

Memorandum

MIAMI-DADE
COUNTY

Date: January 24, 2012

To: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor 

Subject: Resolution Waiving Formal Bid Procedures

Agenda Item No. 8(F)(7)

Recommendation

It is recommended that the Board of County Commissioners (Board) waive competitive bidding procedures for the attached contracts to purchase goods and services pursuant to Section 2-8.1 of the County Code and Section 5.03(D) of the Home Rule Charter, in the best interest of Miami-Dade County.

Scope

The impact of the items in the attached Bid Waiver Package is countywide in nature.

Fiscal Impact/Funding Source

The allocation and funding source by department/agency is listed in the attached Bid Waiver Package.

Contract amounts and department allocations represent the maximum spending authority based on utilization. This action does not guarantee that the total contract amount/value will be expended by County departments/agencies. Funding will be expended only if departmental budgets can support the expenditures approved in their annual budget adopted by the Board.

Track Record/Monitor

There are no known performance issues with the vendor recommended for award in the attached Bid Waiver Package. The departments' contract manager is also reflected in the attached Bid Waiver agenda item.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to exercise in their discretion subsequent options-to-renew periods and extend contracts for purchase of goods and services in accordance with the terms and conditions of the contracts listed in the attached Bid Waiver Package.

Background

Section 1 BID WAIVER AWARD

A bid waiver is a purchase of a good or service under Administrative Order 3-38 without formal competitive bidding when it is determined to be in the best interest of the County.

Item 1.1: Electronic Patient Care Reporting System requests waiver of formal bid procedures and award to Open Incorporated, Inc. to acquire professional services, software, reporting and support services for Miami-Dade Fire Rescue's Electronic Patient Care Reporting System. The amount being requested is **\$1,600,000**. If the County chooses to exercise the two, five-year options-to-renew, the total contract value will be \$4,800,000.

Item 1.2: Pipeline Inspections requests waiver of formal bid procedures and award to *Pure Technologies U.S. Inc.* for pipeline inspections for the Water and Sewer Department. The amount being requested is **\$5,800,000**.

Item 1.3: iTran 300E Payment Processing Equipment requests waiver of formal bid procedures and award to *Netvantage, Inc* to purchase replacement payment processing equipment and related maintenance and support services for the Finance Department. The amount being requested is **\$258,000**.

Section 2 NON-COMPETITIVE CONTRACT MODIFICATIONS

A non-competitive contract modification is a supplemental allocation for goods or services that exceed the scope of the original contract allocation, or a modification of an established non-competitive contract, representing a waiver of the competitive bidding process under Administrative Order 3-38.

Item 2.1: Aladdin Temp-Rite OEM Equipment and Parts modifies this contract for additional time to allow the Miami-Dade Corrections and Rehabilitation Department to continue the purchase of rethermalization equipment, parts, and meal trays used for inmate food services. There is no additional funding being requested.

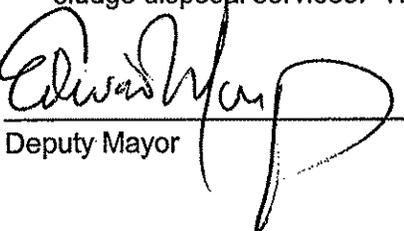

Item 2.2: Printrak Automated Fingerprint Identification System modifies this contract for additional time and spending authority to allow the Miami-Dade Police, Miami-Dade Aviation, and Miami-Dade Corrections and Rehabilitation departments to continue the purchase of required maintenance and support services for the Automated Fingerprint Identification System. The additional amount being requested is **\$275,000**.

Item 2.3: Janitorial Services modifies this contract to add an allocation funded by Miami-Dade Transit (MDT) Operating funds to allow the MDT to acquire janitorial services for buses. The additional amount being requested is **\$587,000**.

Section 3 EMERGENCY PURCHASES

An emergency purchase is an unforeseen or unanticipated urgent and immediate need for goods or services where the protection of life, health, safety or welfare of the community, or the preservation of public properties, would not be possible using other purchasing methods described in Administrative Order 3-38.

Item 3.1: Hauling and Disposal of Class B Sludge waives formal bid procedures and ratifies and emergency contract to allow the Water and Sewer Department to pay outstanding invoices and continue sludge disposal services. The amount being requested is **\$803,000**.

SECTION 1
BID WAIVER AWARD

Item 1.1

Contract No.: BW9463-2/26

Contract Title: **Electronic Patient Care Reporting System**

Description: Requesting waiver of formal bid procedures and approval to award a Bid Waiver contract for the Miami-Dade Fire Rescue Department (MDFR) to acquire required professional services, software, reporting and support services for the Electronic Patient Care Reporting System (ePCR System). The ePCR System collects, references, communicates, and exchange patient information to first responders, hospital staff, and other local and state agencies throughout the course of an EMS call at a patient's side. Approval of the bid waiver contract will ensure continuity of services while ensuring compliance with the regulations mandated by State of Florida Statute, Chapter 401, Medical Telecommunications and Transportation.

