COMMITTEE REPORT
Department: Animal Services
(\$ in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- ASD will continue planning and design of a facility retrofit for a new animal shelter, estimated at approximately \$15 million. To date, \$14.5 million has been identified (\$11 million from the Building Better Communities (BBC) General Obligation Bond proceeds and \$3.5 million from the sales proceeds of the existing facility.
- Seek grant opportunities to fund free or low-cost spay/neuter surgeries to the public, technological improvements to maximize productivity and efficient use of resources, as well as other programs benefiting the community
- Continue public relations outreach effort to include facebook, website, brochures and pro-bono services promoting the shelter and its services via television, radio, and print media.

Status

- The department is working with GSA to identify a warehouse to purchase and retrofit as the New Animal Shelter; various sites are being reviewed and considered; ASD will be seeking BCC approval to enter into negotiations once a final selection has been made.
- During FY 08/09, ASD received \$22k through Maddie's Fund, which provided free spay/neuter surgeries for 1400 cats; a second grant was from the Florida Animal Friends for \$25,000, which enabled the department to provide (donor subsidized) cat spay/neuter services; additionally, the department received approximately \$88k 2008-09 and \$66k 2009-10 from the Clerk of Courts (COC) Technology Fund to purchase toughbooks for Enforcement personnel and implement a cash management system; the department has continued its grant solicitation effort and submitted numerous other applications (i.e. UASI grant application for Emergency Equipment/Supplies in the amount of \$164k; Mission Orange which funds shelter programs designed to increase the save rate, in the amount of \$600k, and COC Technology Grant request for over \$30k for GPS/ARC Logistic System.)
- During FY09/10, ASD is estimating that over 1400 pets will be reunited with their owners, 8,300 pet adoptions, and an additional 3,800 pets will be rescued as a result of the department's partnership with almost 50 rescue organizations; for the first four months of the fiscal year, 10,448 homeless pets have been housed at the shelter; overall, the department is projecting the shelter intake of homeless pet to reach 38,000 by the end of the fiscal year.

- Application for 501c3 status has been prepared and submitted; this status is critical for the Foundation to pursue grants for shelter programs that currently the department is not eligible to apply; the Foundation seeks to pursue grants and other fundraising opportunities to not only fund capital programs, but other shelter programs, such as free or low-cost or free spay/neuter services with the goal of reducing the over pet population – thus impacting the shelter’s intake number.
 - 14 positions were eliminated: three (3) Animal Control Officers, one (1) Disposal Technician, two (2) Enforcement Animal Service Representatives 2, one (1) Investigator, one (1) Budget & Finance Animal Service Representative, and two (2) Customer Service Animal Service Representatives. Additionally, the Director's Office eliminated two (2) Assistant Director positions and one (1) Administrative Secretary. These reductions resulted in the following: Longer response time and service lines at the shelter; delayed collection, auditing and reconciliation of accounts; delayed in the update of accounts and timely issuance of violation notices to non-compliant pet owners; further reductions included the downgrading of an Animal Control Supervisor position to Animal Control Officer, as well as the reduction in operational line items which were achieved through efficiencies.
- Secure 501c3 status for the Animal Service Foundation.
- FY 2009-10 Reductions

Stray animal pickup response time (in calendar days) *	N/A	N/A	2.5	1.8	2.6	3.0	3.0	3.0	PS5-2

Comments/Justification: It is the goal of Animal Services to effectively reduce the response time to pick-up strays by Animal Control Officers. The department believes the drastic reduction can take place through several processes (i.e. use of technology, setting realistic expectations and measurable objectives), but absolutely crucial has been accountability and effective Supervision.

Dead animal pickup response time (in calendar days)*	N/A	4.1	2.3	1.3	2.0	3.5	3.0	3.0	PS1-2
--	-----	-----	-----	-----	-----	-----	-----	-----	-------

Comments/Justification: As a result of the 3% savings reduction, response time is expected to increase. However, it is the intent and goal of Animal Services to effectively and continue to reduce the response time in the picking-up of carcasses and dead animals from the public right of way to less than 36 hours. The department believes that accountability and effective supervision and the use of technology, such as GPS, are key in the improvement of this service. Additionally, the department is researching the feasibility of assistance from the Public Works to accomplish these goals as 1 DT positions may be eliminated in FY 09-10.

