

# Memorandum

**Date:** November 8, 2012

Agenda Item No. 8(G)(2)

**To:** Honorable Chairman Joe A. Martinez  
and Members, Board of County Commissioners

**From:** Carlos A. Gimenez  
Mayor

**Subject:** Interlocal Agreement in Approximate Amount of \$388,095 with Miami-Dade County School Board for the Provision of Drivers' Education

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) approve the attached Interlocal Agreement between the County and the Miami-Dade County School Board (School Board) for the provision of Drivers' Education by the School Board in the approximate amount of \$388,095.

This amount represents a portion of the total collections for the Driver's Education Safety Trust Fund (Trust Fund) for the period of October 1, 2010 to September 30, 2011, and provides for payment in arrears for services rendered during this period.

## **Scope**

The impact of this item is countywide in nature as Driver's Education programs are provided in public schools throughout the County.

## **Fiscal Impact/Funding Source**

There is no fiscal impact to the County with the approval of this item.

Pursuant to the Dori Slosberg Driver Education Safety Act, 318.1215, Florida Statutes, effective October 1, 2002, the Board approved Ordinance No. 02-167 on September 24, 2002, creating the Driver's Education Safety Trust Fund. The Ordinance also required the Clerk of the Court to collect an additional \$3.00 with each civil traffic penalty to be used to fund traffic education programs, and directed the Administration to develop selection procedures for adoption by the Board for the award of grants to Driver Education Programs.

## **Track Record/Monitor**

Pursuant to Resolutions R-618-03 and R-864-04, the Board approved selection procedures, including criteria, for the distribution of grants from the Trust Fund. To date, the School Board has been the only recipient of funding from the Trust Fund since FY 2003-04. The Grants Coordination Division within the Office of Management and Budget will be responsible for monitoring this Interlocal Agreement.

## **Background**

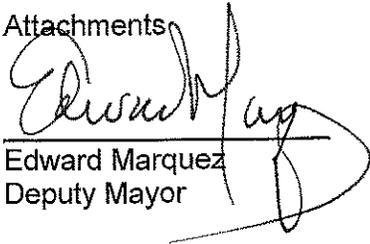

The selection procedures for the Trust Fund require the County to advertise the availability of Driver's Education Safety Trust Fund grants and request letters of interest from qualified organizations. The adopted criteria require the following:

- grant funds support driver's education programs offered by a public school system or nonprofit private school;
- private driving schools established principally for the purpose of driver education are not eligible;
- curriculum must include behind the wheel experience;
- driver's education must be offered to private as well as public school students;

- grantee must agree to provide appropriate accountability and reporting procedures; and
- funds may not be used for administrative/overhead expenses.

The adopted procedures further require that if only one letter of interest from a qualified organization is received, then the County Mayor or the County Mayor's designee will negotiate an agreement and submit it to the Board for approval. For this cycle, the School Board was the only eligible qualified organization to submit a letter of interest.

## **ARTICLE 8. PROOF OF LICENSURE AND BACKGROUND SCREENING**

Examples of services or operations requiring such licensure or certification include but are not limited to childcare, day care, nursing homes, and boarding homes.

If the Provider fails to furnish the County with the licenses or certificates required under this Section, the County shall not disburse any funds until it is provided with such licenses or certificates. B. Background Screening. The Provider agrees to comply with all applicable laws, regulations, ordinances and resolutions regarding background screening of employees and subcontractors. Provider's failure to comply with any applicable laws, regulations, ordinances and resolutions regarding background screening of employees and subcontractors is grounds for a material breach and termination of this contract at the sole discretion of the County.

The Provider agrees to comply with all applicable laws (including but not limited to Chapters 39, 402, 409, 394, 408, 393, 397, 984, 985 and 435, Florida Statutes, as may be amended from time to time), regulations, ordinances and resolutions, regarding background screening of those who may work or volunteer with vulnerable persons, as defined by section 435.02, Florida Statutes, as may be amended from time to time.

