

Memorandum

Date: September 17, 2013

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Subject: Recommendation for Approval to Award a Bid Waiver Contract: Dark Fiber Lease Agreement

Agenda Item No. 8(F)(4)

Recommendation

It is recommended that the Board of County Commissioners (Board) waive competitive bidding procedures for the purchase of goods and services pursuant to Section 2-8.1 of the County Code and Section 5.03(D) of the Home Rule Charter and approve award of *Contract BW9775-1/23, Dark Fiber Lease Agreement* to FPL FiberNet LLC. This contract allows the Information Technology Department (ITD) to gain access to a dark fiber optic network to establish high speed network access servicing the North Dade Government Center, the Arcola Lakes campus, and Jackson North Medical Center, as well as improving network quality at the South Dade Government Center and Jackson South Community Hospital. Additional facilities may be identified in the future for inclusion in the expanded network.

Dark fiber refers to unused fiber-optic cables. Telecommunication companies often establish networks with more fiber-optic lines than are required, and lease the unused lines to parties interested in establishing optical connections. The lease of dark fiber will allow ITD to establish and improve the County's optical network infrastructure and enhance capacity. The fiber network will be managed internally by ITD as opposed to requiring additional network circuits/capacity to be purchased outside of the County through third party providers.

This item is being presented as a bid waiver due to the fact that FPL FiberNet LLC is the only vendor that has available dark fiber with the needed capacity and within the required proximity to the identified County facilities and in order to expedite the transition required by ITD.

Scope

The impact of this item is countywide in nature.

Fiscal Impact/Funding Source

The fiscal impact for the initial five-year term is \$718,000. If the County chooses to exercise the one, five year option to renew, the cumulative value will be \$1,436,000. ITD expects to realize savings compared to current rates paid to third party providers.

Department	Allocation	Funding Source	Contract Manager
Information Technology Department	\$ 718,000	Internal Service Funds	Julian Manduley
Total	\$ 718,000		

Track Record/Monitor

The contract manager for ITD is identified in the table above. Beth Goldsmith of the Internal Services Department is the Procurement Contracting Officer.

Delegated Authority

If this item is approved, the County Mayor or County Mayor's designee will have the authority to exercise, at their discretion, contract modifications, subsequent options-to-renew and extensions in accordance with the terms and conditions of the contract.

ARTICLE 6. REQUIRED RIGHTS

- 6.1 In the event that future Route Segments are added that would include Required Rights, provider shall obtain the Required Rights needed for installation of the Cable along the Route. This Agreement is subject to the terms of the Required Rights, and subject to the terms under which the right of way is owned or held by the Licensors granting the Required Rights, whether or not of record, and to the rights of tenants and licensees in possession. The lease of the County Fibers is further subject and subordinate to the Licensors' right to use the right of way for its business activities, including public road and railroad operations, telecommunications uses, pipeline operations or any other utility purposes.
- 6.2 On County's written request, Provider shall make available for inspection by County, at Provider's offices, copies of all information that is material to the lease of the County Fibers, to the extent that disclosure is permitted. Grantor may redact confidential or proprietary business terms.
- 6.3 During the Term of this Agreement and any extensions or renewals thereof, Provider shall comply with the terms and conditions of the Required Rights and to keep the Required Rights in full force and effect. Upon the expiration or other termination of a Required Right that is necessary in order to grant, continue or maintain the lease of the County Fibers, Provider shall use commercially reasonable efforts to obtain an extension or replacement of the Required Right or an alternate right of way. County shall not take any action, or fail to take a required action, that would constitute a breach of a Required Right.
- 6.4 In the event that Provider is unable to obtain an extension or replacement of a Required Right and is forced to remove a portion of the Cable containing County Fibers, affected portions of the Agreement shall be terminated with respect to the affected Route Segments as of such removal. If the termination of this Agreement with respect to said Route Segments renders County's use of other Route Segments commercially impractical, County may elect by notice to Provider to terminate this Agreement with respect to the other impacted Route Segments.

ARTICLE 7. INSTALLATION AND ACCEPTANCE

- 7.1 Commitment by Provider to Complete Route. Subject to its rights and obligations under the Required Rights, Provider shall, at its expense, perform or cause to be performed such work, if any, as may be required for installation of the Route, and to the Demarcation Points, as set forth in Exhibit A and Article 8 below. Provider shall purchase, or cause to be purchased, the fiber optic cable, hardware and any other personal property necessary to constitute the Cable and Cable Accessories.
- 7.2 Public Rights of Way, Agency Fees, Taxes. Provider shall ensure that all permits or consents required to perform the installation of the Cable on the Route are acquired, and Provider shall pay, or cause to have paid, all fees and taxes required for the purchase and installation of the Cable. County shall perform County's obligations with respect to fees and taxes as specified below in Articles 12 and 13.

- 7.3 Testing and Acceptance. When Provider believes that the County Fibers on a Route Segment are ready for use by County, Provider shall cause those County Fibers to be tested using an Optical Time-Domain Reflectometer (OTDR) or other appropriate equipment to demonstrate compliance with the Cable Parameters outlined in Exhibit B. Provider shall deliver the test results to County, and if County determines that the test results demonstrate that the County Fibers meet the Cable Parameters, County shall give written notice to Provider and the date of such notice shall be the Acceptance Date for those County Fibers. County shall have ten (10) days from the date of its receipt of the test results to provide written notice specifying any non-conformance of the County Fibers with the Cable Parameters as demonstrated by the test results. Provider shall thereafter promptly undertake appropriate corrective action and the testing and approval shall be repeated. If County fails to deliver written notice of non-conformance within ten (10) days after its receipt of the test results, County shall be deemed to have accepted the subject County Fibers and said tenth (10) day shall be the Acceptance Date for the County Fibers on the tested Route Segment.
- 7.4 Additional Construction. At the request of County and consent of Provider, Provider will perform the work necessary, at County's sole expense, to build a fiber system to County's distribution panel(s), or other mutually agreed upon location, inside one or more mutually acceptable facilities that would go beyond the initial Demarcation Point to which Provider has agreed to terminate the County Fibers. The cost to be paid by County for such work shall be Provider's Actual Cost. Any such Additional Construction and associated cost must be mutually agreed upon in writing and included as an attachment to this Agreement prior to the commencement of any Work. As more fully set forth in Article 8 of this Agreement, County shall be responsible, at its sole expense, for obtaining any necessary approvals, authorizations, permits, or access rights.

ARTICLE 8. POINT OF DEMARCATION; BUILDING ACCESS

- 8.1 Marking. The Demarcation Point(s), Premise Side and Network Side shall be identified at each splice point where a County System cable connects to a County Fiber.
- 8.2 County Responsibility. County shall at County's expense obtain, install, construct, and maintain rights of way and easements for, and otherwise be responsible for, all Equipment on the Premise Side (including without limitation any costs or liabilities associated with such Equipment). County shall ensure that the Equipment on the Premise Side shall be designed and deployed in a manner that will not cause transmissions on the Provider Fibers to fall below the standards of the Cable Parameters and will not conflict physically or otherwise interfere with electric utility operations, joint users of the Cable, Cable Accessories, or Structures, or with any other property needed in the installation, construction, maintenance or use of the Cable. With respect to any Equipment on the Premise Side, County shall obtain approval from the owners of any property as to any use thereof by County for the physical location of, installation, maintenance and operation of Equipment and County shall provide to Provider evidence of such owners' approval. County shall also obtain any government approvals necessary for the installation, maintenance, use and ownership of Equipment installed and/or used on the Premises Side of the Demarcation point, consistent with the terms of Article 13.
- 8.3 Additional County Responsibility. In the event that any future Demarcation Point is on private property for which Provider does not have the requisite right of way, easement, or license, County shall at County's sole expense obtain and maintain applicable rights of way, licenses, and easements in favor of Provider for all fiber, cable, conduit, handholes, manholes, innerduct, and Equipment installed by Provider on such private property on the Network Side of the Demarcation Point, and shall obtain and maintain same, at County's sole expense, sufficient for Provider to perform its obligations under this Agreement. Unless otherwise indicated by written agreement between the Parties, Provider shall own any conduit, innerduct, or cable installed by Provider pursuant to Article 7.4 and which is on public or private property and on the Network Side of the Demarcation Point; however, upon completion of such work, the County Fibers shall be deemed to extend through said cable to the new Demarcation Points for all purposes under this Agreement.

- 8.4 Provider shall not be responsible and shall have no liability for any delays caused by County's failure to timely obtain the requisite authorizations, approvals, permits, or access rights identified in this Article 8.

ARTICLE 9. MAINTENANCE AND REPAIR

- 9.1 Provider shall give County reasonable notice of any scheduled maintenance operations affecting the County Fibers, including at least ten (10) days' notice of any scheduled maintenance that is likely to interrupt service to County. Provider shall attempt to coordinate scheduled maintenance at times that will minimize interference with County's business.

In the event that any failure, interruption or impairment adversely affects both a utility's electrical service capacity and the County Fibers, Provider's restoration of the County Fibers shall at all times be subordinate to any provisions of the Required Rights that mandate a priority for restoration of the utility's electrical service capacity.

Provider shall respond to any failure, interruption or impairment in the operation of the County Fibers within four (4) hours after receiving a report of any such failure, interruption or impairment.

Should failure, interruption, or impairment of the County Fibers occur, County may call the following number to report such circumstances: 866-553-4237. Such number will be staffed on a 24-hour basis 7 days a week, including holidays, by an employee with authority (or the ability to contact a supervisor with authority) to make decisions and implement services related to emergency restoration. The supervisor on duty will initiate restoration service and coordinate restoration activity. At four-hour intervals, Provider will provide County with a report of progress or lack thereof in restoring operation of the County Fibers.

- 9.2 County's Obligations. County shall at County's expense be solely responsible for all aspects of the operation of the County System and the operation and maintenance of the County System and Equipment on the Premise Side of the Demarcation Point.

- 9.3 Access by Provider. County acknowledges that Provider's access to the Cable and the splice points at which County interconnects to the County Fibers is subject to the terms and conditions of the Required Rights.

- 9.4 Access by County.

A. In no event shall County access property of Licensor, Provider or their affiliates without prior notice to Provider and agreement to a mutually acceptable time, and in no event shall County be permitted access to the electric space in or on the Structures. Any consent to County access by Provider shall be subject to Provider's rights and obligations under the Required Rights. County shall be responsible for the costs incurred to obtain the presence of safety inspectors or other technical personnel as required by Licensor or Provider.

B. Both parties shall at all times perform work in accordance with the applicable provisions of local, state and federal occupational safety and health laws. Provider shall have the authority to suspend County work or operations in and around the Route if, hazardous conditions arise or any unsafe practices are being followed by County employees, agents, or contractors and County fails to immediately correct such conditions upon notice by Provider. The presence of Provider's or Licensor's authorized employee or agent(s) shall not relieve County of its responsibility to conduct all of its work operations in and around the Route in a safe, good and workmanlike manner, and in accordance with the terms and conditions of this Agreement.

C. Before any of County's representatives (including without limitation employees, contractors, or subcontractors) may enter the property of Provider, Licensor or their affiliates pursuant to this Article 9.4, County shall certify in writing upon Provider's

reasonable request and to Provider's satisfaction that each such representative is qualified to perform all work in accordance with applicable requirements of local, state and federal occupational safety and health laws and such standards as Provider deems appropriate in its sole discretion. If County fails to provide such certification upon request, Provider shall have the right to bar without liability the entry of County's representatives onto the property of Provider, Licensor or their affiliates.

- D. The County may request that all work related to connection of the County Fibers to the rest of the County System, or otherwise to be performed by County on Licensor property, Structures or rights-of-way, be performed by Licensor or Provider personnel or contractors hired by Licensor or Provider, and County shall within thirty (30) days after receipt of reasonably itemized invoice reimburse Provider for Provider's Actual Cost of performing such work.

ARTICLE 10. RELOCATIONS

- 10.1 Required Relocation. During this Agreement, if Provider is required by the Required Rights, public authorities, or lawful order or decree of a regulatory agency or court to relocate or modify any or all Structures or Cable on the Route upon which the County Fibers or any part thereof is located, the cost of any such work shall be borne by Provider. Provider shall not be responsible for the costs of, nor shall it be liable for, the removal, relocation or replacement of any Equipment or other County Property on the Premise Side of the Demarcation Point. Neither Provider nor Licensor nor any of their affiliates or agents shall incur liability for service interruptions in connection with any required relocation. Provider and County shall cooperate in performing such relocation so as to minimize any interference with the use of the County Fibers, the Cable, and Structures, to the extent reasonably possible, and avoid interfering in any manner with electric utility operations, joint users of the Cable, Cable Accessories, Structures, or with any other property needed in the installation, construction, maintenance or use of the Cable.
- 10.2 Relocation for Provider's Purposes. In the event that Provider voluntarily elects for its own business purposes to relocate, replace in the event that equipment is damaged Provider, or rebuild any portion of the Cable in which County Fibers are located, Provider shall bear the costs of all such work, including the removal, relocation or replacement (in the event that equipment is damaged by the Provider) of any Equipment or other County Property on the Premise Side of the Demarcation Point. Provider shall give County no less than ninety (90) days' notice prior to commencing any such work. Provider and County shall cooperate in performing such relocation or modifications so as to minimize any interference with the use of the County Fibers, the Cable, and Structures, to the extent reasonably possible, and avoid interfering with joint users of the Cable, Cable Accessories, Structures or any other property needed in the installation, construction, maintenance or use of the Cable.
- 10.3 Emergency Relocations. In the event of an emergency affecting Structures, any other property of Provider, Licensor or their affiliates, or public safety, Provider shall replace, remove and relocate the Cable or any portion thereof, without prior notice to County except where reasonably practicable to provide such prior notice. The costs of such work shall be borne by Provider, unless it is determined that County was the sole cause the emergency necessitating relocation, in which case County shall be responsible for all Actual Costs incurred by County, Provider, Licensor, and/or their affiliates in responding to the emergency and undertaking the relocation.

Return of Removed Material. In the event of an emergency caused by the County that requires the Provider to remove any Equipment or other property of County, Provider will deliver to County the Equipment or property so removed upon payment by County of the Actual Cost of removal, storage and delivery, and all other amounts due Provider. Provider shall use reasonable care when removing, storing and delivering such Equipment, but in any event shall be liable only for damage resulting from Provider's gross negligence or intentional misconduct.

ARTICLE 11. PERIODIC INSPECTIONS

- 11.1 By Provider. 17.2 Provider Default.

- A. Without limiting the generality of the foregoing, and in addition to those

Instances referred to hereinabove as a Default, Default shall also include the following:

- i. the Provider has not delivered Deliverables on a timely basis;

Until the County receives such assurances, the County may request an adjustment to the compensation received by the Provider for portions of the Services which the Provider has not performed. In the event that the Provider fails to provide to the County the requested assurances within the prescribed timeframe, the County may:

- 17.5 Failure To Enforce. Failure of either Party to enforce or insist upon compliance with any of the terms or conditions of this Agreement or to give notice or declare this Agreement or any authorization granted hereunder terminated shall not constitute a general waiver or relinquishment of any term or condition of this Agreement, but such term or condition shall be and remain at all times in full force and effect.

ARTICLE 18. TERMINATION

- C. by either Party if the other Party has made any representation or warranty in this Agreement that is incorrect, and such inaccuracy has or may have a material and adverse effect on the other Party (as reasonably determined by such non-breaching Party), and such incorrect representation or warranty shall continue unremedied for a period of sixty (60) days after written notice of such incorrect representation or warranty, provided that, with respect to an inaccuracy that is susceptible of cure within a reasonable time period, so long as the responsible Party has commenced the cure promptly after notice and continues diligently to attempt to effect the cure, the termination right of the other party shall be suspended for a period not to exceed one hundred twenty (120) days from the notice of breach.

- C. by Provider or County, effective as of the date of the taking, if the Cable or the County Fibers are taken by a third party exercising the power of eminent domain.

- 18.3 Alternate Route Segments. If a Route Segment is terminated pursuant to Article 18.2, Provider shall make reasonable efforts to find alternate capacity or facilities owned or controlled by Provider to meet County's needs, but under no circumstances shall Provider be obligated to contract for or to construct new facilities to replace the Cable, Structures or County Fibers on the Route Segments terminated under Article 18.2.

- 18.4 Effect of Termination.

- A. - B. Upon termination of this Agreement or particular Route Segment under this Article 18, the rights of use to the County Fibers within the terminated portion of the Route shall revert to

Provider, and if the Parties can mutually agree upon a cost (II) County shall transfer to Provider an interest in all easements, permits and other rights County has acquired (to the extent such rights are transferable) with respect to the use and placement of the Cable within the terminated portion of the Route sufficient to permit Provider to utilize the same.

Registration procedures and additional information regarding the Program are available at <https://lapps.southfloridaworkforce.com/firstsource/> or by contacting the SFWIB at (305) 594-7615, Extension 407.

IN WITNESS WHEREOF, the parties have executed this Agreement effective as of the contract date herein above set forth.

SUMMARY OF CABLE PARAMETERS

Optical Fibers:

Provider's fiber network is made up of single-mode, non-dispersion shifted fibers manufactured by various suppliers such as Corning, Lucent or Fujikura. These fibers shall comply with International Trade Union ("ITU") and Telcordia standards as specified in the manufacture performance specifications.

Span Specifications:

Discontinuities (known as steps, splices, or attenuation non-uniformities) shall be measured with an optical time domain reflectometer (OTDR) to determine the loss of the localized attenuation.

No fiber shall show a point discontinuity greater than 1.0dB. However, Fiber spans that include a discontinuity in excess of specifications shall still be considered acceptable provided said Fiber still meets the overall attenuation and dispersion specifications set forth in the table below.

Fiber Facilities Loss Table

Fiber Attenuation Table

Wave Length NM	Max Fiber Loss/km	Max Splice Loss	Max Bi-directional Loss	Max Connector Loss	Index of refraction
1310	0.35 dB/km	0.29 dB	0.2 dB	0.5 dB	1.467
1550	0.25 dB/km	0.29 dB	0.2 dB	0.5 dB	1.467
1625	0.30 dB/km	0.29 dB	0.2 dB	0.5 dB	1.467

General Construction:

Optical and span test data including OTDR traces will be submitted by Provider to County in accordance with a mutually acceptable schedule.
