**Date:** January 21, 2015

**To:** Honorable Chairman Jean Monestime

**From:** Carlos A. Gimenez  
Mayor 

**Subject:** Resolution Authorizing the Execution of an Interlocal Agreement for Stormwater Management Between the City of Opa-locka and the Miami-Dade County Stormwater Utility

---

### **Recommendation**

It is recommended that the Board of County Commissioners (BCC) approve the attached resolution authorizing the execution of an Interlocal Agreement (Agreement) for stormwater management between the City of Opa-locka (City) and the Miami-Dade County Stormwater Utility (Exhibit "A"). The term of this five (5) year Agreement is from October 1, 2014 to September 30, 2019. This Agreement allows the County to be reimbursed for canal maintenance services.

### **Scope**

The City's municipal boundaries fall within Commissioner Barbara Jordan's District 1, Commissioner Jean Monestime's District 2, and Commissioner Esteban Bovo's District 13.

### **Fiscal Impact/Funding Source**

Pursuant to this Agreement, the total cost of routine canal maintenance work to be performed by the County in service to the City is estimated at \$453,603.00 per year. The City shall reimburse the County up to \$346,322.00 per year. Additionally, the Agreement includes a provision for a one-time Emergency Repair/Preventative Maintenance at an estimated cost of \$95,000.00. If these services are performed, the City shall reimburse the County up to \$69,500.00. Over the five (5) year term of the Agreement, the City's total reimbursement to the County will not exceed \$1,801,111.00.

Pursuant to this Agreement and the City's agreed upon reimbursements to the County, the County's net annual cost for routine canal maintenance on canals that serve the City is estimated at \$107,280.00. Over the five (5) year term of the Agreement, the County's estimated net cost is a total of \$561,902.00, inclusive of a maximum net cost of \$25,500.00 for a one-time Emergency Repair/Preventative Maintenance. The cost to the County is to be funded through the County's Stormwater Utility pursuant to Sections 24-51 through 24-51.5 of the Code of Miami-Dade County.

### **Track Record/Monitor**

The Public Works and Waste Management Department's Stormwater Utility Planning Division's Director Marina Blanco-Pape, P.E., will be responsible for monitoring the proposed Agreement.

### **Background**

On June 18, 1991, the BCC adopted Ordinance No. 91-66, creating the Miami-Dade County Stormwater Utility, which established a uniform countywide approach to stormwater management. Stormwater Utility fees collected in Miami-Dade County provide funding for the construction, operation, and maintenance of stormwater conveyance systems.

On June 3, 1993, the City's Commission adopted Ordinance No. 93-6, creating stormwater management regulations within their municipal code, exempting the City from the countywide Stormwater Utility, and establishing the City's stormwater utility and stormwater utility funding source.

Honorable Chairman Jean Monestime  
and Members, Board of County Commissioners  
Page 2

County-owned canals that provide drainage service to its residents remain the property and responsibility of the County. In June 4, 2013, the BCC adopted Resolution R-438-13, approving an Interlocal Agreement between the City and the County that established the responsibilities for the operation, maintenance, and cost-sharing of stormwater systems within the City's boundaries. This two (2) year Agreement expired on September 30, 2014, thus requiring a new Agreement.

On July 23, 2014, the City's Commission approved Ordinance No. 14-10 (Exhibit "B"), authorizing the City Manager to enter into and execute a new five (5) year Interlocal Agreement for Shared Stormwater Management between the City and the County.

Similar Interlocal Agreements are currently in place between the County and ten (10) other municipalities.

THIS FIVE (5) YEAR INTERLOCAL AGREEMENT, [the "Agreement"] by and between the Miami-Dade County Stormwater Utility, a public body corporate and politic, through its governing body, the Board of County Commissioners of Miami-Dade County, Florida [hereinafter sometimes referred to as "UTILITY",] and the City of Opa-locka, a Florida Municipal Corporation, through its governing body, the Opa-locka City Council of the City of Opa-locka, Florida [hereinafter sometimes referred to as "CITY",] is entered into as follows:

**WITNESSETH**

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, it is the intent of the UTILITY and the CITY, through this Agreement, to establish relationships and responsibilities for the maintenance of shared stormwater systems by the CITY and the UTILITY; and

WHEREAS, the UTILITY and the CITY recognize that there are operating costs, as well as benefits, associated with maintaining shared stormwater drainage systems; and

WHEREAS, the UTILITY and the CITY want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

## ARTICLE I PURPOSES

The UTILITY and the CITY enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
- (2) to maintain and improve water quality and preserve and enhance the environmental quality of the receiving waters;
- (3) to control flooding that results from rainfall events;
- (4) to deter unmanaged rainwater from eroding sandy soils and causing sedimentation;
- (5) to deter the disruption of the habitat of aquatic plants and animals;
- (6) to promote intergovernmental cooperation in effectively and efficiently managing stormwater run-off;
- (7) to maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with the approved plans. These include maintaining canals, and any required maintenance of flow control structures and stormwater pump stations and their mechanical and electrical components; maintaining stormwater systems as determined by conditions of the system, prevailing environmental conditions, and the level of service established.
- (8) to provide a mechanism for the UTILITY and the CITY to share and allocate the cost of maintaining and repairing shared stormwater drainage systems as stated in (7), above.

## ARTICLE II DEFINITIONS

Agreement shall mean this document, including any written amendments, attachments, and other written documents, which are expressly incorporated by reference.

The CITY may also request modifications to the tasks or level of services set forth in Attachment "B". Any such work requested by the CITY shall commence within reasonable time after the request has been made to the UTILITY. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then prior written approval by both parties' Project Managers must be obtained.