------------------------------------	---------	---------	---------	---------	---------	---------	---------	---------	-------

Comments/Justification: Based on statistics, forecasting, and demographic formulas from the American Veterinarian Medical Association, it is projected that nearly 70% of all pets in Miami-Dade County are currently unlicensed. Through a number of initiatives, including but not limited to community outreach, education, and enforcement of the newly revised Chapter 5 of the County Code, the department expects to increase compliance and licensing. Information will be disseminated through print advertisements, radio, and other promotions, to increase awareness regarding licensing requirements as delineated by Chapter 5 of the Code of Miami Dade County and the Florida Statutes.

------------------	-----	-----	-------	-------	-------	-------	-------	-------	-------

Comments/Justification: ASD launched the Pet Detective Club staffed by volunteers. These volunteers search through lost ads, internet and in-house lost animal records with the goal of matching the pet owners to animals found and brought to the shelter. As a result of this program, more animals were reunited with their pet owners. Additionally, these pets were returned licensed and vaccinated. In many cases, the pet owner agreed to have their pet sterilized.

----------------	--------	--------	--------	--------	--------	--------	--------	--------	-------

Comments/Justification: Through a number of initiatives to sterilize dogs and cats and increase licensing requirements the department seeks to reduce the homeless pet population at the Animal Services Shelter. The initiatives include but are not limited to providing microchipping services to the public, and enforcement of Chapter 5 Section 7 and Section 8).

Corrections and Rehabilitation

COMMITTEE REPORT
Department: Corrections and Rehabilitation
(\$ in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- Eliminate four positions in the Director's Office, and 20 positions in Inmates Rehabilitative Services.

- Reduce facility maintenance funding, parts inventory, and repair components and reduce funding for supplies, computer training, employment advertising, cellular telephone services, telephone maintenance, and radio repair.

- Reduce outside patrol at detention facilities in Custody Services and eliminate one post in Support Services.

- Increase subsistence fees to \$5 and one-time uniform fee of \$10 for inmate population.

- Eliminate inmate worker payroll.

- Hire 151 Correctional Officers to provide adequate staffing for jail operations and reduce dependency on overtime-funded resources.

Status

- Positions were eliminated; positions eliminated at Inmate Rehabilitative Services limits the department's ability to provide programs and services to inmates in all County correctional facilities.

- Reduction occurring as budgeted; reduced funding for facility maintenance and the inventory of parts and repair components limits the department's ability to maintain aging facilities.

- Reduced outside patrol; eliminated one Intake Officer post at Ward D, impacting the length of custody time police officers spend with newly arrested inmates taken to Jackson Memorial Hospital emergency room for medical attention.

- The daily subsistence fee will be increased from \$2.00 to \$5.00 per day and the one time uniform fee of \$10.00 will be assessed after first appearance or the initial classification process; implementation of these fees is anticipated to begin April 2010 after all programming and technology requirements have been resolved.

- The Paid Inmate Worker Program was eliminated; inmate workers will continue to receive such benefits as exemption from payment of subsistence fees, ability to earn incentive gain time, access to self betterment programs, out-of-cell time while on duty, and hot meals when on kitchen duty.

- Four Correctional Officer Trainee (COT) classes are scheduled this year: COT 115 (43 officers) started in November 2009; COT 116 (38 officers) started in February 2010; COT 117 (40 officers) will start in May 2010, and COT 118 (40 officers) will start in September 2010; additionally, COT 113 graduated 33 officers in November 2009; and 11 certified correctional officers (laterals) have been hired with 40 additional to be phased in by year end; it is anticipated that the Department will have 41 vacant budgeted positions by the end of the FY 2009-10, with 93 trainees, no operational vacancies and 24 of the relief positions trained and deployed to reduce overtime.

