2. COUNTY OBLIGATIONS AND TASK AUTHORIZATION TO PROCEED: The COUNTY agrees that WASD shall furnish to the ENGINEER any plans or other data reasonably available in the COUNTY'S files pertaining to the Work to be performed under this AGREEMENT. Information shown on such plans or data shall be that which has been made available to the COUNTY and shall be provided to the ENGINEER without guarantee regarding its reliability and accuracy. The ENGINEER shall be responsible for independently verifying such information if it shall be used by the ENGINEER to accomplish the Work undertaken pursuant to this AGREEMENT.

The ENGINEER shall submit a proposal upon the Director's or the Director's designee's request prior to the issuance of a task authorization to proceed in a form similar to that shown in Attachment "B". At a minimum a proposal must include a cost proposal, including proposed methodology for payment and an estimate of the total fee required to complete the task being authorized. No payment shall be made for the ENGINEER'S time or service in connection with the preparation of any such proposal. The Director or the Director's designee shall issue written task authorization(s) to proceed to the ENGINEER for each section of the Work to be performed hereunder. In case of emergency, the COUNTY, through the Director or the Director's designee, reserves the right to issue oral authorizations to the ENGINEER with the understanding that written authorization shall follow within ten (10) working days. If no written authorization is issued within that time, the ENGINEER shall cease work and submit an invoice for Work completed.

The ENGINEER acknowledges that Task Authorizations to Proceed under this Section shall only be issued by duly authorized employees of the Department.

3. PROFESSIONAL SERVICES: Upon receipt of a task authorization to proceed from the Director or the Director's designee, the ENGINEER agrees to perform professional services in accordance with the negotiated terms of the applicable written task authorization. The scope of services is detailed in the document hereto attached as Attachment "A".
4. EMPLOYEES ARE THE RESPONSIBILITY OF THE ENGINEER: The ENGINEER is, and shall be, in the performance of all Work services and activities under this AGREEMENT, an independent contractor, and not an employee, agent or servant of the COUNTY. All persons engaged in any of the Work or services performed pursuant to this AGREEMENT shall at all times, and in all places, be subject to the ENGINEER'S sole direction, supervision and control. The ENGINEER shall exercise control over the means and manner in which it and its employees perform the Work, and in all respects the ENGINEER'S relationship of its employees to the COUNTY shall be that of an independent contractor and not as employees and agents of the COUNTY. The ENGINEER does not have the power or authority to bind the COUNTY in any promise, agreement or representation other than specifically provided for in this AGREEMENT or a work order. The ENGINEER shall supply competent employees. The COUNTY may require the ENGINEER to remove an employee if, in the COUNTY'S sole judgment, it deems the employee careless, incompetent, insubordinate or otherwise objectionable and whose continued employment on COUNTY property is not in the best interest of the COUNTY. Each employee shall have and wear proper identification. The COUNTY has the right to authorize the assignment of specific employees through a written task authorization to proceed. The ENGINEER shall not replace any employee in the team initially proposed by the ENGINEER without prior approval from the Director or the Director's designee. The ENGINEER shall submit a list of employees intended to be engaged in the Work under this AGREEMENT, including their classification and labor rates, as reported to the Internal Revenue Service, with such labor rates made a part hereof as Attachment "C" to this AGREEMENT. All employees engaged in this Project will be required to submit the conflict of interest "Affidavit" attached hereto as Attachment "D".
5. ENGINEER'S RESPONSIBILITIES: In connection with the Professional Services to be rendered pursuant to this AGREEMENT, the ENGINEER agrees to:
 - A. Use the same degree of care and skill ordinarily exercised by other similar professionals in the field under similar conditions.

