

Memorandum

Date: May 18, 2010

To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

Agenda Item No. 5(B)

From: George M. Burgess
County Manager

Subject: Significant Modification to Building Better Communities General Obligation Bond Program Project Nos. 126 – “Miami River Greenway” and 127 – “Improve and Extend the Commodore Bike Trail”

This item differs from the original in that amendments to correct scrivener errors were read into the record at the April 14, 2010 Transit, Infrastructure and Roads Committee as follows: handwritten page 2, the dollar amount in the last sentence of the second paragraph should read "approximately \$4,500,000," not \$6,650,000; the words "the remaining" should be stricken from the second sentence of the third paragraph; and Section 2 of the accompanying resolution should be amended to include the words "and amend the municipal project location from "Coral Gables" to read "Coral Gables and Miami" immediately following the dollar amount \$1,850,000.

Recommendation

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing a significant modification to the allocations for Building Better Communities General Obligation Bond Program (BBC GOB Program) Project Nos. 126 – “Miami River Greenway” and 127 – “Improve and Extend the Commodore Bike Trail” following a public hearing pursuant to Resolution No. R-914-04 (Authorizing Resolution). The table below reflects the requested significant modification:

Project No.	Project Name	Original Allocation	Revised Allocation
126	Miami River Greenway	\$7,500,000	\$6,650,000
127	Improve and Extend the Commodore Bike Trail	\$1,000,000	\$1,850,000

Scope

The scope of this resolution impacts portions of the Miami River Greenway in located in Commissioner District 5 along the Miami River within the City of Miami and the Commodore Bike Trail located in District 7 within the City of Coral Gables and the City of Miami.

Fiscal Impact/Funding Source

The total BBC GOB Program allocations assigned to Project Nos. 126 and 127 are \$7,500,000, and \$1,000,000, respectively. There is no fiscal impact to the County as the overall BBC GOB Program funding will not be impacted as a result of this modification.

Track Record/Monitor

The implementing agency for this project is the Public Works Department (PWD), and the project manager responsible for monitoring this project is Lana Moorey, P.E.

Background

On November 2, 2004, voters overwhelmingly approved eight (8) referendum questions funding more than 300 capital improvement projects throughout the County over the next 15 to 20 years. Each ballot question included a list of projects identified in Appendix A that were approved as part of the program. Appendix A to Resolution No. R-914-04, which authorized the referendum to construct and improve walkways, bikeways, bridges, and neighborhood infrastructure improvements, lists projects eligible for funding from the BBC GOB Program by number, name and project description. All additions, deletions and significant modifications to individual projects require a majority vote of the BCC following a public hearing.

One of the projects included in the BBC GOB Program is Project No. 126 - "Miami River Greenway". The original allocation for this project is \$7,500,000. The project consists of construction at six (6) separate County-owned parcels which will provide continuity to the Miami River Greenway Network. The project includes the construction of a 25'-0" wide pedestrian/bicycle shared use riverwalk including lighting, landscaping, and hardscape elements such as benches and trash receptacles. The scope of the work includes, but is not limited to: seawall design, drainage, lighting, landscape and architecture details, and all of the necessary incidental items for a complete project. It is estimated that the costs for these improvements is approximately \$4,500,000.

As such, the available \$7,500,000 in GOB funds for the Miami River Greenway project exceeds the estimated cost for the project. It is recommended that \$850,000 be moved to the Commodore Bike Trail (Project No. 127) via the subject request for the significant modification of the allocation for BBC GOB Program Project No. 126 - "Miami River Greenway" to \$6,650,000 and the reallocation of \$850,000 to BBC GOB Program Project No. 127 - "Improve and Extend the Commodore Bike Trail." This modification would increase the allocation for Project No. 127 to \$1,850,000 which will assist in funding for the completion of the project since the original allocated amount (\$1,000,000) for this project is not sufficient to fund the estimated project cost of \$2,062,040. The balance of funding is anticipated to be provided via a Local Agency Program Agreement with the Florida Department of Transportation for \$212,040 in federal funds (presented to the Board under separate cover).

Project No. 127 - "Improve and Extend the Commodore Bike Trail" consists of construction of a bicycle and pedestrian shared-use bridge over the Coral Gables waterway, resurfacing of the existing trail, widening portions of the trail to meet current design standards, construction of appropriate bicycle facility compliant curb ramps, pavement markings and signage. The Commodore Trail will increase efficiency of cycling as a transportation mode by improving interconnectivity of the bike path; will save energy by increasing the number of miles ridden on bicycles, thereby reducing the usage of petroleum-based fuels; will provide recreational opportunity for Miami-Dade residents and visitors, and provide a safe way for children to travel from their homes to schools by supporting the Safe Routes to School Program.

The subject recommendation to allocate these surplus funds has been made in accordance with the procedures outlined in I.O. 3-47 - "Process for Allocation of Surplus and Other Funds from the Building Better Communities-General Obligation Bond Program". The available surplus funds are being used to cover the only project budget shortfall within the projects identified in Exhibit A to the Authorizing Resolution.

Pursuant to I.O. 3-47, this recommendation regarding the use of surplus funds to cover a budget shortfall was presented to the BBC-GOB Citizens' Advisory Committee (CAC) so that they could advise the Board regarding the use of said surplus funds. This recommendation