- Provide training required for accreditation to 75 employees per quarter in order to maintain accreditation of the Women's Detention Center, Boot Camp and MDCR Central Office, and for 50 sworn employees per quarter to maintain certification.
- Alleviate jail overcrowding; upgrade medical facility; and provide a more efficient food service system and additional space for rehabilitative programs
- Allow the facility Pre-Trial Detention Center (PTDC) to remain operational with critical capital improvements
- Conduct an average of 55 community outreach activities per quarter, including fingerprinting of children, distribution of school supplies, facility tours and the "Jail is Hell " Program
- Implement targeted mid-year service reductions
- 133 employees received training required for accreditation during the first quarter of FY 2009-10, 300 sworn employees will be trained for compliance with accreditation standards by the end of FY 2009-10; 400 sworn employees are expected to complete their mandatory in-service training by the end of June 2011 These figures may be adjusted due to the suspension of the Boot Camp program.
- Continues the review and implementation of the National Commission on Correctional Health Care audit recommendations; pursue providing certain onsite medical services within the secure confines of detention facilities to minimize security risks and costs associated with transporting inmates to appointments; continue efforts to establish a new inmate medical services contract that insures inmates receive appropriate levels of care; the proposed contract is targeted for implementation in FY 2010-11.
- The Pre-Trial Detention Center renovation project is in progress, and is expected to be completed by December 2012; a Professional Services Agreement Contract was awarded for programming, schematic design development, construction documents, permitting, bidding and award, and construction administration services for the critical repairs/renovations of the following critical areas: crawl space clean up, building structural envelope improvements, and renovation of the existing kitchen including design for a temporary kitchen that will be required during the construction; design submission is due in May 2010, with bidding and award to be completed by December 2010; work continues to be funded through the Building Better Communities General Obligation Bond Program (BBC) (\$47 million).
- 71 community outreach activities were conducted during the first quarter of FY 2009-10.
- Reduced operational expenses associated with lower than budgeted inmate population (\$5.227 million)

The cost per meal is adjusted at the annual closeout when credits (expenses that are the County's responsibility) are adjusted against the total cost per meal. That adjusted figure is compared to the "allowable cost per meal" to determine if there are "additional savings", break even, or a deficit.

Countywide Healthcare Planning

COMMITTEE REPORT

Countywide Healthcare Planning: a division of Planning and Zoning

(\$ in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- Miami-Dade Blue (MDB) – CHP continues outreach and education to additional County Departments, Commission Functions and Business groups. From Charge Memo
- Chronic Disease Management and Health In the Built Environment - CHP will identify, adapt and implement 2 evidence-based Provider-Assisted Chronic Disease Management Models in County's 6 FQHCs and 4 JHS Clinics
- Measuring Results and Making Changes - With the addition of the Miami-Dade Blue's data set, (which joins State and zip code level data already in OCHP's system), CHP will have one of the richest information sources of any local county health agency. Using a combination of epidemiological analysis tools, health statistics and public health information producing GIS maps, data-tables, and insurance utilization and outcomes data at community and District level
- Primary Care Medical Homes – Increasing the number of individuals who have a regular source of primary care and facilitated access to specialty and hospital-based services will be supported through the next stage of the GOB for Primary Care together with a Premium Assistance Program being developed in conjunction with the MDB Pilot.
- National and state legislative and regulatory reporting and funds leveraging

Status

- At seven month mark, CHP has worked with Blue Cross Blue Shield of Florida to reach enrollment of nearly 2,000 residents (compared to 900 for Cover FL); outreach to more than 3,500.
- CHP is working to bring in grant funds to develop and implement training, clinical infrastructure and a business plan which could generate significant revenue for participating health centers serving, when fully implemented, more than 40,000 County residents to combat diabetes and obesity.
- 91 data points detailing MDB enrollment and utilization which are integrated with 1,195 data points from State data sources detailing health status and mortality and added to FQHC access data -- to create one of the richest data bases for County health initiatives and increasing insurance coverage among our residents through programmatic and MDB plan refinements; data will also help inform and measure the County's awards to social and health services CBOs.
- It is anticipated that 3 GOB agreements will be signed with Federally Qualified Health Centers (FQHCs) generating an additional 59,000 square feet in clinical space in FY 2009/10, CHP will also finalize development of a Premium Assistance Program (PAP); together with the PHT, FQHCs and funders' participation in PAP will, at a minimum, enable County residents to attain health insurance for the first time; this funding will ultimately serve between 150 and 200 individuals in FY2009/10 and is projected to serve at least another 150-200 in FY2010/11
- Generated \$250,000 in LIP funds for Premium Assistance in FY 2009/10 and is projected to provide an additional \$250,000 in LIP funds for FY2010/11; other funds are also being sourced from Federal and other sources.

