Agenda Item No. 5(F)

To: Honorable Chairwoman Rebeca Sosa
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor

Subject: Sea Pines Estates Street Lighting Special Taxing District

---

Recommendation

It is recommended that the Board of County Commissioners (BCC) approve a petition submitted in accordance with Article 1, Chapter 18 of the Miami-Dade County Code for the creation of the Sea Pines Estates Street Lighting Special Taxing District.

Scope

This proposed special taxing district boundary lies within Commissioner Lynda Bell's District 8, and will provide street lighting services.

Fiscal Impact/Funding Source

The creation of this District is at the request of the proposed District's property owners pursuant to Chapter 18 of the Code. The economic impact on the County's budget will be from the advancement of funds by several County Departments. Advancement of funds will result from various Departments' expenditure of labor and materials necessary to engineer and administer the District. All District costs incurred will be reimbursed to each Department after the Board's adoption of the preliminary assessment roll, ratification of the District by the qualified electorate within the District boundary, and collection of the assessments from the affected property owners on their November 2014 and subsequent annual tax bills.

After the first year, the economic impact on the private sector will be a perpetual annual special assessment for the cost of street lighting to all property owners within the District. The Florida Power and Light Company is the owner of the system and therefore will derive revenues from it.

At this time there will be no increase or decrease in County staffing due to this District. The private sector may increase its staffing levels to provide the service requirements created by this special taxing district.

Track Record/Monitoring

The Public Works and Waste Management Department is the managing entity overseeing this item and the person responsible is Donald L. Tock, Jr., Chief, Special Taxing Districts Division.

Background

Contingent upon BCC approval of this District's creating ordinance, and subsequent ratification by the Districts qualified electorate, the street lighting improvements will be accomplished pursuant to an agreement between Miami-Dade County and the Florida Power and Light Company. The facilities provided will remain the property of the Florida Power and Light Company, and the company will be responsible for the maintenance, repair, and replacement of the light standards, fixtures, lamps, and all connecting service lines. The Special Taxing Districts

Division will administer the Florida Power and Light Company's agreement, installation, and billing process.

State or Federal grants are not applicable to this special taxing district.

Each street lighting special taxing district is unique due to its geographical boundary, affected property owners, and level of services to be provided. Creation of a new special taxing district to provide this service is the best and most cost-effective method to achieve this benefit.

In accordance with the requirements of Section 18-3 of the Code to provide street lighting in existing subdivisions through the creation of street lighting special taxing districts, and in compliance with the provisions of Section 18-3 (c) of the Code, I have reviewed the facts submitted by the Public Works and Waste Management Department and concur with their recommendation that this District be created pursuant to Section 18-3 of the Code.

Alina T. Hudak
Deputy Mayor

REPORT AND RECOMMENDATIONS
ON THE CREATION OF SEA PINES ESTATES
STREET LIGHTING SPECIAL TAXING DISTRICT
MIAMI-DADE COUNTY, FLORIDA

Pursuant to Chapter 18 of the Code, and as a result of a detailed investigation of a duly petitioned for special taxing district, the following facts are submitted by the Public Works and Waste Management Department concerning the creation of Sea Pines Estates Street Lighting Special Taxing District.

1. BOUNDARY OF THIS DISTRICT

The proposed District is located entirely within a portion of unincorporated Miami-Dade County, and the boundary, as set forth in the petition, is as follows:

> A portion of Section 11, Township 56 South, Range 39 East, Miami-Dade County, Florida; being more particularly described as follows: Blocks 1 thru 8 of "Sea Pines Estates" according to the plat thereof, and recorded in Plat Book 158 at Page 23 of the public records of Miami-Dade County, Florida.

The boundary is shown on the attached plan entitled Sea Pines Estates Street Lighting Special Taxing District and hereinafter referred to as Exhibit A.

A preliminary community meeting was held on October 23, 2013, in the Somerset Academy Charter Middle School, to present the facts pertaining to the boundary of this District, a description of the improvement to be provided, its costs, and the method of payment.

2. LOCATION OF THE INSTALLATIONS TO BE CONSTRUCTED

The facilities to be provided under the District will consist of sodium vapor bracket-arm streetlights mounted on concrete poles located within the street Rights-of-Way.

