Agenda Item No. 8(P)(1)(B)

RECOMMENDATION

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing the execution of a Joint Participation Agreement (JPA) between Miami-Dade County and the City of Miami (City) for the Venetian Causeway Streetscape Project.

SCOPE

This JPA will provide for improvements along the portion of the Venetian Causeway that lies within the City of Miami in Commission District 3.

FISCAL IMPACT/FUNDING SOURCE

The total cost of construction for the entire length of the project is \$7,869,179. Funding for the project will be provided by Federal and Local sources. This Agreement will provide up to \$1,900,000 in City of Miami Street Bond Program Funds, as well as reimbursement of up to \$296,465 from City of Miami Street Bond Program/FDEP Funds/Sunshine State Loan for the design (\$26,465) and construction (\$270,000) of elements of the City's stormwater system that the City requested be incorporated into the Project, for a total of \$2,196,465. In addition, this Agreement will provide the transfer to the County of up to \$1,000,000 in Federal Surface Transportation Enhancement Program Funds that the City applied for and received for the construction of the project through the Florida Department of Transportation (FDOT). Additional funds will be provided by:

- a) City of Miami Beach General Obligation Bond Funds - \$1,564,179
- b) City of Miami Beach Surface Federal Surface Transportation Enhancement Program Funds - \$1,000,000
- c) Miami-Dade County – Federal Surface Transportation Enhancement Program Funds - \$585,000
- d) Miami-Dade County Road Impact Fee District 8 Funds - \$550,000
- e) Miami-Dade County - Sunshine State Loan Funds - \$1,000,000

To summarize, the total construction cost of \$7,869,179 plus the design cost of the elements of the City's stormwater system of \$26,465 totals \$7,895,644.

Miami-Dade County and the Cities of Miami and Miami Beach have executed their respective Local Agency Program (LAP) Agreements with FDOT in order to receive the aforementioned Federal funds reimbursements for the project. The reimbursement of these funds will be requested by the Cities and

these funds as well as City funds committed to the project will be provided to the County for the construction of the project.

The City's funding of the non-FDOT portion of this contract is subject to the availability of \$2,196,465 in proceeds from the pending issuance of the aforementioned City bonds. Prior to this item appearing before the BCC for final approval, the status of the issuance of these bonds will be established.

The County and the City of Miami Beach will also execute a JPA under a separate item to provide for improvements along the portion of the Venetian Causeway that lies within the City of Miami Beach.

DELEGATION OF AUTHORITY

No additional authority is being requested within the body of this contract.

TRACK RECORD/MONITOR

The City of Miami will utilize the resources of the County to contract, construct and administer these improvements on a reimbursable basis. Disbursement of funds to the County shall be based upon County invoices with certified copies of paid contractor estimates. The project will be assigned to Mr. Bassam Moubayed, CFM, Chief, Construction Division, who will oversee inspections conducted by Public Works Department (PWD) staff.

BACKGROUND

The Venetian Causeway Streetscape Improvements Project is a joint effort between the County and the Cities of Miami and Miami Beach, in accordance with the Venetian Causeway Neighborhood Alliance. It will include roadway beautification enhancements and improvements to the Venetian Causeway; such as stormwater improvements, sidewalks, curb and gutters, raised landscape medians, continuous bike lanes, decorative roadway lighting, tree planting, signalization, pavement markings, signage, and other streetscape improvements including, but not limited to gateway signage and colored concrete crosswalks. The improvements shall also include elements of the City's stormwater system that are located, traverse, or cross (trunk lines, cross-drains, manholes, etc.) the County's right-of-way or roadway footprint as deemed necessary by the City to accommodate future improvements to its stormwater system. These stormwater system improvements constructed on behalf of the City will be maintained by the City.

The construction of the Venetian Causeway Streetscape Project will not conflict with the ongoing rehabilitation of the Venetian Causeway bridges. PWD will implement a Public Involvement Plan (PIP) during the construction of the project to provide information to all affected property owners, tenants, and area residents of the work to be performed in the area. On June 11, 2009, the Miami City Commission adopted Resolution No. 09-0280 approving this JPA. The project is anticipated to commence by the end of October 2009 and be completed by the end of October 2010.
