Subject: Ordinance Amending Section 2-11.1 of Miami-Dade County Establishing the
Residents First Training and Employment Program

The proposed Ordinance amends the Residents First Training and Employment Program to require contractors on construction projects over \$1 million to participate in apprenticeship programs for each trade of employee; provide the OSHA 10 Hour Safety Program training; and an aspirational goal of 51 percent of local workforce.

There will be additional costs incurred by County staff in the construction management and contract oversight activities necessary to monitor these additional requirements. For example, it is expected that at least two new Contract Compliance Officers, at an annualized, recurring cost of approximately \$140,000 will be necessary in the Small Business Development Division to monitor this program. Additionally, while difficult to estimate at this time, there will be additional monitoring costs within County departments overseeing capital projects affected by this Ordinance.

Further, it is likely that the additional costs incurred by contractors due to mandatory apprenticeship programs will be passed on to the County. Legislative actions that mandate additional requirements for contractors/firms/vendors may also lead to a reduction in participation on County projects.
