2) or more local businesses, then contract award on the basis of best and final bids, or the opportunity to proceed to negotiations, shall be made to such local business having the greatest number of its employees that are Miami-Dade County residents.
 4. The application of local preference to a particular purchase or contract for which the Board is the awarding authority may be waived upon approval of the Board. The application of local preference to a particular purchase or contract for which the County Manager is the awarding authority may be waived upon written recommendation of the Director of Procurement Management or successor and approval of the County Manager.
 5. The preferences established herein in no way prohibit the right of the Board to compare quality of materials proposed for purchase and compare qualifications, character, responsibility and fitness of all persons, firms or corporations submitting bids or proposals. Further, the preferences established herein in no way prohibit the right of the County Commission from giving any other preference permitted by law instead of the preferences granted herein.
 6. In the event Broward County, Palm Beach County or Monroe County extend preferences to local businesses, Miami-Dade County may enter into an interlocal agreement with such county wherein the preferences of this section may be extended and made available to vendors that have a valid occupational license issued by Broward County, Palm Beach County or Monroe County to do business in that county that authorizes the vendor to provide the goods, services or construction to be purchased, and a physical business address located within the limits of that county. Post office boxes are not verifiable and shall not be used for the purpose of establishing said physical address. In addition to the foregoing, a vendor shall not be considered a "local business" unless it contributes to the economic development and well-being of Broward County, Palm Beach County or Monroe County, whichever is applicable, in a verifiable and measurable way. This may include, but not be limited to, the retention and expansion of employment opportunities and the support and increase to that county's tax base. Vendors shall affirm in writing their compliance with the foregoing at the time of submitting their bid or proposal to be eligible for consideration as a "local business" under this section. In no event shall the amount of the preference accorded Broward County, Palm Beach County or Monroe County firms exceed the amount of

preference that such county extends to Miami-Dade County firms competing for its contracts. Note: An interlocal agreement has been entered into with Broward County.

7. The Proposer should complete, sign and submit the attached form, Appendix F, "Local Business Preference" with the Proposal, in order to be considered for local preference.

5.7 NEGOTIATIONS

If negotiations are recommended by the Evaluation/Selection Committee, or are required as a result of the application of local preference (see RFP Section 5.6), upon appointment and authorization by the County Manager, the Negotiation Committee will proceed to negotiate with the recommended Proposer(s). The County may award the attached Agreement on the basis of initial offers received, without discussion or negotiation. While each initial offer should contain the Proposer's best terms from a monetary and technical standpoint, the Negotiation Committee reserves the right to negotiate to better the terms than those provided by the Proposer.

If the County and the selected Proposer(s) cannot negotiate a successful agreement, the County may terminate said negotiations and begin negotiations with the next ranked responsible Proposer. This process may continue until an Agreement is executed, or the County may reject all Proposals and re-advertise. The Proposer shall not have any legal rights or otherwise against the County arising from such negotiations or termination thereof.

5.8 CONTRACT AWARD

The Contract Award, if any, shall be made to the Successful Proposer(s) whose Proposal shall be deemed by the Board to be in the best interest of the County. The Board's decision of whether to make the award and which Proposal is in the best interest of the County shall be final.

Prior to the filing of the County Manager award recommendation with the Clerk of the Board, the Proposer must execute the Agreement within forty-five (45) calendar days after such Agreement is presented to the Successful Proposer and submit proof, in a form acceptable to the Department, that the Proposer is able, post TSA inspection, to rewrap bags previously opened by TSA, which proof may include, but is not necessarily limited to, TSA's approval of Proposer, its employees, or practices. Upon notification of award recommendation, the Successful Proposer must provide the required insurance within the time specified in the Agreement.

5.9 FAILURE TO COMPLETE CONTRACT AWARD REQUIREMENTS

Failure to furnish the required evidence of insurance, proof of ability to re-wrap bags post TSA inspection, or to execute the required documents, as referenced in Section 5.8 "Contract Award", may constitute a repudiation of the Proposer's submittal, and may result in the annulment of the award and result in forfeiture of any deposits and bonds provided pursuant to this RFP. The award may then be made to the next ranked responsive/responsible Proposer, or all remaining Proposers may be rejected and the RFP re-advertised.