- B. Maintain an adequate staff of qualified personnel at all times to meet completion requirements of the Professional Services within the term specified in the applicable task authorization to proceed.
- C. Comply with the federal, state and local laws or ordinances applicable to the Work.
- D. Cooperate fully with the COUNTY in the scheduling and coordination of all phases of the Work.
- E. Provide a written report on the status of the Work to the Director or the Director's designee upon request and hold pertinent data and other products open to the inspection of the Director or the Director's designee at any reasonable time and during normal business hours.
- F. Submit for COUNTY review design computations, sketches, and other data representative of the Work's progress at the percentage stages of completion which may be stipulated in the applicable task authorization to proceed. Submit for COUNTY approval the final Work products upon incorporation of any modifications requested by the COUNTY during any previous review.
- G. Confer with the COUNTY at any time during the term of the AGREEMENT and implementation of improvements for which the ENGINEER has provided design or other services as to interpretation of plans and other documents, correction of errors and omissions and preparation of any necessary plan thereof. The ENGINEER shall not be compensated for the correction of errors and omissions on the part of the ENGINEER but shall be compensated for any Additional Services requested by the Director or the Director's designee.
- H. Use computer and networking hardware, software and firmware standards as approved by the Information Technology (IT) Division of WASD. IT staff must be involved in the design phase of an application and in developing the testing, training and acceptance criteria of the application before it is placed into production. All applications and/or systems to be transferred to the COUNTY must have adequate end user and systems support documentation and, as part of the design process for a Project, any system needs should be identified and will require the approval of IT. All electronic data performed or produced in the performance of this AGREEMENT shall be transferred in an approved media and format by IT.
- I. All systems developed by the ENGINEER pursuant to this AGREEMENT shall become the property of the COUNTY.
- J. Application design, operation and security shall follow the COUNTY and WASD IT standards. Costs incurred to comply with these standards if the system is developed outside these parameters will be the burden of the ENGINEER.
- K. The COUNTY reserves the right to require background checks on ENGINEER'S staff working on sensitive WASD infrastructure information, especially Geographic Information System layers. WASD may require non-disclosure agreements to be signed regarding infrastructure information and shall hold the ENGINEER responsible for the security of this data.
- L. All ENGINEER'S staff wishing to gain access to work via the COUNTY'S network will require a network identification (ID) and password issued within the guidelines set forth for security. This ID will be terminated after use on the Project, or if not signed-on to the network, after ten (10) days.

- M. The ENGINEER will adhere to the Public Involvement Plan in accordance with Miami-Dade County's Resolution R-273-05, as amended.
- N. The ENGINEER shall consider future impacts of sea level rise and climate change that may be addressed through design considerations.

6. ORGANIZATIONAL CONFLICT OF INTEREST RELATED TO SECTION 2-11.1 OF THE CODE OF MIAMI-DADE COUNTY:

A. WASD ORGANIZATIONAL CONFLICT OF INTEREST

- 1) Policy: The COUNTY, through WASD, adopts the provisions of this Section to govern potential conflicts of interest in its procurement of Engineers to implement the Project. It is the policy of the COUNTY, implemented through this Section, to identify, analyze and address organizational conflicts of interest that might otherwise exist in order to maintain the public's trust in the integrity and fairness of the COUNTY'S contracting for the Project and to protect the business interests of the COUNTY thereby safeguarding public dollars. This policy shall be supplemental to and not in derogation of the requirements of law relating to conflicts of interest including, but not limited to, the COUNTY'S Code of Ethics.
- 2) An organizational conflict of interest is a situation in which an Engineer: (a) under the Contract, or any part thereof, including a particular work order or defined task, is required to exercise judgment to assist the COUNTY in a matter (such as in drafting specifications or assessing another engineer's or contractor's proposal or performance) and the ENGINEER has a direct or indirect financial or other interest at stake in the matter, so that a reasonable person might have concern that when performing Work under the AGREEMENT, the ENGINEER may be improperly influenced by its own interests rather than the best interest of the COUNTY, or (b) would have an unfair competitive advantage in a COUNTY competitive solicitation as a result of having performed work on a COUNTY contract that put the ENGINEER in a position to influence the result of the solicitation.
- 3) Certification of no organizational conflict of interest: The ENGINEER'S: (a) execution of the contract or any agreement to perform any work under a work order or (b) making any claim for payment under the Contract, constitutes the ENGINEER'S certification to the COUNTY that the ENGINEER does not have knowledge of any organizational conflicts of interest to exist in performing the work under the AGREEMENT. False certifications may be considered a material breach of the AGREEMENT and the ENGINEER may be liable to the COUNTY for a false claim under the COUNTY'S false claim ordinance. At any time in anticipation of awarding the AGREEMENT, or during the performance of the AGREEMENT, the COUNTY may require the ENGINEER to execute an express written certification that after diligent inquiry the ENGINEER does not have knowledge of any organizational conflict of interest. The COUNTY may also require the ENGINEER to set forth in writing the scope of the inquiry conducted to make the express certification. Failure to make

diligent inquiry, to disclose a known conflict or potential conflict, or to execute the documents required to be produced may be considered, if pre-award, a reason for disqualification of the proposal, and following award, a material breach of the AGREEMENT.

