

Memorandum

Date: October 1, 2013
To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners
From: Carlos A. Gimenez
Mayor
Subject: Recommendation for Award: County Facilities Recycling Program

Agenda Item No. 8(F)(8)

Recommendation

It is recommended that the Board of County Commissioners (Board) approve award of *Contract No. RFQ841, County Facilities Recycling Program* to Ecological Paper Recycling, Inc. for the implementation of comprehensive recycling services at nearly 500 County facilities.

The services to be provided include the collection, transportation and recycling of materials such as paper, cardboard, glass, plastic, and metal. The current contract, which expires on February 28, 2014, limits recyclable material to paper and cardboard that is collected from a limited number of County facilities (147 sites). Consistent with the County's Sustainable Buildings Program, the new contract meets the requirements for Leadership in Energy and Environmental Design (LEED) certification by expanding the scope to include glass, plastic and metal containers.

As explained in the fiscal impact section of this memorandum, the recyclable materials collected by the vendor will be sold, and the County will receive rebates which will fluctuate based upon the market value for paper and cardboard (as published by *Official Board Markets "The Yellow Sheet"*). The other recyclables (i.e., glass, plastic, and metal containers) have fixed rebate percentages. Depending on the volume of recyclables collected, it is anticipated that the rebates to the County will offset any service fees, and will generate revenue to the County. The awardee will also provide training, at no cost to the County, to janitorial staff and facility managers regarding recycling procedures to maximize the collection of recyclables.

Approval is also requested to allow Miami-Dade Transit (MDT) to use Charter County Transportation Surtax funds as a component of MDT Operating funds for this contract. This award recommendation is placed for Committee review pursuant to Miami-Dade County Code Section 29-124(f). The MDT allocation within this contract recommendation may only be considered by the Board if the Citizens' Independent Transportation Trust (CITT) has forwarded a recommendation to the Board prior to the date scheduled for Board consideration or 45 days have elapsed since the filing with the Clerk of the Board of this contract recommendation. If the CITT has not forwarded a recommendation and 45 days have not elapsed since the filing of this award recommendation, I will request a withdrawal of the MDT allocation from this item.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

While this recommendation requests estimated five-year allocations for the departments listed in the table below, the actual cost to the County is expected to be negligible due to revenues received from the rebates.

Service Fees Paid by the County:

Service fees will be paid to the vendor for collection, transportation and recycling of materials, which is conducted curbside for smaller facilities, and at designated points of service for larger facilities. The amounts allocated for service fees to be paid by the County, without factoring rebates to be received

from the vendor for the initial five-year term is \$1,029,000, or \$205,800 per year, as noted above. It is important to point out that the negotiated service fee for the first year of the contract for all of the departments listed below is only \$86,760. The difference between the annual allocated amount and the actual negotiated service fee is to allow room for expansion of additional sites/facilities depending on the adoption rate/success of the program. If the County chooses to exercise the two, three-year options, the cumulative allocation budgeted for service fees is \$2,263,800 for eleven years.

Allocation amounts are based on the gross cost to the vendor to collect recyclable materials from the locations associated with each department, prior usage and anticipated needs.

*MDT has confirmed that federal funds will not be used for this contract.

Revenue (Rebates) to County:

Currently, the County's recycling contract only provides for recycling of paper and cardboard (includes document shredding). The new contract expands the reach of this service throughout the County, and adds plastic, glass, aluminum and steel (does not include document shredding). The previous contract for paper and cardboard recycling produced \$117,265 in net revenue to the County for fiscal year 2011-2012. Depending on the actual volume of recyclables collected, it is anticipated that the rebates to the County will increase and fully offset the previously mentioned service fees, and will be a revenue-generating contract for the County, as is currently the case with the existing recycling contract. Further, while difficult to quantify, the County is expected to benefit from reduced costs for trash pick-up and disposal as a result of having a comprehensive recycling program in place.

The rebate rates for paper and cardboard were negotiated with the vendor using the current commodity rates for paper and cardboard (as published by *Official Board Markets "The Yellow Sheet"*). These rates fluctuate with the market and the contract allows for adjustments on a monthly basis accordingly. Further, the County negotiated: a) a 50 percent rebate on commingled materials (plastic, glass, aluminum, and steel) with mixed paper; b) a 70 percent rebate on corrugated cardboard; c) a 90% rebate on mixed paper; and d) a 30 percent rebate on comingled materials.

Track Record/Monitor

The contract is utilized by various County departments. The contract managers for the departments are listed in the table above. Lydia Osborne of the Internal Services Department is the Procurement Contracting Officer.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to exercise, at their discretion, contract modifications and extensions, in accordance with the terms and conditions of the contract.

Vendor Recommended for Award

A Request for Qualifications was issued under full and open competition on November 5, 2012. Three proposals were received and evaluated. Waste Management Inc. of Florida (WMI), the highest ranked proposer, was recommended for negotiations for all zones. Negotiations failed with WMI, as the negotiations team was unable to reach an agreement on price. WMI held firm that the rates in the firm's proposal, was their best and final offer. An agreement covering all zones was successfully negotiated with the second highest ranked proposer, Ecological Paper Recycling, Inc. Award to the second ranked firm will save the County \$279,597 annually, or \$1,398,985 over the five year contract term.

Due Diligence

Due diligence was conducted in accordance with the ISD's Procurement Guidelines to determine Contractor responsibility, including verifying corporate status and that there are no performance or compliance issues. The lists that were referenced include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors and federal excluded parties. There were no adverse findings relating to Contractor responsibility. This information is being provided pursuant to Resolution R-187-12.

Applicable Ordinances and Contract Measures

- The two percent User Access Program provision applies and will be collected on all purchases where permitted by funding source.
- A Small Business Enterprise Selection Factor and Local Preference were applied in accordance with the applicable ordinances where permitted by the funding source.
- The Living Wage Ordinance applies.

