Memorandum

Date: July 2, 2013

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor 

Subject: Approval of a Request for Application for an Administrative Boundary
Change to the Miami-Dade County Enterprise Zone

Recommendation

It is recommended that the Board of County Commissioners (Board) approve the attached resolution authorizing the advertisement of a Request for Application (RFA) process (substantially in the form attached) to solicit proposals for an administrative boundary change to the Miami-Dade County Enterprise Zone Program (EZ). The Department of Regulatory and Economic Resources (RER) is recommending an RFA process to assess all proposals and determine which projects or areas should be included in a boundary change request to the State of Florida (State). Any prospective boundary changes will come before the Board for approval before submission to the State for final approval.

Scope

The proposed modification is expected to have a countywide impact as applications can be submitted for any area of the County, provided the application meets the eligibility requirements of Florida Statute (FS) 290.0058.

Fiscal Impact/Funding Source

The attached resolution does not create a fiscal impact to the County. Businesses located within the EZ may qualify for various State and County incentives that promote investment in economically distressed areas. Any fiscal impact associated with inclusion of new areas in the EZ will be provided to the Board when staff presents its recommendation for final consideration of the administrative boundary change.

A nonrefundable application fee will be charged for each application. The application fee for businesses seeking ten (10) acres or less is \$500. The fee for applications seeking more than 10 acres is \$500 plus \$25 for each acre, or partial acre exceeding 10 acres. The fee will be charged to all applicants and is due with each application submission. The fee will be used to cover RER's costs associated with the RFA process, analyzing the proposed areas to be included and the proposed areas to be removed from the EZ.

Track Record/Monitor

The County has participated in the Enterprise Zone Program for 25 years, which provides tax credits and refunds to eligible businesses. RER is the local Enterprise Zone Coordinator, managing the program for the County. Dr. Robert Cruz, Chief Economist, will manage the activities authorized by this resolution. In Fiscal Year 2011-12, EZ businesses received

\$2,898,655 in state funded incentives and created 702 jobs. (See chart) The Florida Department of Economic Opportunity administers the program for the State.

FY 2011-12 EZ Application Value Assessment (By Quarter)							
Application Type	1 st	2 nd	3 rd	4 th	Total	State Incentive Amt	Average Amt/App
Building Material & Electricity Tax	8	1	0	4	13	\$1,474,634	\$113,433
Business Equipment	57	57	60	36	210	\$610,700	\$2,908
Jobs Credit-Sales Tax	32	53	47	43	175	\$412,826	\$2,359

Electricity Sales Tax	1	1	0	0	2	\$94,924	\$47,462
					430	\$2,898,655*	\$6,741

*The 2011-12 State EZ Annual Report released by DEO shows incentives in the amount of \$2,593,084 as the State does not credit individual Counties with the Corporate Tax Credits reported. The Corporate Tax Credit amount for the Miami-Dade County EZ is \$305,571, which was added for the total State Incentive amount of \$2,898,655.

Background

The Enterprise Zone is a joint State and County business assistance program that provides incentives to: 1) stimulate economic growth in distressed areas; 2) stimulate economic development through private investment; and 3) create jobs within the EZ boundaries. The Enterprise Zone Program has been an integral part of the County's economic development strategy since 1994. Miami-Dade County's EZ measures 53.1 square miles, and is designated under the Florida Enterprise Zone Act to receive State and County business incentives (see attached map).

On November 15, 2005, through Resolution No. R-1305-05, the County reauthorized its Enterprise Zone Program for another ten years. The State approved the County's application, pursuant to the Florida Enterprise Zone Act of 2005, with the effective date of January 1, 2006. The Florida Enterprise Zone Act of 2005 governs how each municipality within the state reauthorizes their respective program. Additionally, the legislation also gave municipalities the ability to administratively amend their EZ boundaries.

Under the current program, and pursuant to FS 290.0055, the governing body of the jurisdiction which authorized the application for an Enterprise Zone may apply to the State for a boundary modification once every three years. Staff is recommending that the Board authorize this RFA process to assess proposals that promote private investment, economic development, and job creation in economically distressed areas. Businesses located in the areas added to the EZ would be eligible for state and local incentives. Boundary changes cannot increase the overall size of the County's Enterprise Zone. Any administrative modifications to include new areas in the EZ require deleting areas of the equivalent size that are not likely to be developed or redeveloped currently within the EZ boundaries. RER will analyze the census data of the area(s) to be added to confirm compliance with FS 290.0058. For an area to be included in the EZ, it must have a poverty rate of no less than 20% and 50% of the census block groups within the EZ must have a poverty rate of 30% or higher.

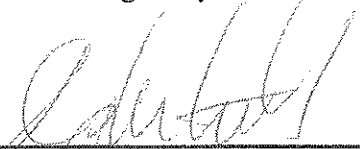

Throughout the process, RER will work with participating municipalities in determining which areas are eligible for addition and which areas are deemed non-developable or otherwise ineligible and may be removed from the EZ. The estimated timeline for the selection of projects is as follows:

<u>Date(s)</u>	<u>Action</u>
June 2013	RFA before Committee for approval prior to Board approval
July 2, 2013	RFA before Board of County Commissioners for approval to advertise.
July 12, 2013	RFA is publicly advertised
July 15, 2013	RFA is available to public.
July 23, 2013	Application pre-submittal workshop (North)
July 24, 2013	Application pre-submittal workshop (South)
August 1, 2013	Last day to submit RFA questions
August 1, 2013	State required 90-day notification/advertisement of proposed EZ boundary modification
August 12, 2013	Applications due to Clerk of the Board by 2:00 pm
August 14-22, 2013	Selection committee reviews proposals; RER review of eligible areas
August 23, 2013	Selection committee meets
October 2013	Committee action and Public Hearing
November 5, 2013	Board of County Commission action

**Note – Project timeline subject to change based on legislative actions by Committee and/or Board of County Commission*

Ranking Criteria

All proposals must describe the proposed development in detail and describe how the project will benefit the Enterprise Zone Program and its residents. The proposal should also describe how EZ incentives will benefit the project. All applications will be evaluated and ranked according to the following criteria: 1) projects with financial capacity to complete development; 2) the number of new jobs that will be created; 3) proposed value of the capital investment to the area; and 4) projected economic development value. The goal of the boundary modification is to promote job creation and economic development in distressed areas quickly. The successful applicant(s) will have their project site included in the EZ if it meets the eligibility criteria.

MIAMI-DADE COUNTY ENTERPRISE ZONE BOUNDARY MODIFICATION

(1) Introduction

Miami-Dade County (the County), through the Department of Regulatory and Economic Resources, Business Affairs Division (RER), as the local Enterprise Zone Coordinating Agency for the State of Florida (the State), as authorized by the Florida Enterprise Zone Act, is soliciting applications for the modification of Enterprise Zone boundaries (EZ) #1301 and/or 1301-A.

Under the provisions of the Florida Enterprise Zone Act, the County can apply once every three years for a modification of its EZ boundaries. This change cannot increase the current size of the EZ. Any modification requires an exchange of areas. Proposed modifications must meet the eligibility criteria of Florida Statutes 290.0055, 290.0058 and 290.0065. Responses to this RFA will be considered as important community input as the County prepares its application to the Florida Department of Economic Opportunity, Division of Community Development, for boundary modifications to the County's designated Enterprise Zone. The State may accept or deny the County's application for an EZ Boundary Modification. Upon acceptance of the application by the State, no further administrative boundary modifications may be considered for at least three (3) years after this modification.

The current composition of the County's EZ area includes parts of several municipalities (i.e., Hialeah, Miami, Opa-Locka, City of Florida City, City of Miami Beach, as well as others). Applicants seeking modifications of EZ boundaries in areas within municipal boundaries are strongly encouraged to secure the affected municipality's support prior to submitting their application to the County.

(2) General Information About the RFA

The cover letter must include the following: legal name of the developer/business; federal employer identification number (EIN); organization type (for-profit, not-for-profit, governmental institution); business address; the name of the contact person, title, telephone number(s) and e-mail address. The cover letter must also include a project title; the general boundaries of the proposed area to be included in the EZ; a brief description of the proposed development and/or redevelopment of the area and the projected socio-economic benefits to the residents of the EZ.
- All applicants must submit one (1) original and seven (7) copies of the application in a three (3) ring binder. All originals and copies of the application(s) must include all required documents. Do not exclude any documents from any copy. All pages in the application should be identified with consecutive page numbers.

- Applications not submitted in a three (3) ring binder will not be accepted. No pages are to be stapled or clipped.

- **Applications submitted after the deadline will not be accepted.**
- **Applications submitted via fax or email will not be accepted.**
- Proposals must comply with requirements of this RFA and with the Florida Statute 290.0055, Florida Statute 290.0058 subsections 1, 2 (a), (b), (c), and (d), 3, 4, and 5; and Florida Statute 290.0065.

- Proposals that are incomplete, lack required documents or have deficiencies and errors will be rejected. No changes or additions to the proposals will be accepted once the application has been submitted.

(3) FS 290.0058 Determination of Pervasive Poverty, Unemployment, and General Distress

Census Data

- In determining whether an area suffers from pervasive poverty, unemployment, and general distress, as stated in FS. 290.0055 and 290.0065, the governing body and the department shall use data from the most current decennial census, and from information published by the Bureau of the Census and the Bureau of Labor Statistics. The data shall be comparable in point or period of time and methodology employed.

Determination of Poverty (as sited in FS 290.0058)

- Pervasive poverty shall be evidenced by a showing that poverty is widespread throughout the nominated area. The poverty rate of the nominated area shall be established using the following criteria:
 - In each census geographic block group that contains the nominated area, the poverty rate shall be not less than 20 percent. If parts of the nominated area fall in separate block groups, then the poverty rate, total population, and population living in households at or below the poverty level must be provided for each of those block groups.
 - In at least 50 percent of the census geographic block groups within the nominated area, the poverty rate shall not be less than 30 percent.
 - Census geographic block groups with no population shall be treated as having a poverty rate which meets the standards of paragraph (a) (less than 20%), but shall be treated as having a zero poverty rate for purposes of applying paragraph (b).
 - A nominated area may not contain a noncontiguous parcel unless such parcel separately meets the criteria set forth under paragraphs (a) and (b).

Unemployment (as sited in FS 290.0058)

- Unemployment shall be evidenced by data indicating that the average rate of unemployment for the nominated area is not less than the state's average of unemployment, or by evidence of especially severe economic conditions which have brought about significant job dislocation within the nominated area.

Distressed Conditions (as sited in FS 290.0058)

- General distress shall be evidenced by describing adverse conditions within the nominated area other than those of pervasive poverty and unemployment. A high incidence of crime, abandoned structures, and deteriorated infrastructure or substantial population decline are examples of appropriate indicators of general distress.
- In making the calculations required by this section, the local government and the department shall round all fractional percentages of one-half percent or more up to the next highest whole percentage figure.
