**Date:** July 3, 2012

**To:** Honorable Chairman Joe A. Martinez

**From:** Carlos A. Gimenez  
Mayor 

**Subject:** Resolution Amending Implementing Order 4-42 to Provide Fees for the Review of Certain Activities that Will No Longer Require Natural Resource Permits, for the Review of Expedited Administrative Authorizations and to Update the Name of the Department

---

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) approve the attached resolution amending Implementing Order 4-42: Fee Schedule for the Department of Regulatory and Economic Resources. This resolution is related to a companion ordinance and provides fees for the review of regulated activities that will no longer require natural resource permits, provides fees for the review of expedited administrative authorizations and updates the name of the department.

## **Scope**

The scope of this resolution is countywide.

## **Fiscal Impact/Funding Source**

If the proposed companion ordinance is adopted and the proposed fees established, fewer natural resource permits will be required and the public will pay less to conduct regulated activities. Miami-Dade County's reduction in permit fee revenue is estimated at \$10,000 annually.

## **Track Record/Monitor**

The Assistant Director of the Department of Regulatory and Economic Resources will be responsible for implementing the changes proposed by this resolution.

## **Background**

The accompanying ordinance proposes to amend several sections of Chapter 24 of the Code of Miami-Dade County relating to natural resource permitting for work in tidal waters and wetlands throughout the County and to update the department name. The proposed amendments also include expanding the list of projects that will continue to be reviewed but will no longer require permits. These "Expedited Administrative Authorizations" have fees for the review of required information and will cost the applicant less than the currently required permits. These proposed changes to Implementing Order 4-42 are shown on pages 9, 10 and 13. In addition to the fee changes, the existing Implementing Order 4-42 refers to the Department of Environmental Resources Management (DERM), which has been merged into the Department of Regulatory and Economic Resources, and also updated in the proposed amendments.

The above-referenced contribution by the property owner shall be computed according to the following formula.

a. State Certified Property Appraised value as determined within the time period commencing one hundred and twenty (120) days prior to the date of contribution.

\$ \_\_\_\_\_

b. Percent to be paid into the Stormwater Compensation Trust Fund

\* \_\_\_\_\_ %

\*The following are the percentages applicable to each basin:

Basin	% Dry Retention
North Trail Basin	33.25
Bird Drive Basin	38.0
Basin B	39.0

The above percentages may be modified depending upon site-specific land use and topographical conditions applicable to each project, together with an engineering report in support of the percentage modification. Any proposed modifications to the above-referenced percentages shall be substantiated by an engineering report submitted to ~~DERM~~RER by the applicant. The proposed percentages, when applied in the above formula, shall provide

stormwater management equivalency to the stormwater management set forth in the Cut and Fill criteria established for the specific basin.