3. ESTIMATED COST FOR THIS DISTRICT

As provided for under Section 18-3 of the Code, the owners within the proposed District shall initially pay all costs and expenses incidental to the creation of this District and shall be assessed through special assessments for the entire cost of creating and providing street lighting within the District for the first year. The Florida Power and Light Company will install the lights, poles and service lines at its expense. However, the special taxing district may be required to pay a differential cost if rapid construction techniques cannot be used on this project. This cost is estimated and shown as Florida Power and Light Company restoration cost in the District's cost estimate.

4. ESTIMATE OF THE ANNUAL EXPENSE FOR MAINTENANCE, REPAIR AND OPERATION OF THIS DISTRICT

The facilities provided will remain the property of the Florida Power and Light Company, which will be responsible for the maintenance of the light standards, fixtures, lamps, and all connecting service lines. The cost of the streetlights in this District will be continual and is based on a preliminary estimate using Rate Schedule No. SL-1 prepared by the Florida Power and Light Company and approved by the Florida Public Service Commission. The District will pay the Florida Power and Light Company a monthly rental fee on each installation. There will be 31 lights and 31 pole rentals served by 5,580 feet of underground wiring for an annual cost of $9,525.30 for the first and second years.

The District's property owners shall pay the above first year's estimated streetlight costs and

pay all costs incurred to create and maintain the District for its first year of operation as well as the streetlight costs for the second and succeeding years. The engineering and administrative costs involved in establishing and maintaining the District are estimated to be $3,045.81 the first year and $445.81 the second year. The cost of handling the billing, collecting the assessment, first year election expenses and processing the payments to the Florida Power and Light Company is estimated to be $1,615.95 the first year and $497.90 the second year. Additionally, contingency funds in the amount of $9,103.06 the first year and $523.45 the second year are provided.

Estimated Annual Expense	**First Year**	**Second Year**
31 – 16,000 Lumen Sodium Vapor Luminaries	$2,503.56	$2,503.56
31 – Concrete Poles	2,142.72	2,142.72
5,580 Ft. - Underground Wiring	2,521.68	2,521.68
Annual Fuel Adjustments (Based on 22,320 KWH at $0.07292 Per KWH)	1,627.57	1,627.57
Franchise Cost (Based on 8.2970% of $8,795.53)	729.77	729.77
Total Street Lighting Service Costs	$9,525.30	$9,525.30
FP&L Restoration Cost	$46,500.00	$0
Engineering & Administrative Costs	3,045.81	445.81
Billing, Collecting & Processing Costs	1,615.95	497.90
Contingencies	9,103.06	523.45
Street Lighting Costs	$69,790.12	
Total Annual Street Lighting Costs		$10,992.46

5. PROCEDURE

Miami-Dade County enters into an agreement with the Florida Power and Light Company, form attached, wherein Miami-Dade County will pay to the Florida Power and Light Company any costs associated with the streetlight installation, and monthly payments for the annual cost of the streetlight service estimated at $9,525.30 or approximately $793.78 per month.

Based on front footage, each property owner along the lighted roadway will pay the County, through a special assessment, a proportionate share of the total annual cost each year.

6. CONFORMITY TO THE MASTER PLAN OF MIAMI-DADE COUNTY

The proposed District conforms to and in no way conflicts with the Comprehensive Development Master Plan of Miami-Dade County (see attached memorandum from the Department of Regulatory and Economic Resources, a successor to the Department of Planning and Zoning).

7. RECOMMENDATION CONCERNING THE DESIRABILITY OF THIS DISTRICT

The need for street lighting in unincorporated Miami-Dade County is apparent. Residents and property owners of Miami-Dade County continue to demonstrate their desire for street lighting through numerous petitions and personal requests.

The 2013 net property valuation within the District, based on information provided by the Miami-Dade County Office of the Property Appraiser is $11,201,577.00, which is a good indication that the affected properties are able to pay such assessments as may be required and, in my opinion, the proposed improvements will provide special benefits to properties within the District exceeding the amount of special assessments to be levied.

8. ESTIMATE OF ASSESSMENT AGAINST BENEFITED PROPERTY

As was determined in Item 4 above, each property owner along the lighted roadway will pay the County, through a special assessment, a proportionate share of the total annual cost. This cost will be shown as an itemized portion of the annual combined Real Property tax bill. The annual assessments shown below are representative of estimated costs for typical lots within the District boundary.

