MEMORANDUM Agenda Item No. 8(E)(1)(C)

TO: Honorable Chairman Joe A. Martinez and Members, Board of County Commissioners

DATE: September 1, 2011

FROM: R. A. Cuevas, Jr. County Attorney

SUBJECT: Resolution authorizing accounts receivable adjustment for multiple fiscal years of certain Miami-Dade County departments' uncollectible accounts receivable in the aggregate of $11,770,402, pursuant to Administrative Order 3-9

The accompanying resolution was prepared by the Finance department and placed on the agenda at the request of Prime Sponsor Commissioner Lynda Bell.

R. A. Cuevas, Jr.

Memorandum

MIAMI-DADE COUNTY

Date: September 1, 2011

To: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

From: Alina T. Hudak
County Manager

Subject: Resolution Authorizing Accounts Receivable Adjustments

---

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the accounts receivable adjustments of certain outstanding accounts receivable amounts totaling $11,770,402 in accordance with Administrative Order 3.9. This authorization is necessary to adjust the County's general ledger to adequately reflect accounting records.

Scope

The impact of this agenda item is countywide since it affects County departments that provide countywide services. This agenda item adjusts the County's general ledger through September 2007. Next fiscal year, an agenda item will be brought to the Board to adjust the County's general ledger for fiscal years 2007-08 and 2008-09, and, thereafter, an agenda item to adjust the County's general ledger will be brought to the Board annually in accordance with industry best practices.

Fiscal Impact/Funding Source

This item does not have a fiscal or funding impact; the debts have been deemed uncollectable, but the execution of the accounts receivable adjustments in this item do not change or limit the County's ability to continue pursuing those debts. County departments with high volumes of accounts receivable regularly reserve a percentage of the receivables for doubtful accounts/bad debt expense. The adjustments to accounts receivable items for departments presented in this item have been charged to bad debt expense in order to properly and fairly match revenues and related expenditures to the appropriate accounting period. Fund balances have already been adjusted to reflect the bad debt expense. There is no fiscal impact to any of the County funds, and this item does not impair the County's ability to continue pursuing any and all remedies as permitted by law.

Track/Record Monitor

County departments are responsible for tracking and monitoring accounts receivable. The County uses a number of mechanisms to collect current and past-due outstanding balances. Most balances are collected through normal billing and collection activities, including invoicing on a scheduled basis and department/customer contact activities. Additionally, for balances that have been delinquent for longer periods of time and collection efforts unsuccessful, County departments often engage the Finance Department's Credit and Collections Section or outside collection agencies to pursue further collection efforts as permitted by law. All accounts referred to the Credit and Collection Section are maintained in a database for future collections via any and all means permitted by law. Revenues from stale accounts will be used to fund reserves. Uncollected debts are only considered for accounts receivable adjustments when staff has exhausted all reasonable measures and believes that further actions – whether by County staff or private debt-collection contractors – are unlikely to result in sufficient collections to offset the cost of further efforts. Nonetheless, the County continues to pursue remedies as permitted by law.

A revised implementing order related to adjustments of accounts receivable would require monthly departmental reconcilements of accounts receivable to the County's general ledger. This implementing order has been placed on the same Board agenda for your consideration. The aging of these amounts will be monitored through a measure that will be added as a component of each departmental scorecard used in monitoring the performance in strategic initiatives.

Background

From time to time in the normal course of business, amounts owed to the County become past due (30+ days late). In some cases, these amounts become delinquent (90+ days late), which greatly reduces the probability that the debts will be collected in full. These accounts receivable include customer billings for services rendered; unpaid fees, fines or penalties from permits, licenses or violations; and receivables from loans, mortgages or long-term contracts. In these cases, the County establishes an allowance for doubtful accounts to appropriately reflect anticipated revenues on its books. This is a standard practice for both public and private entities and reflects responsible and accurate accounting.

The County uses a number of mechanisms to collect current and past-due outstanding balances. Most balances are collected through normal billing and collection activities, including invoicing on a scheduled basis and departmental customer-contact activities. Additionally, for balances that have been delinquent for longer periods of time and collection efforts unsuccessful, County departments often engage the Finance Department's Credit and Collections Section or outside collection agencies to pursue further collection efforts as permitted by law. All accounts referred to the Credit and Collection Section are maintained in a database to pursue any and all remedies permitted by law. Despite continuous collection efforts, however, it is generally accepted in both the public and private sectors that a portion of the delinquent balances will not be recuperated and will necessitate an adjustment to the accounts receivable.

Generally Accepted Accounting Principles (GAAP) require that when the value of an asset is impaired, it be removed from the accounting system used in the preparation of financial statements to provide a fair representation of financial position. In the instance of accounts receivable deemed fully uncollectible for financial reporting purposes, the act of adjustment of an account in no way affects the County's legal rights in pursuing and securing delinquent account balances as permitted by law. The County will continue its efforts to collect the amounts due, including legal action where practicable, until an equitable restitution is made or agreed upon where possible. This activity, in other words, does not represent abandonment of debt collection, but a necessary and responsible step to ensure our financial reports accurately represent only anticipated revenues that the County can reasonably expect to collect. This agenda item adjusts the County's general ledger through September 2007. Next fiscal year, an agenda item will be brought to the Board to adjust the County's general ledger for fiscal years 2007-08 and 2008-09; thereafter an agenda item to adjust the County's general ledger will be brought to the Board annually in accordance with industry best practices.

