

Memorandum

Date: October 19, 2010

To: Honorable Chairman Dennis C. Moss
and Members, Board of County Commissioners

Agenda Item No. 8(0)(1)(D)

From: Carlos Alvarez
Mayor

George M. Burgess
County Manager

Subject: Resolution Requesting Authority to Exercise Option-to-Renew Periods Under Existing Non-Competitive Contracts

Recommendation

It is recommended that the Board of County Commissioners delegate to the County Mayor or County Mayor's designee the authority to exercise, in his discretion, the Options-to-Renew (OTRs) set forth in this item. Ordinance #07-139 provides for committee review exemption. **Contract amounts and/or department allocations represent the maximum spending authority based on estimated past usage. This action does not guarantee that the total contract amount/value will be expended by County departments and/or agencies.**

Scope

The impact of the items in the accompanying OTR package is countywide in nature.

Fiscal Impact/Funding Source

Funding will be expended only if departmental budgets can support the expenditures as approved in their Resource Allocation Plan adopted annually by the Board. There is no additional fiscal impact beyond what is stated on the individual items in this package. Allocations have been rounded consistent with standard auditing practices.

Track Record/Monitor

There are no known performance issues with the vendors recommended for award in the accompanying OTR package. The departments' contract manager is reflected in the accompanying agenda item.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to exercise OTRs in accordance with the terms and conditions of the contracts listed in the accompanying package.

Background

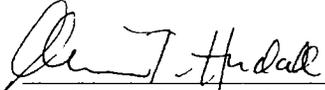

The non-competitive contracts listed in this item require approval to exercise OTRs contained in each contract that would, if exercised, bring the cumulative value of the contract over \$100,000. Each of the contracts were awarded under the County Mayor or County Mayor's designee's delegated authority (\$100,000 for non-competitive procurements) pursuant to Section 2-8.1(b)

of the County Code and the Master Procurement Administrative Order, A.O. 3-38. The second OTR for Item 2 was approved by the Board via Resolution R-1308-09, and the initial contract term for Item 3 was approved by the Board via Resolution R-1366-09.

Prior to exercising any Options-to-Renew (OTR) periods, market research is conducted to ensure continuing to purchase from the awarded vendors is in the best interest of the County. Market research includes competitive factors such as pricing, quality, product features, technology, and lead time. It may also include commercial factors such as environmental issues, other governmental entity practices, industry trends, support and capabilities. The OTRs for each contract in this package will be executed if determined to be in the best interest of the County.

Item No. 1: E-Net Software Maintenance and Support Services seeks authority to exercise the second OTR period for maintenance and support services for the E-Net Software used by the Enterprise Technology Services Department. The amount being requested for the second option term is **\$31,000**.

Item No. 2: Levi Ray & Shoup Software Maintenance & Support Services seeks authority to exercise the third OTR period for maintenance and support services for the Levi, Ray & Shoup software used by the Enterprise Technology Services Department. The amount being requested for the third option term is **\$45,000**.

DPM Contract Manager: Margaret Brown

JUSTIFICATION

This contract is utilized by the Enterprise Technology Services Department (ETSD) for software maintenance and technical support services for the Levi, Ray and Shoup (LRS) software. The LRS software is used by ETSD to streamline printing in the mainframe computer environment by efficiently routing data to the most appropriate printer or output device. Additionally, the LRS software enhances the mainframe printing system by providing a management tool, allowing enhanced monitoring of print jobs, and facilitating correction of printing problems. All of the County's mainframe applications rely on this software to print jobs at remote locations throughout the County.

LRS is the proprietary owner and developer of the software. No other vendor is capable of providing the required maintenance and support services. It is therefore in the best interest of the County to exercise the third OTR period to ensure continuity of services.
