Re: People's Transportation Plan 90-Day Report
4th Quarter Fiscal Year 2011-2012

Pursuant to Ordinance 02-117, it is my pleasure to provide you with the "90-Day Report" on the implementation of the People's Transportation Plan (PTP), as prepared by the Citizens' Independent Transportation Trust (Transportation Trust). This report encompasses the period from July 1, 2012 – September 30, 2012 and includes Public Works and Transit activities, and actions taken by the Transportation Trust during this reporting period.

The CITT is pleased with the improvements in the process and procedures that have facilitated the expeditious approval of contracts this past period and have in turn facilitated the prompt implementation of the PTP. We look forward to continuing to work with the Board of County Commissioners, County administration, and staff in this very important endeavor.

THE CITIZENS' INDEPENDENT TRANSPORTATION TRUST

People's Transportation Plan
Ninety Day Report
FY 2011-2012: Fourth Quarter

Overview

This report is presented by the Citizens' Independent Transportation Trust (Transportation Trust) with information pertaining to its oversight of the expenditure of proceeds of the Charter County Transportation Surtax (Surtax) Funds and implementation of the People's Transportation Plan (PTP) for the period July 1, 2012 – September 30, 2012.

The Transportation Trust works closely with members of the Board of County Commissioners (BCC), the County administration, staff at Miami-Dade Transit (MDT), the Public Works and Waste Management Department (PWWM) and officials in the municipalities to insure that PTP funds are spent in the approved manner.

Significant improvements have been made to Miami-Dade County's public transit and roadway systems through the investment of Surtax funds. New transit buses, many of which are eco-friendly hybrid vehicles, have been added to the Metrobus fleet and Metromover cars have been purchased and are in operation. The procurement of the new Metrorail fleet of vehicles is proceeding with delivery targeted for completion in 2019.

Construction was completed on the AirportLink project and it opened for revenue service on July 28, 2012 as the Orange Line Metrorail extension. The Orange Line is the signature project of the PTP because the surtax provided eighty-percent (80%) of the total funding. The PTP has also funded improvements for more than 300 miles of roadways and the countywide traffic signalization system has been upgraded with the Advanced Traffic Management System (ATMS). The Easy Card Automated Fare Collection System has been implemented featuring user-friendly customer convenience and enhanced ridership data collection for improved service planning.

The municipal component of the PTP has generated outstanding results with both transit and roadway improvements completed in the 34 participating cities. Bus circulator systems supported by the PTP are successfully operating in twenty-six (26) of those municipalities carrying more than 6 million passengers annually.

The Golden Passport/Patriot Passport program offers seniors, Social Security recipients and honorably discharged veterans meeting certain income requirements free rides on public transit. The PTP also discontinued fares for Metromover users, enhancing patron convenience while reducing maintenance and operating costs.

In addition, the PTP has funded more than 1,000 modern revenue-generating bus shelters that are now installed in unincorporated Miami-Dade County along with bus stops featuring upgraded signage. Drivers can enjoy an easier commute when using the reversible flow lanes constructed along NW 199th Street near Sun Life Stadium. The Transportation Trust approved PTP funds to acquire the 14 acre parcel at NW 27th Avenue and NW 199th Street, which is strategic and necessary for short, mid and long term public transit use and for implementation of Enhanced Bus Service which began with the Kendall Cruiser and has expanded to other priority corridors.

Listings of previous and life-to-date accomplishments and other information on the Transportation Trust and the PTP are available at miamidade.gov/citt.

Transportation Trust Accomplishments During the 4th Quarter

The programs and projects funded by the People's Transportation Plan (PTP) realized a number of major accomplishments during the quarter. These include:

Transportation Trust members cut the ribbon at the new Miami International Airport Metrorail Station

Transportation, Trust members were proud to take part in the grand opening ceremonies and ribbon-cutting inaugurating the Metrorail Orange Line. This is the 2.4 mile heavy rail extension to Miami International Airport and is the centerpiece project funded by the People's Transportation Plan.

From the start, the Trust recognized that a rapid transit link to the airport was much-needed improvement to the County's transportation system and could boost the local economy. With these factor in mind, the Trust approved PTP funds amounting to 80% of the approximately \$500 million dollars need to complete the project. The objective of the Trust, early on, was to ensure transparency, fiscal responsibility and guarantee that the Orange Line would be completed on time and within the allotted budget. To accomplish this, Trust members reviewed quarterly progress reports on the project submitted by Miami-Dade Transit and conducted project oversight visits throughout the three year construction phase.

CITT Chairperson Linda Zilber proudly reported to the community on opening day that the Trust's mission had been accomplished with completion of the Orange Line on time and within the budget, a notable accomplishment on the part for the People's Transportation Plan. Members of the Trust participated in the grand opening ceremonies for the Metrorail extension to Miami International Airport.

