GENERAL RULES & REGULATIONS

FMC SUBRULE: 34-A03

Volume Discounts

At the request by a shipping line, any third-party terminal operator ("operator") shall extend an all inclusive container rate to any existing shipping line that produced more than 85,000 container moves during the Port's previous fiscal year. The all inclusive container rate (hereinafter referred to as "Port Throughput Charge") shall substitute for the existing dockage, wharfage, stand-by, and crane rental charges (regular and overtime) being paid by the shipping line, whether through the Tariff or under the terms of a terminal operating agreement.

The below lift rates, which shall be paid by the terminal operator to the Port on behalf of the shipping line, include Port dockage, wharfage, stand-by, and crane rental rates (regular and overtime) inclusive of start up and tear down charges.

Port Throughput Charge:

0 to 85,000 Lifts	\$72.00 per Lift *
85,001 to 100,000 Lifts	\$60.00 per Lift
100,001 to 115,000 Lifts	\$50.00 per Lift
115,001 Lifts and above	\$40.00 per Lift
New service	\$40.00 per Lift **

* Upon reaching lift 85,000, the shipping line shall be entitled to a \$12.00 per lift rebate from its first lift to its 85,000 lift. In this instance, the rebate shall be issued directly by the Port to the shipping line. There shall be no retroactive rebate to a shipping line if the higher throughput thresholds over 85,000 lifts are met. Also upon the shipping line reaching lift 85,000, the Port will reimburse the operator(s) \$2.00 per lift from the first lift by the shipping line for their respective moves handled.

In the case that the above rates are applied to a shipping line whose containers are shipped to the Port by a shipping line that does not qualify for the above volume discount, the Port will pro-rate any applicable dockage or crane rental charges to the non-qualifying shipping line to account for the charges for containerized cargo made pursuant to the volume discounts above.

Such volume throughput shall be counted from the beginning of each Fiscal Year (October 1 – September 30) for the Port of Miami (tiers resetting every 12 months).

toward the calculation of the Volume Discount. However, a line may elect to forego the \$40 New Service rate at the time the service is introduced, thereby allowing the throughput to count toward the Volume Discount. New Service shall cease being deemed New Service as of September 30, 2014, and the volume discount for any New Service shall not extend beyond September 30, 2014

Definitions:

Lift(s): Any container, laden or empty, loaded onto or discharged from a vessel or barge in the Port of Miami, save that transshipments will only count as one (1) Lift and shall be assessed only one (1) Port Throughput Charge. Shiftings and restow moves are excluded.

Fiscal Year(s): Any twelve (12) month period from October 1st to September 30th of the following year.

New Service: Any new vessel line service calling at the Port introduced by a shipping line which exceeds 85,000 moves in a fiscal year after the date of this Tariff publication.

Eligibility:

Only individual shipping lines that produce more than 85,000 moves in a Fiscal Year shall qualify for this Volume Discount program.

The total volume in the Port of an individual shipping line shall include any such shipping line's container moves performed in the Port of Miami, in one or more container terminals, on its own vessels or any other vessel or barge operated by another ocean carrier or barge operator through a vessel sharing or slot charter agreement.

However, if individual shipping lines participate in consortia or vessel sharing agreements with other shipping lines, individual shipping lines shall not be able to include the containers subject to a contract of carriage issued by their partners when calculating their eligibility under this Volume Discount program.

The above rates may vary for lines entering into agreements with the County, whereby the line(s) guarantee an annual minimum throughput commitment.

Any authorized stevedore (crane user) wishing to use container gantry crane(s), including all attached and ancillary parts and equipment [hereinafter referred to as "crane(s)"] shall make application for crane(s) rental use 12 hours prior to start-up time. Such applications shall specify the date and time of proposed use, the estimated length of use and number of cranes needed. The crane user shall return the crane(s) without delay, upon completion of his operations.

The crane user shall provide all necessary operators and perform all stevedoring required in connection with container crane(s) use.

When the crane(s) is/are ordered but not used, and orders are not modified or canceled within 6 hours, standby time for maintenance personnel will be assessed at the current labor rates, subject to a minimum charge of two hours straight time or four hours overtime.

Any incurred cost is the responsibility of the user; such as balance of guarantees, meal hours, or any other costs not covered under rental fee or start-up and secure.

It shall be the ship's responsibility to stow all of its cranes in an offshore position prior to the time that the container gantry cranes are put into service.

In the event that it is necessary to use the ship's cranes for any reason while the container gantry cranes are still in use at any time prior to the container gantry cranes' complete removal from the vessel, the container gantry cranes shall have the absolute right of way and all movements of the ship's cranes will be subservient to the container gantry cranes' movements and operations. Accordingly, it will be the responsibility and obligation of the ship and its stevedores to keep a proper lookout and to ensure that the movements or operation of the ship's cranes do not interfere with the operations or movements of the container gantry crane.

The ship will not begin to move its cranes into sea position until after the container gantry crane has fully completed its operations and movements and is fully clear from the ship and its cranes.

It shall be the stevedore's responsibility to assure that the ship is aware of and complies with its responsibilities to stow and operate its cranes in conformance with these regulations.

Insurance Requirements for Cartage Companies

All cartage companies doing business at the Port of Miami must provide the Permit Section with a list of insured drivers and vehicles on a monthly basis due by the last County business day of each calendar month. Failure to provide the requested information will result in the suspension of the permit until the information is received.

By the conclusion of each month, either the insurance company issuing the policy or the managing general agent for the insurance company issuing the policy must provide the Port of Miami with an ACORD certificate of insurance evidencing at least \$1,000,000 in vehicle liability insurance coverage and a list of the tractors (year, make, and 17-digit vehicle identification number) that are covered under the policy. If the insurance company's managing general agent provides the requested information, the managing general agent must also provide a notarized letter signed by an authorized officer of the insurance company issuing the policy identifying the managing general agent and confirming that the managing general agent has the insurance company's authority to provide the information requested by the Port of Miami.

Information submitted by the insurance company and/or the managing general agent concerning the number of insured drivers will be compared to the Port's identification system as to the number of issued Port ID cards. Discrepancies will result in a suspension of the permit which will be effective two (2) business days after identification and notice of the discrepancy is provided to the permit holder and such discrepancy is not remedied within those two (2) business days. The permit shall remain suspended until such time the insurance coverage is sufficient and certified by the insurance company and/or the managing general agent. Discrepancies identified on Fridays or during holiday time off will receive special consideration.

In the case of any discrepancies not cured within two (2) business days, or in the event a permit holder has a discrepancy more than twice in a fiscal year, a fine of \$3,000 will be assessed for the first violation. The second violation will result in the revocation of the permit.

A cartage company's failure to report a change in an employee's work status (termination) within 7 days after the change may result in revocation of the Port of Miami business permit.

Reactivation and addition of any cartage company's drivers will be granted only if confirmation is received from the Permit Section verifying that the cartage company is in compliance with the insurance requirements.

Re: Miami International Airport
Non-terminal Rental Rates
October 1, 2013 – September 30, 2014

Dear Mr. González:

Pursuant to Resolution No. R-34-03, we are submitting a summary of our conclusions for:

- 1) Land Rental Rates
- 2) Paving Rates
- 3) Building Rental Rates

Waronker & Rosen, Inc. (formerly as part of Quinlivan /Waronker Joint Venture) has been preparing the annual rental rate report on the non-terminal properties at Miami International Airport since 1994. For the preparation of these annual reports, the following steps have been taken:

- Inspected non-terminal buildings at Miami International Airport in order to determine the condition of the buildings.
- Gathered and analyzed land sales in the areas surrounding Miami International Airport and derived appropriate rates of return on land value from various sources.
- Personally inspected non-terminal properties at major hub airports in the United States and interviewed property managers regarding land rental rates and non-terminal building rates at these airports.

Mr. Emilio T. González, Director
Miami-Dade Aviation Department
July 22, 2013

- Gathered and analyzed building rental rates in the areas surrounding Miami International Airport. The findings indicate there is a direct relationship between office building rental rates at Miami International Airport and the nearby off-airport office buildings rental rates and there is no particular advantage for office tenants being on the airport.
- Gathered and analyzed warehouse rental rates in the Airport West market area, just west of Miami International Airport as well as surrounding industrial markets. Results indicated there is a relationship between off-airport warehouse rental rates and cargo/warehouse rental rates on-airport. The security, minimum truck transportation and/or the ability to bring an aircraft to a cargo building are benefits of being on-airport. Therefore, on-airport cargo/warehouse buildings command a rental premium. This relationship between on-airport cargo rates and off-airport warehouse rates has been examined at other airports.