The Successful Proposer within forty-five (45) days of presentation of a contract for execution must provide evidence, in a form acceptable to the Department, that the Proposer is able, post TSA inspection, to rewrap bags previously opened by TSA, which proof may include, but is not necessarily limited to, TSA's approval of Proposer, its employees, or practices. The Department, at its discretion, may extend such deadlines. No extension shall be considered effective unless made in writing by the Director.

5.10 RIGHTS OF PROTEST

A recommendation for contract award or rejection of award may be protested by a bidder or proposer in accordance with the procedures contained in Sections 2-8.3 and 2-8.4 of the Code, and as established in Miami-Dade County Implementing Order No. 3-21. As a condition of initiating any protest, the protester shall present to the Clerk of the Board a non-refundable filing fee payable to the Clerk of the Board in accordance with the schedule provided below.

<u>Award Amount</u>	<u>Filing Fee</u>
\$25,001- \$100,000	\$ 500
\$100,001- \$500,000	\$1,000
\$500,001- \$5 million	\$3,000
over \$5 million	\$5,000

Any question, issue, objection or disagreement concerning, generated by, or arising from the published requirements, terms, conditions or processes contained or described in the solicitation document shall be deemed waived by the protester and shall be rejected as a basis for protest unless it was brought by that bidder or proposer to the attention, in writing, of the procurement agent, buyer, contracting officer or other contact person in the County department that issued the solicitation document, at least two (2) working days (not less than forty-eight (48) hours) prior to the hour of bid opening or proposals submission.

A protest hereunder may not challenge the relative weight of the evaluation criteria or the formula specified for assigning points therefore contained in bid, request for proposals or request for qualifications specifications which have been approved by the Commission.

Award Recommendations Over \$100,000

Notice of award recommendations for contracts and purchases involving the expenditure of over \$100,000 will be in writing, signed by the issuing department to each competing bidder or proposer announcing the proposed award, and a copy shall be deposited with the Clerk of the Board on the same day it is mailed. The bidder or proposer must file a written intent to protest with the Clerk of the Board and shall mail it to all participants in the competitive process and to the County Attorney's Office within three (3) working days of the filing of the Manager's recommendation with the Clerk. Within three (3) working days after the filing of a written intent to protest, the protester shall then file with the Clerk of the Board all pertinent documents, stating with particularity the specific facts and grounds on which the protest is based and shall include supporting evidence, as well as the corresponding filing fee, and shall mail copies to all participants in the competitive process and to the Office of the County Attorney. Other facts, grounds, documentation or evidence not contained in the protester's submission to the Clerk of the Board at the time of filing the protest shall not be permitted in the consideration of the protest, except for such additional evidence as is allowed during the course of the protest proceedings. A hearing examiner shall be appointed to hear the protest and submit a written report and recommendation to the County Manager within twenty (20) working days of the filing of the protest (maximum 25 working days if hearing examiner consents to an extension request). Failure to timely file the written protest shall constitute a waiver of the right to protest the award recommendation.

The recalculated Minimum Annual Guarantee will be used as the basis for calculating the Minimum Monthly Guarantee. **ARTICLE 14 - AIRPORT CONCESSION DISADVANTAGED BUSINESS ENTERPRISES
(ACDBE)**

- 14.01 **ACDBE REQUIREMENTS:** The Department has established an ACDBE goal of thirty percent (30%) of gross revenues in connection with this Agreement. The ACDBE goal can be achieved either through the Concessionaire being an ACDBE itself, a partner or joint venture, or subcontracting a percentage of gross revenues.

The Concessionaire will be required to submit to the Department's Minority Affairs Division, Monthly Utilization Reports (MUR) reflecting ACDBE-revenue and, Monthly Activity Report, commencing on or before the twentieth (20) day of every month.

- 14.02 **COUNTING ACDBE PARTICIPATION TOWARD CONTRACT GOALS:** When an ACDBE participates in a contract; only the value of the work actually performed by the ACDBE toward the ACDBE goal will be counted.

