THIRD QUARTER**

QUARTERLY REPORT

■ ■ ■ Overview

This report is presented by the Citizens' Independent Transportation Trust (Transportation Trust) with information pertaining to its oversight of the expenditure of proceeds of the Charter County Transportation Surtax Funds and implementation of the People's Transportation Plan (PTP) for the period ranging from April 1, 2014 – June 30, 2014.

The Transportation Trust works closely with members of the Board of County Commissioners (BCC), County administration, staff at Miami-Dade Transit (MDT), the Public Works and Waste Management Department (PWWM) and officials in the municipalities to ensure that PTP funds are spent appropriately.

The Transportation Summit Summary of Proceedings report was published during the third quarter and presents the major issues raised by participants during the Feb. 22, 2014 event. The Transportation Summit Community Forum was organized to update the community on the main themes discussed at the 2013 Transportation Summit and to give the public the opportunity to offer comments on current and future transportation services in Miami-Dade County. Approximately 130 people attended the Community Forum.

The PTP has enabled significant improvements to be made in Miami-Dade County's public transit system. Seniors, honorably discharged veterans and Social Security recipients receive free rides on transit through the Golden Passport/Patriot Passport program. The PTP also discontinued fares for Metromover users, enhancing patron convenience while reducing maintenance and operating costs.

Surtax dollars have bought new transit buses, many of which are eco-friendly diesel electric hybrid vehicles, to join the County's transit fleet. New Metromover vehicles have also been purchased and are in operation. The procurement of the new Metrorail fleet of vehicles is proceeding with delivery targeted for 2019.

Counted among the many successful projects funded by the PTP are the construction of the Orange Line, the 2.4 mile Metrorail extension which provides service to Miami International Airport, and the Easy Card Automated Fare Collection System. The PTP has also funded more than 1,000 modern revenue-generating bus shelters that are now installed in unincorporated Miami-Dade County.

The cities participating in the PTP Municipal Transportation Program have implemented a number of roadway and transit projects including successful bus circulator systems operating in 26 municipalities.

Investment of surtax funds in Miami-Dade County's public roadway system has resulted in marked improvement to commute time, driver convenience and safety. More than 300 miles

of roads have been improved, flashing and dynamic feedback signals have been installed in school zones, mobility accommodations for people with disabilities have been improved and the countywide traffic signalization system is being upgraded with the Advanced Traffic Management System (ATMS).

The Transportation Trust approved PTP funds to acquire the 14-acre parcel of land at NW 27th Ave. and NW 199th St., a strategic location necessary for short, mid and long-term public transit use and implementation of Enhanced Bus Service. In addition, drivers can enjoy greater mobility using the reversible flow lanes constructed along NW 199th St. near Sun Life Stadium.

Listings of previous and life-to-date accomplishments as well as more information on the Transportation Trust and the PTP are available at miamidade.gov/citt.

Accomplishments during the Quarter

The Transportation Trust sponsored the first Critical Issues Panels series on transportation and infrastructure at the annual Greater Miami Chamber of Commerce Goals Conference 2014. The Transportation Trust executive director, Charles Scurr, provided an overview of the Transportation Trust's ongoing activities and a status report on the PTP. The panelists discussed bike/pedestrian issues, All Aboard Florida, Miami Beach Corridor Link, the Coastal Link Study and the CNG conversion of County vehicles.

The Transportation Trust approved the updated 2014-2015 Strategic Objectives, which include: prioritizing frequent reviews of the railcar procurement project; hosting the next Transportation Summit in fall 2014; analyzing, in conjunction with the County, the possibility of unwinding unification; and showcasing municipal best practices at monthly Transportation Trust meetings.

Transportation Trust Board Resolutions

The Transportation Trust creates resolutions to express its position on important issues and to provide guidance, insight and opinions to the Board of County Commissioners (BCC). Resolutions approved during the quarter include:

A resolution recommending an amendment to the Transportation Trust enabling ordinance to provide for Transportation Trust review of surtax and transit contract expenditures

A resolution approving the submittal of the proposed FY 2014-2015 budget and providing an effective date

A resolution adopting the 2014 and 2015 Transportation Trust Strategic Objectives

A resolution recommending that the BCC authorize MDT to make bus service adjustments to be implemented on or after June 22, 2014

A resolution supporting the study to develop an implementation plan for Bus Rapid Transit along PTP corridors

Contracts Approved by the Transportation Trust

A major responsibility of the Transportation Trust is to review contracts requesting transportation surtax funding for projects listed in the PTP. These contracts are initiated by MDT and Miami-Dade PWWM, and are reviewed by staff at the Office of the Citizens' Independent Transportation Trust (OCITT) before they are voted on by the Transportation Trust. The Transportation Trust creates resolutions, which the Transportation Trust then recommends the BCC to approve the resolutions.

The Transportation Trust recommends that the Board of County Commissioners approve:

The resolution recommending the use of Charter County Transportation Surtax Funds for six push-button contracts awarded under the Miscellaneous Construction Contracts 7360 Plan and 7040 Plan, in an amount not to exceed \$7,484,559.12 (PWWM – BCC Legislative File No. 140707)

Miami-Dade Transit Update

MDT is responsible for implementing all transit improvements listed in the PTP including Metrobus, Metrorail and Metromover projects along with Special Transportation Service (STS) and the Golden Passport/Patriot Passport Program. MDT reports the following activities related to PTP projects during this quarter:

Metrobus

The active bus fleet consists of 701 40-foot buses, 25 62-foot articulated buses, 12 45-foot over-the-road buses, and 77 30-foot minibuses for a total of 815 active buses. This is an increase of 114 buses since PTP. Not included in the active fleet are four retired buses that form MDT's Contingency Fleet.