Provider shall furnish the County with proof that employees, volunteers and subcontracted personnel, who work or volunteer with vulnerable persons, satisfactorily passed Level 2 background screening, pursuant to Chapter 435, Florida Statutes, as may be amended from time to time.

If the Provider fails to furnish to the County proof that an employee, volunteer or subcontractor's Level 2 background screening was satisfactorily passed and completed prior to that employee, volunteer or subcontractor volunteering or working with a vulnerable person or vulnerable persons, the County shall not disburse any further funds and this Contract may be subject to termination at the sole discretion of the County.

**ARTICLE 9.      CONFLICT OF INTEREST**

A. The Provider agrees to abide by and be governed by Miami-Dade County Ordinance No. 72-82 (Conflict of Interest Ordinance codified at Section 2-11.1 et al. of the Code of Miami-Dade County), as amended, which is incorporated herein by reference as if fully set forth herein, in connection with its contract obligations hereunder.

C. No person, including but not limited to any officer, board of directors, manager, or supervisor employed by the Provider, who is in the position of authority, and who exercises any function or responsibilities in connection with this Agreement, has at the time this Agreement is entered into, or shall have during the term of this Agreement, received any of the services, or direct or instruct any employee under their supervision to provide such services as described in the Agreement. Notwithstanding the before mentioned provision, any officer, board of directors, manager or supervisor employed by the Provider, who is eligible to receive any of the services described herein may utilize such services if he or she can demonstrate that he or she does not have direct supervisory responsibility over the Provider's employee(s) or service program.

D. In accordance with County Ordinance No. 08-113, and the Code of Miami-Dade County Section 2-8.1.1, collusion in bidding for County contracts is prohibited. Two (2) or more related parties shall be presumed collusive if each submits a bid or proposal for any County purchases of supplies, materials and services (including professional services, other than professional architectural, engineering and other services subject to Sec. 2-10.4 and Sec. 287.055 Florida Statutes), lease, permit, concession or management agreements regardless of the value of the contract being solicited. It is expressly understood that the Provider must submit an affidavit attesting that it is not in violation of the Acts. If the Provider or any owner, subsidiary, or other firm affiliated with or related to the Provider is found by the responsible enforcement agency, the Courts or the County to be in violation of these acts, the County will conduct no further business with the Provider.

Any contract entered into based upon a false affidavit shall be voidable by the County. If the Provider violates any of the Acts during the term of any contract the Provider has with the County, such contract shall be voidable by the County, even if the Provider was not in violation at the time it submitted its affidavit.

The Provider agrees that it is in compliance with the Domestic Violence Leave, codified as § 11A-60 et seq. of the Miami-Dade County Code, which requires an employer, who in the regular course of business has fifty (50) or more employees working in Miami-Dade County for each working day during each of twenty (20) or more calendar work weeks to provide domestic violence leave to its employees.

Furthermore, the Provider's agents and employees are not agents or employees of the County.

**ARTICLE 14. SURVIVAL**

The parties acknowledge that any of the obligations in this agreement, including but not limited to Provider's obligation to indemnify the County, will survive the term, termination, and cancellation hereof. **ARTICLE 15. BREACH OF AGREEMENT: COUNTY REMEDIES**

B. **County Remedies.** If the Provider breaches this Agreement, the County may pursue any or all of the following remedies:

1. The County may terminate this Agreement by giving written notice to the Provider of such termination and specifying the effective date thereof. In the event of termination, the County may: (a) request the return of all finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports prepared and secured by the Provider with County funds under this Agreement (b) seek reimbursement of County funds allocated to the Provider under this Agreement; (c) terminate or cancel any other contracts entered into between the County and the Provider. The Provider shall be responsible for all direct and indirect costs associated with such termination, including attorney's fees;