- 4) Identification of organizational conflict of interest: The ENGINEER shall be obligated to disclose to the COUNTY any organizational conflict of interest, or the potential for the same to occur, immediately upon its discovery. The disclosure shall be in writing, addressed to the Director the Director's designee identified in the AGREEMENT specifications. The disclosure shall identify the organizational conflict of interest with sufficient detail for the COUNTY'S analysis and shall propose a method to address the same. Such disclosure shall also be reported to the Office of the Inspector General (OIG) or to the Commission on Ethics and Public Trust (COE). The ENGINEER'S failure to identify an organizational conflict of interest, or to disclose the same to the COUNTY in the manner set forth in this Section, may be considered a material breach of the AGREEMENT. Each solicitation shall also require respondents to address the methodology proposed to identify and address any potential organizational conflict of interest, particularly in those instances where the proposer offers to use the same Subconsultants which may be Primes or Subconsultants in other Project Contracts where such use is not specifically prohibited by the advance restrictions set forth in this policy. The potential for organizational conflicts of interest, and the methodology offered to prevent organizational conflicts of interest, may be evaluated by the COUNTY as a criterion for selection as set forth in the applicable competitive solicitation documents.
- 5) Addressing organizational conflicts of interest: The COUNTY will analyze and address organizational conflicts of interest on a case-by-case basis, because such conflicts arise in various, and often unique, factual settings. The Director, with the assistance of such other persons as he may deem appropriate, shall make the final decision as to how to address an organizational conflict of interest. The COUNTY shall consider the specific facts and circumstances of the contracting situation and the nature and potential extent of the risks associated with an organizational conflict of interest when determining what method or methods of addressing the conflict will be appropriate. When an organizational conflict of interest is such that it risks impairing the integrity of the Project, then the COUNTY must take action to substantially reduce or eliminate those risks. If the only risk created by an organizational conflict of interest is a performance risk relating to the COUNTY'S business interests, then the COUNTY shall have broader discretion in accepting some or all of the performance risk, but only when the potential harm to the COUNTY'S interest is outweighed by the expected benefit from having the conflicted Engineer perform the Contract.
- 6) Measures to address organizational conflicts of interest: The measure, or combination of measures, which may be appropriate to address an organizational conflict of interest, if any, shall be decided by the Director and include, but are not limited to: (a) avoidance of risk through reduction

of subjectivity in the analysis or by defining work tasks and deliverables with specificity, (b) requiring the ENGINEER and/or its Subconsultants to implement structural barriers (firewalls) and internal corporate controls, (c) limiting Subconsultants or personnel to be involved in a work assignment, (d) employing specific hourly limits on defined tasks, (e) limiting or prohibiting certain pass through fees and markups, (f) executing a mitigation plan which will define specific Engineer and Subconsultant duties to mitigate organizational conflicts of interest, (g) requiring subconsultants who are conflict free to perform identified areas of work, (h) requiring the ENGINEER or its Subconsultants to adopt, disseminate and instruct staff on conflict of interest identification and remediation procedures and (i) relying on more than one source or on objective or verifiable data or information.

7) Documentation and evaluation: The Director will set forth in the AGREEMENT file a written explanation of the methodology used to address an identified organizational conflict of interest. The COUNTY shall periodically evaluate the effectiveness of the methodology in the protection of the Project. Upon the rendering of a decision regarding the resolution of a reported conflict of interest, a copy of such finding shall be forwarded to the OIG or COE.

8) Organizational conflicts of interest which are not remedied: If in the sole discretion of the COUNTY there is no measure or combination of measures which protect the COUNTY against the organizational conflict of interest, then the ENGINEER may not perform the subject work. The COUNTY may in its discretion, if pre-award, decide not to award the AGREEMENT to the affected ENGINEER, and following award, terminate the AGREEMENT, or portion of the AGREEMENT, which the ENGINEER has materially breached because of such inability to perform.

7. TASK AUTHORIZATION TO PROCEED: TIME FOR COMPLETION: The services to be rendered by the ENGINEER for each section of the Work shall commence upon receipt of a written task authorization to proceed from the Director or the Director's designee subsequent to the execution of this AGREEMENT and shall be completed within the time stated in the task authorization to proceed.