When a ACDBE performs as a participant in a joint venture, a portion of the total dollar value of the contract during the complete contract term, equal to the distinct clearly defined portion of the work of the contract that the ACDBE performs will be counted toward ACDBE goals as outlined in Appendix I "Airport Concession Disadvantage Business Enterprise Participation Plan/Provision" and ACDBE Joint Venture Guidance by the U.S. Department of Transportation, Federal Aviation Administration (USDOT – FAA). ACDBE, Appendix 8.

Expenditures to an ACDBE contractor toward ACDBE goals will be counted only if the ACDBE is performing a commercially useful function as defined below:

- A. An ACDBE performs a commercially useful function when it is responsible for execution of specific quantifiable work of the contract and is carrying out its responsibilities by actually performing, managing, or supervising the specific identified work.
- B. MDAD will determine whether an ACDBE is performing a commercially useful function by evaluating the specific duties outlined in the Joint Venture Agreement; the subcontract Agreement or other Agreement's in accordance with industry practices.
- C. An ACDBE does not perform a commercially useful function if its role is limited to that of an extra participant in a financial or other **transaction**, contract, or project through which **funds** are passed in order to obtain the appearance of ACDBE participation.
- D. If an ACDBE does not perform or exercise responsibility for at least seventy (70) percent of its participation or if the ACDBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that the ACDBE is not performing a commercially useful function.
- E. When an ACDBE is presumed not to be performing a commercially useful function as provided in paragraph (D) of this Section, the ACDBE may present evidence to rebut this presumption. MDAD will determine whether the firm is performing a commercially useful function given the type of work involved and normal industry practices.

MDAD's decision on commercially useful function matters is final.

The work to be performed by the ACDBE joint venture partner should be store specific including tasks and Locations; or a distinct element of work must be specified.

The ACDBE Joint Venture partner will be required to spend the minimum amount of aggregate time on-site, focused on the operation of the Concession. Such "minimum amount of aggregate time" is defined as ten (10) hours per week.

Each Joint Venture partner must submit the Monthly Utilization Reports (MURs), and a notarized Monthly report of ACDBE joint venture activity providing details of

The tenant or the tenant's A/E of Record shall confirm receipt of Review Comments with the TAC-N Project Manager on the fifteenth (15) day.

- c. Revise the construction documents to reflect the changes required by the Design Reviewers. Submit three sets of **100%** construction documents, one (1) of which must be signed and sealed by the tenant's A/E of Record. Reviewers must sign the **100%** Back Check form, and return it to the A/E and TAC-N Project Manager.

The TAC-N Project Manager will review the submittals. The MCC/TAC Chief will then provide the "Letter of Concurrence" to the tenant in order to apply for a building permit for its project. This letter is valid for a period of sixty (60) calendar days from the date of issuance. If the tenant or his N E of Record has not applied for a building permit within the sixty (60) calendar days, the Letter of Concurrence will have to be reissued.

For additional information, please call 305.869.1363.
 - e. The TAC-N Project Manager will advise the tenant of the Miami Dade GSA, Risk Management Division's insurance requirements. Prior to commencement of construction, provide the TAC-N Project Manager copies of all Certificates of Insurance as required.
 - f. Submit copies of the Construction Schedule, Design and Construction Budget (Update), and Building Permit to the TAC-N Project Manager prior to commencement of construction.
4. Pre-Construction and Construction Meetings

The TAC-N Project Manager will determine, based on the complexity and magnitude of the project, if a pre-construction meeting is required and if regular construction meetings will be required. If required, the frequency of the construction meetings will be established based on the complexity and duration of the project. Attending the meetings will be the tenant's A/E and contractor, the MDAD representative and others as may be required. If no regular scheduled construction meetings are held, the TAC-N Project Manager or his designee will periodically visit the jobsite. The permit set of drawings is required to be kept and available on the construction site at all times.

