

# Memorandum

**Date:** June 15, 2010

**To:** Honorable Chairman Dennis C. Moss  
and Members, Board of County Commissioners

Agenda Item No. 12(A)(2)

**From:** George M. Burgess  
County Manager

**Subject:** Recommended Policy for the use of Economic Development Funds under the Building Better Communities General Obligation Bond Program Project No. 124 – “Economic Development Fund” and Project No. 320 – “Economic Development in Targeted Urban Areas” and Amending the Administrative Rules

**This item was amended by the Housing and Community Development Committee at its May 10, 2010 meeting to do the following: 1) adjust the cap on the reimbursement amount allocated within any one strategic area under BBC GOB Program Project No. 124 from \$30 million to \$15 million; 2) adjust the cap for each project specific grant under BBC GOB Program Project No. 124 from \$25 million to \$15 million; 3) include language under BBC GOB Program Project No. 124 that the County Mayor or the County Mayor’s designee shall consult with specific entities in the review of projects; and 4) specify that County Mayor or the County Mayor’s designee shall convene a committee of members of the Task Force on Urban Economic Revitalization, community leaders and/or economic development experts to assist in the review of BBC GOB Project No. 320 grant applications.**

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) adopt the attached resolution which: 1) establishes policy on the criteria for projects to be funded by the Building Better Communities General Obligation Bond Program’s (BBC GOB Program) Project No. 124 – “Economic Development Fund” (Project No. 124) and Project No. 320 – “Economic Development in the Targeted Urban Areas” (Project No. 320); and 2) amends the GOB Administrative Rules accordingly. Pursuant to the BBC GOB Program’s Administrative Rules, the funds allocated to Project No. 124 and Project No. 320 are collectively referred to as the Economic Development Fund. In addition, this item also corrects minor scrivener’s errors, and amends the Administrative Rules with respect to soft costs eligible under the Sustainable Buildings Ordinance and expands the ownership of properties funded under the BBC GOB Program to include active and duly registered Florida for-profit corporations or other recognized business entities.

## **Scope**

The Economic Development Fund must be used to spur economic development and attract new businesses to the community in order to create jobs. Of the \$90 million allocated, \$75 million is available countywide and the remaining \$15 million is set aside to target economic development activities within the County’s Targeted Urban Areas. Targeted Urban Areas are identified under the County Code of Ordinances Article VI Section 30A-129(2) as those geographical areas commonly known as: Liberty City/Model City, Carol City, Goulds, Overtown, Little Haiti, Brownsville, Opa-Locka, Richmond Heights, Homestead/Florida City, Coconut Grove, Northwest 27th Avenue Corridor, Northwest 183rd Street Corridor, West Little River, Princeton/Naranja, Leisure City, South Miami, Perrine, and the City of North Miami’s 7th Avenue District, Downtown District, West Dixie Highway District and Biscayne Boulevard District.

## **Fiscal Impact**

There will be no fiscal impact to the County with the approval of this item which simply sets policy on the use of \$90 million in GOB funds set for economic development.

## **Background**

In November 2004, Miami-Dade County voters approved the issuance of \$352.182 million in general obligation bonds to, among other things, construct and improve bridges, public infrastructure, and

neighborhood improvements as part of the BBC GOB Program. Within that amount, a total of \$90 million was allocated towards the Economic Development Fund for which the eligible uses are, but are not limited to:

- infrastructure funding for road construction, water and sewer lines, fencing, sidewalks, entryways, lighting, and handicap accessibility;
- acquisition of land or buildings, subject to certain limitations and to be evaluated on a case by case basis;
- new construction or renovation of buildings, subject to certain limitations and to be evaluated on a case by case basis; and
- construction or acquisition of parking lots and structures, subject to certain limitations and to be evaluated on a case by case basis.

Ineligible uses of the funds on deposit in the Economic Development Fund include, but are not limited to, working capital, furniture and fixtures, office equipment, and other non-capital related expenses.