Ordinance 99-162 established a "Registry of Delinquent Contractors," which departments are required to review prior to entering into a contract. Individuals or entities in arrears under any individual contract, final appealable judgment, or lien with the County that exceeds $25,000 and delinquent for more than 180 days, must first pay the amounts owed to the County or make suitable arrangements to pay.

Appendix 1 summarizes the detailed information provided in attachments A-F, including the department name, fiscal years covered in accounts receivable adjustment total, number of accounts, account receivable total amount of revenues generated during that timeframe, percent of revenues being

adjusted versus total period revenues, as well as a brief high-level description of the receivable types. Staff cross-referenced all accounts receivable adjustments against the County's personnel databases to ensure that all collection actions were exhausted as permitted by law prior to presenting this item for consideration.

Appendix 2 details information for each of the departments included in Appendix 1.

County Executive Office

Appendix 1

Miami Dade County Department	Fiscal Years	Number of Accounts	Total Revenues[1] for Fiscal Years	Accounts Receivable Adjustment Amount	Percent of Total Revenues	Receivable Type	Attachment
Animal Services Department	1980-2007	14,249	$101,722,915	$4,325,371	4.3%	Citations	A

Total			**$410,113,574**	**$11,770,402**	**2.9%**		

[1] Source: Provided by Departments from individual accounts receivable subsidiary systems

Generally Accepted Accounting Principles require accounts receivable to be evaluated as to their collectability in order to prevent distortion of the financial statement balances. For this purpose, an amount is regularly reserved and charged to bad debt expense.

Animal Services Department
When the Animal Services Department became a department in October 2005, obsolete and duplicate accounts were purged to ensure that citations were accurately issued. This effort included an amnesty period to update accounts, eliminate duplicates, void and close erroneous citations and increase compliance. In 2007 a memorandum of understanding between Finance and Animal Services was signed approving the transfer of outstanding accounts for collections. In 2009, this effort was further streamlined whereby outstanding citations are electronically transferred to Collections if no payment activity occurs within a 120-day period. Prior to 2005, as a division of the Miami-Dade Police Department, outstanding citations were also transferred to Finance for collections. Unfortunately, the department does not have sufficient records to determine the parameters or results of this effort. A program was developed to identify those outstanding accounts, and any citations with no payment activity 120 days from issuance date are automatically transferred to Credit and Collections.

Miami-Dade Fire Rescue (MDFR)
MDFR total accounts receivable adjustments through fiscal year 2007 is $6,914,244. This includes medical transports of $5,284,510, representing less than 2 percent of the aggregate EMS billing amount during the period in which these charges were incurred, which spanned from 1989 through 2007. MDFR also has unpaid accounts for off-duty special event services ($177,642), commercial occupancy inspections ($666,300), and public school inspections ($785,792).

MDFR has substantially altered the policies and procedures for off-duty fire watch services, eliminating the need for uniformed personnel at private buildings for fire alarm monitoring except for short-term emergency situations. The department has also implemented a policy requiring deposits from all off-duty services entities except long-standing customers with acceptable histories of on-time payment. Since the changes in procedures and personnel, there have not been any unpaid accounts, and more than $830,000 (out of a total of more than $1.02 million) has been collected from various entities. The uncollectible amount for off-duty services accounts are for events that occurred prior to August 2006. MDFR is unable to collect these unpaid amounts due to the customer no longer being in business or lack of sufficient documentation from MDFR to bill the customer for the off-duty personnel.

In accordance with Chapter 14 of the Miami-Dade County Code, the MDFR Fire Prevention Division conducts annual life safety inspections in commercial occupancies and other structures. After inspection, payment of an annual fee is required after an invoice is mailed from MDFR. If left unpaid, the fee and resulting penalties can exceed $500. The amount of unpaid occupancy inspections and fines from calendar year 1999 through 2007 totals $666,300 and represents less than 3 percent of total occupancy inspection revenue during that nine-year period.

Library
All Library accounts that owed over $30.00 as of October 1, 2007, and had not responded to Library notices, have been referred to a private collection agency, Unique Management. All new accounts that meet these criteria are also sent. Prior to using Unique Management, the Library had no automated method for sending overdue accounts for collection. The Library pays Unique Management $8.95 per account submitted. To date, the services have been revenue neutral; that is, the Library brings approximately as much revenue from accounts submitted to Unique Management as it pays for the services. the value of the books and materials returned as a result of this activity, however, is more than triple the cost of pursuing the account.. While Unique Management is willing to accept accounts

older than 2007, they are unable to guarantee revenue neutrality on these accounts, as they do on the newer accounts. The likelihood of recovering materials or fines and fees is low; the Library is, therefore, recommending an accounts receivable adjustment for uncollectible accounts from 1993 through FY 2006-07.