Background

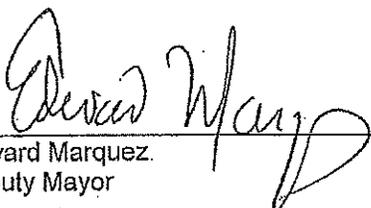

The Miami-Dade County Code, Article III, Sections 9-71 through 9-75 and Implementing Order 8-8 established the County's Sustainable Buildings program, which requires all new County construction projects to attain at least "Silver" level rating under the United States Green Building Council's LEED rating system. Recycling paper, corrugated cardboard, glass, plastics and metal is a requirement to achieve and maintain LEED certification. Additionally, Section 403.7032 of the Florida Statutes establishes a statewide recycling goal to reduce recyclable solid waste to landfills by 75 percent by the

and Members, Board of County Commissioners

year 2020. The GreenPrint sustainability planning process highlighted the need to become a green government role model and requires recycling in government facilities.

Currently, there is no contract for recycling glass, plastic and metal containers from County facilities, as the current contract (6829-2/11-3) is for recycling of paper and cardboard. A Request for Qualifications (RFQ749) was issued in August 2010 to replace the existing contract for these services, with a comprehensive recycling program to include recycling of paper, cardboard, glass, plastic, and metal containers at an expanded number of County facilities. Proposals were received and evaluated. A contract was negotiated with the highest ranked proposer, Southeastern Recycling Corporation. After the contract was negotiated, the proposer advised the County that its assets were acquired by, and its contracts would be assigned to, Waste Management Inc. of Florida. However, it was not in the County's best interest to implement the program at that time, therefore, it was recommended that all proposals be rejected.

A new solicitation (RFQ841) was issued in November 2012. The solicitation divided the County into eleven geographical zones, which includes approximately 500 facilities/sites. Proposers were allowed to submit a proposal for, and be awarded, any or all of the zones. Three proposals were received and evaluated. Waste Management Inc. of Florida was the highest ranked proposer and was recommended for negotiations for all zones. The negotiations team was unable to reach an agreement on a contract with Waste Management Inc. of Florida. Negotiations were terminated with the firm and the negotiations team successfully negotiated a contract for all zones with the second highest ranked responsive and responsible firm, Ecological Paper Recycling, Inc., based on the evaluation criteria established in the solicitation. This new contract replaces the existing contract (6829-2/11-3).

Chairperson, Evaluation/Selection Committee

Subject: Report of Evaluation/Selection Committee for RFQ No. 841, County Facilities Recycling Program

The County issued a solicitation to obtain proposals from qualified firms to implement an innovative, productive, and cost-effective Recycling Program (Program) for County facilities. The Program includes curbside recycling for smaller County facilities and point of service recycling for larger County facilities. The solicitation provides for Program services to be divided into eleven geographical County zones (Zones A-K) as determined by the County's Resource Conservation Committee. Proposers could propose on, and be awarded, any or all of the Zones.

The Evaluation/Selection Committee (Committee) has completed the evaluation of proposals submitted in response to the solicitation following the guidelines published in the solicitation.

Committee meeting dates:

December 14, 2012 (kick-off meeting)
January 18, 2013 (evaluation meeting, scoring)
January 25, 2013 (scoring, ranking and recommendation)

Verification of compliance with contract measures:

The Review Committee recommended a Small Business Enterprise (SBE) selection factor for Zones A, B, C, D, E, F, G, H, I and J. None of the proposers qualified for the selection factor. No contract measure was assigned to Zone K due to federal funding

Verification of compliance with minimum qualification requirements:

The solicitation had minimum qualification requirements which were reviewed by the Chairperson and the Committee members, who are also members of the Resource Conservation Committee. All proposers met the requirements.

Local Certified Service-Disabled Veteran's Business Enterprise Preference:

Veteran's Preference was considered in accordance with the applicable ordinance for all Zones (A-J), with the exception of Zone K, which is funded with federal funds. None of the proposers qualified for the preference.

Summary of scores:

Below are three tables that provide a summary, by Zone, of the final scores (technical, price and rebate), proposed monthly prices and monthly rebates for all proposers. Each proposal could receive up to a maximum total of 500 points (100 points per Committee member). The breakdown of the points is as follows: Technical Score: 350 points; Price Score: 75 points; and Rebate Score: 75 points.

Memo to Lester Sola

Report of Evaluation/Selection Committee for RFQ No. 841, County Facilities Recycling Program

The Committee decided not to hold oral presentations since the proposals did not required further clarification. Price and rebate proposals were reviewed for all proposers after the review and scoring of technical proposals.

Local Preference:

Local Preference was considered for Zones A, B, C, D, E, F, G, H, I and J, but did not affect the outcome as no proposer was within five percent of the highest ranked proposer in each zone. Local Preference was not applied to Zone K due to federal funding restrictions.

Negotiations:

The Committee recommends that the County enter into negotiations with Waste Management Inc. of Florida, the highest ranked proposer for all zones. Notwithstanding the foregoing, the Committee further recommends that if the County and Waste Management Inc. of Florida cannot reach agreement for any of the 11 Zones, the County will begin negotiations with the next highest ranked Proposer for those specific Zone(s). This negotiation process will continue until an agreement, acceptable to the County, has been reached for all Zones.

The following individuals will participate in the negotiations:

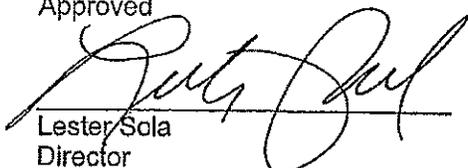

Lydia Osborne, Procurement Contracting Officer II, Internal Services Department
Ana T. Caveda, Hazardous Materials Manager, Water and Sewer Department
Carlos Jose, Assistant Director, Aviation
Bill Solomon, Chief, Procurement Division, Parks, Recreation and Open Spaces
Thomas Plummer, Assistant Physical Plant Manager, Internal Services Department
Susannah Troner, Assistant Grants Analyst, Office of Management and Budget

Consensus Statement: The Committee recommends Waste Management Inc. of Florida for the following primary reasons: 1) The firm has the relevant experience, capability and excellent past performance in providing the requested services; 2) The firm has the capacity to service all eleven zones; 3) The firm's primary business is recycling, and has the necessary equipment and personnel ready to start providing the services; 4) The firm's key personnel have a successful track record of performing recycling for the County and other entities of similar size; 5) The firm has a multifaceted education program in place, which includes video training and refresher courses; and 6) The firm's proposed methodology and approach is consistent with the County's goal to implement a successful recycling program.

