

Memorandum

Date: May 17, 2016

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

Agenda Item No. 8(F)(10)

From: Carlos A. Gimenez
County Mayor

Subject: Equitable Distribution Program Professional Services Agreements
Fiscal Year 2014-15 Ratification

Recommendation

It is recommended that the Board of County Commissioners (Board) adopt the attached resolution ratifying the actions of the County Mayor or County Mayor's designee in executing Equitable Distribution Program (EDP) professional services agreements for the period from October 1, 2014 through September 30, 2015. The attached quarterly ratification reports (Exhibits A through D) identify the firms that were assigned work through the EDP during this period.

EDP contracts are issued and renewed regularly to qualified local architectural, engineering and landscape architectural (A&E) firms that are in good standing. Professional services agreements are the formal mechanism to allow County departments to issue work authorizations to eligible EDP participants.

Scope

EDP professional services agreements impact the capital improvement plans throughout the entire County.

Fiscal Impact/Funding

Funding for each professional services agreement ordered under the EDP is identified at the time of issuance of the service order and is consistent with each department's capital project budgets.

Tracking/Monitor

The EDP is managed by Gary Hartfield, Division Director, Small Business Development Division, Internal Services Department.

Delegated Authority

Resolutions R-631-01 and R-667-03, which govern the EDP, delegate authority to the County Mayor or County Mayor's designee to execute and terminate EDP contracts, which are subsequently sent to the Board for ratification.

Background

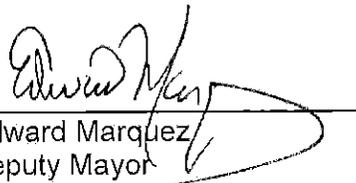

The EDP was established by the Board in June 2001 as a pre-qualified pool of eligible A&E firms designed to increase opportunities for locally-based businesses. The objectives of this program are to equitably and expeditiously distribute small capital improvement design projects within the thresholds established in Florida State Statute 287.055 for continuing contracts, as well as to facilitate contract opportunities for A&E firms. The EDP affords County departments access to qualified professionals for smaller projects without necessitating a formal solicitation process.

The program is structured to distribute projects to participants that have received the fewest previous opportunities with the County through a centralized rotational system. To ensure equitable distribution of work, each firm's position in the EDP Pool is based on County approved technical categories and the rotational value determined from their net County dollars awarded and paid over the last three (3) years. The EDP provides A&E firms with valuable exposure and experience working on County projects to more effectively compete in the marketplace. As a result, many new local and small firms have been able to foster a successful business relationship with the County and in the private sector.

Honorable Chairman Jean Monastime
and Members, Board of County Commissioners
Page 2

Over 2,075 EDP assignments totaling more than \$129 million in potential service fees have been disbursed to A&E firms since the inception of the program. In Fiscal Year 2014-15, there were 205 assignments initiated, totaling potential services fees of \$19.6 million. There were approximately 345 active members in the program during this reporting period. Over 90 percent of the EDP Small Business Enterprise A&E firms have received work through the program.

The County has benefited from the implementation of this program by acquiring A&E professional services more expeditiously and cost effectively.

Deputy Mayor