The market rental rates are based on the data, analyses and conclusions within a report that is available for review in our office.

Market rent is defined as the rental income that a property would most probably command in the open market indicated by the current rents paid for comparable space as of the date of the appraisal.

After analyzing land sales surrounding Miami International Airport and land rental rates at comparable airports the following was considered in the conclusion of market land rates;

- 1) Subject land will be limited to airport and aviation purposes.
- 2) No assignment of leasehold without approval of the County.
- 3) No subordination permitted on said leasehold.
- 4) The General Use Master Plan.

After due study and investigation and taking all factors into consideration which apply to the area leased within the confines of Miami International Airport, it is our opinion that the market rent of the land, as of this date, is as reported on the sheet captioned "Land Rental Rates" (page four).

The real estate market over the past three years had been relatively stable until the past one to two years (2012 and 2013) which have seen increases in land values. The land rental rate for Zone 1 was kept level for five (5) consecutive years. The resurgence of the real estate market with decreased supply and increased demand and the increasing land values is cause for an increase in land rents for the October 1, 2013 to September 30, 2014 period.

Mr. Emilio T. González, Director
Miami-Dade Aviation Department
July 22, 2013

In estimating the building rental rates, each building structure has been inspected, cargo/warehouse and office rentals in the area were reviewed, building rental rates at comparable airports were reviewed and developers/investors of airport cargo buildings were interviewed. All of the above comparable rental information is contained within the Self-Contained Appraisal Report which is retained in the appraisers' office.

In addition to the comparable building rental information, also considered was the following:

- 1) Use, occupancy and utility of subject improvements.
- 2) Condition and building life expectancy of said improvements.
- 3) Demand for such facilities at the airport.
- 4) Replacement cost estimate less depreciation.
- 5) No assignment of leasehold without approval of the County.
- 6) No subordination permitted on said leasehold.

The rental rates estimated herein presume that the building spaces are in rentable condition and are in compliance with life safety standards which are typical requirements of the landlord (MIA). Assumed is that the buildings have completed their 40 year recertification which is required by Miami-Dade County. Some buildings and building spaces at Miami International Airport are unoccupied and are not in rentable condition. If the tenant decides to expend the cost to bring the building or building space into a rentable condition, the tenant should receive a rent credit at least equal to the amortization of the tenant's expenditure over the term of the lease.

Historically tenants at MIA having issues with the rental rates consider the rates being paid are too high mostly based on what they deem to be the lack of deferred maintenance. The annual rents presume the spaces are in rentable condition, are in compliance with life safety standards, and have a 40 year recertification where applicable. It is typical for the landlord to perform maintenance such as touch up painting, repair of stress cracks, removal of plant growth in stress cracks or expansion joints, replace/repair signage not specific to one tenant, repair leaks and various other items that are not the responsibility of the tenant. Inspection of the buildings at MIA reveals many deferred maintenance items. Repairs which have not been done can affect the longevity of the improvements which ultimately affects the ability to collect rent and the rent that can be charged.

Mr. Emilio T. González, Director
Miami-Dade Aviation Department
July 22, 2013

Private ownership of large industrial and office developments typically have a reserve for replacement, also known as a replacement allowance. These property owners place a specific amount yearly into a reserve account to fund deferred maintenance repairs. The amount is often based on a percentage of the rent collected or an amount per square foot of the collected rent. Recommended is Miami-Dade Aviation Department (MDAD) place \$.05 per square foot of total building square footage into a reserve for replacement that is available to Real Estate Management Division for repair of deferred maintenance items. The ability of Real Estate Management to cure deferred maintenance items quicker will enhance the remaining life of the improvements and help to offset higher repair expenses in the future.

There is a higher than typical vacancy level in the belly buildings. It is recommended that MDAD provides discount program for available space in these buildings. This program would offer an 8% discount for every year of a new lease. The discount would be offered to new tenants and also existing tenants taking additional space. The discount would not be available for existing leases or renewals of existing leases. For mezzanine office space the discount would be available only to tenants renting a minimum of 3,500 square feet. For warehouse space the discount would only be available to tenants renting a minimum of 12,000 square feet.

The estimated market rents consider that the tenant is responsible for land rental, all utilities, and interior maintenance, except where noted.

