Background

BACKGROUND:

The existing bridge is a Warren Pony Truss Swing Bridge located on NW South River Drive between NW 19th Street and NW 32nd Avenue. Built in 1921 and relocated to its current location in the early 1940's, the existing bridge crosses the Tamiami Canal (C-4) and is one of the oldest bridges on the Miami River system.

The bridge has deteriorated over the years and has suffered structural damage due to age and vehicular and vessel impacts. This deterioration has caused restrictions on the allowed loads on the bridge.

The bridge is also classified as functionally obsolete and there are concerns about vehicular and pedestrian safety and also about future capacity needs. The Florida Department of Transportation (FDOT) has identified this bridge as structurally deficient and has given it a Sufficiency rating of 26 out of 100. Any bridge with a rating under 50 is eligible for replacement.

PWD has already completed a major rehabilitation project that addressed deficiencies in the operating system and a few of the most urgent structural repairs. The construction contract amount was \$ 890,000. Although this rehabilitation has allowed for the continued operation of the bridge for an estimated 5 to 10 years, major deficiencies still exist that require the complete replacement of the bridge.

Background

BACKGROUND:

The existing bridge is a Warren Pony Truss Swing Bridge located on NW South River Drive between NW 19th Street and NW 32nd Avenue. Built in 1921 and relocated to its current location in the early 1940's, the existing bridge crosses the Tamiami Canal (C-4) and is one of the oldest bridges on the Miami River system.

The bridge has deteriorated over the years and has suffered structural damage due to age and vehicular and vessel impacts. This deterioration has caused restrictions on the allowed loads on the bridge. The bridge is also classified as functionally obsolete and there are concerns about vehicular and pedestrian safety and also about future capacity needs.

Additionally, the length of the bridge prevents widening of the existing narrow channel and thus causes negative impacts on storm water management's efforts.

Notice to Proceed which authorized the services performed and/or expenses incurred.

- b. The amount of invoices submitted shall be comprised of the amounts due for all services performed and/or reimbursable expenses incurred to date in connection with authorized work, less previous payments. The amounts due for professional services and/or reimbursable expenses shall be calculated in accordance with Subsections VI(A)(1) and VI(A)(3) hereof, respectively. Invoiced reimbursable expenses must be substantiated by copies of receipts and other documentation as necessary.

2. Lump Sum Fee

- a. The ENGINEER shall submit duly certified invoices in triplicate to the Director. Each invoice shall be referenced to the particular Notice to Proceed which authorized the services performed and/or expenses incurred.
- b. The amount due of invoices submitted shall be calculated by applying the percentage of the total work completed to date to the authorized lump sum, and subtracting any previous payments. Invoiced reimbursable expenses must be

substantiated by copies of receipts and other documents as necessary.

SECTION IX - RIGHT OF DECISIONS

All services shall be performed by the ENGINEER to the satisfaction of the Director, who shall decide all questions, difficulties, and disputes of whatever nature which may arise under or by reasons of this Agreement, the prosecution and fulfillment of the services thereunder, and the character, quality, amount and value thereof. The Director's decisions upon all claims, questions and disputes shall be final, conclusive and binding upon the parties hereto unless such determination is clearly arbitrary or unreasonable. Adjustments of compensation and time for completion of services thereunder, due to any major changes in the work, which might become necessary or be deemed desirable as the work progresses, shall be left to the absolute discretion of the Director. In the event the ENGINEER does not concur with the decisions of the Director, the ENGINEER may present any such objections in writing to the County Manager. The Director and the ENGINEER shall abide by the decisions of the County Manager. This paragraph does not constitute a waiver of any party's right to proceed in a court of competent jurisdiction.

SECTION X - OWNERSHIP OF DOCUMENTS

All notes, correspondence, documents, designs, drawings, renderings, calculations, specifications, models, photographs, reports, surveys, investigations, and any other documents and copyrights thereto for Services performed or produced in the performance of this Agreement, whether in paper or other hard copy medium or in electronic medium, except with respect to copyrighted standard details and designs owned by the ENGINEER or owned by a third party and licensed to the ENGINEER for use and reproduction, shall become the property of the COUNTY without restrictions or limitations upon their use and shall be made available by the ENGINEER at any time upon request by the COUNTY. However, the COUNTY may grant an exclusive license of the copyright to the ENGINEER for reusing and reproducing copyrighted materials or portions thereof as authorized by the COUNTY in advance and in writing. In addition, the ENGINEER shall not disclose, release, or make available any document to any third party without prior written approval from the COUNTY. The ENGINEER shall warrant to the COUNTY that he/she has been granted a license to use and reproduce any standard details and designs owned by a third party and used or reproduced by the ENGINEER in the performance of this Agreement. Nothing contained herein shall be deemed to exclude any document from Chapter 119 of the Florida Statutes. Reuse of such data by the COUNTY for any purpose other than that for which prepared shall be at the COUNTY's sole risk. When each individual section of work