Staff has developed criteria for two separate programs under the Economic Development Fund (as detailed further below) to: a) spur economic development and attract new businesses to the community in order to create jobs; b) stimulate private sector investment in key strategic locations that strengthen the local economic base for long-term growth; and c) provide a significant economic return on the investment of BBC GOB Program dollars.

Economic Development Grant Fund – Project No. 124

Staff proposes that \$75 million from the Economic Development Fund be used to not only accomplish the goals of private sector development, accelerate job creation, and provide a significant return on investment, but more importantly to develop projects with the potential to transform the regional economy and produce a significant number of jobs. More specifically, the County wishes to use these funds in ways that strengthen the economy's capacity for innovation and commercialization of scientific advancements, and expand leadership in local industry clusters such as Aviation and Aerospace, Financial and Professional Services, Homeland Security and Defense, Information Technology, Life Sciences, and International Trade and Global Commerce.

The recommended use of these funds is a shift from the County's current economic development incentive programs as it focuses on the building of institutions that serve as catalysts for such new investments, productivity growth, and the foundation for long-term regional competitive advantage. Using BBC GOB Program Project No. 124 funds, the County can move quickly to take advantage of "**game-changing**" economic development opportunities likely to have very significant impacts on the entire County and/or South Florida region, rather than specific neighborhoods or sections of the County.

This portion of the Economic Development Fund will fund new public infrastructure projects that incentivize real property investments by innovative businesses willing to relocate to Miami-Dade County that are unlikely to occur without such incentive. The innovative businesses sought are businesses likely to be catalysts for the growth of an existing or emerging high technology cluster or likely to have a significant impact on long term regional growth. Eligible projects should be located within important strategic locations that are consistent with established land use planning and transportation goals. Five *strategic areas* have been identified as (see Exhibit L to the Administrative Rules):

- Opa-locka Executive Airport area defined on the north by the airport property line from NW 37 Avenue on the east to NW 57 Avenue on the west, south along NW 57 Avenue to NW 135 Street, then east along NW 135 Street to NW 42 Avenue and south along NW 42 Avenue to East 56 Street, east along East 56 Street to NW 37 Avenue, and then north along NW 37 Avenue to the northeast corner of the airport property;

- Civic Center/Medical District defined by the area bounded on the north by NW 28th Street, on the east by Interstate 95, on the south by the Miami River, and on the west by NW 17th Avenue;
- Port of Miami defined as the combination of Dodge Island and Lummus Island;
- Kendall-Tamiami Executive Airport area defined by SW 120th Street on the north, SW137 Avenue on the east, the CSX railroad line on the south, and SW 157 Avenue on the west; and
- Homestead Air Reserve Base area defined by the irregular boundaries shown on Exhibit L of the Administrative Rules.

This program would provide \$75 million in grant funds to reimburse projects for the cost of public infrastructure investments associated with private development. These private capital investments must support long term economic development and create a significant number of jobs. Reimbursement for infrastructure investment will be contingent upon the private entity having secured total project capital investment from non-County government sources as required under a Grant Agreement.

The Economic Development Grant Fund requirements listed below establish guidelines to identify qualified projects. This list of general qualifications and requirements reflects the County's intent to move forward with projects that will have a significant, and lasting, impact on future economic development and job creation.

Project No. 124 requirements include:

- The funds must be used to provide infrastructure improvements to spur economic development and attract new businesses to the community in order to create jobs.
- The funds must be used for public infrastructure, including parking structures and public facilities, along with other infrastructure improvements, subject to certain limitations and to be evaluated on a case by case basis.
- These infrastructure improvements must support economic development activities that have the potential to create a significant number of permanent new jobs in Miami-Dade County that benefit the community at-large.
- The project must leverage public bond monies with other funding sources to yield a significant economic impact and return on public incentive investments, and demonstrate the financial capacity and financial commitment to complete the economic development project.
- The project must demonstrate long-term benefits to the County in spurring future economic growth through an analysis of local economic and County fiscal impacts over a 20-year time period using a Miami-Dade County REMI model or an equivalent model that is widely available and professionally accepted among economists.
- No more than \$15 million of reimbursements can be allocated within any one strategic area.
- A project-specific grant would reimburse up to 100 percent of public infrastructure costs per project, but subject to the cap of the lesser of \$15 million or the amount of grant funding available within such strategic area.
- Actual grant funds would be disbursed on a reimbursement basis only after verified completion of the public infrastructure project upon receipt of an audited financial accounting of infrastructure development costs and subject to funding and compliance with federal tax laws.
- Grants in excess of \$5 million would be disbursed over no more than a 5 year period from the date the public infrastructure improvements are completed when taxable bonds are issued to fund such public infrastructure improvements. If tax-exempt bonds are issued for the public infrastructure improvements reimbursements for such public infrastructure improvements will be disbursed over no more than a three year period from the date of the expenditure but in no case later than 18 months from the date the public infrastructure project is placed in service.

- Annual benchmarks for required private sector capital investments in a project would be established and disbursement of grant funds would be subject to attainment of said benchmarks. A prorated grant disbursement may be allowed when actual project investment falls short of benchmarks.

Development projects that are LEED certified will receive additional consideration in the evaluation process commensurate with the level of LEED certification in order to provide an incentive to build energy efficient facilities and reduce CO<sub>2</sub> emissions.

*Economic Development in Targeted Urban Areas Fund – Project No. 320*

Staff proposes policies that will facilitate utilization of the \$15 million allocated to Project No. 320 to support projects that provide a significant return on the investment of BBC GOB Program dollars in Targeted Urban Areas. The County needs to be able to move quickly when economic development opportunities, with significant private sector participation, present themselves in the Targeted Urban Areas. Project No. 320, like Project No. 124, is intended to support private sector development and job creation through public infrastructure improvements. This may be achieved by encouraging new businesses to relocate specifically to Miami-Dade County's Targeted Urban Areas.

Project No. 320 requirements:

- The funds must be used for public infrastructure, including parking structures and public facilities, along with other infrastructure improvements located within the boundaries of the County's 19 Targeted Urban Areas, subject to certain limitations and to be evaluated on a case by case basis.
- The infrastructure improvements must spur economic development and attract new businesses to the community in order to create jobs.
- The project must benefit the residents and businesses within the individual Target Urban Areas.
- The project must include private sector investment and leverage public bond monies with other funding sources, and demonstrate the financial capacity and financial commitment to complete the economic development project.
- The project must create a significant number of jobs that are available to residents of a Targeted Urban Area.
- No more than \$3 million of reimbursements can be allocated within any one Targeted Urban Area. The grant would reimburse up to 100 percent of public infrastructure costs per project, but subject to a cap of the lesser of \$3 million or the total amount of grant funding available.
- Actual grant funds would be disbursed on a reimbursement basis only after verified completion of the public infrastructure project upon receipt of an audited financial accounting of infrastructure development costs and subject to funding and compliance with federal tax laws.
- Grants would be disbursed over no more than a 5 year period from the date the public infrastructure improvements are completed when taxable bonds are issued to fund such public infrastructure improvements. If tax-exempt bonds are issued for the public infrastructure improvements reimbursements for such public infrastructure improvements will be disbursed over no more than a three year period from the date of the expenditure but in no case later than 18 months from the date the public infrastructure project is placed in service.
- Benchmarks for required private sector capital investments in a project would be established and disbursement of grant funds would be subject to attainment of said benchmarks. A prorated grant disbursement may be allowed when actual project investment falls short of benchmarks.

While the construction of infrastructure will have an immediate impact on employment levels within the County, the intent of Project Nos. 124 and 320 is to create sustainable long term economic development and job growth. Each proposed project must be evaluated primarily according to the

“permanent” new jobs directly and indirectly created, but consideration will also be given to the directly and indirectly created jobs during the project’s development phase. Once a proposed project is approved by the Board, actual funding is dependent upon the availability of BCC GOB Program bond proceeds.