8. DELAY IN PERFORMANCE: No claim for damages or any claim other than for an extension of time shall be made or asserted against the COUNTY by reason of any delays. The ENGINEER shall not be entitled to an increase in the sum, payment or compensation of any kind from the COUNTY beyond that set forth in this AGREEMENT or direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to: costs of acceleration or inefficiency arising because of delay, disruption, interference or hindrance from any cause whatsoever; provided, however, that this provision shall not preclude recovery or damages by the ENGINEER for hindrances or delays due solely to fraud, bad faith or active interference on the part of the COUNTY or its agents. Otherwise, the ENGINEER shall be entitled only to extensions of the time as the

sole and exclusive remedy for such resulting delay, in accordance with and to the extent specifically provided below.

The time to perform this AGREEMENT shall be extended only if the ENGINEER is delayed in performing any obligation under this AGREEMENT due to a force majeure. The ENGINEER shall request in writing a time extension from the Director within ten (10) days of said force majeure. Failure to make such written request within the specified time shall be a bar on the ability of the ENGINEER to bring any claim or civil action for either compensable or non-compensable time extension.

9. FORCE MAJEURE: No party shall be liable for its failure to carry out its obligations under the AGREEMENT during a period when such party is rendered unable, in whole or in part, by force majeure to carry out such obligations, but the obligation of the party or parties relying on such force majeure shall be suspended only during the continuance of any inability so caused and for no longer period of said force majeure event, and such cause shall, so far as possible, be remedied with all reasonable dispatch.

It is further agreed and stipulated that the right of any party hereto to excuse its failure to perform by reason of force majeure shall be conditioned upon such party giving, to the other party or parties, written notice of its assertion that a force majeure delay has commenced within ten (10) days after such commencement, unless there exists good cause for failure to give such notice, in which event, failure to give such notice shall not prejudice any party's right to justify any non-performance as caused by force majeure unless the failure to give timely notice causes material prejudice to the other party or parties.

10. CHANGE OF PRINCIPAL OR PROJECT MANAGER: John Kersten and Leah Richter, P.E, shall be the Principal and Project Manager, respectively. If the COUNTY or the ENGINEER requests a change of the Principal or Project Manager, the party initiating said change shall make the request in writing and said request shall be received by the other party at least thirty (30) days prior to any such change. The Director reserves the right to approve the replacement of the Principal or Project Manager.

11. COMPENSATION FOR SERVICES: The COUNTY agrees to pay and the ENGINEER agrees to accept a fee representing full compensation for the performance of the services specified herein. The ENGINEER shall submit monthly invoices for all Work in progress using a format and procedure provided by WASD and in accordance with the Prompt Payment Ordinance No. 94-40. Invoices shall be submitted within one hundred twenty (120) days of the performance of the service being billed. The COUNTY shall not pay invoices that are not properly submitted within that period. Invoicing by the ENGINEER for persons not specifically provided for above shall be prohibited without the advance written approval of the Director for good cause shown and documented in the project file. The Director shall approve such invoicing only in the event that it is necessary to address unique project needs. Office Employees shall mean personnel that are located in the home offices of the ENGINEER and/or project office, Subconsultant(s), when such home offices provide office space. Clerical staff is defined to include secretarial, word processing and staff performing administrative functions. In no case shall the maximum rate of compensation, including multipliers of direct salary, exceed one hundred ninety-nine dollars and fifty cents (\$199.50) per hour for the ENGINEER and Subconsultant(s). Invoicing by the ENGINEER for services in excess of this limitation shall be prohibited without the advance written approval of the Director for good cause shown and documented in the Project file. The

Prior to any payments to Subconsultant(s), the ENGINEER shall, if requested by the Director or the Director's designee, furnish to the COUNTY a copy of the agreement(s) providing for such payments. Compensation to Subconsultants shall be limited by the multipliers, maximum rate of compensation, and maximum raw hourly rates set forth for the ENGINEER in Section 11.A.1. above. Invoicing by the ENGINEER for Subconsultant services in excess of this limitation shall be prohibited without the advance written approval of the Director for good cause shown and documented in the Project file. No such expenses shall be approved without the prior written consent of the Director or the Director's designee. The ENGINEER shall provide the necessary licensing agreements to enable the COUNTY to use proprietary property, including but not limited to, computer programs or software.
33. AFFIRMATIVE ACTION PLAN: In accordance with Ordinance No. 82-37, the ENGINEER must have an Affirmative Action Plan filed and approved by the COUNTY'S Internal Services Department. The Plan is hereby incorporated as a contractual obligation of the ENGINEER to the COUNTY.
34. EQUAL OPPORTUNITY: The ENGINEER shall not discriminate against any employee or applicant for employment because of race, religion, color, ancestry, sex, familial status, national origin, pregnancy, age, sexual orientation, marital status, disability, gender identity or gender express, or status as victim of domestic violence, dating violence or stalking. The ENGINEER shall take affirmative actions to insure that applicants are employed and that employees are treated during their employment without regard to their race, religion, color, ancestry, sex, familial status, national origin, pregnancy, age, sexual orientation, marital status, disability, gender identity or gender express, or status as victim of domestic violence, dating violence or stalking. Such actions shall include, but shall not be limited to the following: employment; upgrading, transfer or demotion; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation and selection for training, including apprenticeship. The ENGINEER agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this Equal Opportunity Clause.