- FY 2009-10 Reductions
- One vacant position was reduced, however the CHP has attained one-time grants from local foundations to fund the county portion of \$130,000 for this shared JMH position

Emergency Management

COMMITTEE REPORT
Department: Emergency Management
(\$ in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- Eliminate three vacant Emergency Management Coordinator, one vacant Assistant Director, and one filled Public Information Officer positions; reduce funding for Community Emergency Response Team (CERT) training; and reduce operating expenses

- Continue to improve resident and visitor safety awareness and preparedness through outreach and training

- Continue to implement the County's Domestic Preparedness Strategy

- Implement targeted mid-year service and operating reserve reductions

Status

- The Department eliminated three vacant Emergency Management positions and funding for CERT reducing the Department's ability to educate the public about self-reliance through disaster preparedness training; eliminated one filled Public Information Officer position and eliminated operating expenses including the Community Periodical Program, Annual Hurricane Expo; the impact includes reliance on the Mayor's Media Relations unit during EOC activations, reduced outreach and education of the public, and reduced maintenance of EOC technical equipment; eliminated one vacant Assistant Director position.
- The department trained 130 CERT members in FY 2008-09 and is expected to train a total of 150 new members by the end of FY 2009-10; in spite of the significant budget reductions impacting the department in FY 2009-10 the Department expects to conduct at least 4 other significant community preparedness events, totaling approximately 200 attendees
- The Miami-Dade Police Department liaison assigned to DEM is currently reviewing and updating the County's Terrorism Response Plan; this includes coordinating with public safety agencies, verifying response capabilities, and outlining agency roles and responsibilities in response to a terrorism event; additionally, DEM, MDRF, and MDPD jointly coordinate the allocation of funds under the various Homeland Security Grant Programs, which includes the Urban Area Strategic Initiative
- Implemented a shift in services augmenting FPL funded activities and reducing the Training Exercise Program (\$61,000).

Emergency shelter spaces available*	72,000	73,000	72,000	79,900	85,484	79,000	79,000	79,000	PS4-1
-------------------------------------	--------	--------	--------	--------	--------	--------	--------	--------	-------

Comments/Justification: The projected and base budget figures are derived from State of FL, Division of Emergency Management mandated public sheltering capacity. The State has historically used an estimated public sheltering figure that assumes (based on behavioral studies) 10-11% of the vulnerable population (those in Hurricane Evacuation Zones) would seek shelter in the event of a Hurricane. However, this number may be updated annually and the State mandated % of vulnerable population may vary. Currently the State provides us with 2 figures: a 2008 estimated sheltering need of 69,192, and a 2013 estimated sheltering need of 72,980. The Department has taken the approach that the official budget figures are going to be based on 79,000 evacuees needing sheltering.

Emergency Evacuation Assistance Program registrants**	1,200	1,200	2,300	2,503	2,554	2,600	2,600	2,600	PS4-1
---	-------	-------	-------	-------	-------	-------	-------	-------	-------

Comments/Justification: While external factors significantly impact the number of registrants, the Department challenges itself through community outreach, to expand the program and encourage increased registration. Historically, progressive targets have been assigned. However, with FY09-10's Budget Reductions, the Departments outreach efforts have been impacted and therefore the programmatic goals for FY10-11 will remain in line with FY09-10.