2. The County may suspend payment in whole or in part under this Agreement by providing written notice to the Provider of such suspension and specifying the effective date thereof, at least five (5) days before the effective date of suspension. If payments are suspended, the County shall specify in writing the actions that must be taken by the Provider as condition precedent to resumption of payments and shall specify a reasonable date for compliance. The County may also suspend any payments in whole or in part under any other contracts entered into between the County and the Provider. The Provider shall be responsible for all direct and indirect costs associated with such suspension, including

attorney's fees up to the provisions as detailed in Florida Statute §768.28;

3. The County may seek enforcement of this Agreement including but not limited to filing an action in a court of appropriate jurisdiction. The Provider shall be responsible for all direct and indirect costs associated with such enforcement, including attorney's fees;

4. The County may debar the Provider from future County contracting;

5. If, for any reason, the Provider should attempt to meet its obligations under this Agreement through fraud, misrepresentation or material misstatement, the County shall, whenever practicable terminate this Agreement by giving written notice to the provider of such termination and specifying the effective date thereof at least five (5) days before the effective date of such termination. The County may terminate or cancel any other contracts which such individual or entity has with the County. Such individual or entity shall be responsible for all direct and indirect costs associated with such termination or cancellation, including attorney's fees. Any individual or entity who attempts to meet its contractual obligations with the County through fraud, misrepresentation, or material misstatement may be debarred from county contracting for up to five (5) years;

6. Any other remedy available at law or equity.

C. **Authorization to Terminate Agreement.** The Mayor or the Mayor's designee is authorized to terminate this Agreement on behalf of the County.

D. Failures or waivers to insist on strict performance of any covenant, condition, or provision of this Contract by the County shall not be deemed a waiver of any rights or remedies, nor shall it relieve the Provider from performing any subsequent obligations strictly in accordance with the term of this Contract. No waiver shall be effective unless in writing and signed by the parties. Such waiver shall be limited to provisions of this Contract specifically referred to therein and shall not be deemed a waiver of any other provision. No waiver shall constitute a continuing waiver unless the writing states otherwise.

E. **Damages Sustained.** Notwithstanding the above, the Provider shall not be relieved of liability to the County for damages sustained by the County by virtue of any breach of the Agreement, and the County may withhold any payments to the Provider until such time as the exact amount of damages due the County is determined. The County may also pursue any remedies available at law or equity to compensate for any damages sustained by the breach. **OVERVIEW OF MIAMI-DADE COUNTY PUBLIC SCHOOLS'  
DRIVER EDUCATION PROGRAM**

Miami-Dade County Public Schools (M-DCPS) serve the students of Metropolitan Miami-Dade County, which includes the City of Miami, 27 outlying municipalities, and a large unincorporated area. M-DCPS has a total population of approximately 345,150 students, served by approximately 21,260 full-time teachers. This places M-DCPS as the fourth largest school district in the United States, and the largest school district in Florida. To more efficiently serve the needs of the 415 schools, the district is divided into four administrative regions supervised by Regional Centers.

Currently, driver education is offered in 4 senior high schools and 11 adult centers in M-DCPS. Of the 15 programs, 14 offer both classroom and behind the wheel driving instruction.

In addition to driver education classes offered during the regular school day, programs are also offered through the school system's Adult and Community Education programs. Depending on the school site, these classes have the option of being offered in the afternoon, immediately following the conclusion of the regularly scheduled school day, in the evening, or on Saturdays each trimester. Private school students, as well as public school students, whose senior high schools do not offer driver education, may enroll in these classes at no cost.

In the 3 senior high schools offering both classroom and actual driving instruction, minimally one teacher is assigned to each school. Driver education is offered numerous periods per day, five days per week. In the remaining senior high school offering classroom instruction only, driver education is offered various periods per day. Driver education is offered both semesters of the regular school year as a one semester, elective course.

## DRIVER EDUCATION CLASSROOM CURRICULUM

I. Students will be taught a basic knowledge of a Highway Transportation System (HTS), its purpose, major elements, effectiveness, and the roles by various components in the system.