Additionally, as of October 1, 2008, the Library requires annual renewals of library cards, at which timepatrons must pay any outstanding fines or fees, as well as update their addresses and other contact information, which will facility future collections efforts.

Park and Recreation Department
Park and Recreation currently carries on its books a number of accounts are considered uncollectable; an amount is regularly reserved and charged to bad debt expense in order to offset any bad debts.

The proposed accounts receivable adjustments are accounts reflecting receivables from various Park and Recreation facilities, primarily from October 1998 through September 2007. Collection efforts include monthly statements, letters, phone calls, and where appropriate, referral to the County Attorney's Office. Park and Recreation also maintains and distributes a listing (updated monthly) of delinquent customers, to prevent further use of facilities until account is paid. In addition, appropriate uncollectable accounts are referred to the Miami-Dade Finance Department's Credit and Collection Section for additional collection efforts.

Police Department (MDPD)
MDPD currently carries on its books a number of off-duty police billing accounts that are considered to be uncollectable; an amount is regularly reserved and charged to bad debt expense.

These accounts reflect receivables from off-duty police billing accounts that have been inactive since 1996. The amount represents 0.29 percent of total receivables billed during this period. Collection efforts have included monthly statements, letters, phone calls, and, when appropriate, referral to the County Attorney's Office. Upon contacting the permittees, many of these charges were disputed rate increases. Permittees requested copies of the original job tickets. Many original tickets are no longer available due to the expiration of Florida's record retention schedule for such documents. This is the case with the old Dolphin Stadium account, as well as with S.E. Institute of Criminal Justice. MDPD still provides off-duty services to at least two organizations listed in the accounts receivable adjustment item: the Dolphin Stadium Corp. and Miami Dade College.

MDPD has revised the design of the in-house work ticket used for off-duty assignments, which has minimized rate calculation errors. Additional revisions included off-duty coordinator review and authorization requirement, and a defined space for the printed name and title of customers' authorizing designee. These improvements reduced customer disputes. An improved billing software system has been implemented as well as internal administrative process revisions.

Vizcaya
Vizcaya's sole accounts receivable adjustment is for one account in the amount of $2,403. According to available records, various attempts to collect the account were made by the Park & Recreation Department and Finance Department with no success. Staff was not able to locate the client. Established procedures call for tracking all outstanding accounts receivable, including attempts to collect after 30 days due, 60 days, followed by certified letter after a 90 day period. If no resolution occurs after 120 days, the account is referred to the Finance Department Credit and Collection section for further action.

MEMORANDUM

(Revised)

TO: Honorable Chairman Joe A. Martinez and Members, Board of County Commissioners

DATE: September 1, 2011

FROM: R. A. Cuevas, Jr. County Attorney

SUBJECT: Agenda Item No. 8(E)(1)(C)

RESOLUTION NO. _____

RESOLUTION AUTHORIZING ACCOUNTS RECEIVABLE ADJUSTMENT FOR MULTIPLE FISCAL YEARS OF CERTAIN MIAMI-DADE COUNTY DEPARTMENTS' UNCOLLECTIBLE ACCOUNTS RECEIVABLE IN THE AGGREGATE OF $11,770,402, PURSUANT TO ADMINISTRATIVE ORDER 3-9

WHEREAS, the Finance Department has compiled a listing of all accounts receivable from the Animal Services Department, Fire Department, Library, Parks and Recreation, Police Department, and Vizcaya (the "County Departments"), which in the aggregate equal $11,770,402, and has been deemed by each County Department Director as uncollectible; and

WHEREAS, pursuant to Administrative Order 3-9, accounts receivable adjustments in excess of $500 are to be reviewed and approved by this Board; and

WHEREAS, an accounts receivable adjustment would provide for the elimination of customer accounts from the accounting records, it does not preclude continuing collection efforts, to the extent deemed practicable, as stated in Administrative Order 3-9; and

WHEREAS, customers for whom accounts have been declared uncollectible shall not be considered for future business relationships with the County until restitution has been made or agreed to; and

WHEREAS, this Board desires to accomplish the purposes outlined in the accompanying memorandum, a copy of which is incorporated herein by reference,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that:

Section 1. The foregoing recitals are incorporated in this resolution and are approved.

Section 2. The Board approves the adjustments to the accounts receivable set forth in the County Manager's memorandum in the aggregate amount of $11,770,402, pursuant to Administrative Order 3-9.

The foregoing resolution was offered by Commissioner , who moved its adoption. The motion was seconded by Commissioner and upon being put to a vote, the vote was as follows:

Joe A. Martinez, Chairman
Audrey M. Edmonson, Vice Chairwoman

Bruno A. Barreiro	Lynda Bell
Esteban L. Bovo, Jr.	Jose "Pepe" Diaz
Sally A. Heyman	Barbara J. Jordan
Jean Monestime	Dennis C. Moss
Rebeca Sosa	Sen. Javier D. Souto
Xavier L. Suarez	

The Chairman thereupon declared the resolution duly passed and adopted this 1st day of September, 2011. This resolution shall become effective ten (10) days after the date of its adoption unless vetoed by the Mayor, and if vetoed, shall become effective only upon an override by this Board.