Although the proposed prices were competitive when compared to the other proposals for the same services, and the industry as a whole, the actual prices will be negotiated in the best interest of the County. The rebates proposed by the firm are similar to the rebates the County currently receives for recycling services.

Copies of the score sheets are attached for each Evaluation/Selection Committee member, as well as a composite score sheet.

1.0 PROJECT OVERVIEW AND GENERAL TERMS AND CONDITIONS

1.1 Introduction

Miami-Dade County, hereinafter referred to as the "County," as represented by the Miami-Dade County Resource Conservation Committee, is soliciting proposals from qualified firms to implement an innovative, productive, and cost-effective Recycling Program ("the Program"). The Program includes curbside recycling for smaller County facilities, and point of service recycling for larger County facilities.

For the purposes of this Solicitation, the County has been divided into eleven (11) geographical zones ("Zones"). Each Zone is comprised of numerous facilities in various locations. It is the County's intention to award **ONE** selected Proposer for **EACH** Zone. Proposers may propose on one, more than one, or all of the Zones, provided that the Proposer designates the order of preference for each Zone (see Form A-1). Being awarded one Zone will not preclude the Proposer from being awarded additional Zones.

The County anticipates awarding contracts for a five year period. The County, at its sole discretion, will review the effectiveness of each contract after the initial three years and determine whether to continue the services for the remaining two years of the initial five-year contract term. The County reserves the right to renew the contract period for two, three year option-to-renew periods.

1.3 General Proposal Information

The County may, at its sole and absolute discretion, reject any and all or parts of any or all responses; accept parts of any and all responses; further negotiate project scope and fees; postpone or cancel at any time this Solicitation process; or waive any irregularities in this Solicitation or in the responses received as a result of this process. A proposal shall be the Proposer's firm commitment to provide the goods and services solicited in the manner requested in the Solicitation and described in the proposal. In the event that a Proposer wishes to take an exception to any of the terms of this Solicitation, the Proposer shall clearly indicate the exception in its proposal. No exception shall be taken where the Solicitation specifically states that exceptions may not be taken. Further, no exception shall be allowed that, in the County's sole discretion, constitutes a material deviation from the requirements of the Solicitation. Proposals taking such exceptions may, in the County's sole discretion, be deemed nonresponsive. The County reserves the right to request and evaluate additional information from any respondent regarding respondent's responsibility after the submission deadline as the County deems necessary.

Proposals shall be irrevocable until contract award unless the proposal is withdrawn. A proposal may be withdrawn in writing only, addressed to the County contact person for this Solicitation, prior to the proposal due date or upon the expiration of 180 calendar days after the opening of proposals.

Proposers are hereby notified that all information submitted as part of, or in support of proposals will be available for public inspection after opening of proposals, in compliance with Chapter 119, Florida Statutes, popularly known as the "Public Record Law". The Proposer shall not submit any information in response to this Solicitation which the Proposer considers to be a trade secret, proprietary or confidential. The submission of any information to the County in connection with this Solicitation shall be deemed conclusively to be a waiver of any trade secret or other protection, which would otherwise be available to Proposer. In the event that the Proposer submits information to the County in violation of this restriction, either inadvertently or intentionally, and clearly identifies that information in the proposal as protected or confidential, the County may, in its sole discretion, either (a) communicate with the Proposer in writing in an effort to obtain the Proposer's written withdrawal of the confidentiality restriction or (b) endeavor to redact and return that information to the Proposer as quickly as possible, and if appropriate, evaluate the balance of the proposal. Under no circumstances shall the County request the withdrawal of the confidentiality restriction if such communication would in the County's sole discretion give to such Proposer a competitive advantage over other proposers. The redaction or return of information pursuant to this clause may render a proposal non-responsive.

Any Proposer who, at the time of proposal submission, is involved in an ongoing bankruptcy as a debtor, or in a reorganization, liquidation, or dissolution proceeding, or if a trustee or receiver has been appointed over all or a substantial portion of the property of the Proposer under federal bankruptcy law or any state insolvency law, may be found non-responsible. To request a copy of any ordinance, resolution and/or administrative order cited in this Solicitation, the Proposer must contact the Clerk of the Board at (305) 375-5126.

- communications in writing at any time with any county employees, official or member of the Board of County Commissioners unless specifically prohibited by the applicable RFP or RFQ documents.

When the Cone of Silence is in effect, all potential vendors, service providers, bidders, lobbyists and consultants shall file a copy of any written correspondence concerning the particular RFP or RFQ with the Clerk of the Board, which shall be made available to any person upon request. The County shall respond in writing (if County deems a response necessary) and file a copy with the Clerk of the Board, which shall be made available to any person upon request. Written communications may be in the form of e-mail, with a copy to the Clerk of the Board at clerkbcc@miamidade.gov.

1.7 Collusion

Where two (2) or more related parties, as defined herein, each submit a proposal for any contract, such proposals shall be presumed to be collusive. The foregoing presumption may be rebutted by the presentation of evidence as to the extent of ownership, control and management of such related parties in preparation and

submission of such proposals. Related parties shall mean Proposer or the principals thereof which have a direct or indirect ownership interest in another Proposer for the same contract or in which a parent company or the principals thereof of one Proposer have a direct or indirect ownership interest in another Proposer for the same contract. Furthermore, any prior understanding, agreement, or connection between two or more corporations, firms, or persons submitting a proposal for the same services shall also be presumed to be collusive. Proposals found to be collusive shall be rejected. Proposers who have been found to have engaged in collusion may be considered non-responsible, and may be suspended or debarred, and any contract resulting from collusive bidding may be terminated for default.

1.8 Living Wages

Proposers are advised that the provisions of Section 2-8.9 of the Code of Miami-Dade County (also known as the Living Wage Ordinance) will apply to any contract(s) awarded pursuant to this Solicitation. By submitting a proposal, a Proposer is hereby agreeing to comply with the provisions of Section 2-8.9 of the Code of Miami-Dade County, and to acknowledge awareness of the penalties for non-compliance. The Contractor shall provide compensation equal to or exceeding the Living Wage benefits, as specified in Attachment 2, Supplemental General Information.