- **Transportation Trust Members Participate in DMU Demonstration Ride:**

Transportation Trust Members and staff participated in the demonstration ride of the Diesel Multiple Unit (DMU) currently operated by South Florida Regional Transportation Authority. The major advantage of the DMU over traditional light rail is that it powered by on-board diesel engines, can run on existing tracks by sharing right-of-way with freight trains and does not require electrification with overhead wires and the construction of substations to provide the electricity. This removes a substantial hurdle in development costs.

Trust members Alfred Holzman and Hon. James Reeder at the DMU demonstration ride.

- **Trust Reviews Annual Update of MDT Pro Forma:** Infrastructure Management Group (IMG), the CITT Financial Consultant, presented findings of its analysis of the FY2013 minor update of the County's 30-year financial projection at the September 6, 2012 meeting of the Strategic & Financial Planning Committee (SFPC). It confirmed recent labor agreements improved long term operating costs slightly, however issues (such as revenue to close an Operating funding gap beginning 2014 and Bus Replacement needs) continue as major concerns. The SFPC will follow-up with a special workshop session to revisit and develop recommendations on revenue enhancements in advance of the PTP Symposium planned for early 2013.

- **Grant Presentation:** CITT Members and staff were present for the grant presentation made by U.S. Department of Transportation Secretary Ray LaHood to Miami-Dade County of State of Good Repair Bus and Bus Facilities Discretionary Program Funds. This grant program was created by the USDOT to bring the nation's transit infrastructure into the 21st Century by supporting reinvestment in bus fleets and bus facilities for both urbanized and rural areas. The USDOT Secretary made the grant presentation at the new Orange Line Miami International Airport Metrorail Station.

Contracts Approved by the Transportation Trust During the 4th Quarter

A major responsibility of the Transportation Trust is to review contracts requesting Transportation Surtax funding for projects listed in the People's Transportation Plan (PTP). Miami-Dade Transit Update

Miami-Dade Transit (MDT) is responsible for implementing all transit improvements listed in the People's Transportation Plan (PTP) including Metrobus, Metrorail and Metromover projects as well as Special Transportation Service (STS) and the Golden Passport/Patriot Passport Program. MDT reports the following activities related to PTP projects during this quarter:

- **Metrobus:** The active bus fleet as of this quarter consists of 703 40-foot buses, 25 62-foot Articulated buses, 12 45-foot over-the-road buses, and 78 30-foot minibuses for a total of 818 active buses. This is an increase of 113 buses since PTP. Also not included in the active fleet are 4 retired buses that form MDT's Contingency Fleet.
- **PTP Staff:** MDT hired three (3) full-time employees during the period covering July 1, 2012 through September 30, 2012. Since November 2002, the total number of new hires is 1,966. Due to budgetary challenges experienced for the last several fiscal years, MDT has not hired many external candidates. However, MDT has recruited internal candidates, as approved by the County Manager and the Office of Strategic and Business Management (OSBM).
- **Golden Passport/Patriot Passport Programs:** During this quarter, MDT issued 1,439 Over 65 years of age Golden Passport cards, 2,379 Under 65 years of age Golden Passport cards and 93 Patriot Passport cards. Currently, there are 208,002 certified Golden Passport/Patriot Passport customer accounts; this includes 147,349 Golden Passport Over 65 years of age 52,795 Golden Passport Under 65 years of age and 7,858 Patriot Passport customers.

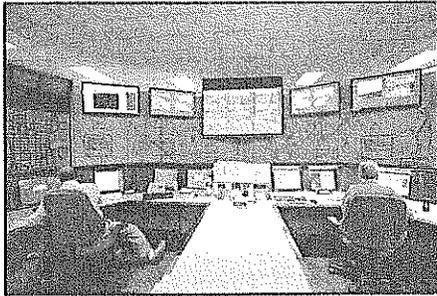

Golden Passport/Patriot Passport Issuances FY 2011-2012, 4th Quarter

Golden Passport Program Component	Issued in Fourth Quarter	Total Certified Golden/Patriot Passport Users To Date
Golden Passport: Over 65 Years of Age Issued during the Quarter	1,439	147,349
Golden Passport: Under 65 Years of Age Issued	2,379	52,795
Patriot Passports Issued	93	7,858
Total Golden Passport/Patriot Passport	3,911	208,002

- **Disadvantaged Business Enterprise (DBE) Participation:** MDT monitors the status of the Charter County Transportation System Surtax-funded contracts which include Federal funding. To date, MDT reports six (6) Prime Contractors and fifty-two (52) Subcontractors that are subject to DBE compliance measures.