The ENGINEER shall comply with all applicable provisions of the Civil Rights Acts of 1964; Executive Order 11246 of September 24, 1965 as amended by Executive Order 11375; Executive Order 11625 of October 13, 1971; the Age Discrimination in Employment Act, effective June 12, 1968; the rules and regulations, and relevant orders of the Secretary of Labor; Sections 112.041, 112.042 and 112.0113, Florida Statutes; and Miami-Dade County Ordinance No. 75-46, effective June 28, 1975.

During the performance of this AGREEMENT, the ENGINEER agrees to state in all solicitations or advertisements for employees placed by or on behalf of the ENGINEER that all qualified applicants will receive consideration for employment

without regard to race, religion, color, sex, age, sexual orientation, marital status, physical handicap or national origin. If requested to do so, the ENGINEER shall furnish all information and reports required by Executive Order 11246, as amended by Executive Order 11375 and by rules, regulations and orders of the Secretary of Labor, and will permit access to its books, records and accounts by the COUNTY and compliance review agencies for purposes of investigation to ascertain compliance with such rules and regulations and orders. The ENGINEER further agrees that he will comply with the requirements of the Americans with Disabilities Act.

35. OFFICE OF THE COUNTY INSPECTOR GENERAL: According to Section 2-1076 of the Code of Miami-Dade County, the COUNTY has established the Office of the Inspector General (IG) which may, on a random basis, perform audits, inspections, and reviews of all COUNTY contracts. This random audit is separate and distinct from any other audit by the COUNTY. To pay for the functions of the IG, any and all payments to be made to the ENGINEER under this AGREEMENT will be assessed one-quarter of one percent (0.25%) of the total amount of the payment, to be deducted from each progress payment as the same becomes due unless, as stated in the Special Conditions, this AGREEMENT is federally or state funded where federal or state law or regulations preclude such a charge. The ENGINEER shall in stating its agreed prices be mindful of this assessment, which will not be separately identified, calculated or adjusted in the proposal or bid form. The audit cost shall also be included in all change orders/amendments and all AGREEMENT renewals and extensions.

The Miami-Dade Office of Inspector General is authorized to investigate COUNTY affairs and empowered to review past, present and proposed COUNTY and Public Health Trust programs, accounts, records, agreements and transactions. In addition, IG has the power to subpoena witnesses, administer oaths, require the production of witnesses and monitor existing projects and programs. Monitoring of an existing project or program may include a report concerning whether the project is on time, within budget and in conformance with plans, specifications and applicable law. The IG shall have the power to audit, investigate, monitor, oversee, inspect and review operations, activities, performance and procurement process including but not limited to project design, bid specifications, proposal submittals, activities of the ENGINEER, its officers, agents and employees, lobbyists, COUNTY and Public Health Trust staff and elected officials to ensure compliance with AGREEMENT specifications and to detect fraud and corruption.

Upon ten (10) days written notice, the ENGINEER shall make all requested records and documents available to the IG for inspection and copying. The IG shall have the right to inspect and copy all documents and records in the ENGINEER'S possession, custody or control which, in the IG's sole judgment, pertain to performance of the AGREEMENT, including, but not limited to: original estimate files, change order estimate files, worksheets, proposals and agreements from and with successful subcontractors and suppliers, all project-related correspondence, memoranda, instructions, financial documents, construction documents, proposal and AGREEMENT documents, back-change

documents, all documents and records which involve cash, trade or volume discounts, insurance proceeds, rebates, or dividends received, payroll and personnel records and supporting documentation for the aforesaid documents and records.

