

Memorandum

Date: September 21, 2010

To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

From: George M. Burgess
County Manager

Subject: Resolution Ratifying the County Mayor's or County Mayor's Designee Action in Authorizing Capital Improvement Contracts Pursuant to Section 2-8.2.7 of the Code of Miami-Dade County relating to the Economic Stimulus Plan

Agenda Item No. 9(A)(3)

RECOMMENDATION

It is recommended that the Board of County Commissioners adopt the attached resolution ratifying the County Mayor's or County Mayor's designee's actions taken from April 1, 2010 through July 31, 2010 in expediting the capital improvement projects identified on the attached schedules (Exhibits A and B) as authorized by Ordinance No. 09-60 extending the "Economic Stimulus Plan" (ESP). During this period, three projects totaling \$8,374,480.97 were awarded directly via the ESP (see Exhibit A). Also, please note that two items included in the attached Exhibit B were awarded through alternate methods of contracting outside the referenced period (during the second quarter of FY 2009-2010).

- Envirowaste Services Group, Inc. in the amount of \$2,600,000.00 for the Miami-Dade Water and Sewer Department (WASD); Project Name: One Year Countywide Contract for Rehabilitation of Sanitary Sewers by the Sectional Lining Method, with County Option to Renew for an Additional Three Years on a Yearly Basis (Project part of the February 2010 ESP list)
- Gannett Fleming, Inc. in the amount of \$274,480.97 for Miami-Dade Transit; Project Name: Park and Ride Facility at SW 344th Street and Busway (Project part of the original July 2008 ESP list)
- PB Americas, Inc. in the amount of \$5,500,000.00 for the Miami-Dade Water and Sewer Department; Project Name: Construction Management Services for Government Cut Utility Relocation Projects (Project part of the February 2010 ESP list)

SCOPE

The three contract awards detailed in Exhibit A involve the need to provide construction services for capital improvement projects that are located within Commission Districts 5 and 9; however, one of the WASD projects will have a countywide impact.

FISCAL IMPACT/FUNDING SOURCE

The contract awards are funded by a variety of funding sources as described in the adopted capital plan for FY 2009-10 for the specific projects and listed on the attached Exhibit A. Each project's on-going current and future operations and maintenance impact have been budgeted by the departments and are shown on Exhibit A attached.

TRACK RECORD / MONITOR

The contractors listed on the attached Exhibit A have received previous contracts from the County and have performed work for various County departments. The Office of Capital Improvements Capital Improvements Information System (CIIS) database contains ten evaluations for Envirowaste Services Group, Inc. showing a satisfactory rating. There is one evaluation in CIIS for Gannett Fleming, Inc. showing satisfactory performance for the vendor. PB Americas, Inc. has sixteen evaluations in CIIS showing a satisfactory performance rating. The staff assigned to the day-to-day operations of these contracts is listed

in the contract award memorandum for the project. The ESP is being coordinated and monitored by the Office of Capital Improvements (OCI).

BACKGROUND

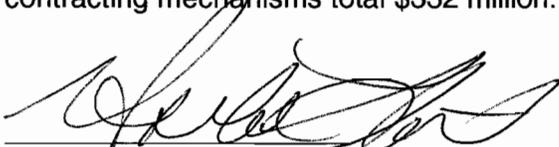

Section 2-8.2.7 of the Code of Miami-Dade County, known as the "Economic Stimulus Plan" (ESP), adopted by the Board on July 17, 2008 through Ordinance No. 08-92, provides for expeditious treatment of professional service agreements and construction contracts associated with funded capital improvement projects identified in the approved annual capital budget (Proposed Capital Budget and Multi-Year Capital Plan) and included by the Board in Resolution No. R-851-08 or subsequently added by the Board via resolution. The Board also adopted Ordinance No. 09-60 amending the ESP Ordinance to include in the list of projects capital projects funded through the American Recovery and Reinvestment Act (ARRA) and extending the sunset provision until July 2011. On February 2, 2010, the Board adopted via resolution that additional capital projects be added to the ESP in order to maintain Miami-Dade County's continuous support of the local construction industry.

The ESP is an effective way to stimulate the local economy and accelerate the County's capital program by moving funded projects through the contracting process at a quicker pace thereby providing an opportunity for our government to lessen the negative impact of the current economic conditions on the building professions and trades. The ESP reduces the timeline, about 90-120 days on each procurement cycle, to advertise solicitations and competitive bids and award qualifying projects, design and construction contracts, resulting in significant efficiencies in the implementation of those projects.

During this reporting period, OCI processed three qualifying award as listed in Exhibit A. Exhibit A also includes a summary of the Community Small Business Enterprise (CSBE), Community Business Enterprise (CBE), Disadvantaged Business Enterprise (DBE), Community Workforce Program (CWF) participation, the Solicitation Method used, and the Number of Jobs Generated as calculated by the Office of Economic Development Coordination, for ESP projects.

The Department of Small Business Development (SBD) is supporting the ESP by accelerating the project review and goal analysis process to ensure participation of small businesses on County contracts. All ESP projects are reviewed by SBD for the application of program measures in the areas of construction, architecture and engineering services. Between April 1, 2010 and July 31, 2010, SBD reviewed one project under the Economic Stimulus Plan recommending small business participation of \$1,378,373 or 27%. Small business participation measures approved under the ESP over the last two year implementation period totals \$117,657,529 or 19%, representing a 7% increase over the 12% average participation for the two year period prior to implementation of the stimulus plan. The average turnaround time for expedited project review and goal analysis during this period was three days, which is five days less than the average processing time for the period.

In total, 32 projects have been awarded under the authority granted through Section 2-8.2.7 of the Code of Miami-Dade County. However, there are other projects that are part of the ESP which have been expedited utilizing alternative contracting mechanisms. Alternative contracting mechanisms includes contracts advertised, awarded or underway using the Miscellaneous Construction Contracts (MCC) 7040 and 7360, Department of Procurement Management and other existing departmental contracts, in-house forces and grant agreements. For the period ending July 31, 2010, projects awarded using Alternate Methods of Contracting, totaled \$1.17 million as detailed on Exhibit B. The funding sources and fiscal impact for these projects are also listed on Exhibit B. To date, ESP projects awarded using alternative contracting mechanisms total \$332 million.