5. Project Close-Out

If required, a walk through is scheduled and coordinated through the TAC-N Project Manager. It is the responsibility of the tenant to submit copies of the following, as applicable, to the TAC-N Project Manager:

- a. The signed-off building permit (inspections) within 24 hours of its issuance.
- b. Certificate of Occupancy or Completion within 24 hours of its issuance.
- c. Warranties, manuals, instructions, etc., of any equipment that will be maintained by MDAD.
- d. Record Drawings (As-Built drawings) on Bond paper, two (2) signed and sealed set prepared by the tenant's architect of Record within thirty (30) days from the issuance date of the Certificate of Occupancy or Completion.

INSTRUCTION

GENERAL INFORMATION

Summary of Department Process for Design and Construction of TAC-R Projects

When an airport tenant wishes to improve or expand a leasehold area, the tenant must contact the MDAD Manager, Properties and Commercial Operations to discuss the proposed improvement or expansion. The Manager, Properties and Commercial Operations or designee determines whether the proposed design and construction will be a reimbursable or non-reimbursable project.

If the determination is that the proposed design and construction are reimbursable, the tenant must submit a letter to MDAD requesting approval to design and construct the project, detailing the proposed construction and providing a proposed schedule and cost estimate.

The Manager, Properties and Commercial Operations or designee prepares an instruction and forwards it to the MDAD Manager, Planning, the MDAD Design Chief, the MDAD Manager, Maintenance Engineering, the MDAD Manager, Terminal Facilities, and others as appropriate, for review and tentative approval.

If tentative approval is denied, the tenant is notified through MDAD Manager, Properties and Commercial Operations.

If tentative approval is given, the tenant is so advised through MDAD Manager, Properties and Commercial Operations and is invited to a meeting with a project conceptual review team which includes the MDAD Manager, Planning, the MDAD Design Chief, the TAC-R chief to discuss the design process, bid and award process, construction and close out process. These discussions will include cost and schedule, and the identification of a TAC-R Project Manager.

There are standard MDAD procedures for the above named processes. However, dependent on the complexity, size, location and cost of the project, the conceptual review team may, through the TAC-R chief, waive certain aspects of these standard procedural requirements.

Procedures for Design and Construction

1. The design of the project will entail the Selection of an Architect/Engineer. The procedures for this activity are outlined in MDAD Procedure FD2-005.
2. Upon selection, the *A/E* will be required to produce the following:
 - (a) A Planning Book in accordance with MDAD Procedure FD1-040-P
 - (b) A Project Book in accordance to MDAD Procedure FD1-050-P
 - (c) Design Documents in accordance with MDAD Procedure FD3-007-P
 - (d) Design includes Contract Formation in accordance with MDAD Procedure FD4-040-P3.
3. Upon satisfactory completion of the design process. the project shall be bid and awarded for construction in accordance with MDAD Procedure FD4-011-P
4. Satisfactory completion of the project is dependent on inspections consistent with MDAD Procedures for Substantial Completion and Beneficial Occupancy as outlined in MDAD Procedures FD5-195-P
5. Upon satisfactory completion of item (4) above the project will be closed out accordance with MDAD Procedures FD5-245-P
6. The Project Manager shall be mindful of the fact that the above core MDAD Procedures, with references to other Procedures, together form the broad spectrum of management structures for the project.

Independent Auditor's Report

Board of Directors
XYZ Corporation

In planning and performing our audit of the Schedule of Gross Revenues and Percentage Fees Paid to the County of XYZ Corporation for the year ended _____xx, 20xx, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion of the Schedule of Gross Revenues and Percentage Fees Paid to the County and not to provide assurance on the internal control structure. Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under the standards established by the American Institute of Certified Public Accountants.

A material weakness is a condition in which the design or operation of one or more of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the Schedule of Gross Revenues and Percentage Fees Paid to the County being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defines above.

This report is intended solely for the information and use of the Board of Directors and management of XYZ Corporation and Miami-Dade County, Florida and should not be used for any other purpose.

Independent Auditor's Report

Board of Directors
XYZ Corporation

We have audited the accompanying Schedule of Gross Revenues and Percentage Fees Paid to the County (as defined in the Lease and Concession Agreement between Miami-Dade County Florida and XYZ Corporation) of XYZ Corporation for the year ended _____ xx, 20xx. This schedule is the responsibility of XYZ Corporation's management. Our responsibility is to express an opinion on this schedule base on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Gross Revenues and Percentage Fess Paid to the County is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the schedule. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall schedule presentation. We believe that our audit provides basis for our opinion.