The ENGINEER shall make available at its office at all reasonable times the records, materials, and other evidence regarding the acquisition (bid preparation) and performance of this AGREEMENT, for examination, audit, or reproduction, until three (3) years after final payment under this AGREEMENT or for any longer period required by statute or by other clauses of this AGREEMENT. In addition:

- A. If this AGREEMENT is completely or partially terminated, the ENGINEER shall make available records relating to the Work terminated until three (3) years after any resulting final termination settlement; and
- B. The ENGINEER shall make available records relating to appeals or to litigation or the settlement of claims arising under or relating to this AGREEMENT until such appeals, litigation, or claims are finally resolved.

The provisions in this Section shall apply to the ENGINEER, its officers, agents, employees, subcontractors and suppliers. The ENGINEER shall incorporate the provisions in this Section in all subcontracts and all other agreements executed by the ENGINEER in connection with the performance of this AGREEMENT.

Nothing in this Section shall impair any independent right of the COUNTY to conduct audits or investigative activities. The provisions of this Section are neither intended nor shall they be construed to impose any liability on the COUNTY by the ENGINEER or third parties.

Exception: The above application of one-quarter of one percent (0.25%) fee assessment shall not apply to the following contracts: (a) IPSIG contracts; (b) contracts for legal services; (c) contracts for financial advisory services; (d) auditing contracts; (e) facility rentals and lease agreements; (f) concessions and other rental agreements; (g) insurance contracts; (h) revenue-generating contracts; (i) contracts where an IPSIG is assigned at the time the contract is approved by the Board of County Commissioners (BCC); (j) professional service agreements under one thousand dollars (\$1,000); (k) management agreements; (l) small purchase orders as defined in Miami-Dade County Administrative Order 3-2; (m) federal, state and local government-funded grants; and (n) interlocal agreements. Notwithstanding the foregoing, the BCC may authorize the inclusion of the fee assessment of one-quarter of one percent (0.25%) in any exempted contract at the time of award.

Nothing contained above shall in any way limit the powers of the IG to perform audits on all BCC contracts including, but not limited to, those contracts specifically exempted above.

36. INDEPENDENT PRIVATE SECTOR INSPECTOR GENERAL: The ENGINEER is hereby directed to the requirements of Administrative Order 3-20 and Resolution No. R-516-96. The COUNTY shall have the right but not the obligation to retain the services of an independent private-sector inspector general (IPSIG) who may be engaged to audit, investigate, monitor, oversee, inspect and review the operations, activities and performance of the ENGINEER and COUNTY in connection with this AGREEMENT. The scope of services performed by an IPSIG may include, but is not limited to: monitoring and investigating compliance with Contract Specifications, project cost, and investigating and preventing corruption and fraud.

The IPSIG may perform its services at all levels of the contracting and procurement process including, but not limited to, project design, establishment of bid specifications, bid submittals, activities of the ENGINEER, its officers, agents and employees, lobbyists, County staff and elected officials.

Upon ten (10) days written notice to the ENGINEER from an IPSIG, the ENGINEER shall make all requested records and documents available to the IPSIG for inspection and copying. The IPSIG shall have the right to examine all documents and records in the ENGINEER'S possession, custody or control which in the IPSIG's sole judgment pertain to performance of the AGREEMENT, including but not limited to, original estimate files, bid and change order estimates, worksheets, proposals and agreements from and with successful and unsuccessful subcontractors and suppliers, all project-related correspondence, memoranda, instructions, financial documents, construction documents, bid and contract documents, back-charge document, all documents and records which involve cash, trade or volume discounts, insurance proceeds, rebates, or dividends received, payroll and personnel records, and supporting documentation for the aforesaid documents and records.

37. PUBLIC RECORDS AND CONTRACTS FOR SERVICES PERFORMED ON BEHALF OF A PUBLIC AGENCY. The ENGINEER shall comply with the State of Florida Public Records Law, Section 119.07, Florida Statutes, specifically to: (1) keep and maintain public records that ordinarily and necessarily would be required by the public agency in order to perform the service; (2) provide the public with access to public records on the same terms and conditions that the public agency would provide the records and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law; (3) ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law; and (4) meet all requirements for retaining public records and transfer, at no cost, to the public agency all public records in possession of the ENGINEER upon termination of the AGREEMENT and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the public agency in a format that is compatible with the information technology systems of the public agency. If the ENGINEER does not comply with a public records request, the public agency shall enforce contract provisions in accordance with the AGREEMENT.