Specifically, they will be able to identify the three major elements of the Highway Transportation System, how the success of each of the three major elements is dependent upon the other two and how to identify these methods by which the Highway Transportation System's effectiveness can be measured. They will be able to define the sub-system that have been established to manage the Highway Transportation System and their purpose. The students will learn the economic and social consequences resulting from breakdowns in the Highway Transportation System and the "multiple causes" theory of collisions as well as the rationale for using the term "collision" rather than "accident". Students will compare age group collision statistics and identify ways to improve the records for each grouping.

II. Students will be taught methods of basic control of the vehicle and be able to demonstrate this basic skill. Included will be exterior and interior pre-driving checks, control of motion and direction, and basic maneuvers.

Specifically, they will be taught to execute exterior and interior pre-driving checks and the steps a driver should take in starting the engine. They will learn the standard identity and location of each item found on the instrument panel and describe its function. This will include the function of each device used for safety, visibility, communication, and comfort in a standard passenger vehicle, correct procedures for starting the engine, placing the vehicle in motion, and stopping it safely will be taught. They will be taught the techniques of proper steering for forward and reverse driving. They will learn the steps for making correct lane changes, and how to make a right and left turn at an intersection. The steps used to park a vehicle parallel, angled, and perpendicular to the curb or roadway, will be covered as well. Students will learn the advantages and disadvantages for selecting maneuvers and procedures used in reversing the direction of a vehicle.

III. Students will learn to understand, interpret and react properly when exposed to signs, signals, and pavement markings.

Specifically, students will learn to classify traffic signs into the categories of regulatory, warning, and information/guide as well as interpret and react properly when exposed to these traffic signs. They will be able to define the meaning of the different shapes, colors, and international symbols used to code traffic signs. The ability to describe the appropriate actions used to obey the legal and practical implications of regulatory and warning signs will be taught. They will learn to identify and describe traffic control signals that regulate traffic flows or warn drivers and/or pedestrians of hazards and to

identify and describe the system that control traffic light changes. Students will be able to identify the types of pavement markings by color, configuration, and direction and their importance when planning one's actions.

IV. Students will learn to identify potential hazard that may happen in regard to each possible danger based on minimum risk, and demonstrate appropriate execution of these decisions.

Specifically, the definition of the term "hazard" as used in the Highway Transportation System will be taught. Students will learn the categories from which hazards are identified within the driving scene and learn the scanning techniques for identifying clues to potential hazards within the driving scene. Students will learn the skills to predict potential outcomes of hazards within the driving scene. They will learn the importance of making accurate decisions to minimize the risk of potential hazards. Students will learn the relationship between the physical process of executing the decision and the mental processes which preceded the action. They will learn the five possible actions a driver employs to execute decisions about changes in speed, lane position, and planned path of travel. Strategies used to implement the I.P.D.E. (identify, predict, decide, execute) process of defensive driving will be emphasized.

V. Students will be taught to understand the management of space requirements under all driving situations.

Specifically, they will learn about the relationship between the correct positioning of a vehicle and collision prevention. Discussions will be conducted regarding the techniques used to maintain a two-second interval of space between vehicles as well as situations when a two-second interval is not sufficient. Students will learn the disadvantages of following too closely as related to visibility, maneuverability, and stopping along with the actions that can be taken to reduce the possibilities of rear-end collisions. Students will learn the actions a driver can take to minimize the danger of oncoming traffic and the conditions that may cause the oncoming vehicle to cross the center line. Specific clues to look for when following vehicles that alert the driver to reduce speed and implement the I.P.D.E. requirements for a safe following distance will be covered. The use of "compromising" as a strategy for maintaining lateral space will be reviewed as well.

