

Memorandum

Date: May 3, 2011

To: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

From: Alina T. Hudak
County Manager

Subject: Resolution Authorizing a Refunding Application for the Head Start/Early Head Start Program to the Department of Health and Human Services and Authorizing an Extension of Delegate Agency Contracts for Program Year 2011-2012

Agenda Item No. 8(B)(1)(A)

RECOMMENDATION

The Miami-Dade County Community Action Agency Board (CAA Board) recommends that the Board of County Commissioners (BCC) approve the refunding application for the Head Start/Early Head Start Program (HS/EHS program). It is also recommended that in support of this application the BCC extend the existing Head Start and Early Head Start contracts with the 14 existing delegate agencies listed below for the 2011-2012 Program year, with an amendment in substantially the form of Attachment A. Also provided for your reference, please find Attachment B, a copy of the underlying delegate contract which would be amended by Attachment A.

The fourteen delegate agencies are:

Allapattah	Le Jardin
Catholic Charities	O'Farrill Learning Center
Centro Mater	Our Little Ones
Family Christian Association of America	Paradise Christian School
Haitian Youth	St. Alban's
KIDCO	Sunflower's Academy
Landow Yeshiva	United Way of Miami

Attachment C lists the funding for each delegate agency contract.

Approval of the recommendations is necessary to allow the County to meet the May 2011 deadline to submit the refunding application to HHS to secure funding for the HS/EHS program for the 2012 program year.

SCOPE

The HS/EHS program serves low-income individuals and families countywide and currently serves more than 6,500 children annually ages birth through five years old. The HS/EHS program receives in excess of \$55 million annually from the Department of Human Services (HHS) to provide comprehensive child development services to these children and their families.

FISCAL IMPACT/FUNDING SOURCE

There is a fiscal impact to the County for providing HS/EHS services. The annual HHS grant requires the County to contribute a minimum of 25% match (approximately \$13.75 million annually), which may be provided in cash and/or in-kind contributions. Although sufficient in-kind match is available to meet the requirement, the current program structure causes program

expenses to exceed the grant allocation, requiring the County to contribute cash to offset the additional expense. Without significant program changes, it is expected that the County will need to contribute \$5.6 million in Countywide General Fund to close the gap in Program Year 2011-12.

TRACK RECORD/MONITOR

The Executive Director of the Community Action Agency (CAA) and the HS/EHS Director are responsible for program oversight, fiscal management and reporting.

BACKGROUND

The Miami-Dade Community Action Agency (CAA) has provided comprehensive child development services to low income preschool children ages three to five years old through the HS program since 1965. In 1990, CAA received additional funds to administer the Early Head Start program which provides services to pregnant women, and children up to three years of age. The HS/EHS program is currently funded to serve 6,210 preschool children and 318 infants and toddlers, as well as their families. Services are provided countywide through the direct operation of 43 centers in conjunction with fourteen contracted delegate agencies that provide services at 36 additional sites.

Each year, the County is required to submit a refunding application to HHS. The application defines the HS/EHS program, the funding requirements and program budget, delegate agency information and other program details. However, the HS/EHS program operates on a policy of shared governance between the BCC, the CAA Board and the Policy Council therefore, in addition to the BCC and CAA Board approval, HHS requires Policy Council concurrence and signoff of the application prior to submission to HHS. The refunding application is due to the Department of Health and Human Services (HHS) on or before May 1, 2011 and also requires the signature of the BCC Chairperson.

In the past, the County has been contributing a significant amount of general funds in excess of the minimum federal match requirement to support the HS/EHS program as it is currently structured. For example, during program years 2006-07 through 2009, the County contributed general revenue totaling \$4.4, \$5.3 and \$4.4 million respectively, over and above the 25 percent minimum local match. As the economy declined and housing values collapsed, the County's general revenues have declined significantly, forcing the County to review the level of support to general fund supported programs. In fact for the 2011 program year the projected spending gap is \$3.5 million and without significant program changes the gap is expected to exceed \$5.6 million by the end of the 2012 program year. The County has been exploring several methods of addressing the funding gap and is in discussions with HHS, the County's CAA Board and Policy Council to resolve the issues.

In addition to the anticipated program changes, the contracts with delegate agencies will expire July 31, 2011 and a solicitation was issued to enter into new contract arrangements for 2012 and beyond. However, neither this procurement process nor final agreements on the nature and extent of the HS/EHS program changes to address future funding gaps will be completed in time to meet the deadline for submitting the refunding application to HHS.

Consequently, it is recommended that the County extend the current delegate agency contracts and submit a refunding application to HHS based on the current program structure. This application will be a "place holder" to ensure the County will receive HS/EHS funding for the 2012 program year. Staff requested, and the BCC Chair approved, a request to HHS for a 30-day extension of the application deadline. While a limited extension may be granted, HHS

requested that the County file an application even though the above issues have not been resolved. HHS has also agreed that to the extent the County makes a final determination regarding the program structure and costs, the County may submit an amended refunding application for HHS consideration and approval.