In our opinion, the Schedule of Gross Revenues and Percentage Fees Paid to the County referred to above presents fairly, in all material respects, the gross revenues of XZ Corporation for the year ended _____ x, 20xx and the related fees paid, as defined in the Lease and Concession Agreement referred to in the first paragraph.

This report is intended solely for the information and use of the Board of Directors and management of XYZ Corporation and Miami-Dade County, Florida and should not be used or any other purpose.

We have audited, in accordance with generally accepted auditing standards, the Schedule of Gross Revenues and Percentage Fees Paid to the County of XYZ Corporation for the year ended _____ xx, 20xx and have issued our report thereon, dated _____ xx, 20xx. We have not performed any substantive audit procedures beyond the date of our report on the Schedule of Gross Revenues and Percentage Fees Paid to the County. Accordingly, this report is based on our knowledge as of that date and should be read with that understanding.

In connection with our audit, nothing came to our attention that caused us to believe that XYZ Corporation failed to comply with the term of the Lease and Concession Agreement with Miami-Dade County, Florida insofar as they relate to the Company's book of accounts, records and reports. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance.

I. WELCOME

Welcome to the Miami International Airport family:

Miami International Airport is a family of dedicated Aviation Department county employee staff, its vendors, consultants, and Concessionaires. We number in the thousands and work closely together every day to achieve the four cornerstones upon which our mission is based: Safety and security, economic viability, customer service, and passenger service.

This standard of operations manual has been created to assist you in identifying our expectations of your inclusion into our Airport family. We believe we can meet the highest expectations of our passengers and airport patrons for an Airport, which enjoys the mixture of international and domestic passenger base but it requires your attention to detail to make this happen.

We look forward to working with you to achieve not only the standards included in this manual, but to excelling beyond these basic standards.

We welcome your input and wish you well in your new business here at the Airport.

Sincerely,

Jose Abreu, P.E. Director, Miami-Dade
Aviation Department

II. INTRODUCTION

This Standards of Operations Manual is constructed so that it addresses the events that will usually transpire as your business embarks on a relationship with the Miami International Airport.

The Lease that exists between the Concessionaire and the County is the primary legal document that defines allowable activities and conditions within the leasehold premises. Review of the Lease is recommended for further definition of activities, concession and public boundaries, and other operating rights.

A. Vision

The MIA concessions program is a world-class retailing experience for its diverse passenger mix of the culturally diverse, cosmopolitan South Florida region, and a multi-continent international gateway by providing a wide variety of international, national and local brands that offer fair and varying price points, and innovative store designs, all within a safe, vibrant shopping environment.

B. Commercial Operations Program Goals

A commitment to balance competitively priced high quality goods and services with needed passenger services and revenue to the Airport recognizing the investment by the concessionaires and achievement of our ACDBE goals.

C. Commercial Operations Program Objectives

To achieve the mission/vision and goals, commercial operations' objectives are to:

- Enhance the image of MIA as a world class airport which reflects the cosmopolitan and international nature of the community
- Enhance customer service and satisfaction by improving product choice, price points, and customer service
- Optimize sales/transactions and revenue to the Airport.
- Integrate design and location of commercial operations within the infrastructure of the Airport for passenger convenience
- Balance national, regional and local commercial operations and concessions with ACDBE representation throughout the terminal

D. Terminal Overview

The existing Miami International Airport terminal is currently configured in a horseshoe with Concourses from A to J. Security checkpoints are arranged at the entryway to each of the concourses.

A \$4.8 billion Capital Improvement Program is underway to create three terminals; the North, Central and South Terminals as described below:

North Terminal will create about 3.2 million square feet of space to accommodate the movement of aircraft, baggage and people for an international connecting hub operation. Approximately 174,000 square feet of concession space is split between food/beverage and retail. The look of the retail will be guided by our Concessionaire Design Criteria Handbook which will:

- Create a world class retail environment
- Utilize the full height of the concourse to create excitement for concessions
- Maximize the quality of presentation to third level corridors
- Compliment the architecture of the terminal with its fixtures and storefronts
- Use lighting and signage to create drama and identity
- Be outfitted with quality materials that integrate with the terminal design.