VI. Students will learn procedures required to effectively control and take proper actions in emergency situations.

**Miami-Dade County Public Schools  
Drivers Education Training Program  
2010 – 2011  
Line Item Budget Justification**

Miami-Dade County Public Schools (M-DCPS) serves the students of Miami-Dade County, which includes the City of Miami, 27 outlying municipalities, and a large unincorporated area. M-DCPS has a total population of approximately 345,150 students, served by approximately 21,260 full-time teachers. This places M-DCPS as the fourth largest school district in the United States, and the largest school district in Florida. To more efficiently serve the needs of the 415 schools, the district is divided into four administrative regions supervised by Regional Centers.

During 2010-2011, driver education is offered in 4 senior high schools and 11 adult centers in MDCPS, providing both classroom and behind the wheel driving instruction. In addition to driver education classes offered during the regular school day, programs are also offered through the school system's Adult and Community Education programs. Depending on the school site, these classes have the option of being offered in the afternoon, immediately following the conclusion of the regularly scheduled school day, in the evening, or on Saturdays each trimester. Private school students, as well as public school students, whose senior high schools do not offer driver education, may enroll in these classes at no cost.

**Direct Costs: \$388,095.31**

**Personnel: Salaries and fringe benefits \$364,838.16**

The majority of personnel funds are directly related to drivers' education instruction. This amount includes a portion of the salary pertaining to the administrator that was in charge of district-wide responsibilities for the driver education program.

Instruction is offered county-wide at various locations at the secondary and postsecondary levels providing certification in drug and alcohol abuse, driving theory, and practical driving experience for each student. There is no administrative cost included for each school site. One teacher and vehicle is used exclusively for disabled students and is ADA equipped. Attached is a breakdown of full time and part-time direct payroll costs.

**Gasoline: \$6,544.75**

Gasoline costs for the entire District is for the use of school owned vehicles identified specifically for the Drivers' Education programs. The vehicles are safety equipped and are used only for the Drivers' Education program.

**Repairs:                   \$14,202.90**

The vehicles in the Drivers' Education programs are maintained and repaired by the school system.

**Tires:                       \$ 2,509.50**

Tires are inspected, repaired or replaced on an as needed basis to assure the safety of each trainee. Tires are purchased through the State of Florida bid process. Tires get some pretty tough use from driving around the range, hitting curbs, and vandalism. Tires are balanced when mounted to extend their life.

**Summary:**

The vehicles used in the Drivers' Education program are purchased, owned, insured, repaired, and maintained by Miami-Dade County Public Schools. There are currently 150 cars designated specifically for the Drivers' Education programs. Each vehicle in use is safety inspected annually and repaired as needed to assure safe operation for trainees. Vehicles are housed in safety cages located on the Drivers' Education range at each school to provide security and to dissuade vandalism. No cost is included for facilities, utilities, the use or depreciation of the vehicles, upkeep of driving range, text books, audio visual, tests, materials, supplies, security, custodial, nor administrators at the school sites.

**Total award: \$388,095.31**

**FROM:** Steve Shiver  
County Manager 

The proposed ordinance pertaining to traffic and motor vehicles imposes a \$3 assessment on civil traffic penalties excluding parking tickets. The money will be used by schools to enhance Driver Education Programs and will have a positive fiscal impact to Miami-Dade County. Should the assessment become mandatory, it is estimated that collections would be approximately \$1.2 million. However, should this assessment not become mandatory, then actual collections could be much lower. Furthermore, in the first year of its inception, some costs would be incurred to cover programming activities required for system changes to capture this fee. At this moment, the programming costs are still being assessed by the Clerk's office.

Section 6. This ordinance does not contain a sunset provision.