requested pursuant to this Agreement is complete, all of the above data shall be delivered to the Director.

The COUNTY shall have the right to modify the plans, or reports, or any components thereof without permission from the ENGINEER or without any additional compensation to the ENGINEER. The ENGINEER shall be released from any liability resulting from such modification.

SECTION XI - REUSE OF DOCUMENTS

The ENGINEER may reuse data from other sections of the work included in this Agreement provided irrelevant material is deleted. The Director shall not accept any reused data containing an excess of irrelevant material, which has no connection with the applicable portion of the work.

SECTION XII - CORRECTIONS TO CONTRACT DOCUMENTS

For any services provided under this agreement, the ENGINEER shall prepare, without added compensation, all necessary supplemental documents to correct errors, omissions, and/or ambiguities which may exist in the plans and Contract Documents prepared by the ENGINEER including the documents prepared by its subconsultants. Compliance with this Article shall not be construed to relieve the ENGINEER from any liability resulting from any such errors, omissions, and/or ambiguities in the plans and Contract Documents and other documents or Services related thereto.

The ENGINEER must adhere to the approved budget, and all changes resulting from design errors and omissions will be catalogued by the Public Works Department and will be shared with the members of selection committees for future projects.

SECTION XIII - COURT APPEARANCES AND CONFERENCES

Nothing in this Agreement shall obligate the ENGINEER to prepare for or appear in litigation on behalf of the COUNTY except in consideration of additional compensation. The amount of such compensation shall be mutually agreed upon and embodied in a Supplemental Agreement subject to approval by the Board of County Commissioners. Only upon said approval of a Supplement Agreement, and subsequent receipt of written authorization from the Director, shall the ENGINEER be obligated to Court appearances.

SECTION XIV - NOTICES

Any notices, reports or other written communications from the ENGINEER shall be considered delivered when posted by certified mail or delivered in person to the Director. Any notices, reports or other communications from the COUNTY to the ENGINEER shall be considered delivered when posted by certified mail to the ENGINEER at the last address left on file with the COUNTY or delivered in person to said ENGINEER or the ENGINEER's authorized representative.

SECTION XV - ABANDONMENT

In the event the COUNTY causes abandonment, cancellation, or suspension of the projects or parts thereof, the ENGINEER shall be compensated for all services rendered consistent with the terms of this Agreement up to the time the ENGINEER receives written notification of such abandonment, cancellation or suspension. This compensation shall be determined on the basis of the percentage of the total services, which have been performed at the time the ENGINEER receives such notice. In the event partial payment has been made for professional services not performed, the ENGINEER shall return such sums to the COUNTY within ten (10) days after receipt of written notice that such sums are due.

SECTION XVI - AUDIT RIGHTS AND IPSIG

According to Section 2-1076 of the Code of Miami-Dade County, Miami-Dade County has established the Office of the Inspector General (IG) which may, on a random basis, perform audits, inspections, and reviews of all County/Trust contracts. This random audit is separate and distinct from any other audit by the County. To pay for the functions of the Office of the Inspector General, any and all payments to be made to the Engineer under this contract will be assessed one quarter (1/4) of one (1) percent of the total amount of the payment, to be deducted from each progress payment as the same becomes due unless, as stated in the Special Conditions, this Contract is federally or state funded where federal or state law or

regulations preclude such a charge. The Engineer shall in agreeing to the terms be mindful of this assessment, which will not be separately identified, calculated or adjusted in the proposal or bid form. The audit cost shall also be included in all change orders and all contract renewals and extensions.

