Date: July 13, 2010

BPS  
Agenda Item No. 3E

To: Honorable Chairman Dennis C. Moss and Members,  
Board of County Commissioners

From: George M. Burgess  
County Manager

Subject: Resolution Authorizing the Execution of an Interlocal Agreement between the Town of Medley and the Miami-Dade County Stormwater Utility for Stormwater Management

## Recommendation

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing the execution of an interlocal agreement for stormwater management between the Town of Medley ("the Town") and the Miami-Dade County Stormwater Utility ("the Utility"). This new five (5) year agreement (Exhibit A) will replace the current agreement on October 1, 2010, and will remain in effect until September 30, 2015.

## Scope

The Town of Medley is in Miami-Dade County Commission District 12.

## Fiscal Impact/Funding Source

The Town shall provide funds from their stormwater utility for an estimated annual total of \$31,947 in shared costs and the Miami-Dade County Stormwater Utility shall be responsible for an estimated annual total of \$14,353. For the five (5) year term of the agreement, the Town's total will not exceed \$159,735, and the Utility's total will not exceed \$71,765. Without the proposed interlocal agreement, the County would be responsible for all costs.

## Track Record/Monitor

The Director of the Department of Environmental Resources Management will monitor this agreement.

## Background

On June 18, 1991, the BCC adopted Ordinance No. 91-66, creating the Miami-Dade County Stormwater Utility and establishing a uniform approach to stormwater management in Miami-Dade County. The municipalities were subsequently given the option to become part of the Utility or to create their own local stormwater utility that provides a dedicated source of stormwater funding in accordance with Section 403, Florida Statutes.

On July 21, 1998, the BCC adopted Resolution No. R-866-98, exempting the Town of Medley from the Miami-Dade County Stormwater Utility. The Town subsequently created its own stormwater utility as its funding source. On February 23, 2005, the Town signed a five (5) year agreement establishing relationships and responsibilities for the operation and maintenance of stormwater systems shared by the Town and the Utility. This current agreement commenced on October 1, 2005, and expires on September 30, 2010.

On April 5, 2010, the Town signed and approved a new five (5) year interlocal agreement for stormwater management between the Town and the Utility. The proposed new agreement will replace the current agreement on October 1, 2010.

THIS FIVE (5) YEAR INTERLOCAL AGREEMENT, [the "Agreement"] by and between the Miami-Dade County Stormwater Utility, a public body corporate and politic, through its governing body, the Board of County Commissioners of Miami-Dade County, Florida [hereinafter sometimes referred to as "UTILITY"], and the Town of Medley, a Florida Municipal Corporation, through its governing body, the Medley Town Council of the Town of Medley, Florida [hereinafter sometimes referred to as "TOWN"], is entered into as follows:

WITNESSETH

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, it is the intent of the UTILITY and the TOWN, through this Agreement, to establish relationships and responsibilities for the maintenance of shared stormwater systems by the TOWN and the UTILITY; and

WHEREAS, the UTILITY and the TOWN recognize that there are operating costs, as well as benefits, associated with maintaining shared stormwater drainage systems; and

WHEREAS, the UTILITY and the TOWN want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

## **ARTICLE I PURPOSES**

The UTILITY and the TOWN enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
- (2) to maintain and improve water quality and preserve and enhance the environmental quality of the receiving waters;
- (3) to control flooding that results from rainfall events;
- (4) to deter unmanaged rainwater from eroding sandy soils and causing sedimentation;
- (5) to deter the disruption of the habitat of aquatic plants and animals;
- (6) to promote intergovernmental cooperation in effectively and efficiently managing stormwater run-off;
- (7) to maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with the approved plans. These include maintaining canals, and any required maintenance of flow control structures and stormwater pump stations and their mechanical and electrical components; maintaining stormwater systems as determined by conditions of the system, prevailing environmental conditions, and the level of service established.
- (8) to provide a mechanism for the UTILITY and the TOWN to share and allocate the cost of maintaining and repairing shared stormwater drainage systems as stated in (7), above.

## **ARTICLE II DEFINITIONS**

Agreement shall mean this document, including any written amendments, attachments, and other written documents, which are expressly incorporated by reference.

Estimated total expenditures for the five (5) year term of this Agreement are also included and shall not be exceeded.

D. The tasks and levels of service set forth in Attachment "B" may be adjusted by the UTILITY due to prevailing environmental conditions, maintenance needs, or ownership, provided that the total annual estimated expenditures are not exceeded. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then prior written approval by both parties' Project Managers must be obtained. However, the total five-year cost of the Agreement shall not be exceeded.

E. Payments by the TOWN are to be made within 30 days after the bill presentation.
