

Memorandum

Date: November 4, 2010

To: Honorable Chairman Dennis C. Moss and Members,
Board of County Commissioners

Agenda Item No. 8(D)(1)(D)

From: George M. Burgess
County Manager

Subject: Resolution Authorizing the Execution of an Interlocal Agreement between the City of Opa-locka and the Miami-Dade County Stormwater Utility for Stormwater Management

Recommendation

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing the execution of an interlocal agreement for stormwater management between the City of Opa-locka ("the City") and the Miami-Dade County Stormwater Utility ("the Utility"). This new two (2) year agreement (Exhibit A) will replace the current agreement that expires October 1, 2010, and this new agreement will remain in effect until September 30, 2012.

Scope

The City of Opa-locka is in Miami-Dade County Commission Districts 1 and 13.

Fiscal Impact/Funding Source

The City of Opa-locka shall provide funds from its stormwater utility for an estimated annual total of \$346,322 in shared costs, and the Miami-Dade County Stormwater Utility shall be responsible for an estimated annual total of \$107,281. For the two (2) year term of the agreement, the City's total will not exceed \$692,644, and the Utility's total will not exceed \$214,562. Without the proposed interlocal agreement, the County would be responsible for all costs.

Track Record/Monitor

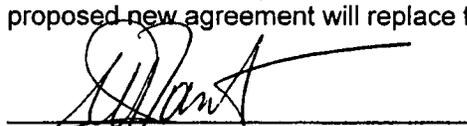

The Director of the Department of Environmental Resources Management will monitor this agreement.

Background

On June 18, 1991, the BCC adopted Ordinance No. 91-66, creating the Miami-Dade County Stormwater Utility and establishing a uniform approach to stormwater management in Miami-Dade County. The municipalities were subsequently given the option to become part of the Utility or to create their own local stormwater utility that provides a dedicated source of stormwater funding in accordance with Section 403, Florida Statutes.

On June 3, 1993, the City passed and adopted Ordinance No. 93-6, creating stormwater management regulations within their municipal code, and establishing their own stormwater utility as its funding source. On October 8, 2008, the City signed a two (2) year agreement establishing relationships and responsibilities for the operation and maintenance of stormwater systems shared by the City and the Utility. The current agreement commenced on October 1, 2008, and expires September 30, 2010.

On July 14, 2010, the City passed and adopted Resolution No. 10-18 (Exhibit B), approving a new two (2) year interlocal agreement for stormwater management between the City and the Utility. The proposed new agreement will replace the current agreement that expires September 30, 2010.

THIS TWO (2) YEAR INTERLOCAL AGREEMENT, [the "Agreement"] by and between the Miami-Dade County Stormwater Utility, a public body corporate and politic, through its governing body, the Board of County Commissioners of Miami-Dade County, Florida [hereinafter sometimes referred to as "UTILITY",] and the City of Opa-locka, a Florida Municipal Corporation, through its governing body, the Opa-locka City Commission of the City of Opa-locka, Florida [hereinafter sometimes referred to as "CITY",] is entered into as follows:

WITNESSETH

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, it is the intent of the UTILITY and the CITY, through this Agreement, to establish relationships and responsibilities for the maintenance of shared stormwater systems by the CITY and the UTILITY; and

WHEREAS, the UTILITY and the CITY recognize that there are operating costs, as well as benefits, associated with maintaining shared stormwater drainage systems; and

WHEREAS, the UTILITY and the CITY want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

ARTICLE I PURPOSES

The UTILITY and the CITY enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
- (2) to maintain and improve water quality and preserve and enhance the environmental quality of the receiving waters;
- (3) to control flooding that results from rainfall events;
- (4) to deter unmanaged rainwater from eroding sandy soils and causing sedimentation;
- (5) to deter the disruption of the habitat of aquatic plants and animals;
- (6) to promote intergovernmental cooperation in effectively and efficiently managing stormwater run-off;
- (7) to maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with the approved plans. These include maintaining canals, and any required maintenance of flow control structures and stormwater pump stations and their mechanical and electrical components; maintaining stormwater systems as determined by conditions of the system, prevailing environmental conditions, and the level of service established.
- (8) to provide a mechanism for the UTILITY and the CITY to share and allocate the cost of maintaining and repairing shared stormwater drainage systems as stated in (7), above.

ARTICLE II DEFINITIONS

Agreement shall mean this document, including any written amendments, attachments, and other written documents, which are expressly incorporated by reference.

The yearly charges allocable to the CITY or to the UTILITY shall be that amount prorated, plus interest charges and administrative fees, for no longer than the calculated useful life of the capitalized item in no case exceeding 20 years. A separate Interlocal Agreement is required for any approved Capital Outlays that may be amortized beyond the life of this Agreement.

Such acts or events DO NOT INCLUDE inclement weather (except as noted above) or the acts or omissions of subcontractors, third-party contractors, material men, suppliers, or their subcontractors, unless such acts or omissions are otherwise encompassed by the definition set forth above.

The CITY shall maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with this Agreement and the CITY's stormwater management plan. The CITY shall be responsible for maintaining aesthetic conditions only on canals and other water bodies within the City's boundary by providing for litter and minor debris removal as needed.

The UTILITY shall maintain, repair and enhance shared stormwater management systems located within the limits of the drainage service areas in accordance with Attachment "A" and Attachment "B".

The CITY's relative stormwater runoff contribution to the UTILITY's shared drainage system and the UTILITY's relative stormwater runoff contribution to the shared drainage system is depicted in Attachment "A".

Estimated total expenditures for the two (2) year term of this Agreement are also included and shall not be exceeded.

D. The tasks and levels of service set forth in Attachment "B" may be adjusted by the UTILITY due to prevailing environmental conditions, maintenance needs, or ownership, provided that the total annual estimated expenditures are not exceeded. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then prior written approval by both parties' Project Managers must be obtained. However, the total five-year cost of the Agreement shall not be exceeded.

E. Payments by the CITY are to be made within 30 days after the bill presentation. In the event of a dispute on the billed amount, the CITY may notify the UTILITY of the nature of the dispute and the UTILITY shall make arrangements for the pertinent records to be made available for inspection by the CITY, as indicated under Article V (H) of this Agreement.
