

Memorandum

MIAMI-DADE
COUNTY

Date: March 6, 2012

To: Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor 

Subject: Resolution Waiving Formal Bid Procedures

Agenda Item No. 8(F)(6)

Recommendation

It is recommended that the Board of County Commissioners (Board) waive competitive bidding procedures for the attached contract to purchase goods and services pursuant to Section 2-8.1 of the County Code and Section 5.03(D) of the Home Rule Charter, in the best interest of Miami-Dade County.

Scope

The impact of the item in the attached Bid Waiver Package is countywide in nature.

Fiscal Impact/Funding Source

The allocation and funding source by department/agency is listed in the attached Bid Waiver Package. Contract amount and department allocation represent the maximum spending authority based on utilization. This action does not guarantee that the total contract amount/value will be expended by County departments/agencies. Funding will be expended only if departmental budgets can support the expenditures approved in their annual budget adopted by the Board.

Track Record/Monitor

There are no known performance issues with the vendor recommended for award in the attached Bid Waiver Package. The departments' contract manager is reflected in the individual agenda items.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to extend contract for purchase of goods and services in accordance with the terms and conditions of the contracts listed in the attached Bid Waiver Package.

Background

NON-COMPETITIVE CONTRACT MODIFICATIONS

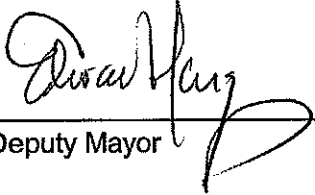

A non-competitive contract modification is a supplemental allocation for goods or services that exceed the scope of the original contract allocation, or a modification of an established non-competitive contract, representing a waiver of the competitive bidding process under Administrative Order 3-38.

Item 1: Motorola Master Services Agreement requests authorization to modify this contract for additional spending authority for five options-to-renew (OTR) previously approved by the Board to allow the Miami-Dade Police Department to purchase maintenance support services as well as additional software licenses and equipment for the existing Safety and Priority Dispatch (PSPDS) and Emergency Medical Dispatch (EMD) software systems. The additional amount being requested for the approved OTRs is **\$1,214,000**.

Item 2: ASG Software Maintenance & Support Services requests authorization to modify this contract for additional time and spending authority to allow the Miami-Dade Information Technology

Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners

(ITD) Department to purchase Allen Systems Group, Inc. (ASG) Software Licenses as well as maintenance and support for existing County software. This is a request for an additional five years and **\$618,000**.

Deputy Mayor

Item 1

Contract No.: BW9007-5/16-1

Contract Title: **Motorola Master Services Agreement**

Description: To modify this contract for additional spending authority for five options-to-renew previously approved by the Board under Resolution No. R-637-09 on June 2, 2009, to allow the Miami-Dade Police Department to purchase maintenance support services for the existing Safety and Priority Dispatch (PSPDS) and Emergency Medical Dispatch (EMD) ProQA software systems.

Type of Change: Additional spending authority

Existing Cumulative

Allocation: \$ 1,600,000 for seven year term, if all OTRs are exercised
Increase By: \$ 1,214,000
Modification Allocation: \$ 2,814,000

Current Expiration: June 30, 2012
*If all OTRs are exercised, the expiration date will be June 30, 2016

Modified Expiration: Unchanged

REASON FOR CHANGE

This contract, including all option-to-renew (OTR) periods, was approved by the Board in June 2009 under Resolution No. R-637-09 to provide the County with software licenses, equipment, and maintenance support services for the proprietary Motorola Computer Aided Dispatch (CAD) 911 System. CAD 911 is an integrated system that includes several complex sub systems used by the Miami-Dade Fire Rescue (MDFR) and Miami-Dade Police (MDPD) departments to provide emergency response services. The Information Technology Department (ITD) assists in and coordinates the support of CAD 911 for MDPD and MDFR operations. The contract also included several optional 911 system components that Motorola Inc. is authorized to provide from third party manufacturers.

