

# Memorandum

**Date:** November 4, 2010

**To:** Honorable Chairman Dennis C. Moss  
and Members, Board of County Commissioners

**From:** George M. Burgess  
County Manager 

**Subject:** Ordinance Amending Article III, Section 25B of the Code of Miami-Dade County,  
relating to the Safe Neighborhood Parks (SNP) Bond Program

Agenda Item No. 7(I)

**This substitute differs from the original in that all references of a sunset date have been deleted and replaced with the words "until all available funds have been expended." Thereby, allowing all remaining SNP funds to be paid out before closing out the program. The substitute also corrects language in the memorandum to clarify that although the SNP Citizens' Oversight Committee has made recommendations for all remaining funds, the Board has not given final approval to the allocation to Miami Lakes.**

## **RECOMMENDATION**

It is recommended that the Board of County Commissioners (Board) adopt the attached ordinance amending Article III, Section 25B of the Code of Miami-Dade County relating to the Safe Neighborhood Parks (SNP) Bond Program, amending certain project scopes and funding allocations as shown in Attachment 1, transferring administrative duties of the SNP Citizens' Oversight Committee (COC or Committee) to the Mayor or Mayor's designee until all available funds have been expended.

## **SCOPE**

The scope of this agenda item impacts Commission Districts 3, 4, 5, 7, 8, 9, and 11. However, the SNP program has impacted every Commission District throughout the lifespan of the program.

## **FISCAL IMPACT/FUNDING SOURCE**

Funding of \$200 million was approved as part of a referendum and authorized under County Ordinance No. 96-115. No additional fiscal impact is related to this item.

## **TRACK/RECORD MONITOR**

The individual grantees will implement their improvement projects. The County's Office of Capital Improvements (OCI) Director, George Navarrete, will continue to monitor the SNP Program through the Program's close-out.

## **DELEGATION OF AUTHORITY**

This item dissolves the Safe Neighborhood Parks Citizens' Oversight Committee (COC or Committee). Upon dissolution of the Committee, the County Mayor or Mayor's designee will perform the Committee's administrative duties which include scope modifications for approved projects and extension of contract time if needed. The Board is not delegating the authority to award any unspent funds.

## **BACKGROUND**

The Safe Neighborhood Parks Bond Program was created in 1996 upon the overwhelming support of voters for a \$200 million parks capital improvement program. The Program, funded by the periodic

issuance of bonds, is being administered by the County's Office of Capital Improvements and implemented by various partners. Many major renovations to County and municipal parks have been made possible by the Program. Since the capital improvement projects were staggered over a period of years, bond monies that were not in active use earned interest which was reinvested in construction projects, netting approximately \$30 million more than the original \$200 million.

The success of the SNP Program is the result of collaborative efforts by County staff, municipalities and the Safe Neighborhood Parks Citizens' Oversight Committee. The Committee was formed in 1997 and charged by the Board with monitoring the bond expenditures and the progress of construction. The 13 member Committee, currently chaired by Martin Mendiola, conducted regular meetings and provided periodic reports to the Board. Although there remain a number of active contracts and commitments that must be administered and closed-out, as of January 29, 2010 the COC has made recommendations for all remaining funds.

However, the COC's recommendation to allocate funds to the Town of Miami Lakes (Town) has not yet actually been committed via interlocal agreement or approved by the Board. As you may recall, on December 16, 2009, the SNP COC made a recommendation to award the Town of Miami Lakes \$346,100 of Discretionary Interest Earnings for Royal Oaks Park (\$200,000), Miami Lakes Park (\$46,100), and Sevilla Estates Park (\$100,000) with the condition that Royal Oaks Park, Miami Lakes Park, and Sevilla Estates Park be completed by December 2, 2010. However, previously at the December 1, 2009 Board of County Commissioners meeting, staff was directed to hold any funds re-allocated to the Town in abeyance until such time as resolution of payment disputes between the County and the Town relating to QNIP funds were resolved. To date, this issue has not been resolved. Staff will continue to work with the Town to resolve any outstanding issues. Should these issues be resolved, an item will be presented to the Board for the award of these funds to Miami Lakes and an interlocal agreement reflecting this award will be executed.

OCI will continue the processing of invoices and payments until all funded projects are complete. All invoices submitted for payment must be for expenses incurred no later than December 2, 2010, or the expiration date of the contract, whichever is earlier. The Office of Capital Improvements conducted a survey of grantees to ascertain if the grantees will be able to meet the project completion dates. The survey results indicated that grantees are committed to finalizing their respective projects by the contract expiration date.

The COC voted on December 16, 2009 to begin the close-out of the Program and to recommend to the Board that the Committee be dissolved. However, the Committee agreed to meet one last time on May 19, 2010 in order to recommend certain contract extensions that were needed to finalize projects which were presented to the Board under a separate legislative item. The COC strongly recommended that any unspent funds in the future, once the Committee is dissolved, be used to pay down the debt.

As the Program has drawn to a close, the review process revealed that certain project technical scopes and funding allocations that were included in the authorizing legislation have been revised through COC recommendations and subsequent Board action; however, these technical scopes were never formally adjusted within the body of the authorizing ordinance. Furthermore, several grantees have requested additional scope changes in order to finalize their projects. These scope changes involve eligible expenses for Board approved projects. Again, although, all of these amendments were evaluated and approved by the COC and the governing bodies of each of the grantees, the changes have not been codified and made final by the Board. The attached ordinance revises the technical scopes as appropriate for such projects. Specific changes are detailed in Attachment 1.

Honorable Chairman Dennis C. Moss  
Members, Board of County Commissioners  
Page 3

Therefore, it is recommended that the Board adopt the attached ordinance retroactively amending the project scopes and funding as cited in Attachment 1, dissolving the Citizens' Oversight Committee and transferring the administrative duties of the COC to the Mayor or Mayor's designee in order to begin the final close-out of the SNP Program.