38. PERFORMANCE EVALUATIONS: In accordance with Administrative Order 3-39 entitled "Standard process for construction of capital improvements, acquisition of professional services, construction contracting, change order and reporting", the ENGINEER is advised that performance evaluations of the services rendered under this AGREEMENT shall be performed by WASD and shall be utilized by the COUNTY as evaluation criteria for future solicitations.
39. ETHICS COMMISSION: Pursuant to Section 2-11.1(y) of the Code of Miami-Dade County, the Commission on Ethics and Public Trust has jurisdiction over contractors, engineers, and vendors. The ENGINEER acknowledges that pursuant to Section I of the Lobbyist Rules adopted by the Ethics Commission, the County Mayor or the Board of County Commissioners may void any agreement where a lobbying violation has occurred.
40. ASSIGNMENT OF AGREEMENT: This AGREEMENT shall not be transferred, assigned or otherwise conveyed to any other party without the express written consent of the Director.
41. ENTIRETY OF AGREEMENT: This writing embodies the entire AGREEMENT and understanding between the parties hereto, and there are no other agreements and understandings, oral or written, with reference to the subject matter hereof that are not merged herein and superseded hereby.
42. HEADINGS: The table of contents and any headings preceding the text of the Sections and subsections of this AGREEMENT shall be solely for convenience of reference and shall not affect its meaning, construction or effect.
43. BINDING EFFECT: This AGREEMENT shall inure to the benefit of and shall be binding upon the ENGINEER and the COUNTY and their respective successors, assigns and legal representatives.
44. NO THIRD-PARTY RIGHTS: This AGREEMENT is exclusively for the benefit of the COUNTY and ENGINEER and shall not provide any third parties with any remedy, claim, liability, reimbursement, cause of action or other rights.
45. NON-EXCLUSIVITY: Notwithstanding any provision of this AGREEMENT, this AGREEMENT is nonexclusive, and the COUNTY is not precluded from retaining or utilizing any other engineer to perform like services for WASD. The ENGINEER shall have no claim against the COUNTY as a result of the COUNTY electing to retain or utilize such other ENGINEER to perform any such like services.
46. MODIFICATION: No alteration, change, or modification of the terms of this AGREEMENT shall be valid unless made in writing, signed by all parties hereto, and approved by the COUNTY.

47. GOVERNING LAW: This AGREEMENT, regardless of where executed, shall be governed by and construed according to the laws of the State of Florida, and venue shall be in Miami-Dade County, Florida.

48. SECURITY RESTRICTIONS: Access to certain COUNTY property is restricted. The ENGINEER is subject to Article IX, Chapter 32 of the Miami-Dade County Code (Ordinance No. 02-68). In the event the ENGINEER needs access to such COUNTY property, the ENGINEER agrees to comply with the security ordinance and any other requirements by the COUNTY relating to security which may include background checks, the use of photo identification badges and limited access to COUNTY property. The photo identification badges and associated costs are not reimbursed. Prior to commencing Work at any COUNTY property, the ENGINEER shall meet with a Plant Superintendent or other designated personnel to submit required information and discuss security relating to the Project. Subconsultants are also required to comply with the restrictions, and it shall be the responsibility of the ENGINEER to ensure that the Subconsultants comply with security ordinance and all restrictions.

In accordance with Section 119.071(3)(b), Florida Statutes, building plans, blueprints, schematic drawings, and diagrams, including draft, preliminary, and final formats, which depict the internal layout and structural elements of a building, arena, stadium, water treatment facility, or other structures owned or operated by an agency are exempt from Section 119.07, Florida Statutes, and Section 24(a), Article I of the Florida Constitution. This exemption applies to building plans, blueprints, schematic drawings, and diagrams, including draft, preliminary, and final formats, which depict the internal layout and structural elements of a building, arena, stadium, water treatment facility, or other structure owned or operated by an agency before, on, or after the effective date of this act. Information made exempt by this Paragraph may be disclosed to another governmental entity with prior approval by the property owner if disclosure is necessary for the receiving entity to perform its duties and responsibilities; to a licensed architect, ENGINEER, or consultant who is performing Work on or related to the building, arena, stadium, water treatment plant, or other structure owned or operated by an agency; or upon a showing of good cause before a court of competent jurisdiction. The entities or persons receiving such information shall maintain the exempt status of the information.