## MEMORANDUM

Agenda Item No. 7(2)

TO: Honorable Chairperson and Members  
Board of County Commissioners

DATE: July 22, 2003

FROM:   
George W. Burgess  
County Manager

SUBJECT: Recommendation for  
Grant Award from  
the Driver's Education  
Safety Trust Fund

### RECOMMENDATION

It is recommended that the Board award a grant from the Driver's Education Safety Trust Fund to Miami-Dade County Public Schools in an amount not to exceed total fund collections for the period October 1, 2002 to September 30, 2003, estimated to be approximately \$960,000. It is also recommended that the Board authorize the County Manager to negotiate, execute and amend a grant agreement, for this purpose, after approval by the County Attorney's Office and execution by Miami-Dade County Public Schools.

### BACKGROUND

Pursuant to The Don: Slosberg Driver Education Safety Act, 318.1218, Florida Statutes, effective October 1, 2002, Ordinance No. 02-167 and Resolution R-618-03, the County advertised the availability of grant funding under the Driver's Education Safety Trust Fund. Grant funds are to support driver's education programs offered by a public school system or not-for-profit private school. Private driving schools established principally for the purpose of driver education are not eligible for this grant.

Only one grant application was received and reviewed by the Evaluation/Selection Committee. The committee reviewed and rated the application submitted by Miami-Dade County Public Schools (see attached memorandum). The committee recommended Miami-Dade County Public Schools for a grant award contingent on the submission of the following: a detailed line item budget and narrative justifying the estimated amount of the award that adheres to the administrative and overhead cost requirements outlined in the application package; identification of the 12-month period during which the funding will cover eligible expenses; resumes of a representative sample of the educators that will provide direct driving instruction to students; a detailed plan to offer driver's education to private school students; and a plan to comply with programmatic and fiscal reporting requirements, including sample forms.

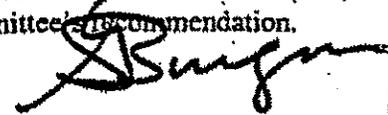

Honorable Chairperson and Members  
Board of County Commissioners  
Page 2

The Evaluation/Selection Committee recommended that Miami-Dade County Public Schools receive the maximum funding available from fund collections for the period of October 1, 2002 to September 30, 2003. Based on projections, it is estimated that fund collections for FY 2002-03 will total approximately \$960,000. The Clerk of the Courts reports that collections through May 2002 total approximately \$590,500. The grant award shall not exceed total collections deposited in the fund for the period October 1, 2002 through September 30, 2003.

Payment will be based on the submission of invoices and back up documentation approved by the County and will follow a schedule outlined in the grant agreement, approved by the County Attorney's Office. Payment may commence with an advance payment upon execution of the agreement. Final payment may be made once all collections for the period October 1, 2002 through September 30, 2003 are received and properly recorded by the Clerk of the Courts. A report to the Board outlining program accomplishments/outcomes and actual expenditures will be issued once final payment is made.

Grant Award Recommendations  
Driver's Education Safety Trust Fund  
Page 2 of 2

Based on Board discussion regarding this process at the June 3, 2003 Commission meeting, it is anticipated that the aforementioned grant award recommendations will not be reviewed by the Budget and Finance Committee and will be presented to the Board of County Commissioners on July 22, 2003. Upon approval by the Board, the Mayor and the County Attorney, a grant agreement utilizing the standard community-based organization contract shell will be issued for a 12-month period. Please indicate your concurrence with the committees' recommendations by placing your signature in the space provided below and return the signed document to me at the Office of Management and Budget. I may be reached at (305) 375-8151, should you have any questions regarding the committee's recommendation.

FROM: Daniel T. Wall  
Grants Coordinator

SUBJECT: Grant Award  
Recommendations  
Under the Driver's  
Education Safety  
Trust Fund

As chairperson of the Evaluation/Selection Committee appointed to review grant applications requesting funds under the Driver's Education Safety Trust Fund and as the contracting officer, I am submitting the grant award recommendation made by the appointed members for your review and approval.