2.0 SCOPE OF SERVICES

2.1 Background/Overview

The Energy, Climate Change, and Economic Security Act of 2008 (House Bill 7135) signed into law by the Florida Governor, created Section 403.7032, Florida Statutes. The law establishes a statewide recycling goal to reduce recyclable solid waste to landfills by 75% by the year 2020. The County anticipates implementing a comprehensive Program which includes collecting and transporting recyclable materials from County facilities. The Program will include two collection methods: 1) Curbside Services (CS) recycling for smaller County facilities, serviced by collecting recycled materials from designated recycling containers placed curbside (at the right of way); and 2) Point of Service (POS) recycling for larger County facilities, serviced by collecting from a central location or a series of locations on a route within each facility.

Currently, paper and cardboard are collected weekly for recycling at most of the County's facilities using 95 gallon, four (4) and/or eight (8) cubic yard containers in various locations throughout the facility. The Program will improve environmental sustainability by increasing the number of County facilities participating in recycling, and will reduce the overall waste stream generated by County facilities by expanding the types of materials being recycled. Any carbon credits that may be attributed to the Program will be under sole ownership of the County.

For this Solicitation, the County has been divided into eleven (11) geographical zones that will service over 500 County facilities. Refer to Appendix 1, Facilities by Zones and Level of Service, which is provided as a separate file online. The selected Proposer for a particular Zone shall provide all facilities within that zone with a single-stream Program (placing all recyclable materials together) or multiple-stream Program (maintaining mixed paper, cardboard and commingled glass, plastic, and metal separate from each other throughout processing). Please note that even for facilities within a Zone where a single-stream Program is proposed, cardboard must be treated as a separate stream for designated facilities where large volumes of cardboard are expected to be generated. Effectively, these facilities would be considered dual-stream, rather than single-stream. For a multi-stream recycling Program, mixed paper shall neither be combined with cardboard nor with commingled materials (i.e., glass, plastic, and metal containers). The County reserves the right to add other recyclable materials to the existing stream(s) upon mutual agreement with the selected Proposer. The costs for these additional recyclable materials and the applicable equipment needed will be negotiated, as the need arises. Recyclable materials to be included in the Solicitation include the following:

1) Mixed paper:

- Office paper, newspaper, magazines, catalogs, paperback books, file folders, paper envelopes, paper board and may include corrugated cardboard.
- Palletized hardback books to be collected at selected facilities.
-

- 2) Cardboard only:
 - Corrugated cardboard
- 3) Commingled materials:
 - Glass, plastic, and metal containers of the type typically generated by food and beverage consumption.

Note: For facility specific information, refer to Facility Data Report, Appendix 2, provided as a separate document online. The information provided in the report is for informational purposes only and includes the level and type of service at each facility. The County does not guarantee the accuracy of this report.

2.2 Minimum Qualification Requirement

As a minimum qualification requirement for this Solicitation, the Proposer shall have a General Hauler Permit issued by the Miami-Dade County Department of Public Works and Waste Management Department at the time of the proposal due date. (Note: This is a requirement through the contract award and is a continuing condition of the award and contract.)

2.3 Preferred Qualifications

As a preferred qualification for this Solicitation, the Proposer should have at least two (2) years experience providing recycling service to government or business offices or commercial establishments that included the collection for recycling of office paper, cardboard, and metal, plastic, and glass containers.

B. General Services

The selected Proposer shall:

- 1) Provide, at no cost to the County, training for County janitorial staff and vendors, facility managers and other County staff regarding the recycling procedures to effectively prepare recyclable material generated at County facilities for pick-up. Such training may include participation in a County-sponsored presentation (or similar), and on-site training.
- 2) Pass security clearances and obtain Contractor Identification (ID) Badges for various County departments that operate under strict security regulations. Procedures will include personal and/or corporate criminal Background Checks for employees and subcontractors, paid by the selected Proposer, prior to accessing or working on County property. 2.7 Addition and/or Deletion of Facilities and/or Services**A. Addition of Facilities**

The County, at its sole discretion, may add facilities to a zone based on location of the facility. The selected Proposer awarded that zone will be invited to submit a price proposal for the additional facilities. The County may negotiate the price for providing services to the additional facilities, in the best interest of the County, and in accordance with the contract terms and pricing. However, the selected Proposer awarded a Zone is not guaranteed to provide the services to the new facility.

B. Deletion of Facilities

The County may delete service for any facility when such service is no longer required; upon fourteen (14) calendar days written notice to the selected Proposer(s). Additional pickups will be charged at a separate, additional price than the regular services (refer to Form B, Price Proposal Schedule).

D. Additional Containers

The County reserves the right to require additional containers (e.g., 95 gallon carts, dumpsters, pallets) including pickup service at any given facility if an increase to the service level is required. Upon completion of the technical criteria evaluation indicated above, rating and ranking, the Evaluation/Selection Committee may choose to conduct an oral presentation with the Proposer(s) which the Evaluation/Selection Committee deems to warrant further consideration based on, among other considerations, scores in clusters and/or maintaining competition. (See Form A-2 regarding registering speakers in the proposal for oral presentations.) Upon completion of the oral presentation(s), the Evaluation/Selection Committee will re-evaluate, re-rate and re-rank the proposals remaining in consideration based upon the written documents combined with the oral presentation.

4.4 Price Evaluation

After the evaluation of the technical proposal, in light of the oral presentation(s) if necessary, the County will evaluate the price proposals, per Zone, of those Proposers remaining in consideration. Such proposals will receive one price score per Zone for which a price proposal is submitted per Evaluation/Selection Committee member.

The price proposal will be evaluated subjectively in combination with the technical proposal, including an evaluation of how well it matches Proposer's understanding of the County's needs described in this Solicitation, the Proposer's assumptions, and the value of the proposed services. The pricing evaluation is used as part of

the evaluation process to determine the highest ranked Proposer. The County reserves the right to negotiate the final terms, conditions and pricing of the contract as may be in the best interest of the County.