Respectfully submitted,

Very truly yours,

MIAMI-DADE COUNTY
ADMINISTRATIVE IMPLEMENTING ORDER

RATES FOR SPECIAL OFF-DUTY SERVICES

AUTHORITY:

Section 4.02 of the Miami-Dade County Home Rule Amendment and Charter and Section 2-56 of the Code of Miami-Dade County.

SUPERSEDES:

This Administrative-Implementing Order (IO) supersedes Administrative Order 7-15, ordered ~~May 6, 2003~~, September 20, 2006 and effective ~~May 16, 2003~~, October 1, 2006.

POLICY:

Section 2-56 of the Code of Miami-Dade County allows for the assignment of off-duty County personnel to provide special law enforcement services to persons engaged in activities or functions of which such services would reasonably be seen as necessary. It is the policy of Miami-Dade County that the rates to be charged for such services shall be adequate to compensate off-duty County employees for their services, and also to enable the County to recover the fringe benefits and administrative costs associates with these assignments.

PROCEDURES:

The following hourly rates will be paid to employees.

Classification	Hourly Rates
Court Services Officer 1	\$26.00 <u>\$30.00</u>
Correctional Officer 1	\$26.00 <u>\$30.00</u>
Court Services Officer 2	\$28.00 <u>\$32.00</u>
Correctional Corporal	\$28.00 <u>\$32.00</u>
Police Officer	\$30.00 <u>\$34.00</u>
Reserve Officer	\$30.00 <u>\$34.00</u>
Correctional Sergeant	\$30.00 <u>\$34.00</u>
Police Sergeant	\$32.00 <u>\$36.00</u>
Police Lieutenant	\$34.00 <u>\$38.00</u>
Police Captain	\$36.00 <u>\$40.00</u>

These rates shall be adjusted once every two fiscal years to keep pace with the national consumer price index rate of inflation. Adjustments shall be rounded to the nearest dollar amount.

Should the off-duty employee and the permittee so agree, a lesser rate may be paid provided that such rate is not less than one dollar and fifty cents (\$1.50) per hour less than the rates for all classifications except Police Lieutenant and Police Captain. A lesser charge may be paid for the classifications of Police Lieutenant and Police Captain provided that such rate is not less than two dollars and fifty cents (\$2.50) per hour less than the established off-duty rate. As County vendors, Reserve Officers may also work any off-regular duty details when there are

insufficient full-time officers to appropriately staff the event. The reserve officers will be in the accompaniment of a full-time officer as a two-man unit while performing off-regular duty details.

The vendor contracting for off-duty services pays the employee rate plus the prevailing rates for social security (FICA and MICA), special risk retirement and an administrative surcharge to cover the cost of providing the service.

TOTAL CHARGE TO PERMITTEE:

A surcharge of five percent (5%) will be charged to the permittee to cover the County's direct costs of processing and recording the off-duty services. The sum of the three charges (employee rate of pay, social security and retirement benefits, and surcharge) is to be rounded to the nearest twenty-five cents (\$0.25) and charged for each hour or fraction thereof of service provided.

MINIMUM CHARGE:

The minimum charges for off-duty services shall be the amount applicable for three (3) hours of service.

TIME OF SERVICE:

Hourly charges for off-duty services will be calculated from the starting time and location agreed upon by the permittee and the department issuing the permit, through the time of completion of the required services, exclusive of travel time from the location associated with the completion of services to subsequent personal or other official destination of the employee(s).

UTILIZATION OF VEHICLES:

The charge for the use of County vehicles in connection with off-duty assignments shall be four (4) dollars per hour or \$.0565 per mile, whichever is greater. If special equipment such as boats or aircraft is involved, the department shall set charges based on known operating costs or upon prevailing private sector rates for such equipment.

COLLECTION OF FEES AND PAYMENT TO EMPLOYEES:

The department providing services shall be responsible for providing permittees with information as to the current charges and for the collection of all monies due from the permittee in accordance with departmental procedures. Accounts thirty (30) days in arrears may be subject to finance charges up to the maximum legal rate. In no instance shall the employee(s) performing the service be permitted to receive or required to assist in the collection of any monies due the department from the permittee. Personnel performing off-duty services shall be fully compensated in the paycheck for the pay period during which the off-duty services were provided, or in the immediately following paycheck. Permittees may be required to leave a deposit of up to 100% of the projected cost of the service.