New Community Emergency Response Team (CERT) members trained**	1,436	1,506	143	260	130	80	130	150	PS4-1
Comments/Justification: The Community Emergency Response Team (CERT) Program educates people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. Using the training learned in the classroom and during exercises, CERT members can assist others in their neighborhood or workplace following an event when professional responders are not immediately available to help. CERT members also are encouraged to support emergency response agencies by taking a more active role in emergency preparedness projects in their community. While general fund support for this program was significantly reduced in FY09-10, the Department has been									
Outreach program attendees**	N/A	5,601	10,000	16,800	26,293	200	200	200	PS4-1
Comments/Justification: Outreach programs educate the public in preparedness measures they must take when basic public and private services are disrupted or threatened by emergencies caused by natural disasters or other causes. In the FY09-10's Budget Reductions, the Departments outreach efforts were significantly impacted and therefore the programmatic goals for FY10-11 will remain in line with FY09-10 actual figures.									
Continuity of Operations Plan submissions by County departments	33	34	3	19	42	55	42	46	PS1-7
Comments/Justification: In FY08-09 the Department has started with a new proactive initiative that includes group trainings and significant one-on-one interaction with Departmental COOP representatives to increase the number of compliant COOP plans throughout the County. While the Departments ultimate goal is to have all County Departments with compliant COOPs, we have set a goal of 58 Departments to take into account that some departments may need more assistance than other and that there is an annual fluctuation in the number of Departments.									
Emergency shelter spaces available for special needs	N/A	N/A	N/A	2,000	3,000	3,000	3,000	3,000	PS4-1
Comments/Justification: The figures are based on ensuring that the Department has enough spaces for those listed in the Number of registrants in EEAP measure, which is then rounded up to the nearest 500 spaces. The 500 space figure comes from the following calculation: All facilities used for Special Needs Evacuation Centers are evaluated to ensure that they have the square footage (40 sq ft/ evacuee) to ensure that at least 500 evacuees can be placed and adequate staffing provided. That figure is then rounded the number down to nearest 500 to ensure manageability at each site. There remains 6 Special Needs Evacuation Centers with a manageable capacity of 500 evacuees at each shelter.									
Plans reviewed for medical facilities	N/A	N/A	0	980	1,244	1,300	1,300	1,300	PS4-1
Comments/Justification: This number is reliant on the number of facilities licensed by the FL Agency for Healthcare Administration (AHCA) within Miami-Dade County to provide a varying array of residential healthcare services, and those facilities remaining compliant with the AHCA emergency plan review regulations. The numbers projected are an educated estimate on the number of compliant facilities based on historical data.

Average fire rescue dispatch time (in seconds)	N/A	N/A	0	40	46	40	46	40	PS1-2
Comments/Justification: Fire-Rescue Scorecard - The average dispatch time encompasses the time elapsed from the time MDFR Communications is notified of the incident by the Public Service Answering Point (PSAP) to the time the incident is dispatched to a unit for response.									
Life-threatening calls received by MDFR **	N/A	N/A	0	119,878	124,383	125,000	124,383	125,000	PS1-2
Comments/Justification: Fire-Rescue Scorecard - The total number of life-threatening calls dispatched represents all incidents for which units were dispatched with lights & sirens for an expedited response. **It is a subset of "Total calls."									
Fire suppression calls received by MDFR **	N/A	N/A	0	27,500	25,603	28,000	25,603	28,000	PS1-2
Comments/Justification: Fire-Rescue Scorecard - The total number of structure fire calls represents all incidents for which units were dispatched with lights & sirens for an expedited response to a fire related incident at a building structure. **It is a subset of "Total calls."									
Fire boat missions	N/A	N/A	0	260	316	300	316	300	PS1-2
Comments/Justification: Special Operations Division Scorecard and Marine Operations Bureau - Fire Boat #1, a 50 ft. fire fighting vessel, was placed into service on a 24/7 basis on March 12, 2007 at the Port of Miami Station #39.									
Potentially hazardous situations prevented at Crandon and Haulover parks	N/A	N/A	0	61,000	49,896	68,400	46,359	49,900	PS1-2
Comments/Justification:									
Squad Transports				22,966	29,881	33,660	33,600	34,000	PS1-2
Comments/Justification: Fire-Rescue Scorecard - Effective October 29, 2007, MDFR implemented a new "Squad" pilot program to provide Basic Life Support (BLS) transport. There are currently twelve (12) BLS Squads.

Fire plans reviewed	12,293	11,196	0	16,895	14,533	15,996	14,533	14,705	PS1-4
---------------------	--------	--------	---	--------	--------	--------	--------	--------	-------

Comments/Justification: Fire Prevention Child Scorecard - Number of plans submitted is a function of building industry and presents only a workload measure - % of plans reviewed within 9 days (below) better measures efficiency of process

Life safety inspections completed	36,172	32,769	0	51,810	59,588	61,200	59,585	69,623	PS1-4
-----------------------------------	--------	--------	---	--------	--------	--------	--------	--------	-------

Comments/Justification: Fire Prevention Child Scorecard - Ten vacancies of Fire Safety Specialist I (FSSI) through FY04/05 impeded completion of inspections. Five new FSSI commenced field inspections in 4th Qtr FY04/05, but 3 additional vacancies occurred in the same quarter. Turnover a constant issue, however with revised salary implemented in FY07-08 and 10 new hires, increased productivity.

--	-------	-------	-------	-------	-------	-------	-------	-------	-------

Comments/Justification: Fire Prevention Child Scorecard - Inspections per Inspector are expected to increase since last class of 10 new inspectors was implemented in FY07-08. New Inspectors initially accompany more seasoned inspectors for the first 3-6 months after training. Fy 08-09 will benefit from an entire year as inspectors experience increases.