4.8 Negotiations

The County may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the Proposer's best terms from a monetary and technical standpoint.

The Evaluation/Selection Committee will evaluate, score and rank proposals, and submit the results of their evaluation to the County Mayor or designee with their recommendation. The County Mayor or designee will determine with which Proposer(s) the County shall negotiate, if any, taking into consideration the Local Preference Section above. Notwithstanding the foregoing, if the County and said Proposer(s) cannot reach agreement on a contract, the County reserves the right to terminate negotiations and may, at the County Mayor's or designee's discretion,

begin negotiations with the next highest ranked Proposer(s). This process may continue until a contract acceptable to the County has been executed or all proposals are rejected. No Proposer shall have any rights against the County arising from such negotiations or termination thereof.

For the adjustment to be applied to an option period, the Contractor's request for the adjustment should be submitted ninety (90) days prior to expiration of the then current contract term. If no adjustment request is received from the Contractor, the County may exercise the optional term without pricing adjustment. Any adjustment request received after the ninety (90) day deadline before an option period will be considered for the next option period. The County will adjust rebates on the first day of all exercised option periods.

ARTICLE 9. METHOD AND TIMES OF PAYMENT

In accordance with Miami-Dade County Implementing Order 3-9, Accounts Receivable Adjustments, if money is owed by the Contractor to the County, whether under this Contract or for any other purpose, the County reserves the right to retain such amount from payment due by County to the Contractor under this Contract. All sales resulting from this Contract, or any contract resulting from the solicitation referenced on the first page of this Contract, and the utilization of the County Contract price and the terms and conditions identified herein, are subject to the two percent (2%) UAP. This fee applies to all Contract usage whether by County Departments or by any other governmental, quasi-governmental or not-for-profit entity.

The Contractor providing goods or services under this Contract shall invoice the Contract price and shall accept as payment thereof the Contract price less the 2% UAP as full and complete payment for the goods and/or services specified on the invoice. The County shall retain the 2% UAP for use by the County to help defray the cost of the procurement program. Contractor participation in this invoice reduction portion of the UAP is mandatory.

b) Joint Purchase

Only those entities that have been approved by the County for participation in the County's Joint Purchase and Entity Revenue Sharing Agreement are eligible to utilize or receive County Contract pricing and terms and conditions. The County will provide to approved entities a UAP

Participant Validation Number. The Contractor must obtain the participation number from the entity prior to filling any order placed pursuant to this Section. Contractor participation in this joint purchase portion of the UAP, however, is voluntary. The Contractor shall notify the ordering entity, in writing, within three (3) business days of receipt of an order, of a decision to decline the order.

For all ordering entities located outside the geographical boundaries of Miami-Dade County, the Contractor shall be entitled to ship goods on an "FOB Destination, Prepaid and Charged Back" basis. This allowance shall only be made when expressly authorized by a representative of the ordering entity prior to shipping the goods.

The County shall have no liability to the Contractor for the cost of any purchase made by an ordering entity under the UAP and shall not be deemed to be a party thereto. All orders shall be placed directly by the ordering entity with the Contractor and shall be paid by the ordering entity less the 2% UAP.

c) Contractor Compliance

If a Contractor fails to comply with this Article, that Contractor may be considered in default by the County in accordance with Article 24 of this Contract.

ARTICLE 39. WARRANTY OF TITLE TO EQUIPMENT

Contractor hereby warrants and represents that any and all compactors provided hereunder shall be new and unused. The County and the Contractor will make payment arrangements for said compactors by mutual agreement pursuant to Appendix A, Scope of Service. Upon final payment for each compactor, the Contractor shall provide the County good and clear title thereto, free and clear of all liens and encumbrances.

ARTICLE 40. FIRST SOURCE HIRING REFERRAL PROGRAM

Pursuant to Section 2-2113 of the Code of Miami-Dade County, for all contracts for goods and services, the Contractor, prior to hiring to fill each vacancy arising under a County contract shall (1) first notify the South Florida Workforce Investment Board ("SFWIB"), the designated Referral Agency, of the vacancy and list the vacancy with SFWIB according to the Code, and (2) make good faith efforts as determined by the County to fill a minimum of fifty percent (50%) of its employment needs under the County contract through the SFWIB. If no suitable candidates can be employed after a Referral Period of three to five days, the Contractor is free to fill its vacancies from other sources. Contractor will be required to provide quarterly reports to the SFWIB indicating the name and number of employees hired in the previous quarter, or why referred candidates were rejected. Sanctions for non-compliance shall include, but not be limited to: (i) suspension of contract until Contractor performs obligations, if appropriate; (ii) default and/or termination; and (iii) payment of \$1,500/employee, or the value of the wages that would have been earned given the noncompliance, whichever is less. Registration procedures and additional information regarding the FSHRP are available at <https://iapps.southfloridaworkforce.com/firstsource/>.

ARTICLE 41: FORCE MAJEURE

Except as otherwise expressly provided herein, neither party hereto shall be considered in default in the performance of its obligations hereunder to the extent that such

performance is prevented or delayed by any cause, existing or future, which is not within the reasonable control of such party including, but not limited to, acts of God or the public enemy, fires, explosions, riots, strikes (not including strikes by Contractor personnel), or war. Notwithstanding the foregoing, the failures of any of the Contractor's suppliers, subcontractors, or the like including, but not limited to, acts of God or the Public enemy, fires, explosion, riots, strikes (not including strikes of personnel of the Contractor's suppliers or subcontractors), or war.

ARTICLE 42. SURVIVAL

The parties acknowledge that any of the obligations in this Agreement will survive the term, termination and cancellation hereof. Accordingly, the respective obligations of the Contractor and the County under this Agreement, which by nature would continue beyond the termination, cancellation or expiration thereof, shall survive termination, cancellation or expiration hereof.

IN WITNESS WHEREOF, the parties have executed this Agreement effective as of the contract date herein above set forth.

APPENDIX A**SCOPE OF SERVICES****1. Background/Overview**

The Energy, Climate Change, and Economic Security Act of 2008 (House Bill 7135) signed into law by the Florida Governor, created Section 403.7032, Florida Statutes. The law establishes a statewide recycling goal to reduce recyclable solid waste to landfills by 75% by the year 2020. The County is contracting to implement a comprehensive Program which includes collecting and transporting recyclable materials from County facilities. The Program includes two collection methods: 1) Curbside Services (CS) recycling for smaller County facilities, serviced by collecting recycled materials from designated recycling containers placed curbside (at the right of way); and 2) Point of Service (POS) recycling for larger County facilities, serviced by collecting from a central location or a series of locations on a route within each facility.

Currently, paper and cardboard are collected weekly for recycling at most of the County's facilities using 95 gallon, four (4) and/or eight (8) cubic yard containers in various locations throughout the facility. The Program will improve environmental sustainability by increasing the number of County facilities participating in recycling, and will reduce the overall waste stream generated by County facilities by expanding the types of materials being recycled. Any carbon credits that may be attributed to the Program will be under sole ownership of the County.

The County has been divided into eleven (11) geographical zones that will service close to 500 County facilities. Refer to Attachments 1 and 2, Facilities by County Department, Level of Service by Zone, which is provided as a separate file online. The Contractor shall provide all facilities within a zone with a single-stream Program (placing all recyclable materials together) or multiple-stream Program (maintaining mixed paper, cardboard and commingled glass, plastic, and metal separate from each other throughout processing). Please note that even for facilities within a Zone where there is a single-stream Program, cardboard must be treated as a separate stream for designated facilities where large volumes of cardboard are expected to be generated. Effectively, these facilities would be considered dual-stream, rather than single-stream. For a multi-stream recycling Program, mixed paper shall neither be combined with cardboard nor with commingled materials (i.e., glass, plastic, and metal containers).

The County reserves the right to add other recyclable materials to the existing stream(s) upon mutual agreement with the Contractor. The costs for these additional recyclable materials and the applicable equipment needed will be negotiated, as the need arises. Recyclable materials to be included in the Solicitation include the following:

- 1) Mixed paper:
 - Office paper, newspaper, magazines, catalogs, paperback books, file folders, paper envelopes, paper board and may include corrugated cardboard.
 - Palletized hardback books to be collected at selected facilities.
- 2) Cardboard only:
 - Corrugated cardboard
- 3) Commingled materials:
 - Glass, plastic, and metal containers of the type typically generated by food and beverage consumption.

2. Minimum Qualification Requirement

The Contractor shall maintain a General Hauler Permit, issued by the Miami-Dade County Department of Public Works and Waste Management Department through the contract term, including any extension or renewal periods, as this is a continuing condition of the award and contract.

3. Preferred Qualifications

The County has relied on the Contractor's proposal to determine that the Contractor has met the preferred requirement of at least two years' experience providing recycling service to government or business offices or commercial establishments, that included the collection for recycling of office paper, cardboard, and metal, plastic, and glass containers.

4. Requirements and Services to be Provided**A. Collection Services**

The Contractor shall:

- 1) Begin providing the collection services stated herein within three (3) months after the issuance of a Notice-To-Proceed (NTP) by the County.
- 2) Collect recycled materials as referenced above in Section 1, following a single-stream or multi-stream process. The Contractor shall provide a collection schedule for County approval prior to beginning collection services, but no later than 30 days after NTP. The Contractor shall adhere to the approved schedule. Any modification to the approved schedule shall be submitted in writing for review and approval by the County before the modification is implemented.
- 3) Remove and or clean-up, at the end of each pickup, any hazardous or non-hazardous spillage of fluids and/or litter, made during the collection of the recycled materials, and dispose of said materials and or litter in an appropriate manner.
- 4) Notify the applicable Department's contact(s) by email if non-recyclable residue is collected from the container. The Contractor shall properly dispose of non-recyclable residue from the incoming recyclable material stream(s).
- 5) Dispose or deliver recyclable materials to a solid waste disposal facility.
- 6) Provide collection services to County facilities as specified in Attachment 2, Level of Service by Zone. Most facilities require services once per week, while others may require service every other week, and up to seven days a week for others, as required by the County and pursuant to the Facility Data Report.
- 7) Provide monthly performance reports, electronically or in other approved format, to the County's Project Manager by the 6th day of each month, for the preceding month. The monthly performance reports shall include, but not be limited to, the following:
 - a) Date of the report.
 - b) Each County facility by name and address, sorted by department, with the number and size of containers, recyclable material picked up, and the number of pick-ups.
 - c) County facilities added and/or removed during said month, with the associated date of addition and/or removal.
 - d) The tonnage collected if single-stream: Price for single stream materials and cardboards collected separately for time period.
 - e) Price for each commodity and rebate paid to County the below for recyclables for the time period.
 - Commingled materials (plastic, glass, aluminum, steel) with mixed paper;
 - Corrugated cardboard;
 - Mixed paper; and
 - Commingled material (plastic, glass, aluminum and steel).
 - f) Copy of weight tickets issued by the Material Recovery Facility (MRF).

- 8) Provide monthly invoices, per facility, to each managing department as listed Article 9, Methods and Times of Payment, of the Contract. Invoices must include the department's name, facility name and address/location; container size; number of times services were provided during the invoice period; and material type hauled (e.g. cardboard, paper, or comingled materials) during the invoice period.
- 9) Comply with Performance Guarantee Provisions (refer to Section 10 herein).
- 10) Be responsible for repairing and/or replacing any County property that is damaged by the Contractor(s) during the performance of these services.
- 11) Provide a rebate to the County from the sale of the recyclables collected in the County's Recycling Program. Revenue shall be based on the following:
 - a) Mixed paper revenue shall be based on a percentage of the first full week of the month "Mixed Paper" price for the Southeast as published by The Yellow Sheet - Official Board Markets.
 - b) Corrugated cardboard (as a separate stream): Price based on a percentage of the first full week of the month "Old Corrugated Containers (OCC)" price for the Southeast as published by The Yellow Sheet - Official Board Markets.
 - c) Commingled materials (plastic, glass, aluminum and steel) shall be based on a percentage of the first full week of the month "Mixed Paper" price for the Southeast as published by The Yellow Sheet - Official Board Markets).

B. General Services

The Contractor shall:

- 1) Provide, at no cost to the County, training for County janitorial staff and vendors, facility managers and other County staff regarding the recycling procedures to effectively prepare recyclable material generated at County facilities for pick-up. Such training may include participation in a County-sponsored presentation (or similar), and on-site training.
- 2) Pass security clearances and obtain Contractor Identification (ID) Badges for various County departments that operate under strict security regulations. Procedures will include personal and/or corporate criminal Background Checks for employees and subcontractors; paid by the Contractor, prior to accessing or working on County property. The current departments (subject to change) that require security clearances are Aviation, Water & Sewer, Seaport, and Corrections & Rehabilitation Departments. The cost of ID cards for employees is the responsibility of the Contractor. These security measures must be taken into consideration when proposing.
- 3) Ensure employees and subcontractors wear and display identification badges at all times while on County property.

5. Vehicles and Equipment

The Contractor shall have at all times, and in good working condition, such vehicles and equipment to permit the Contractor to adequately and efficiently perform the services herein.

A. Recycling Collection Vehicles

Each recycling collection vehicle shall comply with applicable federal, state and local regulations (i.e., Florida Department of Transportation, U.S. Environmental Protection Agency, etc.), meet industry standards, be licensed, and be approved by the County's Project Manager.

B. Condition of Equipment

All vehicles and auxiliary equipment shall be kept clean, sanitary, safe, and in good repair at all times in service. During service, vehicles shall not emit excessive odor, shall not discharge fluids, shall not emit visible air emissions, and shall comply with all applicable noise ordinances and laws. The paint on

vehicles shall be maintained.

C. Spills of Fluids and Littering

The Contractor shall respond within two hours of written notification from the County to properly clean-up all spills of fluids and remove any litter as a result of providing these services.

Note: Repairs of vehicles and equipment owned by the Contractor shall be done at the Contractor's expense. Repairs shall be made in a timely manner so that recycling materials are not permitted to accumulate.

6. Collection Containers

The Contractor shall provide and position various size containers ranging from 95 gallon wheeled carts, four (4) and/or eight (8) cubic yard containers, and/or other containers, as approved by the County. Some containers may require a locking mechanism. Contractor is solely responsible for maintaining containers and repairing/replacing as needed. Ownership of the containers remains with the Contractor.

- A. Wheeled Carts shall have lids, functional wheels and handles, and be appropriate for containing recycled materials.
- B. Dumpsters shall have lids, drain holes with plugs, and wheels as dictated by site conditions and facility manager.
- C. All collection containers shall be kept clean, safe, and in good repair at all times of service. During service, containers shall not emit excessive odor and shall not discharge fluids. Container paint shall be maintained in good condition and graffiti free.

7. Addition and/or Deletion of Facilities and/or Services

A. Addition of Facilities

The County, at its sole discretion, may add facilities to a zone based on location of the facility. The Contractor awarded that zone will be invited to submit a price proposal for the additional facilities. The County may negotiate the price for providing services to the additional facilities, in the best interest of the County, and in accordance with the contract terms and pricing. However, the Contractor awarded a Zone is not guaranteed to provide the services to the new facility.

B. Deletion of Facilities

The County may delete service for any facility when such service is no longer required; upon fourteen (14) calendar days written notice to the Contractor(s). In the event that a facility is deleted, Contractor shall remove all containers owned by Contractor within seven (7) calendar days of written notification by the County. If said container(s) are not removed with the seven days, a fine may be enforced that could meet/exceed the cost of the container. Any containers not removed will become the property of the County.

C. Additional Pickups

Aside from the regular scheduled pick-ups, the County reserves the right to have additional pick-ups for routine or special events, or other needs at any given facility. Additional pickups will be charged at a separate, additional price than the regular services (refer to Form B, Price Proposal Schedule).

D. Additional Containers

The County reserves the right to require additional containers (e.g., 95 gallon carts, dumpsters, pallets) including pickup service at any given facility if an increase to the service level is required. Additional containers will be charged at a separate, additional price than the regular services (refer to Form B, Price Proposal Schedule).

8. Optional Compactors and/or Compactor Service

The County, as an optional service, may request the addition of compactors and/or compactor service at some County facilities. The County will negotiate the price for providing the compactors and/or compactor service, in the best interest of the County.

9. Assignment of Zones

In the event that a Zone(s) becomes available for re-assignment (i.e., Contractor is terminated), the County reserves the right to award the Zone(s) to another entity, or to another Contractor awarded a contiguous zone at the same rates, or the County will negotiate the price for providing these services, in the best interest of the County.

10. Performance Guarantee Provisions

Failure to correct the below deficiencies within twenty-four hours of notification by the County Project Manager or Facility Managers, in accordance with Appendix A, Scope of Services, and to the satisfaction of the County, shall cause the Contractor to be subject to administrative charges in the amount listed below for each and every calendar day the work remains incomplete. Charges that have been assessed will be deducted against the monthly invoices received by the Contractor for that facility, or where the outstanding invoices are insufficient to cover the charge, the County may invoice the Contractor for said amount. Repeated failures to comply with the Contract requirements may result in a non-performance report being generated.

The County reserves the right to find the Contractor in default of the Contract for failure to perform whether deductions have been taken or not.

- a) **Missed Pickups**
Failure or neglect to collect recyclable materials from any scheduled County facility: Each occurrence \$200 per facility.
- b) **Spills of Fluids and Litter**
Failure to clean up spills of fluids and/or to pick up litter resulting from the loading and/or transportation of Recyclable Materials, within two hours of written notification from the County: Each incident \$100 per facility.
- c) **Failure to Report**
Failure to provide monthly report by the sixth day of the following month: \$50.00 per calendar day after due date.

When the covered employer seeks to comply with the Living Wage Ordinance by choosing to pay the wage rate applicable, when also paying qualifying health benefits, such health benefits shall consist of at least \$1.76 per hour towards the provision of health care benefits for employees and their dependents. Proof of the provision of such benefits must be submitted to the applicable department to qualify for the wage rate for employees with health benefits.

- C. Covered employees shall be paid by company or cashier's check, not less than bi-weekly, and without subsequent deduction or rebate on any account. The covered employer shall pay wage rates in accordance with federal and all other applicable laws such as overtime and similar wage laws.
- D. Covered employers must post in a visible place on the site where such contract work is being performed, a notice specifying the (1) wages/benefits to be paid; (2) the amount of liquidated damages for any failure to pay such specified combined overall hourly wage rate and benefits; and (3) the name and address of the responsible official in Miami-Dade County to whom written complaints should be sent. Covered employers found to be in violation of the requirements of Section 2-8.9 may also be required to pay liquidated damages of up to \$500 to the County for each employee of the covered employer who performs any portion of the contract work for each week, or portion thereof, that is paid less than the specified applicable living wage rate. Request for appeals of violations must be filed in writing with the compliance officer within ten (10) days of receipt of the violation.
- B. Any wages not collected by underpaid employees shall be remitted, by the employer responsible for paying the wage debt, to the Department of Business Development (DBD) for depository into the DBD Trust Fund. Proceeds from the "Trust Fund" shall be held for one (1) year and if not claimed by the underpaid employee, shall be transferred to the State of Florida.
- C. The County may withhold from a service contractor any moneys payable on account of work performed under the contract, such sums as may be determined to be necessary to satisfy any liabilities for unpaid wages and penalties as provided herein. In order to preserve the rights of the affected workers under Section 2-8.9, the project manager may withhold or cause to be withheld from the service contractor under this agreement so much of the accrued payments or advances as may be considered necessary to pay employees of the covered employer the full amount of wages required by the contract. In the event of failure to pay any covered employee, employed or working on the project, all or part of the wages required by the contract, the project manager may, after written notice to the service contractor, take such action as may be necessary to cause the suspension of any further payment, until such violations have ceased. The withheld monies shall be remitted to the covered employee only in accordance with the provisions of Section 6, "Complaints and Hearings; Contract Termination and Debarment".
- D. In addition to the payment of penalties and backwages, repeat offenders may be debarred from doing business with the County for a period of up to five years and/or have their contracts terminated.

- E. The covered employer shall make the records required to be kept hereunder available for inspection, copying or transcription by an authorized representative of the County, and shall permit such representative to interview employees during working hours on the job. Failure to submit the required reports upon request or to make records available may be grounds for debarment. The service contractor is responsible for the submission of the information required hereunder and for the maintenance of records and provision of access to same by all subcontractors.

5. SUBCONTRACTS

The service contractor shall insert in any subcontracts the clauses set forth in paragraphs 1 through 6 of this provision and also a clause requiring the subcontractors to include these clauses in any subcontracts. The service contractor shall be responsible for compliance by any subcontractor with the clauses set forth in paragraphs 1 through 6 of this provision.

6. PROCEDURES FOR APPEAL THROUGH ADMINISTRATIVE HEARING OFFICER PROCESS; CONTRACT TERMINATION AND DEBARMENT

- A. Appeals of findings of violation and imposition of penalties by the compliance officer shall be heard by an administrative hearing officer. Upon the receipt of a written appeal, the compliance officer shall notify the County Manager in writing and the County Manager shall appoint an administrative hearing officer and set a time for an administrative hearing. Failure to appeal within the specified time shall be considered a waiver of the appeal process provided for in Section 3.A and an admission of the complaint/violation.
- B. Notification of hearing date shall be served by the compliance officer upon the covered employer against whom the complaint is made within ten (10) working days of the appointment of the administrative hearing officer. Such notice shall be by certified mail, return receipt requested. Such notice shall include:
 - (1) A copy of the written complaint, including reasons and causes for the proposed administrative hearing outlining alleged prohibited practices upon which it is based;
 - (2) The penalties assessed;
 - (3) That an administrative hearing shall be conducted before an administrative hearing officer on a date and time not to exceed thirty (30) business days after service of the notice. The notice shall also advise the covered employer that they may be represented by an attorney, may present documentary evidence and verbal testimony, and may cross-examine or rebut evidence and testimony presented against them; and,
 - (4) A description of the effect of the issuance of the notice of the proposed administrative hearing and the potential effect(s) of this administrative hearing.
- C. The compliance officer or his/her designee shall, with the assistance of the project manager, present evidence and arguments to the administrative hearing officer.

Appendix C

- D. No later than seven (7) days prior to the scheduled hearing date, the covered employer must furnish the compliance officer a list of the defenses the covered employer intends to present at the administrative hearing. If the covered employer fails to submit such list, in writing, at least seven (7) days prior to the administrative hearing, or fails to seek an extension of time within which to do so, the covered employer shall be deemed to have waived the opportunity to be heard at the administrative hearing. The administrative hearing officer shall have the right to grant or deny an extension of time, and the decision may only be reviewed upon an abuse of discretion.
- E. Hearsay evidence shall be admissible at the administrative hearing, but shall not form the sole basis for finding a violation of Section 2-8.9. The administrative hearing shall be transcribed, taped or otherwise recorded by a court reporter, at the election of the administrative hearing officer and at the expense of the County. Copies of the hearing tape or transcript shall be furnished at the expense and request of the requesting party. The cost of such transcription may be assessed, by the hearing officer, against a service contractor that has been found to violate Section 2-8.9.
- F. In addition to the payment of penalties and back wages, the County Manager may debar, for a period not to exceed five (5) years, a service contractor or subcontractor and the principal owners and/or qualifying agents thereof found to have violated the requirements of Section 2-8.9 a second time. If the County Manager determines a covered employer failed to comply with these provisions a third time, the non-complying covered employer's service contract with the County may be terminated.
- G. The County Manager may order the withheld amount equal to any underpayment remitted to the employee. In addition, the County Manager may order payment of a penalty to the County. If the required payment is not made within a reasonable period of time, the County Manager may order debarment as described above.

A breach of the clauses contained in this Supplemental General Condition shall be deemed a breach of this contract and may be grounds for termination of the contract, and for debarment, and any other remedies available to the County.
