Upon request by the County, the Department shall coordinate with its Contractor to provide access to the County for performance of said inspections.

During the construction work related to the Project, the County shall fully cooperate with any such work being performed by the Department and the Department's contractors. The County shall not commit nor permit any act which may delay or interfere with the performance of any

such work by the Department or the Department's contractors, unless the Department agrees in writing that the County may commit or permit said act.

9. Maintenance during construction, commencing as of the first date of construction, shall be the responsibility of the Department's Contractor. After completion of construction, the County shall assume all maintenance responsibilities. Upon completion of construction, the Department will invite the County on the Final Inspection of the work within the Project Limits, and will incorporate valid County concerns that are within the scope of the contract into the final Project punch list to be corrected by the Contractor. If the Department elects to terminate this Agreement, the Department shall deliver formal notice of termination to the County, as set forth in paragraph 20 of this Agreement.

11. In the event that any election, referendum, approval, ratification, or permit, notice or other proceeding, or authorization is required to carry out the Project, the County agrees to expeditiously initiate and consummate, as provided by law, all actions necessary with respect to any such matters, with time being of the essence.

12. The Parties acknowledge and agree that the Project shall be constructed using federal funds and that all costs incurred must be in conformity with applicable federal and state laws, regulations, and policies and procedures.