Miami-Dade Public Works and Waste Management Department Update

The Miami-Dade Public Works and Waste Management Department (PWWM) is responsible for developing and implementing PTP funded roadway projects including paving, traffic signals, signage, bike paths, lighting, drainage, curb cuts and guard rails. PWWM reports the following activities related to PTP projects during the 4th quarter:

ATMS Control Room

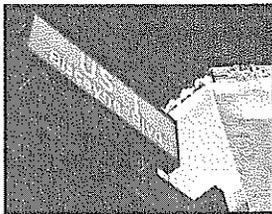

underway and will improve communications, develop a modern Traffic Control Center, and implement and integrate video surveillance.

- **Advanced Traffic Management System (ATMS):** PWWM continues to upgrade the County's traffic signalization through the ATMS. Phases I and II are complete. On August 30th, 2012, the last two signals on the Urban Traffic Control System (UTCS) were migrated to the ATMS. The same day, the ModComp equipment and Central Computer Unit were powered down effectively ending the UTCS era. The UTCS, the largest and most modern central computer traffic control system in the U.S. at inception, served the County well for 36 years (Aug 1976 – Aug 2012). Phase III for the ATMS is

- **Neighborhood Improvement Projects:** PWWM continues to coordinate the Neighborhood Improvement Projects with County Commissioners' Offices. Improvements in this category include resurfacing, sidewalks, ADA ramps and connectors, drainage, guardrails, striping, traffic signals, and traffic calming. Currently, 108 PTP funded construction contracts have been approved by the CITT and BCC for Neighborhood Improvements, totaling \$89.8 million.

- **Miscellaneous Construction Contract Program:** In an effort to accelerate projects, PWWM continues to take advantage of various contracting mechanisms, such as the County's Miscellaneous Construction Contract Program (MCC Program). The utilization of the MCC Program allows for a streamlined selection process, while enhancing opportunities to small business.

- **Internally Illuminated Street Name Signs (IISNS) Program:** Since the inception of the program,

IISNSs have been installed at 1,854 intersections throughout the County, which includes 178 intersections funded under the American Recovery and Reinvestment Act (ARRA). With the exception of approximately 22 intersections, PWWM has completed the installation of Internally Illuminated Street Name Signs at all eligible signalized intersections (excludes spanwire, substandard traffic signal support systems, and locations identified by Municipalities for exclusion). The remaining intersections were originally

going to be implemented through a construction contract for which the contractor was found to be in default. Subsequently, consideration was given to utilizing in-house staff from PWWM to perform the work for the pending intersections, however, as there is no current CITT approved procurement contract, it has been determined that proceeding with a new construction contract would be more time effective and move PWWM towards the completion of the IISNS program. The Award for the construction contract is in process.

Disadvantaged Business Enterprise and Small Business Participation

The Transportation Trust is responsible for monitoring and reporting on the level of participation by small and disadvantaged businesses in contracts receiving transportation Surtax proceeds. It is supported in this effort by the Miami-Dade Sustainability, Planning and Economic Enhancement Department (SPEED) Small Business Development (SBD) division which monitors contracts for compliance with County small business participation measures. Miami-Dade Transit (MDT) administers the federal Disadvantaged Business Enterprise (DBE) program which encourages the development and use of companies owned and controlled by minorities, women, and socially and economically disadvantaged individuals on federally-aided projects. The following activity is reported for the fourth quarter.

1. Miami-Dade Transit

PTP Municipal Update

Twenty percent (20%) of annual Surtax proceeds are allocated to the thirty-four municipalities eligible to receive PTP funds; each entity receives a pro rata share based on population. The participating municipalities use Surtax funds to develop or enhance local transit and transportation systems.

- **Surtax Transfers to Municipalities:** A total of \$11,599,286 in Surtax funds were transferred to the participating municipalities during the third quarter.

Transportation Trust Board and Staff Updates

The Transportation Trust meets on a regular basis to fulfill its responsibility to “monitor, oversee, review, audit and investigate” the implementation of the PTP.

- **Transportation Trust Meetings:** The Transportation Trust meets on a regular basis to fulfill its statutory responsibility to “monitor, oversee, review, audit and investigate” the implementation of the People’s Transportation Plan (PTP). The Transportation Trust met three times during the 4th quarter and the subcommittees held five meetings to consider and act on contracts and reports related to the PTP.
- **Trust Staff Discusses Economic Benefits of the Orange Line:** The Transportation Trust Executive Director made a presentation to the Miami-Dade Social and Economic Development Council explaining the positive economic impact of construction and operation of the Metrorail Orange Line on the local economy.

PTP Finance

The Office of the Citizens' Independent Transportation Trust (OCITT) is responsible for transferring surtax revenue it receives from the State of Florida to eligible recipients such as Miami-Dade County and municipalities. The OCITT received \$49,238,882 in surtax proceeds during the quarter, and transferred \$11,599,286 to eligible municipalities as part of the established municipal share. Cumulative distributions to date include:
