

Memorandum

Date: October 6, 2009

To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

From: George M. Burgess
County Manager 

Subject: Resolution Authorizing Ratification of Submission of a Grant Application with the United States Environmental Protection Agency (EPA) to Provide Federal Funding from the National Clean Diesel Funding Assistance Program under the American Recovery and Reinvestment Act of 2009 (ARRA) in the Amount of \$731,850

Agenda Item No. 18(A)(1)

RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) ratify the Mayor's, or Mayor's designee's, submission of an application for a grant on behalf of Miami-Dade County with the United States Environmental Protection Agency (EPA) for \$731,850 from its National Clean Diesel Funding Assistance Program under the American Recovery and Reinvestment Act of 2009 (ARRA). It is further recommended that the Board authorize the receipt and expenditure of funds pursuant to the application, and the execution of such contracts, agreements, Memorandum of Understanding (MOU), and amendments, after approval by the County Attorney, as required by grant guidelines. Ratification of this application is necessary due to the short timeframe imposed by the ARRA grant opportunity.

SCOPE

As these funds provide support for a major bus replacement project, the impact of this grant will be countywide.

FISCAL IMPACT/FUNDING SOURCE

As per grant guidelines, funding can only pay for up to 25% of the cost for each new hybrid transit bus. The cost for each new hybrid transit bus is \$625,000, and the total cost for five new buses is \$3,125,000. The cost of \$625,000 per vehicle represents an increase of \$30,000 for each bus, up from the \$595,000 shown in the application due to new 2010 emission requirements. These requirements increased the overall project cost by \$150,000 from \$2,975,000 to \$3,125,000.

The total grant would provide \$731,850 which is 23.4% of the total cost. The balance of the project costs, \$2,393,150, is being provided by Miami-Dade County through the Charter County Transit System Sales Surtax (Surtax), Series 2009 Bond issuance which is already allocated and approved for the purpose of purchasing hybrid transit buses and the Series 2010 Bond Surtax issuance.

TRACK RECORD/MONITOR

The award will be received via a Cooperative Agreement between the EPA – Region 4 and Miami-Dade Transit (MDT). MDT has a prior history of involvement in successful projects including vehicle acquisition. MDT will handle the disbursement and expenditure of grant funds, and manage the programmatic and fiscal records in accordance with the project reporting and auditing procedures stipulated by the EPA and the ARRA. The staff responsible for managing this grant is Patricia Barry, Coordinator, MDT Grants Division.

DELEGATED AUTHORITY

In accordance with Section 2-8.3 of the Miami-Dade County Code related to identifying delegation of Board authority, there are no authorities beyond that specified in the attached.

BACKGROUND

On February 17, 2009, President Obama signed the American Recovery and Reinvestment Act of 2009 (a/k/a, Recovery Act or ARRA). The Recovery Act seeks, in part, to spur technological advances in science and health and to invest in environmental protection and other infrastructure which will provide long-term economic benefits. The EPA manages projects and programs that will help achieve these goals, offers resources to help other agencies "green" a much larger set of Recovery investments, and administer environmental laws that will govern ARRA activities.

MDT originally submitted this application for funding under the EPA – Southeast Diesel Collaborative (SEDC) FY 2008-2009 Diesel Program Grant Application on June 12, 2008. Due to limited funding, the application was not awarded. However, in June 2009, MDT was notified by the EPA – Region 4 that due to the availability of ARRA 2009 funding, the EPA was reconsidering the 2008-2009 County application. Therefore, MDT needed to quickly update and make modifications to the original application and submit to the EPA for reconsideration under the ARRA stimulus funding. Therefore, the immediate action requested by the EPA did not allow sufficient time for the processing of a resolution and its submission to the Board prior to the summer recess.

The Recovery Act funding from the EPA – Region 4 will be used for a vehicle (bus) replacement project which would further facilitate MDT's transition to hybrid technology; the first prototype of which is expected February 2010. Grant funding will be used to support the replacement/scraping of fourteen (14) 30-foot North American Bus Industries (NABI) 30 LFN Optare diesel transit buses, with five (5) 40-foot GILLIG diesel-electric hybrid transit buses. These buses will meet the EPA 2010 Heavy-Duty Emissions Standards for Urban Bus Engines and have exhaust gas recirculation (EGR) technology diesel particulate filters, and urea exhaust after treatment. The project is also expected to create and/or preserve approximately 44 direct or indirect jobs, per the Manufacturers of Emission Controls Association EPA/ARRA formula (Attachment B).