North Terminal: The North Terminal has four phases with the first phase, Zone D, having opened in May 2004 and with the next three phases opening at various stages with final completion 2011. The North Terminal will include Zones A,B,C and D.

Central Terminal: The Central Terminal includes Concourses E, F, and G. The Retail and Food & Beverage concessions include 38 stores in approximately 73,000 square feet in a landside retail program,

South Terminal: The South Terminal includes about 40,000 square feet of new concession space, in the existing H Concourse and the new J Concourse.

Miami International Airport had approximately 17.8 million domestic passengers and 14.7 million passengers in 2006.

III. GETTING STARTED AT MIA

While it is exciting and fun to work at Miami International Airport, there are some differences from working in other retail environments. This section will address some of those differences and some of the actions necessary because of those differences. We will guide you through some of the processes needed to get your employees, started working with us at **MIA**.

People Concerns - Before Beginning Employment

1. Employee Parking

A. Availability

The airport employee parking lot is available to employees of companies that lease space in the terminal building and have been authorized by the Aviation Department to utilize the employee parking facility. Employees may park in the employee parking lot only while on duty at the MIA terminal building.

B. Location and Transportation

The employee parking lot is located approximately 1 ½ miles southeast of the main terminal building. It can be accessed through LeJeune Road at N.W. 14th St. or through Perimeter Road at 15th Street. Shuttle buses provide 24-hour transportation to and from designated locations on the departure level of the terminal building with approximate headways of 5 minutes during peak times and 15 minutes during non-peak times.

C. Parking Decal Information

Employee parking decals are issued in 4, 8, or 12-month increments. Companies that will be paying for employee parking decals can establish an account and be invoiced monthly by contacting the Finance Division. Employees can pay for their parking at the Decal Section. The Decal Section is located on the ground floor of the Dolphin Garage, and is open Monday-Friday except holidays from 8:00 a.m. to 5:00 p.m. Contact the Decal Section for current employee parking rates. To register your company and establish authorized requestors for your company, please obtain sample letters from the Decal Section (tel. number: 305- 876-7567).

D. Parking Lot Safety and Security

- Access to the employee parking lot is restricted to vehicles with a valid employee parking decal and employees with valid MIA identification badges or airport authorized company identification badges. Family members/friends traveling in the same vehicle will be denied entry to the lot if they do not have a valid MIA or company I.D.
- Employees must have a valid MIA or airport approved company identification badge to ride the employee shuttle bus between the employee parking lot and the terminal building. Family members/friends are not allowed to ride the employee shuttle bus.

GETTING STARTED AT MIA (Continued)

- There are emergency telephones located at each bus shelter in the employee parking lot. These phones may be used to report personal safety issues or non-emergency situations such as the need for motorist assistance.

E. Abuse of Parking Privileges

- Employee parking decals must be permanently affixed on vehicle for which it was issued and can only be used by authorized employee.
- Parking in the employee parking lot is a privilege and may be revoked at any time for failure to comply with established procedures.

2. Badging

The Concessionaire shall be subject to all Departmental requirements and FAA mandates pertaining to the issuance of airport identification badges, including, but not limited to employee completion of SIDA training conducted by the Department and background checks, as required by the FAA Unescorted Access Privilege Rule. The Concessionaire shall pay, or cause to be paid, to the Department such nondiscriminatory charges, as may be established from time to time, for lost or stolen ID badges and those not returned to the Aviation Department. The Concessionaire will be required to conduct background investigations and to furnish certain data on such employees before the issuance of such ID badges, which data may include the fingerprinting of employee applicants for such badges.

All airport employees working need to be badged before work commences. Our badging office is located on the sixth floor of the former heliport facility adjacent to the Dolphin and Flamingo Parking Garage. It is **generally** open during business hours to accommodate users.

Badges must be displayed at all times. All airside employees must participate in additional training for this access.

The badging section has its own rules and regulations with which the concessionaire must become familiar.