Grants Coordination

COMMITTEE REPORT
Department: Grants Coordination
(S in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- The FY 2009-10 adopted budget included the elimination of four positions (\$328,000) in the Contracts and Grants Management Division
- The FY 2009-10 included the reduction of various operating items to include: PC maintenance, training, travel, temporary contracted services, data processing, advertising, graphic services, publications, memberships, office supplies, and other capital expenditures (\$545,000)
- Manage federal grants assigned to the Department to ensure performance and compliance
- Identify grant funding opportunities to maximize revenue support to other County departments and community organizations
- The Mid-Year target reduction includes the elimination of a vacant Special Projects Administrator 1 position, various operating line items and an additional reimbursement from the Ryan White Grant (\$82,000)

Status

- Duties have been absorbed by remaining staff by implementing efficiency measures
- Reductions have impacted the Department's ability to provide technical assistance, training and workshops; computer replacement and repairs have been delayed
- In FY 2009-10 OGC administered and managed the Ryan White Program for \$26.175 million; in addition to the ARRA, Edward Byrne Memorial Justice Assistance Grant (JAG) Program for \$5.4 million
- During FY 2009-10 OGC expects to receive \$50 million in grant funding to be managed and administered by County departments and CBOs
- These reductions impact the department's ability to improve the contract execution process and the monitoring and evaluation of CBO allocations and contracts

Description	Actual	Actual	Actual	Actual	Actual	Target	Projection	Target	
General Fund CBO programs reviewed	0	0	0	475	511	475	444	450	ES1-1

Comments/Justification: The variance from budget to projection in FY 2009-10 is due to: agencies declining County funding, programs not funded due to organizational instability, and certain scope and services were combined by the agencies.

Percentage of reimbursement requests processed within 21 calendar days	0	0	0	N/A	94%	85%	85%	85%	ES9-3
--	---	---	---	-----	-----	-----	-----	-----	-------

Comments/Justification: Measures the percentage of reimbursement requests processed within twenty-one calendar days by the Contracts and Grants Management staff per month, from arrival date to the Department to the final approval by Fiscal Unit.

Comments/Justification: These unduplicated client counts are based on the Federal fiscal year for Ryan White Part A and MAI funding which starts on March 1st through the end of February (Ex: Ryan White Fiscal Year 2003 is from March 1, 2003 through February 29, 2004).

Contracts processed and executed under Ryan White Program	40	35	32	38	33	35	35	35	HH7-2
---	----	----	----	----	----	----	----	----	-------

Comments/Justification: In FY 2007, MAI became a separate contract, and this also caused a reduction in the number of contracts counted in the above measure.

Ryan White Program reimbursement requests processed*	N/A	N/A	2,095	2,221	2,260	1,400	1,826	1,400	HH7-2
--	-----	-----	-------	-------	-------	-------	-------	-------	-------

Comments/Justification: Number of timely and accurate Ryan White Program reimbursement requests received and approved by the Accountant 3 (Fiscal Manager).

Percentage of payments processed within 21 calendar days	N/A	N/A	78%	90%	93%	85%	90%	85%	ES9-3
--	-----	-----	-----	-----	-----	-----	-----	-----	-------

Comments/Justification: Measures the percentage of timely and accurate Ryan White Program reimbursement requests reviewed and approved by the Accountant 3 (Fiscal Manager) within 21 days of submission to OGC. This percentage is calculated by taking the number of reimbursement requests that were processed in 21 days or less divided by the total number of reimbursement packages received during the month. [Ex. March 2007: 182 reimbursement requests processed in 21 days or less divided by 191 total requests received = approx. 95%]

Comprehensive site visits per County Fiscal Year	N/A	N/A	4	2	3	4	3	4	HH7-1
--	-----	-----	---	---	---	---	---	---	-------

Comments/Justification: To review a contracted provider's fiscal, program, and administrative operations. Special emphasis is placed on a review of documentation to support client eligibility, service delivery, and billing practices.

Limited scope site visits per County Fiscal Year	N/A	N/A	2	3	2	4	3	4	HH7-1
--	-----	-----	---	---	---	---	---	---	-------

Comments/Justification: Limited scope site visits monitor a contracted service provider's documentation to support client eligibility and/or billing practices. Due to the risk-based approach, this office focused more on comprehensive site visits in FY 2008-09 and will resume the normal target of four limited site visits in FY 2009-10.