Contract Term: Five years with two, five year options-to-renew

Previous Contract Allocation: \$95,000 for four months

Contract Amount: \$1,600,000 for the initial five year term

*If the County chooses to exercise the two, five-year options-to-renew, the total contract value will be \$4,800,000

JUSTIFICATION

This contract will provide the Miami-Dade Fire Rescue Department (MDFR) with professional services, software, reporting and support services for the Electronic Patient Care Reporting System (ePCR System). The ePCR System collects, references, communicates, and exchanges patient information to first responders, hospital staff, and other local and state agencies throughout the course of an emergency medical service call while a patient is being treated and transported by MDFR. These services are required to support daily reporting operational needs. The ePCR System automates reporting and provides consistent patient data. The ePCR System has increased efficiency by providing clearer information and generating accurate reports.

Open Incorporated Inc. is the proprietary owner and developer of the ePCR System. No other vendor is able to provide the required maintenance and support services as this is a proprietary system. It is recommended that the County establish a long term contract to purchase professional services, software, and support services for the ePCR System. Approval of the bid waiver contract will ensure continuity of services while ensuring compliance with the regulations mandated by State of Florida Statute, Chapter 401, Medical Telecommunications and Transportation.

Item 1.2

Contract No.: BW9537-0/16

Contract Title: Pipeline Inspections

Description: Waiver of formal bid procedures and approval to award a Bid Waiver contract for pipeline inspections for the Water and Sewer Department.

Contract Term: Five years

Previous Contract Allocation: Not applicable

Contract Amount: \$5,800,000

JUSTIFICATION

Pre-stressed concrete cylinder pipes (PCCP) are used by Miami-Dade Water and Sewer Department (WASD) to deliver water and remove wastewater in Miami-Dade County. These PCCPs range in sizes from 36" to 102" in diameter. These PCCPs are several decades old and prone to sudden failure. The majority of PCCPs installed in the County have deficiencies in the pre-stressed banding wires used to maintain structural integrity. These deficiencies have caused premature failure, resulting in infrastructure failures and property damage.

This contract will provide pipeline inspections and related services to inspect these pipes. Inspections are conducted using remote field transformer coupling and electromagnetic technology that will identify areas of weakness by providing detailed reports and analysis of the sections considered most likely to fail. These inspections serve as a proactive measure to identify and repair defective pipelines.

Pure Technologies U.S. Inc. has the worldwide patent rights to this advanced technology and operates under the "PipeDiver" and "SmartBall" trademarks. PipeDiver allows inspections of the inside of PCCPs without having to disrupt services to residents. There are other methods to inspect these pipes; however, no other company uses technology that allows internal inspections without interrupting delivery of water and removal of wastewater.

Item 1.3

Contract No.: BW9567-0/17

Contract Title: iTran 300E Payment Processing Equipment

Description: Requesting waiver of formal bid procedures and approval to award a Bid Waiver contract for the Finance Department to replace payment processing equipment, and related maintenance and support services. This equipment is used by the Tax Collector's Office to process a large volume of payments.

Contract Term: Five years

Previous Contract Allocation: Not applicable.

Contract Amount: \$258,000 for five year term

JUSTIFICATION

This contract allows for the purchase of two NCR iTran 300e payment processing transport machines with associated maintenance and support services. The Tax Collector's Division of the Finance Department has used two NCR 7780 payment processing machines since the year 2000. The existing equipment has reached the end of its useful life and must be replaced. These machines are used to process approximately \$2 billion in real estate and local business tax payments annually in addition to vehicle, vessel, and mobile home registration payments. These payments account for over 40% of all tax payments processed by the Tax Collector's Office.

Creditron is the proprietary owner and developer of Itemage Software used to operate the NCR equipment. No other vendor is able to provide the software required to support this equipment as this is proprietary software. There are other payment processing systems available on the market. However, Itemage has been developed to meet the unique needs of the Tax Collector's payment processing operations. For instance, Itemage was modified to facilitate integration with the new tax collection and billing system. For this reason, replacement of this system is not recommended because it would be costly and time consuming. Approval of the bid waiver contract will allow the Tax Collector's Office to purchase the replacement payment processing equipment, and associated maintenance and repair services required to support its daily operations.

SECTION 2
NON-COMPETITIVE CONTRACT MODIFICATIONS

Item 2.1

Contract No.: SS8080-4/11-4

Contract Title: Aladdin Temp-Rite OEM Equipment and Parts

Description: To modify this contract for additional time to allow the Miami Dade Corrections and Rehabilitation Department to continue purchase of rethermalization equipment, parts, and meal trays used for inmate food services.