This shall be accomplished by identifying expenditures for Federal awards made under Recovery Act separately on the SEFA, and as separate rows under Item 9 of Part III on the SF-SAC by CFDA number, and inclusion of the prefix "ARRA-" in identifying the name of the Federal program on the SEFA and as the first characters in Item 9d of Part III on the SF-SAC.

(c) Recipients agree to separately identify to each sub-recipient, and document at the time of sub-award and at the time of disbursement of funds, the Federal award number, CFDA number, and amount of Recovery Act funds. When a recipient awards Recovery Act funds for an existing program, the information furnished to sub-recipients shall distinguish the sub-awards of incremental Recovery Act funds from regular sub-awards under the existing program.

(d) Recipients agree to require their sub-recipients to include on their SEFA information to specifically identify Recovery Act funding similar to the requirements for the recipient SEFA described above. This information is needed to allow the recipient to properly monitor sub-recipient expenditure of ARRA funds as well as oversight by the Federal awarding agencies, Offices of Inspector General and the Government

Accountability Office.

Programmatic Conditions

1. Substantial Federal Involvement for Cooperative Agreements

EPA will provide substantial involvement in the form of technical assistance, development of outputs, and oversight. Specifically, substantial federal involvement will take the form of monitoring the project by EPA; participation and collaboration between EPA and the recipient in program content; review of project progress, and quantification and reporting of results; Recipient agrees to comply with 40 C.F.R. 31 for assistance agreements.

2. Emissions Control Technologies

Certified engine configurations and/or verified technologies must be used for Emissions Control Projects funded by the recipient pursuant to this assistance agreement. Technologies are verified under EPA or California's Retrofit Verification Program. See <http://www.epa.gov/otaq/retrofit/retroverifiedlist.htm> for an updated list of EPA's verified technologies and <http://www.arb.ca.gov/diesel/verdev/vt/cvt.htm> for a list of CARB's verified technologies. Any question as to the preference of a retrofit technology, including engine replacement and repowers, should be directed to the EPA Project Officer.

3. Quarterly Reporting and Environmental Results

Quarterly progress reports will be required. Quarterly reports are considered project status reports and will address the progress made regarding achieving the work plan goals. In general, quarterly reports will include summary information on technical progress, planned activities for next quarter and expenditures. Award recipients will be provided with additional information and guidance on reporting performance measures and project progress, including those related to the Recovery Act, and a schedule for submission of quarterly reports, after award. Recipient agrees to comply with Division A, Title XV, Subtitle A, §1512 of the Recovery Act (section 1512) and any other regulations or guidance related to the reporting requirements of section 1512 of the Recovery Act issued by the OMB or EPA.

The first reporting period begins at the project start date.

Q1: October 1 -December 31

Q2: January 1 - March 31

Q3: April 1- June 30

Q4: July - September 30

This quarterly reporting schedule shall be repeated for the duration of the award agreement.

4. Final Report:

The final project report will include a summary of the project or activity, actual results (outputs and outcomes) and costs, the successes and lessons learned for the entire project as well as all categories of information required for quarterly reporting. This report shall be submitted to the Project Officer within 90 days after the expiration or termination of the assistance agreement. Recipient understands that the final report will include actual emissions benefit calculations and an updated, detailed fleet description. Recipient agrees to comply with Division A, Title XV, Subtitle A, §1512 of the Recovery Act (section 1512) and any other regulations or guidance related to the reporting requirements of section 1512 of the Recovery Act issued by the OMB or EPA.

5. Use of Funds Restriction :

Recipient agrees that funds under this award cannot be used for emissions reductions that are mandated under Federal, State or local law. This refers to specific compliance dates within the mandate, not when the mandate is passed. Voluntary or elective emissions reductions measures shall not be considered to be "mandated", regardless of whether the reductions are included in the State implementation plan of a State.

6. Delays or Favorable Developments :

The recipient agrees that it will promptly notify EPA of any problems, delays, or adverse conditions which may materially impair its ability to deliver on the outputs /outcomes specified in the work plan. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation. The recipient agrees that it will also notify EPA of any favorable developments which may enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more beneficial results than originally planned.

7. Procurement and Sub -grant Procedures :

The recipient must follow applicable procurement and sub-grant procedures. EPA will not be a party to these transactions. If EPA funds are used to purchase goods or services, Recipient agrees to compete the contracts for those goods and services and conduct cost and price analyses to the extent required by the fair and open competition for procurement provisions of 40 CFR Part 31, as appropriate. Approval of a funding proposal does not relieve recipients of their obligations to compete service contracts, conduct cost and price analyses, and use sub-grants only for financial assistance purposes, in accordance with Subpart B Section .210 of OMB Circular A-133.

