

Memorandum

Date: February 2, 2016

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

From: Carlos A. Gimenez
Mayor 

Subject: Resolution Authorizing the Execution of an Interlocal Agreement for Stormwater Management between the City of Florida City and the Miami-Dade County Stormwater Utility

Agenda Item No. 8(L)(7)

Recommendation

It is recommended that the Board of County Commissioners (Board) authorize the County Mayor or County Mayor's designee to execute an Interlocal Agreement for Stormwater Management (Agreement) between the City of Florida City (City) and the Miami-Dade County Stormwater Utility (Exhibit A).

The County is responsible for operating and maintaining the Secondary Canal System throughout the entire geographical area of the County. Canals that traverse municipalities, such as the Florida City Canal in the case of the City, provide drainage and flood protection to adjacent areas. This Agreement will allow the County to be reimbursed on a pro-rata share basis for canal maintenance services performed by the County on secondary canals that provide drainage to the City.

Scope

The City is within County Commission District 9, which is represented by Commissioner Dennis C. Moss.

Fiscal Impact/Funding Source

Stormwater Utility fees provide funding for the construction, operation, and maintenance of stormwater conveyance systems. Canals operated and maintained by the County provide drainage service to the County and municipalities, but remain the responsibility of the County.

Pursuant to this Agreement, the total annual cost of routine canal maintenance work to be performed by the County on secondary canals that serve the City is estimated to be \$260,000.00 per year, or \$1.3 million for the five-year period. The City's reimbursement to the County is based on the City's runoff contribution to each canal's drainage basin, as depicted in Attachment A (Drainage Area Map and Percent Share Table) of the Agreement. The City shall reimburse the County up to \$46,800.00 per year for five (5) years, up to a total of \$234,000.00.

The County's cost is to be funded through the County's Stormwater Utility fees pursuant to Sections 24-51 through 24-51.5 of the County Code.

Track Record/Monitor

The Stormwater Utility Planning Division Director within the Public Works and Waste Management Department, Marina Blanco-Pape, P.E., will be responsible for monitoring the proposed Agreement.

Background

On June 18, 1991, the Board adopted County Ordinance No. 91-66, which created the Miami-Dade County Stormwater Utility and established a uniform countywide approach to stormwater management. On September 26, 2000, the City adopted City Ordinance No. 00-01, creating stormwater management regulations within its municipal code and their own stormwater utility.

Subsequently, on June 3, 2008, the Board adopted Resolution No. R-628-08 approving a two-year interlocal agreement between the City and the County, which established the responsibilities for the operation, maintenance, and cost-sharing of stormwater systems within the City's boundaries. That two-year agreement was replaced by a five-year agreement that expired on September 30, 2014. The proposed five-year agreement will retroactively start on October 1, 2014 and expire on September 30, 2019.

On June 23, 2015, the City's Commission approved City Resolution No. 15-14 (attached as Exhibit B), authorizing the City Mayor to enter into and execute a new five-year Agreement. On September 2, 2015, the City Mayor signed and forwarded the proposed Agreement to the County for execution.

WITNESSETH

WHEREAS, Section 403.0893, Florida Statutes (F.S.), authorizes the establishment of stormwater utilities to plan, construct, operate, and maintain stormwater management systems; and

WHEREAS, the Board of County Commissioners of Miami-Dade County, did, by adoption of Miami-Dade County Ordinances No. 91-66 and Ordinance No. 91-120, as amended by Ordinance Nos. 92-44 and 92-86, create a stormwater utility [hereinafter referred to as the "UTILITY"], and which UTILITY may operate within a municipality or municipalities; and

WHEREAS, it is the intent of the UTILITY and the CITY, through this Agreement, to establish relationships and responsibilities for the maintenance of shared stormwater systems by the CITY and the UTILITY; and

WHEREAS, the UTILITY and the CITY want to share these costs in proportion to the drainage area, the service provided, and the benefits received,

Now, therefore, in consideration of the mutual promises and covenants contained herein and the mutual benefits to be derived from this Agreement, the parties hereto agree as follows:

ARTICLE I PURPOSES

The UTILITY and the CITY enter into this Agreement to further the following purposes:

- (1) to protect and promote the public health, safety, and general welfare through the management of stormwater run-off;
- (2) to maintain and improve water quality and preserve and enhance the environmental quality of the receiving waters;

- (6) to promote intergovernmental cooperation in effectively and efficiently managing stormwater run-off;
- (7) to maintain and repair shared stormwater systems located within the limits of the drainage service areas in accordance with the approved plans. These include maintaining canals, and any required maintenance of flow control structures and stormwater pump stations and their mechanical and electrical components; maintaining stormwater systems as determined by conditions of the system, prevailing environmental conditions, and the level of service established.
- (8) to provide a mechanism for the UTILITY and the CITY to share and allocate the cost of maintaining and repairing shared stormwater drainage systems as stated in (7), above.

Estimated total expenditures for the five (5) year term of this Agreement are also included and shall not be exceeded.

D. The tasks and levels of service set forth in Attachment "B" may be adjusted by the UTILITY with prior notice to the CITY due to prevailing environmental conditions, maintenance needs, or ownership, provided that the total annual estimated expenditures are not exceeded. The CITY may also request modifications to the tasks or level of services set forth in Attachment "B". Any such work requested by the CITY shall commence within reasonable time after the request has been made to the UTILITY. If the tasks and level of service must be adjusted in such a manner that the annual estimated expenditure will be exceeded in any given year, then prior written approval by both parties' Project Managers must be obtained. However, the total five-year cost of the Agreement shall not be exceeded.

E. Payments by the CITY are to be made within 30 days after the bill presentation. In the event of a dispute on the billed amount, the CITY may notify the UTILITY of the nature of the dispute and the UTILITY shall make arrangements for the pertinent records to be made available for inspection by the CITY, as indicated under Article V (H) of this Agreement.