Juvenile Services

COMMITTEE REPORT
Department: Juvenile Services
(S in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- Provide programs and services targeted to reduce recidivism

- Continue the National Demonstration project with the United States Department of Justice, a nationally recognized project using proven research methods.

- Ensure strict compliance with mandates to maintain a safe and secure environment for all arrested juveniles

- Use technology to improve communication between JSD partners and information available to case managers

- Implement mid-year service reductions

Status

- The department strives to maintain the level of arrested juveniles consistent with the FY09-10 projected level by providing research based appropriate programs and services; the Department offers front end Diversion Services that keep otherwise arrested juveniles from entering the court system and engaging six other juvenile justice agencies, five of which receive funding from the County; the Department in FY09-10 will begin it's Alternative to Detention project pilot, paid for by Federal Grant funds, which will provide ankle bracelets and family services for non-violent detainable youths as an alternative to detention; the County currently pays \$280 per day per juvenile detained in the Detention Facility.
- The National Demonstration project with the United States Department of Justice continues through FY 2010-11; JSD will continue to partner with the National Demonstration Project research team and the Miami-Dade Youth Crime Task Force, the Younger Sibling of Serious Offender Program to reform the juvenile justice system and reduce arrests
- Thus far in FY 2009-10, no incidents have led to County liability because JSD partners with the community to provide a safe and secure environment for all arrested juveniles
- In FY 2008-09 the Department purchased and installed Quest, a new case management software system (\$575,000) with federal funding that improves the ability to process, manage, and report juvenile arrest, assessment, and referral data; the system replaces several other electronic applications, significantly reducing paper files and enhancing JSD's ability to deliver appropriate services
- The department will eliminate three full-time positions

Medical Examiner

COMMITTEE REPORT
Department: Medical Examiner
(S in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- Continue to facilitate coordination of unidentified decedents and missing persons information through the Federal DNA initiative

- Continue active accreditation status with National Association of Medical Examiners (NAME) and American Council of Graduate Medical Education (ACGME), proceed with necessary steps to achieve toxicology laboratory accreditation through American Board of Forensic Toxicology (ABFT) and maintain certification for all professional staff

- Enhance quality and quantity of information available to the public and to other governmental agencies through upgrades in web site; screen information of those seeking County assistance through PIP (Public Internment Program)

- FY 2009-10 Reductions

Status

- To date, of the Department's 200+ unknown cases, 175 have been entered into the NamUS database, DNA from 79 cases has been entered into CODIS, and more than 100 dental charts and 100 fingerprint classifications have been resubmitted to NCIC; the Department is attempting to acquire a paid part-timer through the South Florida Workforce Program to accelerate work on this project.

- Doctors, toxicologists, photographers and medicolegal investigators all maintain national certifications.

- The Department will launch its laboratory software (LIMS) in March 2010 and will then provide local homicide bureaus with access to toxicology reports; PIP application forms will be streamlined, made available through the Department's web site and screened to meet the new fee schedule requirements.

- Eight positions were eliminated; reduced staffing levels throughout the department are creating work and service delivery slowdowns that will gradually worsen (autopsy protocol preparation time; toxicology case turnaround time; cremation approvals for funeral homes; processing of indigent cases through PIP; scene response times for police); slowdowns are appearing in Forensic Evidence and Recovery Team scene response times, autopsy protocol preparation time and toxicology case turnaround time

Description	Actual	Actual	Actual	Actual	Actual	Target	Projection	Target	
Scene Investigations by Medical Examiners	170	212	266	245	196	239	239	239	ES1-1

Comments/Justification: Medical Examiners will conduct an investigation at a scene of death when the body is still at the scene. These death scenes consist primarily of violent deaths including homicides, industrial and traffic accidents, some suicides and any death scene where law enforcement requests the Medical Examiner's presence. A Medical Examiner is available to respond 24 hours/day, 7 days/week and 365 days/year.

	FY 2004-05	FY 2005-06	FY 2006-07	FY 2007-08	FY 2008-09	FY 2009-10	FY 2009-10	FY 2010-11	Desired Outcomes

---	-------	-------	-------	-------	-------	-------	-------	-------	-------

Comments/Justification: This public service measure represents the number of body disposition requests which are processed and approved by the Medical Examiner Department per Florida Statute. Each request must be processed for validity and certification (cause and manner of death) accuracy. The most requested disposition is cremation, but anatomical dissections and sea burials are also included.