3. Hiring New Employees

From time to time the Department assists concessionaires with their hiring by organizing a job fair. Contact the Employees Relations Department for more information about this opportunity.

The Concessionaire should familiarize itself with the Agreement for any required staffing levels prior to concluding hiring processes.

4. Employee Orientation

All airport employees (including Concessionaires) will need to be scheduled for an employee orientation with the Airport to receive SIDA training and customer service training (which is included in the orientation time). Please allow 90 minutes for this training, which must be accomplished prior to the employee beginning work at the Airport.

B. Other

I. Setting up Utilities

The cost of all utilities used or consumed on the Premises shall be borne by the Concessionaire. Unless the Premises are provided with separate electric, gas, and/or water meters, the Concessionaire agrees to pay for the utilities on the Premises as a monthly charge, plus any applicable taxes, upon billing by the Department, or utility companies. The Department encourages the Concessionaire to provide and install meters for utilities used at the Concessionaire's expense. See your Agreement for further detail on payment to MDAD for utility charges.

Other utilities used by the Concessionaire including telephones and telephone service hook-up, data lines and additional electrical and communications services are to be arranged for and paid by the Concessionaire. The Airport provides these type of services through its Information Technology Shared Tenant Services.

2. Use of Wireless Technologies

Any approval by the Department and subsequent installation by any Concessionaire, of a wireless network would be granted only with the explicit understanding that the Concessionaire agrees that the system be transitioned over to any future network once installed. Note that any and all costs, both one time and recurring, to be incurred as a result of the required transition to any future network shall be the responsibility of the concessionaire.

3. Banking Procedures

The bank is located on the fourth level of Concourses A and is equipped with a night depository, which is available to on-site Concessionaires. To arrange for depository services, the Concessionaire should contact the Bank to discuss procedures and fees.

It is critical that Concessionaires implement a policy and provide professional guidance for cash handling, ensuring that those staff members tasked with making deposits do so in the safest manner possible.

GETTING STARTED AT MIA (Continued)

Concessionaires are responsible for arranging procedures to ensure that all stores have the appropriate amount of change on hand.

4. Hours of Operation

All units have specific hours set that the unit is to be open and serving the public. On site personnel are responsible for knowing what their store operating hours stipulate. In some cases, depending on airline schedules caused by weather or other delays, the store may be required to stay open beyond required hours. Procedures need to be in place to keep the store open and operating during such events.

The store must have all products and services available the moment it opens. This means, for example, that the coffee must be prepared and ready to serve prior to the actual opening time the store must also keep all products available up until the time the store officially closes. It is not acceptable for store employees to begin to remove product and clean the store until the actual closing time of the store.

Airport businesses must comply with their contractual requirement to obtain the written consent of MDAD to carry out any alterations to MDAD property. This includes what might be constructed as "minor" additions and deletions like an electrical outlet.

The permit process is designed to ensure that construction is compatible with present and future airport facilities, responsibilities are appropriately assigned, ensure compliance with other jurisdictions' requirements, meet MDAD standards for design, and assist Concessionaires with the timely and safe completion of their projects.

2. Permit Application Procedure

Concessionaire must first contact MDAD's Commercial Operations Division with any plans for site improvements, alterations or construction for preliminary plan approval.

The design criteria manual for each terminal details the submittal requirements and permit process.

B. Storage

1. Designated Storage Areas

Concession storage space may be leased through MDAD Commercial Operations Division and is designated in the Agreement. These storage areas are provided for activities related to the Concessionaire's doing business at the airport including storage, display, overstock or office uses. MDAD will make every effort to satisfy individual concession storage needs, dependent on the availability of suitable space.

2. Unapproved Storage

Hazardous, combustible or flammable materials, and storage of merchandise outside or adjacent to Concessionaire's retail premises or storage area is not permitted. Storage of materials, products, or trash that blocks access to fire safety equipment, doors and other access points is also prohibited. Concessionaires that consistently abuse storage privileges will be noticed and required to clean premises or will be billed for all associated costs required to clean up or remove the unapproved materials attributed to their business.