The refunding application and associated extension of the delegate agency contracts included in this item represent a continuation of the HS/EHS program as currently structured.

The following is a brief summary of the factors surrounding the HS/EHS program.

Over the past four years, financial challenges have forced the County to explore options for reducing the level of general fund allocated to programs countywide including the HS/EHS program. However, in accordance with HHS regulations, any significant program change requires agreement between the BCC, the CAA Board and the Policy Council. To date, there has been no consensus between the CAA Board and the Policy Council. Additionally, the service contracts for all 14 existing delegate agencies expire July 31, 2011, therefore a new solicitation was issued to develop replacement contracts. However, the procurement process will not be completed in time to meet the refunding application deadlines.

Regarding the solicitation for replacement delegate agency contracts, a solicitation was approved by both the CAA Board and the Policy Council to secure new contracts for the 2011-2012 program year and beyond. The solicitation was issued by the Department of Procurement Management (DPM) to form a pool of delegate agencies to replace the current contracts prior to the start of the next HS/EHS program year in August 2011. During the preparation of the solicitation, DPM was advised that the resulting contracts needed to be in place by the May 1, 2011 refunding application deadline so that the awarded delegate agencies could be included in the application. In an effort to meet this deadline, the procurement process was expedited. The approval to advertise was granted on February 8, 2011 and the solicitation was issued that same day.

The procurement process was on target for an award recommendation to be presented for approval at April Committee and May 3, 2011, BCC. However, at the negotiation meetings multiple delegate agencies raised concerns about the County's measurements of their facilities to determine the maximum number of children that they could service, in accordance with HHS guidelines. The agencies also raised concerns about the amount of funding per child that the County was able to offer. These issues need to be reviewed and appropriately considered prior to making the award recommendations. The BCC should also be aware that selection of delegate agencies is also governed by additional HHS appeal procedures. Under these procedures as outlined in 45 CFR 1303.20, the federal government makes the final determination and its decision is binding. The appeals process would need to be completed prior to the effectuation of any contracts should it elevate to the federal government level. Therefore, award recommendations will not be ready in time to meet the May 1, 2011 application deadline.

Regarding proposed changes to the HS/EHS program to address the funding gaps, several meetings were held with the CAA Board and the Policy Council, no final decision or recommendation has been made by the Policy Council. The CAA Board has taken the position to delegate County operated slots to delegate agencies, however, the CAA Board did not have a quorum for an official vote. These discussions are continuing and until these issues are resolved, a refunding application to HHS that reflects the significant program changes cannot be submitted.

In order to address the projected HS/EHS funding gap for the current 2010-11 program year, staff recommended a number of structural changes to the program including transferring County operated slots to delegate agencies; shortening the school year and/or reducing the number of children served by the program. Prior to and during the budget deliberations in September 2010, concerns were raised by several stakeholders including HHS, the Policy Council and some members of the BCC regarding the implementation of major program changes during the school year. While these recommendations offered significant savings, they were not perceived as feasible, primarily because of the timing of the proposed changes and the negative impact on program staff.

In an effort to ensure that all saving options were analyzed before any program changes were considered, recommendations were made to conduct a detailed analysis of the program using an outside consultant. Western Kentucky University (WKU) was contracted in July 2010 through a competitive process to analyze the HS/EHS program. WKU made 24 recommendations for increased program efficiencies, changes to the organizational structure and options to significantly reduce program costs. Four recommendations that could result in significant cost savings also require BCC, CAA Board and Policy Council consensus before they can be implemented. These include the reduction of school days by up to 15 days from 175 days to 160 days; reduction in the number of slots (children served) by several hundred slots; partnering of educational services with third party contractors; and delegating all or a portion of the 2,268 slots currently operated by County staff to delegate agencies. Any or all of these recommendations will significantly impact the HS/EHS program and staff.

Staff met with the CAA Board and the Policy Council on several occasions to share the results of the report, the funding realities, and to seek their input on the recommendations. Although the CAA Board did not have a quorum at the joint Special Policy Council and CAA Board meeting on March 2, 2011 or at their regular monthly meeting on March 14, 2011, the CAA Board members present supported the option for complete delegation of County-operated slots to delegate agencies. However, during the joint meeting and several subsequent meetings of the Policy Council, the group has yet to proffer a recommendation or take any final action regarding changes to the HS/EHS program. Instead, the Policy Council has tabled the item three times due to lack of quorum or because the members requested additional information/clarification. In light of these issues, the process will not be completed in time to be included with the refunding application.

It is therefore recommended that the County submit a refunding application to secure HS/EHS funding for the 2012 program year, extend the existing delegate agency contracts for one additional year, and submit an amended application to HHS when all the issues have been resolved.