8. Employee and /or Contractor Selection :

EPA will not help select employees or contractors hired by the recipient.

9. Program Income :

If program income is generated during the course of the project, program income requirements apply. Program income is defined as gross income received by the grantee or subgrantee directly generated by a grant supported activity, or earned only as a result of the grant agreement during the grant period. "During the grant period" is the time between the effective date of the award and the ending date of the award reflected in the final financial report. Program income earned during the project period shall be retained by the recipient and, in accordance with 40 CFR Parts 31.25, recipient is authorized to use program income as follows:

(a) Program income may be added to funds committed to the project by EPA and recipient and used to further eligible project or program objectives. The program income shall be used for the purposes and under the conditions of the grant agreement.

(b) Program income may be used to finance the non-Federal share of the project or program, including any mandatory or voluntary cost-share. The amount of the Federal grant award remains the same.

(c) Deducted from the total project or program allowable cost in determining the net allowable costs on which the Federal share of costs is based. This means that the recipient shall spend program income on project activities before spending/requesting federal funds for project activities. This may result in unspent federal funds at the end of the project period.

The recipient will maintain records adequate to document the extent to which transactions generate program income and the disposition of program income.

10. Scrappage and/or Remanufacture :

The recipient agrees to complete scrappage or remanufacture in the case of repowers and replacements for all projects funded under this assistance agreement, including subawards/subgrants. To be considered a repower or replacement, the purchase of new vehicles, engines, and equipment must be accompanied by the scrappage or remanufacturing of old vehicles, engines and equipment. The purchase of new vehicles, engines or equipment to expand a fleet is not covered by this assistance agreement.

Scrappage is defined as a permanently disabled engine or vehicle, no longer suitable for use. Engine scrappage can be completed by drilling a hole in the engine block and manifold. Vehicle scrappage requires permanently disabling the chassis, e.g. cutting it in half. Other acceptable scrapping methods may be considered, with EPA approval. Owner/operators of the original vehicle or equipment may retain

26

possession of the scrapped engine and chassis.

If remanufactured, scrapped or salvaged engines/vehicles are to be sold, program income requirements apply. Evidence of appropriate disposal, including the engine serial number and/or Vehicle Identification Number (VIN), is required in a final assistance agreement report submitted to EPA.

For engine repower and/or vehicle replacement, the recipient agrees to the following:

- a. The vehicle, engine, or equipment being replaced will be scrapped within ninety (90) days of the replacement, or the replaced vehicle, engine, or equipment will be returned to the original engine manufacturer for remanufacturing to a cleaner standard;
- b. The replacement vehicle, engine, or equipment will perform the same function as the vehicle, engine, or equipment that is being replaced (e.g., an excavator used to dig pipelines would be replaced by an excavator that continues to dig pipelines);
- c. The replacement vehicle, engine, or equipment will be of the same type and similar gross vehicle weight rating or horsepower as the vehicle, engine, or equipment being replaced (e.g., a 300 horsepower bulldozer is replaced by a bulldozer of similar horsepower);
- d. **Early Replacement:** Funds may be used for the early replacement of vehicles, engines and/or equipment. Emission reductions that result from vehicle, engine, or equipment replacements that would have occurred through normal attrition are considered to be the result of normal fleet turnover and are not eligible costs under this assistance agreement. The recipient must provide evidence that the replacement activity would not have occurred without the financial assistance provided by EPA. Supporting evidence can include verification that the vehicles or equipment being replaced have useful life left and fleet characterization showing fleet age ranges and average turnover rates.
- e. For tire replacement projects, the original tires should be scrapped according to local or state requirements, or the tires can be salvaged for reuse or retreading. The salvaged value of the original tires must be treated as program income.

11. Uniform Administrative Requirements

Recipient agrees to comply with 40 C.F.R. Part 31, Uniform Administrative Requirements for Grants and Cooperative Agreements to States and Local Governments.

Work under this agreement must be completed in accordance with the approved work plan submitted with the application dated

April 30, 2009. Recipient agrees to obtain the prior approval of EPA for any revision of the scope or objectives of the project or the need to extend the period of availability of funds, in accordance with 40 CFR Section 31.30.

Recipient shall consult the Project Officer regarding whether a budget or work plan revision constitutes a change in the scope or the objective of the project or program.

12. Equipment Disposition :

Recipient agrees that at the end of the project period the equipment acquired under this assistance agreement will be subject to the property disposition regulations at 40 CFR 31.32.

State agencies may use, manage, and dispose of equipment acquired under assistance agreements in accordance with State laws and procedures.

Wage Rate Requirements under Section 1606 of the American Recovery and Reinvestment Act of 2009 for Diesel Emissions Reductions Projects

Preamble

Section 1606 of the Recovery Act requires that all laborers and mechanics employed by contractors and subcontractors on projects funded directly by or assisted in whole or in part by and through the Federal Government pursuant to the Recovery Act shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of chapter 31 of title 40, United States Code.

Pursuant to Reorganization Plan No. 14 and the Copeland Act, 40 U.S.C. 3145, the Department of Labor has issued regulations at 29 CFR Parts 1, 3, and 5 to implement the Davis-Bacon and related Acts. Regulations in 29 CFR 5.5 instruct agencies concerning application of the standard Davis-Bacon contract clauses set forth in that section. Federal agencies providing grants, cooperative agreements, and loans under the Recovery Act shall ensure that the standard Davis-Bacon contract clauses found in 29 CFR 5.5(a) are incorporated in any resultant covered contracts that are in excess of \$2,000 for construction, alteration or repair (including painting and decorating).

For additional guidance on the wage rate requirements of section 1606, contact your awarding agency. Recipients of grants, cooperative agreements and loans should direct their initial inquiries concerning the application of Davis-Bacon requirements to a particular federally assisted project to the Federal agency funding the project. The Secretary of Labor retains final coverage authority under Reorganization Plan Number 14.

For the purposes of this term and condition, EPA has determined that the following Diesel Emissions Reduction activities are subject to the Davis Bacon Act (DBA).

Construction activities conducted in conjunction with the installation of any diesel emissions reduction technology, such as the installation of a Truck Stop Electrification (TSE) system.

Construction activities conducted in conjunction with the installation or replacement of a heavy generator .

Installation of verified technologies by construction laborers and/or construction mechanics on-site at a construction site on vehicles and/or equipment at the construction site.

Repower projects conducted by construction laborers and/or construction mechanics on-site at a construction site on vehicles and/or equipment at the construction site.

Most other DERA funded activities, such as other retrofit, repower, and replacement projects do not trigger DBA requirements. However, if a recipient encounters a unique situation at a site that presents uncertainties regarding David Bacon applicability, the recipient must discuss the situation with EPA before authorizing work on that project.

Recipient shall comply with Division A, Title XVI, §1606 of the Recovery Act, where applicable. Pending a final award condition and guidance from EPA, projects subject to the Davis Bacon Act, as defined above, shall not proceed with any contract bidding or contract in excess of \$2,000 which is entered into for the actual construction, alteration and/or repair, including painting and decorating, of a public building or public work, or building or work financed in whole or in part from Federal funds or in accordance with guarantees of a Federal agency or financed from funds obtained by pledge of any contract of a Federal agency to make a loan, grant or annual contribution (except where a different meaning is expressly indicated), and which is subject to the labor standards provisions of any of the acts listed in 29 CFR § 5.1.

**ATTACHMENT: JOBS CALCULATION FORMULA CALCULATION FOR
DIESEL EMISSIONS REDUCTION ACT GRANTS**

For this application, Miami-Dade Transit is using the formula provided by the Manufacturers of Emission Controls Association (MECA) that is being widely used. Using this formula, which builds on the study conducted by Keybridge Research regarding the macroeconomic impacts associated with DERA funding, allows for all projects to be consistently reviewed on their ability to preserve or create jobs and promote economic recovery, and to maximize job creation and economic benefit, as outlined by the RFA.

Miami-Dade Transit will replace five of the oldest vehicles in its fleet with buses that use Diesel-Electric Hybrid technology. Using the Jobs per Millions figure from the MECA study, the number of jobs that will be created is calculated as follows:

Total Project Cost (in millions) - (TPC) = \$2.975
Percent of TPC for Retrofit (as a decimal number) - RT = 0.0
Percent of TPC for Replacement (as a decimal number) - RP = 1.0

Jobs/Million = (0.0)(21.15) + (1.0)(14.9) =14.9

Total Jobs = 14.9 x 2.975 = 44.3275

The total number of jobs that will be created by the replacement of five Transit buses will be 44.3275 jobs.
