This Contract Award Recommendation is placed for Committee review pursuant to Miami-Dade County Code Section 29-124(f). This Contract Award Recommendation may only be considered by the BCC if the Citizens' Independent Transportation Trust (CITT) has forwarded a recommendation to the BCC prior to the date scheduled for BCC consideration or forty-five (45) days have elapsed since the filing with the Clerk of the Board of this contract award recommendation. Track Record/Monitor

Brailly Electric Corp. is currently performing work for PWWM at an outstanding level. PWWM has reviewed the Capital Improvements Information System (CIIS) database and found twelve (12) awarded construction contracts as follows:

- one from the Parks, Recreation and Open Spaces Department,
- one from the Public Housing and Community Development Department,
- one from the Seaport and
- nine from PWWM.

The referenced database also lists a total of 13 contractor performance evaluations with an exemplary performance rating of 4.0 (superior performance). The Regulatory and Economic Resources Department, Small Business Development Division (SBD) History of Violation's report lists no violations for this contractor.

According to the Florida Department of State, Division of Corporations, Brailly Electric Corp., Company Principals are: Hector N. Brailly and Guillermo J. Brailly and the Company's address is listed as: 10000 East Calusa Club Drive, Miami, Florida 33186.

Following PWWM's standard operating procedures, after award of this contract, a pre-construction meeting will be scheduled. The person responsible for all PTP projects in PWWM is PTP Coordinator, Mr. Alejandro Martinez-Esteve, RA, LEED AP. Following completion of the award process, the project will be assigned to Mr. Oscar Rubio, Project Manager, for day to day responsibilities.

Background

As part of the PTP Neighborhood Improvements initiative, PWWM continues to take advantage of various contracting mechanisms such as the Miscellaneous Construction Contracting process available under the MCC 7040 Program. Through this process, PWWM forwards a Request for Price Quotation, by way of facsimile transmission, to a pool of pre-qualified Community Small Business Enterprise (CSBE) contractors for the subject trade. Additionally, PWWM advertises the project in the *Daily Business Review* and all solicitations are available on-line through the Miami-Dade County portal under the "Procurement Solicitations" link. The project's award evaluation is based upon the bid submitted by the lowest responsive, responsible bidder for the project.

PWWM staff determined that the scope of work for this project qualified for a CSBE set-aside (Levels I, II, and III). In addition, a Community Workforce Program Goal of ten (10) percent has been established for this project as several work locations fall within a Designated Target Area. On July 5, 2012, PWWM forwarded RPQ No. 20120077, utilizing the MCC 7040 Plan - CICC 7040-0/07 Contract, to a list of 45 pre-qualified firms. A total of four (4) firms purchased contract documents and three (3) firms proffered a bid.

On August 3, 2012, Brailly Electric Corp. proffered the lowest responsive, responsible base bid of \$137,640.00, two (2) percent above the County's cost estimate. The second lowest bidder, Solares Electrical Services, Inc., proffered a base bid of \$212,290.40, 54 percent over the lowest bidder. The third lowest bidder, Florida Sol Systems, Inc., proffered a base bid of \$260,092.80, 23 percent over the second lowest bidder.

Honorable Chairman Joe A. Martinez
and Members, Board of County Commissioners
Page No. 3

Based on the results of the solicitation, PWWM issued a recommendation for award on August 14, 2012 for RPQ No. 20120077 to Brailly Electric Corp., with the stipulation that approval for this project must be obtained from the CITT and the BCC.

The work to be accomplished for this project consists of, but is not limited to, furnishing all supervision, labor, required materials, tools and equipment required to provide the installation of internally illuminated street name signs at designated sites within Miami-Dade County. The work includes sign installation as well as the removal of existing overhead signs, and the relocation of existing signal heads and signs in conflict with the proposed scope of work as directed by the Engineer.