3. Fire Safety in Storage Areas

Concessionaires using storage areas must be aware of these common storage problems and must correct them to ensure fire safety:

- Storage too close to sprinkler heads.
- Improper storage of trash, boxes, oily rags, etc. These items are better removed to disposal or recycling receptacles provided for Concessionaires.
- Improper storage of flammable and combustible liquids and aerosols.
- Blocking of exit-ways and fire equipment.

4. Damage to Storage Areas

Storage rooms and the access to those rooms are the property of MDAD. Concessionaires found to be consistently causing damage to MDAD property will be noticed and may be billed for repairs following review and discussion with MDAD as necessary.

C. Changes in Price and Product Offerings

1. Street Pricing

The Concessionaire shall not charge prices in excess of one hundred ten percent of Street Prices as defined in the Agreement. The Concessionaire will be required to submit examples of pricing periodically as indicated in the Lease Agreement. MDAD will monitor Concessionaire prices to ensure compliance.

Concessionaires are required to submit a detailed list of all services and items (and their corresponding prices) offered in their assigned premises.

Prior to adding new items or increasing prices, Concessionaires are required to inform the airport and to seek written approval from the Department.

2. Menu and Product Offerings

MDAD and the Concessionaire agrees to offer a set of products and services approved prior to the opening of the location.

Any sales by the Concessionaire of services, products, or items not specifically approved in its Agreement shall constitute a default. In the event of such default, the Concessionaire will discontinue the sale or service of the unapproved product immediately, upon written notice from the Department. Failure to discontinue such sales shall be grounds for termination of the Agreement.

To request that an additional product be sold, the Concessionaire must submit in writing for approval to the Commercial Operations Division the request inclusive of the product name and suggested price along with the required support for the establishment of the proposed price.

D. Terminal Maintenance and Operational Issues

1. Maintenance Services

MDAD's Facilities Division has, as its highest priorities, the repair and upkeep of the airfield, passenger service and common and public areas. While the concessionaire, as delineated in its lease, is responsible for maintaining its premises, MDAD is available to assist Concessionaires with other repairs and maintenance-related activities as much as manpower and work scheduling will allow. The Maintenance Department has established fees for these services, which will be billed directly to the Concessionaire.

2. Maintenance Responsibilities

A. MDAD Responsibilities

MDAD Maintenance Department is responsible for the maintenance, repair and upkeep of the following items found within the Concessionaire's premises:

equipment or custom made features of the premise. Concessionaires must also arrange for their own janitorial service.

Concessionaires also are responsible for their own extermination, which must be coordinated with the Airport

3. Contracting Maintenance Work

Concessionaires who desire maintenance work can do so by:

- Contracting with an outside vendor who is capable of completing the desired maintenance and repair to the satisfaction of MDAD and to the Concessionaire; or
- Contracting with MDAD Facilities Department for those items outside MDAD's regular maintenance responsibilities.

A. Contracting with Outside Vendor Services

Concessionaires may hire service providers such as housekeeping, extermination or telecommunications without prior MDAD approval.

However, prior to any work, a permit must be issued. Concessionaires must contact Commercial Operations to obtain the proper permit forms and approval to hire any contractor who may impact airport operations such as electricians, phone repair, plumbers, etc.

Vendor must meet or exceed the original materials and workmanship and conform to any federal, state or local regulations. All work shall be subject to inspection by MDAD.

B. Contracting with Airport Facilities

Contact the MDAD Facilities (305-876-7311) to request a work order. Requests made 24 hours in advance of need are appreciated. For non-emergency requests, allow a maximum turn-around time of two weeks. Concessions contracting with the Maintenance Division will be billed on an hourly basis for manpower and the cost of supplies.

When requesting maintenance services, Concessionaires should identify the item in need of attention and time frame for completion. Efforts will be made to meet the request in a timely manner, depending on the department's manpower level and workload. Concessionaires should limit their requests to the Maintenance Division for maintenance and repair only, and not for making improvements or involving new construction.

4. Emergency Maintenance

The Facilities Division will respond to emergencies as a priority. Concessionaire should make clear in its request to the dispatch that an emergency situation exists for immediate attention. Examples of emergency maintenance requests are broken water pipes or any other uncontrollable leakage, broken display window glass, inoperable entry gate, etc.
