**Date:** April 21, 2015

**To:** Honorable Chairman Jean Monestime  
and Members, Board of County Commissioners

Agenda Item No. 8(N)(2)

**From:** Carlos A. Gimenez  
Mayor

**Subject:** Resolution Approving a Perpetual Easement to the State of Florida Department of Transportation for the Construction, Operation, and Maintenance of a New Roadway Across Property Owned by Miami-Dade County as Part of the Airport Link Metrorail Corridor and Authorizing the County Mayor to Execute Same

During the March 11, 2015 Transit & Mobility Services Committee meeting, the item was amended to delete the following language on handwritten page 8, on page 2 of the Perpetual Easement in the fifth paragraph in the fourth line "contractors and sub-contractors,".

## RECOMMENDATION

It is recommended that the Board of County Commissioners (Board) adopt the attached resolution authorizing the conveyance of a non-exclusive Perpetual Easement to the State of Florida Department of Transportation (FDOT) on behalf of Miami-Dade Transit (MDT) for the construction, operation, and maintenance of a new road identified as NW 28 Street extension across property owned by Miami-Dade County (County) as part of the Airport Link Metrorail Corridor. This resolution authorizes the County Mayor or the County Mayor's designee to execute same.

## SCOPE

The easement is located within Commissioner Rebeca Sosa's District 6.

## FISCAL IMPACT/FUNDING SOURCE

There is no fiscal impact to the County by the granting of this easement. The cost to construct, operate, and maintain the new road will be borne by FDOT until this new road is transferred to the County's Public Works and Waste Management Department (PWWM). The recurring operations and maintenance costs PWWM will be responsible for is approximately \$900.00 annually.

## TRACK RECORD/MONITOR

The County has previously granted similar easements to FDOT. It is also customary and appropriate to grant easements when they become public necessities. The person responsible for monitoring this easement is Mr. Froilan Baez, Chief, Right of Way, Utilities and Property Management Division.

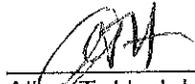

## BACKGROUND

Pursuant to Resolution R-132-01, the Board approved the transfer of certain County roads to FDOT and improvements under the Miami Intermodal Center (MIC) project. FDOT made significant improvements to those roads and quit claimed them back to the County pursuant to Resolution R-845-09. FDOT is currently constructing the MIC Tri-rail Station and is aware that the extension of NW 28 Street is needed to mobilize traffic through the Airport area to provide a connection to other thoroughfares. Since an extension of the road is required from its existing point at NW 39 Avenue to NW 37 Avenue (Douglas Road) for a total length of approximately 0.4 miles, this roadway project is categorized as new construction. This new road is crossing the Airport Link Metrorail Corridor.

FDOT has acquired properties from the adjoining owners along the new path for the construction. Further, FDOT informed MDT staff of their need to cut through the Metrorail Corridor. Staff reviewed the project and agreed to donate an easement to FDOT for the construction of this new road including the installation of a curb and gutter, drainage system, signage, and pavement markings.

The existing typical section is comprised of one (1) lane in each direction with the typical width of 12 feet each, and curbs and gutters along the outside. The posted speed is 30 miles per hour and the design speed along the corridor is 35 miles per hour in both directions.

This new construction will divide Parcel 196, which was acquired with 50 percent of FDOT funds and 50 percent of funds from the County for the Airport Link project. The required easement is legally described and illustrated in the attached Exhibit "A." A graphic depiction of the area is illustrated in the attached Exhibit "B."