One grant application was received and reviewed by the Committee. The application was submitted by Miami-Dade County Public Schools. The Committee reviewed the submission and provided individual ratings of the application. The quality rating score or the average of all the individual ratings, including cost, was 72.60. Contingent on Miami-Dade County Public Schools furnishing additional information and clarification as delineated below, the committee recommended that the organization receive the maximum funding available from fund collections for the period of October 1, 2002 to September 30, 2003. It is estimated that collections for FY 2002-03 will total approximately \$960,000.

The committee made the recommendation for grant award contingent on Miami-Dade County Public Schools providing, prior to execution of a grant agreement, the following information: a detailed line item budget and narrative justification in the amount of the estimated award that adheres to the requirement that administrative and overhead costs may not be supported with Driver's Education Safety Trust Funds; identification of the 12-month period during which the funding will cover eligible expenses; resumes of a representative sample of the educators that will provide direct driving instruction to students; a detailed plan to offer driver's education to private schools students; and a plan to comply with programmatic and fiscal reporting requirements, including sample forms.

Eligibility for grants under the Driver's Education Safety Trust Fund is limited to a public school system and not-for-profit private schools. Local Black/Hispanic/Women Business Enterprise Measures do not apply to grant awards made to not-for-profit organizations. Therefore, no measures were assigned by DBD to this solicitation.

TO: Honorable Chairperson Barbara Carey-Shuler, Ed.D.  
and Members, Board of County Commissioners

DATE: July 13, 2004

FROM: George M. Burgess  
County Manager

SUBJECT: Driver's Education Safety  
Trust Fund

RECOMMENDATION

It is recommended that the Board award a grant from the Driver's Education Safety Trust Fund (the "Trust Fund") to Miami-Dade County Public Schools in an amount not to exceed total fund collections for the period October 1, 2003 to September 30, 2004, estimated to be approximately \$1.1 million, and authorize the Manager to negotiate, execute, and amend the existing interlocal agreement with Miami-Dade County Public Schools for this purpose after approval by the County Attorney's Office. It is also recommended that the Board adopt the attached, revised selection procedures for the annual distribution of the Trust Fund and authorize the Manager to place an advertisement for FY 2004-05 Trust Fund collections requesting letters of interest from qualified organizations.

BACKGROUND

Pursuant to the Dori Slosberg Driver Education Safety Act, 318.1215, Florida Statutes, effective October 1, 2002, the Board approved Ordinance No. 02-167 on September 24, 2002, creating the Trust Fund and directing the Manager to develop selection procedures for the Board's approval. Pursuant to Resolution R-618-03, the County approved selection procedures and thereafter advertised the availability of grant funding from the Trust Fund in June 2003. On July 22, 2003, the Board adopted Resolution R-858-03 awarding a Trust Fund grant to Miami-Dade County Public Schools in an amount not to exceed total Trust Fund collections for the period October 1, 2002 to September 30, 2003. The resulting interlocal agreement provided for payment in arrears to Miami-Dade County Public Schools for Driver's Education provided during the period October 1, 2002 to September 30, 2003.

The recommendations to extend the existing interlocal agreement with Miami-Dade County Public Schools and adopt the attached, revised procedures are based on the County's experience in implementing a competitive process last year to award the first year of Trust Fund collections; the fact that only one organization, Miami-Dade County Public Schools, responded to the notice of the availability of grant funds and picked up the application materials; only one application, from Miami-Dade County Public Schools, was received by the County; and that no other organization has expressed interest in these funds. An additional consideration was the criteria established by the Board to select organizations for grant awards. These criteria require that: grant funds are to support driver's education programs offered by a public school system or non-profit private school; private driving schools established principally for the purpose of driver education are not eligible;

the curriculum must include behind the wheel experience; driver's education must be offered to private as well as public school students; the grantee must agree to provide appropriate accountability and reporting procedures; and funds may not be used for administrative/overhead expenses. Therefore, it is recommended that the Board approve the revised selection procedures and that authority be granted to the County Manager to negotiate, execute, and amend the existing interlocal agreement with Miami-Dade County Public Schools awarding grant funds, as it is in the best interest of the County.
