Memorandum

MIAMI-DADE COUNTY

Date:	May 6, 2014
To:	Honorable Chairwoman Rebeca Sosa and Members, Board of County Commissioners
From:	Carlos A. Gimenez Mayor
Subject:	Resolution Ratifying Vendors Added to Prequalification Pools During the Periods Covering December 1, 2012 through May 31, 2013 and June 1, 2013 through December 31, 2013

Agenda Item No. 8(F)(6)

Recommendation
It is recommended that the Board of County Commissioners (Board) ratify the actions of the County Mayor or County Mayor's designee in the addition of vendors to various active open pool contracts. This item is being presented to the Board for approval in accordance with Resolution R-395-12, which requires that a report of vendors added to open pool contracts be provided to the Board for bi-annual ratification.

The first semi-annual ratification report was approved by the Board through R-79-13. At that time, several Commissioners requested that additional information be included in subsequent reports, including information regarding small business certifications and information regarding the amount of work/payments received by the vendors that are added to the pool. Given the level of detail associated with including this additional information, there was a delay in submitting the December 2012 through May 2013 report to the Board.

Attachment 1 to this item, covering the period from December 1, 2012 through May 31, 2013, shows the 194 vendors added to prequalification pools during that time period. Attachment 2 shows the 277 vendors added during the time period covering June 1, 2013 through December 31, 2013. Additionally, as was requested by various Board members, each attachment now includes the small business certification designation, when applicable, address of each vendor, and payments made to that vendor during the reporting period.

Scope
The scope of this item is countywide in nature.

Fiscal Impact/Funding Source
There is no fiscal impact associated with this item.

Track Record/Monitor
Procurement contracting staff in the Procurement Management Services Division of the Internal Services Department monitors these prequalification pools.

Delegated Authority
The County Mayor or County Mayor's designee is delegated the authority to add vendors to prequalification pools, subject to bi-annual ratification by the Board.

Due Diligence
Due diligence on all of these 471 vendors was conducted in accordance with the Internal Services Department's Procurement Guidelines to determine Contractor responsibility, including verifying corporate status and that there are no performance or compliance issues. The lists that were referenced include: convicted vendors, debarred vendors, delinquent contractors, suspended vendors, and federal excluded parties. There were no adverse findings relating to Contractor responsibility. This information is being provided pursuant to Resolution R-187-12.

Background

Open pool contracts are established in order to allow pre-qualified vendors to participate in spot market competitions for specified goods and services. The advantage to open pool contracts is that additional vendors that meet the minimum qualification requirements as specified in a solicitation can be added at any time during the contract term, which provides ongoing opportunities for vendors that want to business with the County. It is also an efficient, cost-effective means of contracting in that it reduces the administrative work, both for County staff and vendors wishing to participate in our contracts, associated with issuing new solicitations for contracts. Additionally, prequalification pools generally provide enhanced competition and improved pricing for the County.