As part of 911 operations, MDPD uses the Public Safety and Priority Dispatch (PSPDS) and Emergency Medical Dispatch (EMD) ProQA Software manufactured by Priority Dispatch Corp. to assist in prioritizing the appropriate vehicles, equipment and personnel for response to emergency 911 calls. With the use of these systems, MDPD has been able to improve survivability rates resulting from 911 emergency calls. The ProQA Software included maintenance support services through 2008. Motorola Inc. has been identified as an authorized third party provider of ProQA Software licenses, equipment and maintenance support services and these items are available under the scope of this contract. Allocation for these support services was not contemplated at the time of the initial award.

In order to bring the ProQA Software to the most current version and reinstate maintenance support services, MDPD was required to make a payment under this contract. To facilitate this payment, the Information Technology Department (ITD) assisted MDPD by loaning them their allocation. This modification will provide MDPD with increased spending authority under this contract, allow MDPD to return the borrowed funds to ITD, and enable it to pay for future maintenance support services. This will ensure software license compliance, maintain compatibility and functionality, and continue access to software updates and upgrades for ProQA Software. Additionally, this will allow for the consolidation of these components of 911 operations with CAD 911 under a single master services contract. Due to the need to maintain smooth 911 operations at all times, staff regularly assesses the need for additional

software, equipment and support services. As future needs are determined, future modifications to this contract may be required to maintain uninterrupted emergency services for the County.

Item 2

Contract No.: SS9228-0/12

Contract Title: **ASG Software Maintenance & Support Services**

Description: To modify this contract for additional time and funds to allow the Information Technology (ITD) Department to purchase new Allen Systems Group, Inc. (ASG) Software Licenses as well as Maintenance and Support for existing County software. Various ASG software applications are used as part of the County's Mainframe platform.

Type of Change: Additional time and spending authority

Existing Allocation: \$ 95,000 for two years
Increase By: \$ 618,000 for five years
Modification Allocation: \$ 713,000

Current Expiration: April 10, 2012

Modified Expiration: April 10, 2017

REASON FOR CHANGE

Authorization is requested to consolidate two previously awarded contracts to support the Miami-Dade Information Technology (ITD) Department. In February 2010, the County awarded Contract No. SS9228-0/12 to Allen Systems Group, Inc. (ASG) for purchase of Doc-Aid Software. This Software provides monitoring, job documentation, disaster recovery, tape consolidation, reporting, replication, decompression and defragmentation of archived data for the County's mainframe. In January 2008, the County awarded Contract No. BW7160-7/18 to Information Systems Manager, Inc. (ISM) for purchase of Perfman Software. This Software automatically gathers and analyzes performance data and provides capacity planning for the County's mainframe in a format that is easily understood. In June 2011, ASG acquired full ownership of the Perfman Software from ISM. This modification will incorporate both software products under Contract No. SS9228-0/12 for purchase of proprietary maintenance and support services to ensure uninterrupted operations.

In addition to maintenance and support for existing software, additional spending authority is requested to purchase new ASG Becubic Software to provide ITD with additional needed functionalities. The Becubic Software will analyze source code for all software applications used by the County to identify potential bugs caused by programming changes and specifically guard against application failures and ensure stability. No other software solution can provide this functionality. Current mission critical legacy systems that will benefit from the Becubic analytical tool include Payroll, Building, Criminal Justice, Personal Property Tax Assessment, Real Estate Tax Assessment, and Transit Equipment Systems.

To ensure best value with this consolidation and software purchase, staff negotiated with ASG to achieve a revised price and product schedule. The pricing negotiated with ASG by consolidating the maintenance and support of the existing software with the Becubic licenses is approximately 75% below ASG's list price, resulting in a reduction of \$1,080,446 over the five year term. In addition, ASG is providing \$35,000 in consulting services to implement the new software at no additional cost. A breakdown of the savings is included in the table below. These discounts are contingent upon completion of this modification by March 30, 2012. It is therefore in the best interest of the County to extend the current contract with ASG