The proposed resolution authorizes the County Mayor or the County Mayor’s designee to consider economic development projects in accordance with the policy set forth herein and submit them to the Board for approval at any time with the understanding that the amount of the grant and schedule of disbursements will depend upon the availability of funds in the BCC GOB Program and subject to compliance with federal tax laws.

While the marketplace and economic conditions will determine the specific projects presented to the Board for consideration, the criteria above provide the mechanism for the County Mayor or the County Mayor’s designee, to negotiate with private sector partners on potential projects that meet Miami-Dade’s long-term goals for economic growth and job creation. The need to move quickly to take advantage of economic development opportunities likely to have very significant impacts in terms of jobs and investments in Miami-Dade County or in our Targeted Urban Areas, requires that the County streamline the process of analyzing and evaluating economic development proposals and have the authority to negotiate the terms of public incentives on a case by case basis. Community involvement, through the Task Force on Urban Economic Revitalization, in evaluation of projects applying for funding under Project 320 is preserved in the amended Administrative Rules. The actual grant award and approval of the terms of each grant agreement under BBC GOB Program Project No. 124 and Project No. 320 shall be subject to approval by the Board.

Additional changes recommended for Board approval are described below.

*Increase on Soft Costs to Address the County’s Sustainable Buildings Ordinance*

For BBC GOB projects to effectively comply with the Sustainable Buildings Ordinance, the amount eligible for reimbursement for project soft costs will be increased from 17 percent to 20 percent to accommodate both the costs of green building design, commissioning and pre-certification services in accordance with the Sustainable Buildings Ordinance No. 07-65 and Implementing Order 8-8. For those projects where it is not practical to attain certification, design services can be employed to implement design interventions that on the average will result in an estimated payback of up to 10 years. Typical categories of payback include but are not limited to energy efficiency, water efficiency, productivity and operations and maintenance.

*Ownership of Property*

Currently, title to land acquired with BBC GOB Program funds or facilities constructed/developed with BBC GOB funds shall vest with a Public Agency, or a legally incorporated 501(c)(3) not-for-profit Community-Based Organization. The recommended change will allow for an active and duly registered Florida for-profit corporation or other recognized business entity to own property for which BBC GOB funds will be used to construct or develop facilities.

### 1. Funds Objectives

Alternative methodologies for established wage rates must be pre-approved by the Board.
  - d) Consultant Services. The costs of consultant services necessary for the Project are eligible for payment from the Funding Allocation. The Recipient must pay consultants according to the Recipient's customary or established method and rate. No consultant fee may be paid to the Recipient's own employees.

3) Cost Activities.

- a) Construction activities. The cost of all necessary construction activities, from site preparation (including demolition, survey, excavation and other site work) to the completion of a structure is eligible for payment from the Funding Allocation.
- b) Fixtures, Furniture and Equipment. Except for Projects funded by the Economic Development Fund, the cost of Fixtures, Furniture and Equipment necessary to operate the facility are eligible for payment from the Funding Allocation if approved in the Grant Agreement or the Interlocal Agreement, as the case may be, and a detailed list of eligible items is submitted in writing and approved by the County Mayor or the County Mayor's designee ~~Manager~~ prior to its purchase (See Article III, Section 1 (c)). Costs for consumable goods shall not be considered eligible for payment from the Funding Allocation. Also, refer to Article I, Section 4 for a detailed definition of Fixtures, Furniture and Equipment.
- c) Interpretive Signs and Aids. The cost of signs, display boards or other interpretive aids relating to the Project are eligible for payment from the Funding Allocation.
- d) Signage. During the time period of Development, the County shall post a sign in a prominent location at the Project site in the general design provided by the County depicting the Building Better Communities General Obligation Bond logo and identifying the source of funding for the Project. The cost of such a sign is eligible for payment from the Funding Allocation.

Recipients are encouraged to use value-engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions.

- 4) The following is a nonexclusive list of costs ineligible for payment from the Funding Allocation:
- a) Funding Application costs.
  - b) Ceremonial expenses.
  - c) Expenses for publicity.
  - d) Bonus payments unless specifically authorized by the Board.
  - e) Charges in excess of the lowest responsive and responsible bid or proposal in accordance with the governing rules and procedures of the Recipient, when the law requires the Recipient to utilize competitive selection. In the event a selection process is used, other than a low bid process any cost in excess of the cost of the highest ranked firm shall be considered ineligible.
  - f) Charges for deficits or overdrafts.
  - g) Charges incurred contrary to the policies and practices of the Recipient.

- h) Interest expense (May be reimbursed at the discretion of the Board if incurred during the construction period and is attributable only to the construction period).
- i) Litigation expenses or judgments.
- j) The cost of services, material or equipment obtained under any other program.
- k) Costs of discounts not taken.
- l) The cost of purchasing a non-refundable option when acquiring land.

**F) Budget Changes.**

- 1) Recipients shall adjust their Project budgets to reflect actual costs and updated cost estimates and shall submit adjusted Project budgets to the County Mayor or the County Mayor's designee Manager as soon as the recipient is aware of a material budget change.
- 2) Budget adjustments may not exceed the 17% Soft Cost limitation for design, planning, and program administration, with the exception of those projects meeting the Sustainable Building Ordinance, nor exceed the Project Funding Allocation without approval of the Board.
- 3) Recipients shall obtain the prior written approval of the Board whenever budget adjustments are anticipated as outlined in a, b, and c below. The request must be in the same budget format the Recipient used in the Grant Agreement or Interlocal Agreement, as the case may be, and shall be accompanied by a narrative justification for the proposed revision. Such request for adjustment shall, if approved, amend the Grant Agreement or Interlocal Agreement, as the case may be. Requests for budget changes shall be considered whenever any of the following adjustments are required:
  - a) For any Project involving both Acquisition and Development activities, any proposed budget transfers from Development to Acquisition.
  - b) Any proposed reduction or revision of the scope or objectives of the Project (regardless of whether there is an associated budget adjustment) that substantially changes the original intent of a project.
  - c) Any change that would increase Soft Costs for planning, design, and project administration which exceeds the limit specified in Article III, Section 3 (c)(1).

In the event that a Recipient has completed the approved scope of work for a Project and has unexpended funds, the Recipient may submit a request to the County Executive Office to expend these funds in an existing or new budget line item for the Project. The County Mayor or the County Mayor's designee Manager is authorized to approve such budget changes and expenses not to exceed 15% of the total budget.

**G) Cost Overruns.** The Recipient shall fund all cost overruns. During the execution of work on a Project, the Recipient may find that actual Project costs exceed the approved budget. For cost overruns that will require additional funding for the Project, or otherwise require a budget

adjustment for which prior Board approval is required pursuant to paragraph E above, the Recipient shall:

- 1) Provide a justification for the additional costs;
- 2) Identify available funds for the completion of the Project; and, if necessary
- 3) Request from the Board a change or revision in the Project scope consistent with the terms of the Ordinance and the Authorizing Resolutions.

The Board, at its discretion, may authorize in writing a change or revision in the scope of the Project: (i) where change or revision of the scope is consistent with the Ordinance; and (ii) where the change or revision is justified by the Recipient; and (iii) where the Recipient does not have sufficient funds to complete the Project with the available funds. Under those circumstances, the Board, in its sole discretion, may identify other funds available under the Ordinance for the Project.

## **SECTION 2. COMPLIANCE RESPONSIBILITIES**

The following constitute general requirements for program compliance:

- A) An annual independent audit of the Building Better Communities General Obligation Bond funds must be submitted by all Recipients to the County Executive Office no later than six months after the close of the Recipient's fiscal year for which a Funding Allocation was received and each year thereafter until Project completion. The audit report must include the Fund Summary Status Report, Exhibit J. The audit must be performed by certified independent auditors and include the following:
  - 1) Test for compliance with the Grant Agreement or Interlocal Agreement, as the case may be, Miami-Dade County Ordinance No. 05-47, applicable resolutions and the Building Better Communities General Obligation Bond Administrative Rules.
  - 2) Test to verify compliance with advance requirements.
  - 3) Sufficient tests, as determined by the independent auditor to verify true and accurate reflection of Project expenditures.
  - 4) Tests to verify expenditure of required match dollars.
  - 5) Verification of the Fund Summary Status Report.
- B) Land and facilities acquired, developed, improved or rehabilitated by Funding Allocation shall be dedicated and maintained in perpetuity for the use and benefit of the general public except where leases are in effect. Any land, facilities, or equipment acquired with Building Better Communities General Obligation Bond funds may not be sold or transferred without the written consent of the County and may require an equitable reimbursement of bond funding based on residual value. All projects shall be open to the public at reasonable times and shall be managed in a safe and attractive manner appropriate for public use.
- C) Funding Allocation for the purposes of development, improvement, rehabilitation or restoration

shall be expended for these purposes only on lands owned by a Recipient or on lands for which the Recipient holds a lease or other use agreement. Such lease or other use agreement must be for an unexpired minimum term of 25 years. The Funding Allocation Recipient may demonstrate the eligibility of the Project to the reasonable satisfaction of the Board, through a joint ownership, use, franchise or other agreement, evidencing that the lands and/or the Project will be utilized for the public benefit, consistent with the terms of this the Ordinance, for a term of at least 25 years in duration. The lease must not be revocable at will.

- D) Recipient shall maintain all financial and programmatic records, supporting documents and other records pertinent to the Funding Allocation for a period of three years from the starting date defined below. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the three year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular three year period, whichever is later. When Funding Allocation support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the Recipient submits to the County its single or last expenditure report for that period. In all other cases, the retention period starts on the day the Recipient submits its final expenditure report.
- E) The Board and the County, or any of their authorized representatives, shall have the right of access to any pertinent books, documents, papers or other records of the Recipient in order to make audits, examinations, excerpts and transcripts.

Office of the Miami-Dade County Inspector General (IG) (MDC Code Section 2-1076) shall have the authority and power to review past, present and proposed County programs, accounts, records, contracts and transactions. The IG shall have the power to subpoena witnesses, administer oaths and require the production of records. Upon ten (10) days written notice to the Recipient from IG, the Recipient shall make all requested records and documents available to the IG for inspection and copying. The IG shall have the power to report and/or recommend to the Board whether a particular project, program, contract or transaction is or was necessary and, if deemed necessary, whether the method used for implementing the project or program is or was efficient both financially and operationally. Monitoring of an existing project or program may include reporting whether the project is on time, within budget and in conformity with plans, specifications, and applicable law. The IG shall have the power to analyze the need for, and reasonableness of, proposed change orders.

The IG may, on a random basis, perform audits on all County contracts throughout the duration of said contract (hereinafter "random audits"). This random audit is separate and distinct from any other audit by the County. To pay for the functions of the Office of the Inspector General, any and all payments to be made to the Recipient under the Grant Agreement will be assessed one quarter of one percent of the total amount of the payment, to be deducted from each progress payment as the same becomes due unless, as stated in the Code or the Grant Agreement, the Project is federally or state funded and federal or state law or regulations preclude such a charge. The Recipient shall in stating its agreed prices be mindful of this assessment.

The IG shall have the power to retain and coordinate the services of an independent private sector inspector general (IPSIG) who may be engaged to perform said random audits, as well as audit, investigate, monitor, oversee, inspect, and review the operations, activities and

performance and procurement process including, but not limited to, project design, establishment of bid specifications, bid submittals, activities of the contractor, its officers, agents and employees, lobbyists, County staff and elected officials in order to ensure compliance with contract specifications and detect corruption and fraud.

- F) If a Recipient materially fails to comply with any term of an award, the Board or the County Mayor or the County Mayor's designee Manager may take one or more of the following actions, as appropriate in the circumstances:
- 1) Temporarily withhold cash payments pending correction of the deficiency by the Recipient;
  - 2) Disallow all or part of the cost of the activity or action not in compliance;
  - 3) Wholly or partly suspend or terminate the current award for the Recipient's Project;
  - 4) Withhold further Funding Allocation awards from the Recipient; or
  - 5) Take other remedies that may be legally available.
- G) Any of the enforcement actions listed in paragraph F above, taken by the County Mayor or the County Mayor's designee Manager, which are contested and unresolved between the Recipient and the County within thirty days of such action, will result in the Board providing the Recipient with an opportunity to be heard on the issue. Said hearing will occur within sixty days of the Board receiving the Recipient's written request. Staff will recommend appropriate action to the Board.
- H) Costs to Recipient resulting from obligations incurred by the Recipient during a suspension or after termination of an award are not eligible for reimbursement unless the County Manager expressly authorizes them in the notice of suspension or termination or subsequently authorizes reimbursement in writing. Other costs incurred by the Recipient during suspension or after termination which are necessary and not reasonably avoidable are eligible for reimbursement if:
- 1) The costs result from obligations which were properly incurred by the Recipient before the effective date of suspension or termination, were not in anticipation of it, and in the case of a termination, are non-cancelable; and
  - 2) The costs would be eligible for reimbursement if the award was not suspended or if the award expired normally at the end of the funding period in which the termination takes effect.
- I) Inspections. Staff of the Board or the County, or both, shall periodically inspect each Project to ensure compliance with these rules, the Ordinance, and the Grant Agreement or Interlocal Agreement, as the case may be. Staff shall perform an inspection of the Project site to ensure compliance prior to release of the final Funding Allocation payment.

### SECTION 3. REPORTS

Recipients are required to submit the Project Status Report no later than monthly (Exhibit E), in the format stipulated by the County Mayor or the County Mayor's designee Manager. Additional

reports that shall be due upon request of the County Mayor or the County Mayor's designee Manager may include, but are not limited to:

- A) Actual accomplishments of each Funding Cycle Allocation;
- B) Problems encountered in implementation of each Funding Cycle Allocation; and
- C) Anticipated start and/or completion dates of each Funding Cycle Allocation.

Recipient may be required to meet with the Board to discuss the Project.

#### **SECTION 4. PROJECT CLOSE-OUT**

- A) A Recipient has up to forty-five (45) days after the expiration or termination of the Funding Allocation to submit all final documentation including final reimbursement requests and Project ~~project~~ completion certificates.
- B) The close-out of a Funding Allocation does not affect:
  - 1) The County's right to disallow costs and recover funds on the basis of a later audit or review;
  - 2) The Recipient's obligation to return any funds due as a result of later refunds, corrections or other transactions;
  - 3) Records retention responsibilities set forth above;
  - 4) Continuing responsibilities set forth in the Ordinance, the Grant Agreement or Interlocal Agreement, as the case may be, and these rules; and
  - 5) Audit rights set forth in these rules.
- C) Any amounts paid to Recipient in excess of the amount to which the Recipient is finally determined to be entitled under the terms of the Grant Agreement or Interlocal Agreement, as the case may be, constitute a debt to the County. If not paid within a reasonable period after demand, the County may reduce the debt by:
  - 1) Making an administrative offset against other requests for reimbursement;
  - 2) Withholding payments otherwise due to the Recipient; or
  - 3) Taking other action provided by law.

Any overdue debt of the Recipient shall accrue interest at the maximum rate allowed by law.

#### **SECTION 5. INTERPRETATION; ADMINISTRATION**

These administrative rules have been promulgated under the Ordinance. In the event of a conflict between these rules and the provisions of the Ordinance, the Ordinance shall prevail.

The County Mayor or the County Mayor's designee Manager shall be authorized to interpret the provisions of these administrative rules and their interpretation of any matters governed hereby shall be final and may only be overturned by a majority vote of the Board. The County Mayor or the County Mayor's designee Manager shall submit recommendations amending these administrative rules to the Board, which may approve or reject such recommendations by majority vote.

The County Mayor or the County Mayor's designee ~~Manager~~ shall be authorized and required to administer the Building Better Communities General Obligation Bond Program consistent with the Ordinance and these administrative rules.