Estimated Annual Assessments:	First Year	Second Year
Per Assessable Front Foot	$9.3930	$1.4794
For A Typical Interior Lot:	$1,200.00	$190.00
For A Typical Corner Lot:	$1,550.00	$250.00

These costs will be adjusted from actual experience.

9. RECOMMENDATION

It is recommended that Sea Pines Estates Street Lighting Special Taxing District be created pursuant to Section 18-3 of the Code, which provides for the creation of special taxing districts for street lighting in existing subdivisions and that the creation of the District be authorized by an ordinance to be adopted by the Board of County Commissioners, subject to ratification by the District's qualified electorate at a special referendum to be called by the Board. It is also recommended that upon adoption of the ordinance creating this special taxing district, the Board adopt, as the next agenda item, a resolution calling for a special election, as required by Chapter 18 of the Code. Said election will be conducted by the Miami-Dade County Elections Department using a mailed ballot provided, along with a project report summary, to each District registered voter. It is further recommended that the Board, on the same agenda, also adopt the District's preliminary assessment roll resolution. Adoption of this resolution will enable the Miami-Dade Tax Collector to bill the affected property owners, collection of which will provide the necessary funds to reimburse affected County Agencies involved in the creation and establishment of the District, as well as provide funds to construct and maintain the improvement provided by the District. The implementation of the assessment roll will follow the procedures defined in Chapter 18 of the Code and be subject to District ratification by the qualified electorate. The assessment will appear on the November 2014 tax bill following the election, if approved by the electorate. In the event actual construction costs are lower than the estimated costs in the ordinance, the Public Works and Waste Management Department shall adjust and decrease the front foot rate of assessment necessary to provide adequate revenue to cover the expenses. Should actual costs be higher than costs estimated, the County Mayor or County Mayor's designee may, at his discretion, cause to be prepared a revised preliminary assessment roll and file the same with the Clerk of the Board for a scheduled public hearing to adopt it. This ordinance shall take effect when ratified at an election to be formally called, noticed and conducted as this Board shall determine by resolution, unless vetoed by the Mayor, and if vetoed, it shall become effective only upon an override by the Board and the

District approved at the subsequent election. The Public Works and Waste Management Department will also be available to answer any questions from the public or from your office with regards to the financial and/or engineering facts of this District. We further recommend that the County Mayor or County Mayor's designee forward the attached report to the Board of County Commissioners after he has reviewed it and concurred with our findings.

MEMORANDUM

To: Aristides Rivera, P.E., P.L.S., Director
Public Works Department

Date: January 15, 2002

From: Diane O'Quinn Williams, Director
Department of Planning and Zoning

Subject: Street Lighting, Maintenance of Landscape, Walls Adjacent to Double-Frontage Lots and Lakes Special Taxing Districts

Section: As Required
District: As Required
Council: As Required

Effective September 5, 2001, all tentative plats in the unincorporated area of Miami-Dade County submitted to the Land Development Division of the Public Works Department, must be accompanied by a properly executed petition for all applicable special taxing districts including, but not limited to street lights, maintenance of landscape, walls adjacent to double frontage lots, entrance features and lakes. Final Plats will not be presented to the Board of County Commissioners for consideration until the applicable special taxing districts are created, and all fees have been paid. In that regard, to ensure expeditious processing, this Memorandum may serve as approval for certain future special taxing district application requests as being consistent with the intent and purpose of the adopted 2005-2015 Comprehensive Development Master Plan (CDMP). Policy 4A – Capital Improvement Element states: Appropriate funding mechanisms will be adopted and applied by Miami-Dade County in order to assure the fiscal resources to maintain acceptable levels of service. Such funding mechanisms include special tax districts, municipal taxing service units, local option taxes, user fees, local gas tax, general obligation bond, impact fees, and special purpose authorities, or others as appropriate and feasible (Adopted Components as Amended through April 2001, page IX-10). The provision for services over and above minimum for neighborhoods and communities may be accomplished through the special taxing district as may be prescribed by the code.

The Department of Planning and Zoning (DP&Z) has no objection to a blanket approval with condition to establish future special taxing districts as limited to requests for street lighting, landscape maintenance, walls adjacent to double-frontage lots and lake maintenance districts. The previously noted special taxing districts may be established on the condition that the DP&Z review all landscape maintenance districts for compliance with plantings in public rights-of-way and lake maintenance districts for consistency with Landscape Code (Chapter 18A) Section 18A-6(L) Storm Water Retention/Detention Areas.