The Miami-Dade Office of the Inspector General is authorized to investigate County affairs and empowered to review past, present and proposed County and Public Health Trust programs, accounts, records, contracts and transactions. In addition, the Inspector General has the power to subpoena witnesses, administer oaths, require the production of witnesses and monitor existing projects and programs. Monitoring of an existing project or program may include a report concerning whether the project is on time, within budget and in conformance with plans, specifications and applicable law. The Inspector General shall have the power to audit, investigate, monitor, oversee, inspect and review operations, activities, performance and procurement process including but not limited to project design, bid specifications, (bid/proposal) submittals, activities of the Engineer, its officers, agents and employees, lobbyists, County and Public Health Trust staff and elected officials to ensure compliance with contract specifications and to detect fraud and corruption.

Upon ten (10) days written notice to the Engineer shall make all requested records and documents available to the Inspector General for inspection and copying. The Inspector General shall

have the right to inspect and copy all documents and records in the Engineer's possession, custody or control which in the Inspector General's sole judgment, pertain to performance of the contract, including, but not limited to original estimate files, change order estimate files, worksheets, proposals and agreements from and with successful subconsultants and suppliers, all project-related correspondence, memoranda, instructions, financial documents, construction documents, (bid/proposal) and contract documents, back-change documents, all documents and records which involve cash, trade or volume discounts, insurance proceeds, rebates, or dividends received, payroll and personnel records and supporting documentation for the aforesaid documents and records.

The Engineer shall make available at its office at all reasonable times the records, materials, and other evidence regarding the acquisition (bid preparation) and performance of this contract, for examination, audit, or reproduction, until three (3) years after final payment under this contract or for any longer period required by statute or by other clauses of this contract. In addition:

1. If this contract is completely or partially terminated, the Engineer shall make available records relating to the work terminated until three (3) years after any resulting final termination settlement; and
2. The Engineer shall make available records relating to appeals or to litigation or the settlement of claims

arising under or relating to this contract until such appeals, litigation, or claims are finally resolved.

The provisions in this section shall apply to the Engineer, its officers, agents, employees, subconsultants and suppliers. The Engineer shall incorporate the provisions in this section in all subcontracts and all other agreements executed by the Engineer in connection with the performance of this contract. Nothing in this section shall impair any independent right to the County to conduct audits or investigative activities. The provisions of this section are neither intended nor shall they be construed to impose any liability on the County by the Engineer or third parties.

Exception: The above application of one quarter (1/4) of one percent fee assessment shall not apply to the following contracts:

(a) IPSIG contracts; (b) contracts for legal services; (c) contracts for financial advisory services; (d) auditing contracts; (e) facility rentals and lease agreements; (f) concessions and other rental agreements; (g) insurance contracts; (h) revenue - generating contracts; (i) contracts where an IPSIG is assigned at the time the contract is approved by the Trust; (j) professional service agreements under \$1,000; (k) management agreements; (l) small purchase orders as defined in Miami-Dade County Administrative Order 3-2; (m) federal, state and local government-funded grants; and (n) interlocal agreements. Notwithstanding the foregoing, the County may

authorize the inclusion of the fee assessment of one-quarter (1/4) of one percent in any exempted contract at the time of award.

Nothing contained above shall in any way limit the powers of the Inspector General to perform audits on all Trust contracts including, but not limited to, those contracts specifically exempted above.

SECTION XVII - SUBCONTRACTING

The ENGINEER shall not subcontract, assign or transfer any work under this Agreement without the written consent of the Director. When applicable and upon receipt of such consent in writing, the ENGINEER shall cause the names of the firms responsible for the major portions of each separate specialty of the work to be inserted in the pertinent documents or data.

SECTION XVIII - WARRANTY

The ENGINEER warrants that the services furnished to the COUNTY under this Agreement shall conform to the quality expected of and usually provided by the profession in the State of Florida applicable to the design, inspection and construction of Public Works projects including roadway and bridge structures.

The ENGINEER warrants that no companies or persons, other than bona fide employees working solely for the ENGINEER or the COUNTY authorized subconsultants, have been returned or employed to solicit or secure this Agreement or have been paid or guaranteed payment of

any fees, commissions, percentage fees, gifts or any other considerations contingent upon or resulting from the award or making of this Agreement. The ENGINEER also warrants that no COUNTY personnel, whether full-time or part-time employees, have or shall be retained or employed in any capacity, by the ENGINEER or the COUNTY approved subconsultants, to accomplish the work contemplated under the terms of this Agreement. For breach or violation of this warranty, the Director shall have the right to annul this Agreement without liability.

SECTION XIX - TERMINATION OF AGREEMENT AND SANCTIONS FOR CONTRACTUAL VIOLATIONS

It is expressly understood and agreed that the COUNTY may terminate this Agreement, in total or in part, without cause or penalty, by thirty (30) days prior notification in writing from the Director; in which event the COUNTY's sole obligation to the ENGINEER shall be payment in accordance with Sections V and VI, for those units or sections of the work previously authorized. Such payment shall be determined on the basis of the hours or the percentage of the total work performed by the ENGINEER up to the time of termination. In the event partial payment has been made for professional services not performed, the ENGINEER shall return such sums to the COUNTY within ten (10) days after receipt of written notice that said sums are due. Upon termination, the COUNTY may,

without penalty or other obligations to the ENGINEER, elect to employ others to perform the services.

The COUNTY may terminate this contract or require termination or cancellation of any sub-consultant contract, if the ENGINEER or any sub-consultant(s) violate Article VII of Chapter 11A of the Code. In addition, a violation by the ENGINEER or sub-consultant to the ENGINEER, or failure to comply with Administrative Order (AO) 3-39 may result in the imposition of one or more of the sanctions listed in the A.O.

SECTION XX - DURATION OF AGREEMENT

This Agreement shall remain in full force and effect for a period of five (5) years after its date of execution or until completion of all project phases, whichever occurs last, unless terminated by mutual consent of the parties hereto or as provided in other Sections of this agreement.

SECTION XXI - DEFAULT

In the event the ENGINEER fails to comply with the provisions of this Agreement, the Director may declare the ENGINEER in default by thirty (30) days prior written notification. In such event, the ENGINEER shall only be compensated for any professional services completed as of the date written notice of default is served. In the event partial payment has been made for incomplete professional services, the ENGINEER shall return such sums to the COUNTY within

ten (10) days after receipt of written notice that said sums are due. The ENGINEER shall not be compensated for professional services, which have been performed but not completed by the time the Director declares a default. In the event the COUNTY prevails in litigation to enforce or defend the provisions of this or any other Section of this Agreement, the COUNTY shall be compensated by the ENGINEER for reasonable attorney's fees and court costs.

SECTION XXII - INDEMNIFICATION AND HOLD HARMLESS

The Engineer shall indemnify and hold harmless the County and its officers, employees, agents and instrumentalities from any and all liability, losses or damages, including attorneys' fees and costs of defense, which the County or its officers, employees, agents or instrumentalities may incur as a result of claims, demands, suits, causes of actions or proceedings of any kind or nature arising out of, relating to or resulting from the performance of this Agreement by the Engineer or its employees, agents, servants, partners principals or subcontractors. The Engineer shall pay all claims and losses in connection therewith and shall investigate and defend all claims, suits or actions of any kind or nature in the name of the County, where applicable, including appellate proceedings, and shall pay all costs, judgments, and attorney's fees which may issue thereon.

The ENGINEER expressly understands and agrees that any insurance protection required by this contract or otherwise provided

by the ENGINEER shall in no way limit the responsibility to indemnify, keep, and save harmless and defend the COUNTY or its officers, employees, agents, and instrumentalities as herein provided.

The ENGINEER agrees and recognizes that the COUNTY shall not be held liable or responsible for any claims which may result from any negligent reckless, or intentionally wrongful actions, errors or omissions of the ENGINEER in which the COUNTY participated either through review or concurrence of the ENGINEER's actions. In reviewing, approving or rejecting any submissions by the Contractor or other acts of the ENGINEER, the COUNTY in no way assumes or shares any responsibility or liability of the ENGINEER and other persons employed or utilized by the ENGINEER under this agreement.

The ENGINEER shall not commence any work pursuant to this Agreement until all insurance required under this Section has been obtained and such insurance has been approved by the COUNTY's Risk Management Division. The ENGINEER shall maintain during the term of this Agreement the following insurance:

1. Automobile Liability Insurance covering all owned, non-owned and hired vehicles used in connection with the work, in an amount not less than \$300,000.00 combined single limit per occurrence for bodily injury and property damage.
2. Professional Liability Insurance in an amount not less than \$1,000,000.00.

3. Public Liability Insurance, on a comprehensive basis, in an amount not less than \$300,000.00 combined single limit per occurrence for bodily injury and property damage. **Miami-Dade County must be shown as an additional insured with respect to this coverage.**
4. Worker's Compensation Insurance for all employees of the ENGINEER as required by Florida Statute 440.

All insurance policies must be issued by companies authorized to do business under the laws of the State of Florida. The companies must be rated no less than "B" as to management and no less than "Class V" as to strength by the latest edition of Best's Insurance Guide, published by A.M. Best Company, Oldwick, New Jersey, or its equivalent, subject to the approval of the Risk Management Division.

The ENGINEER shall furnish certificates of insurance to the Risk Management Division, 111 N.W. First Street, Suite 2340, Miami, FL 33128-1987, prior to the commencement of operations, which certificates shall clearly indicate that the ENGINEER has obtained insurance in the type, amount, and classification as required for strict compliance with this Section and that no material change or cancellation of this insurance shall be effective without thirty (30) days prior written notice to the COUNTY.

Compliance with the foregoing requirements shall not relieve the ENGINEER of the liabilities and obligations under

this Section or under any other portion of this Agreement, and the COUNTY shall have the right to inspect the original insurance policies in the event that submitted certificates of insurance are inadequate to ascertain compliance with required coverages.

SECTION XXIII - CERTIFICATION OF WAGE RATES

In accordance with Florida Statute 287.055, 5(a) the ENGINEER hereby certifies and warrants that wage rates and other factual unit costs, as submitted in support of the compensation provided in Sections V and VI are accurate, complete and current as of the date of this Agreement. It is further agreed that said compensation shall be adjusted where the COUNTY shall determine that the price of services was increased due to inaccurate, incomplete or unclear wage rates or other factual unit costs. All such compensation adjustments shall be made within one (1) year from the date of final billing or acceptance of the work by the COUNTY, whichever is later.

SECTION XXIV - ORDINANCES

The ENGINEER agrees to abide and be governed by Dade County ordinances which may have a bearing on the work contemplated hereunder, including but not necessarily limited to: Ordinance No. 72-82 (Conflict of Interest), Ordinance No.

2. A current certified financial statement.
3. A copy of the ENGINEER'S current Federal Income Tax Return.

SECTION XXV - VALUE ANALYSIS

County Administrative Order 3-26 (AO) establishes the threshold and guidelines for performing Value Analysis/Engineering (VA/E) studies on Miami-Dade County construction contracts. The AO states that a formal VA/E study is not mandated for those projects whose construction cost estimate is below the Five Million Dollar (\$5,000,000.00) threshold. The AO further states that principles and objectives of a VA/E study may be utilized for such projects in an informal manner. Therefore, with respect to this requirement, VA/E

review may be conducted on an informal basis by County staff or an independent consultant under contract to the County and supervised by the Project Manager. The ENGINEER shall participate in these reviews pursuant to this Agreement.

SECTION XXVI - AFFIRMATIVE ACTION

The ENGINEER's Affirmative Action Plan submitted pursuant to Ordinance 82-37, as approved by the Department of Business and Economic Development and any approved update thereof, are hereby incorporated as contractual obligations of the ENGINEER to Miami-Dade County thereunder. The ENGINEER shall undertake and perform the affirmative actions specified herein. The Director may declare the ENGINEER in default of this agreement for failure of the ENGINEER to comply with the requirements of this paragraph.

SECTION XXVII - UTILIZATION REPORT (UR)

designated otherwise. The UR is required to accompany every invoice, which is due on or before the tenth working day following the end of the month the report covers. The UR should indicate the amount of contract monies received and paid as a Prime Consultant, including payments to subconsultant(s) (if applicable), from the County pursuant to the project. Authorized representatives of each listed subconsultant(s) shall sign the report, verifying their participation in the work contracted and receipt of the monies listed. The monthly reports are to be submitted to the Miami-Dade Department of Small Business Development, 111 N.W. 1st Avenue, 19th Floor, Miami, Florida, 33128, in the format attached hereto titled "Architecture & Engineering Utilization Report".