Type of Change: Additional time

Existing Allocation: \$1,810,000 for one year

Increase By: \$ 0

Modification Allocation: \$1,810,000

Current Expiration: January 31, 2012

Modified Expiration: July 31, 2012

REASON FOR CHANGE

Authorization is requested to modify this contract for additional time to allow the Miami Dade Corrections and Rehabilitation (MDCR) Department to continue purchase of rethermalization equipment, parts, and meal trays used for inmate food services. This modification will extend the contract term for six months for continuity of services until a long-term successor contract is established. Board approval of the time extension is requested as the administrative authority to extend the contract has been exhausted.

Item 2.2

Contract No.: BW7172-3/09-3

Contract Title: Printrak Automated Fingerprint Identification System

Description: To modify this contract for additional time and spending authority to allow the Miami-Dade Police (MDPD), Miami-Dade Aviation (MDAD), and Miami-Dade Corrections and Rehabilitation (MDCR) departments to continue purchase of required maintenance and support services for the Automated Fingerprint Identification System provided by Morphotrak, Inc.

Type of Change: Additional time and spending authority

Existing Allocation: \$1,255,000 for eighteen months

Increase By: \$ 275,000 for one year

Modification Allocation: \$1,530,000

Current Expiration: January 31, 2012

Modified Expiration: January 31, 2013

REASON FOR CHANGE

Authorization is requested to modify this contract for additional time and spending authority to allow MDPD, MDAD, and MDCR to purchase required maintenance and support services for the Automated Fingerprint Identification System (AFIS). In accordance with Florida Statute 943.051, the County is required to secure the fingerprints of arrestees. To comply with this statutory requirement, the County uses AFIS to electronically capture and store fingerprints. AFIS also accesses national fingerprint databases to help identify arrestees and pertinent information such as criminal records and warrants via electronic fingerprints. Morphotrak, Inc. is the sole provider of maintenance and support services for AFIS.

AFIS is an integral part of the criminal booking process and is critical to the County's operations. This extension and additional spending authority will ensure continuity of services until a long-term successor contract is established.

Item 2.3

Contract No.: BW7934-1/12

Contract Title: Janitorial Services

Description: To modify this contract for additional spending authority to add an allocation funded by MDT Operating Funds to allow the Miami-Dade Transit Department to purchase janitorial services for buses.

Type of Change: Additional spending authority and authorization to allow use of Charter County Transportation Surtax Funds as a component of MDT Operating funds

Existing Allocation: \$2,286,000 for six months

Increase By: \$ 587,000

Modification Allocation: \$2,873,000

Current Expiration: July 31, 2012

REASON FOR CHANGE

Authorization is requested to modify this contract to provide the Miami-Dade Transit Department (MDT) an allocation to purchase janitorial services for buses. Authorization is also requested to allow use of Charter County Transportation Surtax funds as a component of MDT Operating Funds.

In accordance with Chapter 413 of the Florida Statutes, the County entered into negotiations with Respect of Florida (Respect). Respect is a non-profit agency designated by the State of Florida to manage employment for the severely handicapped. Chapter 413 states the performance of the requested products/services may be purchased through the non-profit agency provided that specifications are met and comparable price and quality are obtained. This contract is used to provide cleaning services for MDT's fleet of approximately 822 buses. Buses are cleaned at 3 bus facilities, Central, Coral Way and Northeast divisions. MDT confirmed federal funds will not be used on this contract.

SECTION 3
EMERGENCY PURCHASES

Item 3.1

Contract No.: E7122-0/11

Contract Title: Hauling and Disposal of Class B Sludge

Description: To ratify an emergency contract to allow the Miami-Dade Water and Sewer Department to pay outstanding invoices and continue sludge disposal services.

Contract Term: Upon completion

Contract Value: \$803,000

Using/Managing Departments and Funding Sources:

| Departments | Allocation | Funding Sources | Contract Managers |
|--------------------|-------------------|------------------------|--------------------------|
| Water and Sewer | <u>\$ 803,000</u> | Proprietary Funds | Gregory Hicks |
| Total: | \$ 803,000 | | |

JUSTIFICATION

The County must legally dispose of over 100,000 tons of sludge on a yearly basis in accordance with Chapter 62-640 of the Florida Administrative Code (FAC). During the three year term of the existing contract for hauling and disposal of class B, numerous rain events made land application an unviable option for sludge disposal. This situation required Water and Sewer staff to dispose of the sludge via the landfill method, which costs between 32 and 37% more per ton. Due to unexpected operational problems from struvite buildup at all three treatment plants, staff scraped and cleaned more grit chambers and settling tanks than usual. This unanticipated additional maintenance increased the volume of disposal material, which could only be accomplished using the landfill disposal option. Approval of this emergency will provide the funds needed to pay outstanding invoices, as well as future invoices for sludge disposal activities. Disruption of the disposal process would create an untenable position due to limited storage capacity and the malodorous nature of the sludge product.
