

Memorandum

Date: June 4, 2013

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

Agenda Item No. 8(L)(7)

From: Carlos A. Gimenez
Mayor

Subject: Resolution Authorizing the Execution of an Amended Interlocal Agreement for Stormwater Management in the Sum of \$548,603.00 Annually, between the City of Opa-locka and the Miami-Dade County Stormwater Utility

Recommendation

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing the execution of an amended Interlocal Agreement (Agreement) for stormwater management between the City of Opa-locka (City) and the Miami-Dade County Stormwater Utility (refer to Exhibit A). On November 8, 2012, the BCC approved an Interlocal Agreement for stormwater management between the City and the Miami-Dade County Stormwater Utility. The amended agreement proposed through this resolution would add provisions for Emergency Repair / Preventative Mitigation (Attachment "B" of Exhibit A). The total annual cost to cover these new provisions is \$95,000.00, bringing the amended total for the Agreement to \$548,603.00. The term of the Agreement would remain the same as the original, from October 1, 2012 to September 30, 2014.

Scope

The City's municipal boundaries fall within Commissioner Barbara Jordan's District 1, Commissioner Jean Monestime's District 2, and Commissioner Esteban Bovo Jr.'s District 13.

Fiscal Impact/Funding Source

The County's annual contribution will not exceed \$132,780.00, an increase of \$25,500.00 over the 2012 agreement, and will be funded through the County's Stormwater Utility. The City's annual reimbursement to the County will not exceed \$415,822.00, an increase of \$69,500.00. For the term of the Agreement, the County's and City's contribution will not exceed \$265,560.00 and \$831,644.00 respectively. As the County is responsible for canal maintenance, it would otherwise incur all costs, including costs for Emergency Repair/Preventative Mitigation, without this Agreement.

Track Record/Monitor

The Public Works and Waste Management Department Stormwater Utility Planning Division's Division Director, Marina Blanco-Pape, P.E., will be responsible for monitoring this Agreement.

Background

On June 18, 1991, the BCC adopted Ordinance No. 91-66, creating the Miami-Dade County Stormwater Utility, establishing a uniform approach to stormwater management. Stormwater Utility fees collected in Miami-Dade County provide funding for the construction, operation, and maintenance of stormwater conveyance systems.

On June 3, 1993, the City's Commission adopted Ordinance No. 93-6, creating stormwater

management regulations within their municipal code, and establishing their own stormwater utility as its funding source.

County-owned canals within the City that provide drainage services to its residents remain the property and responsibility of the County. Therefore, on November 4, 2010, the BCC adopted Resolution R-1075-10, approving an Interlocal Agreement which established the responsibilities for the operation, maintenance, and cost-sharing of stormwater systems within the City's boundaries, for a two (2) year time period. Subsequent to this Interlocal Agreement's expiration on September 30, 2012, the BCC adopted Resolution No. R-921-12 approving a new two (2) year Interlocal Agreement with a term from October 1, 2012 to September 30, 2014 (Exhibit B). However, subsequent to the City's approval of this new Interlocal Agreement, they requested a modification to add provisions for contingency funding for Emergency Repair / Preventative Mitigation.

As such, on September 12, 2012, the City's Commission approved Resolution No. 12-8447 (Exhibit C), authorizing the City Manager to amend the current Interlocal Agreement for the inclusion of City funds in the amount of \$69,500.00 to cover any Emergency Repair / Preventative Mitigation costs. This increased the City's maximum annual reimbursement from \$364,322.00 to the \$415,822.00 proposed in this Agreement.

Similar Interlocal Agreements are currently in effect between the County and at least ten (10) other municipalities.

WITNESSETH

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

**ARTICLE I
PURPOSES**

The UTILITY and the CITY enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;

The CITY may also request modifications to the tasks or level of services set forth in Attachment "B". Any such work requested by the CITY shall commence within reasonable time after the request has been made to the UTILITY. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then prior written approval by both parties' Project Managers must be obtained. FOR STORMWATER MANAGEMENT**

THIS TWO (2) YEAR INTERLOCAL AGREEMENT, [the "Agreement"] by and between the Miami-Dade County Stormwater Utility, a public body corporate and politic, through its governing body, the Board of County Commissioners of Miami-Dade County, Florida [hereinafter sometimes referred to as "UTILITY",] and the City of Opa-locka, a Florida Municipal Corporation, through its governing body, the Opa-locka City Council of the City of Opa-locka, Florida [hereinafter sometimes referred to as "CITY",] is entered into as follows:

WITNESSETH

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, it is the intent of the UTILITY and the CITY, through this Agreement, to establish relationships and responsibilities for the maintenance of shared stormwater systems by the CITY and the UTILITY; and

WHEREAS, the UTILITY and the CITY recognize that there are operating costs, as well as benefits, associated with maintaining shared stormwater drainage systems; and

WHEREAS, the UTILITY and the CITY want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

ARTICLE I PURPOSES

The UTILITY and the CITY enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
- (2) to maintain and improve water quality and preserve and enhance the environmental quality of the receiving waters;
- (3) to control flooding that results from rainfall events;
- (4) to deter unmanaged rainwater from eroding sandy soils and causing sedimentation;
- (5) to deter the disruption of the habitat of aquatic plants and animals;
- (6) to promote intergovernmental cooperation in effectively and efficiently managing stormwater run-off;
- (7) to maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with the approved plans. These include maintaining canals, and any required maintenance of flow control structures and stormwater pump stations and their mechanical and electrical components; maintaining stormwater systems as determined by conditions of the system, prevailing environmental conditions, and the level of service established.
- (8) to provide a mechanism for the UTILITY and the CITY to share and allocate the cost of maintaining and repairing shared stormwater drainage systems as stated in (7), above.

ARTICLE II DEFINITIONS

Agreement shall mean this document, including any written amendments, attachments, and other written documents, which are expressly incorporated by reference.

Capital Outlays shall mean expenses budgeted by the CITY and the UTILITY which are actual expenses incurred in each fiscal year, which due to their nature are considered non-reoccurring and producing a long term benefit to the users. The yearly charges allocable to the CITY or to the UTILITY shall be that amount prorated, plus interest charges and administrative fees, for no longer than the calculated useful life of the capitalized item in no case exceeding 20 years. A separate Interlocal Agreement is required for any approved Capital Outlays that may be amortized beyond the life of this Agreement.

Fiscal Year shall mean the period beginning on October 1 and ending on September 30 of the following year.

Force Majeure shall mean an act of God, epidemic, lightning, earthquake, fire, explosion, hurricane, flood or similar occurrence, strike, an act of a public enemy, or blockade, insurrection, riot, general arrest or restraint of government and people, civil disturbance or similar occurrence, which has had or may reasonably be expected to have a material adverse effect on the rights or obligations under this Agreement, and which, by the exercise of due diligence, such parties shall not have been able to avoid. Such acts or events DO NOT INCLUDE inclement weather (except as noted above) or the acts or omissions of subcontractors, third-party contractors, material men, suppliers, or their subcontractors, unless such acts or omissions are otherwise encompassed by the definition set forth above.

The CITY AND the UTILITY shall fully and timely perform all work tasks described in this Statement of Work:

The CITY shall maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with this Agreement and the CITY's stormwater management plan. The CITY shall be responsible for maintaining aesthetic conditions only on canals and other water bodies within the CITY's boundary by providing for litter and minor debris removal as needed.

The UTILITY shall maintain, repair, and enhance shared stormwater management systems located within the limits of the drainage service areas in accordance with Attachment "A" and Attachment "B".

The CITY's relative stormwater runoff contribution to the UTILITY's shared drainage system and the UTILITY's relative stormwater runoff contribution to the shared drainage system is depicted in Attachment "A".

ARTICLE IV TERM OF THE AGREEMENT

The term of this Agreement shall be for a period of two (2) years commencing on October 1, 2012 and ending on September 30, 2014, provided, however, either party may terminate this Agreement without cause prior to the expiration date upon one (1) year's advance written notice to the other party of its decision to terminate this Agreement.

B. The CITY and the UTILITY shall provide notice to each other, as provided, in this Agreement designating their respective Project Manager. Each shall promptly notify each other of any change in the Project Manager designation by written notice as specified in this Agreement.

C. Commencing with fiscal year 2012-2013, and after approval of the Agreement, the costs allocable to the CITY and the costs allocable to the UTILITY based on the relative stormwater runoff contribution to each other's shared portion of the stormwater drainage systems

are included in this Agreement and presented as described in Attachment "B". Estimated total expenditures for the two (2) year term of this Agreement are also included and shall not be exceeded.

D. The tasks and levels of service set forth in Attachment "B" may be adjusted by the UTILITY with prior notice to the CITY due to prevailing environmental conditions, maintenance needs, or ownership, provided that the total annual estimated expenditures are not exceeded. The CITY may also request modifications to the tasks or level of services set forth in Attachment "B". Any such work requested by the CITY shall commence within reasonable time after the request has been made to the UTILITY. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then prior written approval by both parties' Project Managers must be obtained. However, the total two-year cost of the Agreement shall not be exceeded.

E. Payments by the CITY are to be made within 30 days after the bill presentation. In the event of a dispute on the billed amount, the CITY may notify the UTILITY of the nature of the dispute and the UTILITY shall make arrangements for the pertinent records to be made available for inspection by the CITY, as indicated under Article V (H) of this Agreement. Upon resolution of the dispute, payments by the CITY are to be made within 30 days. In the event of an overpayment by the CITY, the UTILITY shall reimburse the CITY within 30 days after verification of the overpayment by the UTILITY.

F. H. The CITY and the UTILITY shall each comply with all applicable regulations, ordinances and laws in effect in the performance of this Agreement.

I. If requested, the UTILITY will provide a tentative yearly maintenance schedule at the beginning of each fiscal year. As an update to the yearly maintenance schedule, the UTILITY will coordinate (via e-mail or telephone) with the CITY within 48 hours prior to commencing work in the CITY. The UTILITY contact for maintenance activities will be the Chief of Miami-Dade County Public Works and Waste Management Department's Road, Bridge, Canal, and Mosquito Control Division.