SECTION XXVIII - PROMPT PAYMENT

It is the policy of Miami-Dade County that payment for all purchases by County agencies and the Public Health Trust shall be made in a timely manner and that interest payments be made on late payments. In accordance with Florida Statutes, Section 218.74 and Section 2-8.1.4 of the Miami-Dade County Code, the time at which payment shall be due from the County or the Public Health Trust shall be forty-five (45) days from receipt of a proper invoice. The time at which payment shall be due to small businesses and minority and women business enterprises shall be thirty (30) days from receipt of a proper invoice. All payments due from the County or the Public Health Trust, and not made within the time specified by

this section, shall bear interest from thirty (30) days after the due date at the rate of one percent (1%) per month on the unpaid balance. Further, proceedings to resolve disputes for payment of obligations shall be concluded by final written decision of the County Manager, or his or her designee(s), not later than sixty (60) days after the date on which the proper invoice was received by the County or the Public Health Trust.

FAIR SUBCONTRACTING POLICIES CERTIFICATION (ORDINANCE 97-35)

All selected proposers on County contracts in which subcontractors may be used shall be subject to and comply with Ordinance 97-35 as amended, requiring proposers to provide a detailed statement of their policies and procedures for awarding subcontracts which:

- a) notifies the broadest number of local subcontractors of the opportunity to be awarded a subcontract;
- b) invites local subcontractors to submit bids/proposals in a practical, expedient way;
- c) provides local subcontractors access to information necessary to prepare and formulate a subcontracting bid/proposal;
- d) allows local subcontractors to meet with appropriate personnel of the proposer to discuss the proposer's requirements; and
- e) awards subcontracts based on full and complete consideration of all submitted proposals and in accordance with the proposer's stated objectives.

All proposers seeking to contract with the County shall, as a condition of award, provide a statement of their subcontracting policies and procedures. Proposers who fail to provide a statement of their policies and procedures may not be recommended by the County Manager for award by the Board of County Commissioners.

The term "local" means having headquarters located in Miami-Dade County or having a place of business located in Miami-Dade County from which the contract or subcontract will be performed.

The term "subcontractor" means a business independent of a Proposer that may agree with the Proposer to perform a portion of a contract.

The term "subcontract" means an agreement between a Proposer and a subcontractor to perform a portion of a contract between the Proposer and the County.

REQUIRED LISTING OF SUBCONTRACTORS AND SUPPLIERS ON COUNTY CONTRACTS CERTIFICATION:

In accordance with Ordinance 97-104, amended by Ordinance 00-30, all successful bidders and proposers on County contracts for purchases of supplies, materials or services, including professional services, which involve the expenditures of \$100,000 or more and all bidders or proposers on County or Public Health Trust construction contracts which involve the expenditure of \$100,000 or more shall provide, as a condition of award, a listing which identifies all first tier subcontractors who will perform any part of the contract work and describes the portion of the work such subcontractor will perform, and all suppliers who will supply materials for the contract work direct to the bidder or proposer and describes the materials to be so supplied. Failure to comply with this policy may result in debarment.

A bidder or proposer who is awarded the contract shall not change or substitute first tier subcontractors or direct suppliers or the portions of the work to be performed or materials to be supplied from those identified in the listing provided except upon written approval by the County.

FALSE CLAIMS ORDINANCE AFFIDAVIT

The purpose of the Miami-Dade County False Claims Ordinance No. 99-152 is to deter persons from knowingly causing or assisting in causing the County to pay claims that are false, fraudulent, or inflated, and to provide remedies for obtaining damages and civil penalties of the County when money is sought or obtained from the County by reason of a false claim. "Claim" means any invoice, statement, request, demand, lawsuit, or action under contract or otherwise for money, property or services made to any employee, officer, or agent of the County, or to any contractor, grantee, or other recipient if any portion of the money, property, or services requested or demanded was issued from or was provided by the County (hereinafter "County funds")

Additionally, Management shall maintain a final bid takeoff, that is, the final estimate, tabulation, or worksheet prepared by the bidder in anticipation of the bid submitted and which shall reflect the final bid price. The final bid takeoff shall contain a line item for allocation of overhead costs. The final bid takeoff is a condition precedent to submitting a claim under the Contract. Any violation of this ordinance may result in the sanctions provided for in the ordinance, including debarment.

This single execution shall have the same force and effect as if each of the above affidavits had been individually executed.

The applicable affidavits pertaining to Architectural/Engineering Services, RFQ's, RFP's, and Bids will apply accordingly.