Surtax-funded Staff

MDT did not hire any full-time employees during the third quarter, from April 1, 2014 to June 30, 2014. Since November 2002, the total number of new hires is 1,984.

Disadvantaged Business Enterprises

MDT monitors the status of PTP-funded contracts which include federal funding. To date, MDT reports five prime contractors and 47 subcontractors that are subject to **Disadvantaged Business Enterprises** compliance measures.

Golden Passport/Patriot Passport Programs

MDT issued 2,736 Golden Passport cards to customers over 65 years of age, 1,377 Golden Passport cards to customers under 65 years of age and 116 Patriot Passport cards. Currently, there are 231,894 certified Golden Passport/Patriot Passport customer accounts; this number includes 162,045 Golden Passports of customers over 65 years of age, 61,260 Golden Passport of customers under 65 years of age and 8,589 Patriot Passport customers.

Miami-Dade Public Works and Waste Management Department Update

PWWM is responsible for developing and implementing PTP-funded roadway projects including paving, traffic signals, roadway signage, bike paths, lighting, drainage, curb cuts and guard rails. PWWM reports the following activities related to PTP projects during this quarter:

Advanced Traffic Management System

All of the County's signalized intersections have migrated to the **Advanced Traffic Management System (ATMS)**. PWWM is progressing on improving the communication system supporting the

ATMS system. In the current fiscal year, additional signals will be migrated to the wireless communication subsystem as a collaborative effort with the Information Technology Department. An extension of Phase 2 has been approved for this and next fiscal year to serve as a bridge between Phase 2 and Phase 3, and assure that progress on some critical ongoing efforts will continue without interruption. The

most critical of them is the evaluation and planning for the implementation of a County-owned and maintained communication infrastructure to serve the ATMS. Phase 3 of the program will be planned and let within the coming year. It will provide additional enhancements to further improve traffic flow on the County's arterials. Actual work under Phase 3 will not begin until next fiscal year.

Neighborhood Improvement Projects

PWWM continues to coordinate the Neighborhood Improvement Projects with County Commissioners' offices. Improvements in this category include resurfacing, sidewalks, ADA ramps and connectors, drainage, guardrails, striping, traffic signals, and traffic calming circles. Currently, 124 PTP-funded construction contracts have been approved by the Transportation Trust and BCC for Neighborhood Improvements, totaling \$105.25 million.

Miscellaneous Construction Contract Program

In an effort to accelerate projects, PWWM continues to take advantage of various contracting mechanisms, such as the County's Miscellaneous Construction Contract (MCC) Program. The MCC program is an open, competitive process which allows for an expedited procurement. It provides contractors Countywide with a fair opportunity to compete for work on County construction projects and has a direct beneficial impact to the County by accelerating construction projects.

Internally Illuminated Street Name Signs

PWWM has completed the installation of **Internally Illuminated Street Name Signs (IISNS)** at 1,854 intersections throughout Miami-Dade County, including 178 intersections funded under the American Recovery and Reinvestment Act program. A contract has been awarded to complete work on 22 remaining intersections and construction operations are underway.

Disadvantaged Business Enterprise and Small Business Participation Reporting

The Transportation Trust monitors and reports on the level of participation by small and disadvantaged businesses in contracts receiving transportation surtax proceeds. It is supported in this effort by the MDT Office of Civil Rights and the Miami-Dade Internal Services Department (ISD) Small Business Development Division. The federal DBE program encourages the development and use of companies owned and controlled by minorities, women, and socially and economically disadvantaged individuals on federally-aided projects, and the County program tracks contracts awarded with surtax funding and subject to local small business goals, wages and Community Workforce requirements. The following activity is reported as of Dec. 31, 2013.

PTP Municipal Update

Twenty percent of surtax proceeds is allocated to the 33 of the 34 municipalities eligible to receive PTP funds; one city has elected not to participate in the program. Each city receives a pro rata share based on its population to develop or enhance its transit and transportation systems.

During the third quarter, \$7,960,650 in surtax funds was transferred to the participating municipalities and a total of \$438,268,368 has been allocated to municipalities since the PTP was enacted in 2002.

Twenty-six of the cities operate bus service supported by PTP funds. The City of Aventura runs the Aventura Express providing local transit service to the area and connects to other municipal bus services and the County's Metrobus system at Aventura Mall. During the third quarter, ridership on the Aventura Express exceeded 67,000 passengers.

The City of Homestead operates trolley bus service in the historic downtown district and connects to premium bus service on the South Dade Busway. Boardings exceeded 40,000 for the third quarter.

The City of Miami has successfully operated Trolley Miami since March 2012 starting with two routes and has since been expanded to six routes. During the 3rd quarter the City launched its new Smartphone App with a tracking system that provide users with state of the art information on bus location and schedule using Computer Aided Dispatch and Automatic Vehicle Location (CAD/AVL) technology.

Transportation Trust Board and Staff Update

Transportation Trust Meetings

The Transportation Trust meets on a regular basis to fulfill its statutory responsibility to oversee the implementation of the PTP. Three full Transportation Trust meetings were held during the third quarter and the subcommittees met four times.

Transportation Trust Hosts Municipal Officials from Mexico

The Transportation Trust hosted a group of elected officials from Mexico who were participating in a workshop at Florida International University. In conjunction with staff from Miami-Dade Transit, the Transportation Trust staff provided officials with a briefing on transportation policy and accompanied them on a tour of the Metromover and the MDT Central Control facility.