---------------------------------------	-------	-------	-------	-------	-------	-------	-------	-------	-------

Comments/Justification: An autopsy is the external and internal examination of human remains for purposes of documenting disease, injury or indicators of chemical intoxication. The process can also aid in the determination of age, identification, gender, ethnicity and time since death. This procedure is used in the death investigation process at the discretion of the Medical Examiner per Florida Statute, Chapter 406.

Police

COMMITTEE REPORT

Department: Police

(\$ in 000s)

Department Budget Summary

FY 2009-10 Execution of Commitments

Highlight

- Freeze 69 civilian positions; reduce taser replacement funding; reduce one position and operational expenses in Police.
- Reduce line item expenditures in Police.
- Reorganize and downsize the CAB and IGB Bureaus, eliminate Mounted Patrol, and modify programs in Police.
- Implement overtime reductions.
- In FY 2009-10 the Miami-Dade Police Department will continue the construction of the Northside Police Station including a light fleet maintenance and fueling facility funded from Building Better Communities General Obligation Bond Program (BBC) (\$10 million), Criminal Justice Bond interest (\$5.55 million), Police Impact Fees (\$2 million), and BBC interest (\$3.520 million).

Status

- Increased attrition savings by freezing 69 civilian positions; eliminated one position; implemented administrative and operational line item reductions (including one position); and reduce funding for taser replacement and other GSA line item expenses.
- Reduced radio maintenance, fuel, aircraft fuel, vehicle maintenance, outside contracts, printing, janitorial services, outside repair maintenance, personnel advertising, and other line items.
- Reorganized and downsized the Community Affairs Bureau (CAB) and the Intergovernmental Affairs Bureau (IGB) resulting in operating cost savings in units such as Medical Crimes, Unlicensed Contractors, Criminal Code Enforcement, Counterfeit Squad; sworn personnel were redeployed to perform Enhance Enforcement Initiatives (EEI) activities on regular time instead of overtime; in response to the elimination of the Department's EEI funding in Police Services, MDPD created the Strategic Policing Operations Response Team (SPORT) to address crime trends throughout Miami-Dade County; SPORT is utilized to address and identify problem areas, hot spots, and areas of increased crime trends in the various Districts, with the ultimate goal of impacting violent crime; the SPORT Unit personnel augment District resources and handle most of the responsibilities previously handled at the District level through the use of EEI funding.
- Reductions implemented; remaining overtime funds deployed as necessary to cover unanticipated situations.
- The Northside Police Station is under permitting expected to be under contract mobilization by FY10-11; the award came in lower than expected bringing the total down to 13.0 million.

- In FY 2009-10 the Miami-Dade Police Department will continue the Gun Bounty Program which awards \$1,000 for the identification of an individual illegally possessing a firearm resulting in an arrest.
- In FY 2009-10 MDPD will purchase the second of four helicopters funded with \$3.25 million of interest earned on previously issued Capital Asset Acquisition Bond proceeds, as part of a four-year replacement plan to replace existing outdated helicopters and to provide modern equipment to enhance surveillance or other criminal investigation efforts; the third and fourth helicopters to be purchased in FY 2010-11 and FY 2011-12 are programmed to be funded from the Capital Outlay Reserve.
- Implement targeted mid-year service reductions
- The Gun Bounty Program (GBP) was started in June 2007; to date there have been a total of 1,857 calls received, 246 arrests, and 407 guns seized. The success of the MDPD GBP is attributed to the marketing strategy which utilizes prisoner input for the design of handout material, the designation of a special signal for Gun Bounty calls allowing rapid response by uniform units' rapid follow-up in areas where a shooting has occurred, and educating citizens regarding the program by distributing program literature.
- The purchase and replacement of four helicopters, one per year, was approved by the Board of County Commissioners on April 8, 2008; the Department received two so far and delivery of the third helicopter is scheduled for October, 2010.
- Postpone the hiring of Police Officers as position become vacant throughout the fiscal year; redeployment of nine Training Bureau positions associated with training newly hired officers to perform other duties generating overtime savings; and reduce operational expenses throughout the department (\$6.644 million).