49. SANCTIONS FOR CONTRACTUAL VIOLATIONS: Notwithstanding any other penalties for the ENGINEER and/or Subconsultants that may be found to have discriminated in violation of Article VII of Chapter 11A of the Code, the COUNTY may terminate this AGREEMENT or require the termination or cancellation of the Subconsultants' agreements. In addition, a violation by the ENGINEER and/or Subconsultants, or failure to comply with the Administrative Order 3-39, may result in the imposition of one or more of the sanctions listed therein. The COUNTY additionally retains all rights sanctioned it by Ordinance or Statute and may avail itself of any remedy of law or equity in the event of a breach of this AGREEMENT.

50. SEVERABILITY: If any clause, provision, subsection or Section of this AGREEMENT is ruled invalid by any court of competent jurisdiction, the remaining provisions hereof and this AGREEMENT shall be construed and enforced as if such invalid portion did not exist.
51. DRAFTING RESPONSIBILITY: Neither party shall be held to a higher standard than the other party in the interpretation or enforcement of this AGREEMENT, as a whole, or any portion hereof, based on drafting responsibility.
52. SCRUTINIZED COMPANIES WITH ACTIVITIES IN SUDAN LIST OR THE SCRUTINIZED COMPANIES WITH ACTIVITIES IN THE IRAN PETROLEUM ENERGY SECTOR LIST: By executing this AGREEMENT through a duly authorized representative, the ENGINEER certifies that the ENGINEER is not on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, as those terms are used and defined in Sections 287.135 and 215.473, Florida Statutes. The COUNTY shall have the right to terminate this AGREEMENT for default if the ENGINEER is found to have submitted a false certification or to have been, or is subsequently during the term of the AGREEMENT, placed on the Scrutinized Companies for Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List.
53. ERRORS AND OMISSIONS: The COUNTY shall maintain a record of all construction changes that shall be categorized according to the various types, causes, etc. that the COUNTY may determine are useful or necessary for its purposes. Among those categories are construction changes caused by design errors or omissions in the bid documents that are prepared by the ENGINEER. For the purposes of this AGREEMENT provision, errors and omissions shall be dealt with differently, as follows:
- A. Errors: It is specifically agreed that any construction changes identified by the COUNTY and an error in the bid documents that were prepared by the ENGINEER may constitute an additional cost to the COUNTY that would not have been incurred without error. The ENGINEER agrees to be responsible for direct damages to the COUNTY to the extent such damages were caused by the ENGINEER'S breach of the standards of care provided in Section 5A of this AGREEMENT or breach of any other duty specifically set forth in this AGREEMENT.
 - B. Omissions: It is further specifically agreed for purposes of this AGREEMENT that any construction changes identified by the COUNTY as an omission in the bid documents that were prepared by the ENGINEER may constitute an additional cost to the COUNTY that would not have been incurred without the omission. The ENGINEER agrees to be responsible for direct damages to the COUNTY to the extent such damages were caused by the ENGINEER'S breach of the standards of care provided in Section 5A of this AGREEMENT or breach of any other duty specifically set forth in this AGREEMENT.

The ENGINEER shall participate in all negotiations with the contractor related to this Section. Such ENGINEER participation shall be at no additional cost to the COUNTY. Failure by the ENGINEER to participate in the negotiations with the contractor shall constitute a waiver of ENGINEER'S rights to contest the appropriateness or amount of any settlement or change orders.

To obtain recovery for errors and/or omissions covered in Paragraphs A and B above, the COUNTY shall deduct from funds due the ENGINEER in this or any other contract the ENGINEER may or will have with the COUNTY up to the amount of the ENGINEER'S insurance deductible. Should the damages incurred by the ENGINEER exceed the ENGINEER'S insurance deductible, the COUNTY shall look to the ENGINEER and the ENGINEER'S insurer for the remaining amount of additional damages incurred by the COUNTY. In executing this AGREEMENT, the ENGINEER specifically agree to the reasonableness of these damage calculations and to the COUNTY'S rights to recover same as stated above provided, however, the Parties agree that in no event shall the ENGINEER be responsible for the cost of construction change to the extent that such changes are determined to be a betterment to the COUNTY. The recovery of additional costs to the COUNTY under this Section shall not preclude or limit in any way the ENGINEER'S indemnification obligations to the COUNTY pursuant to Section 28 of this AGREEMENT, or preclude or limit in any way recovery for other separate and/or additional damages that the COUNTY may otherwise incur.

IN WITNESS WHEREOF the Parties hereto have executed this AGREEMENT by their duly authorized officers on the date first written above.

SCOPE OF SERVICES

Miami-Dade Water and Sewer Department (WASD) is one of the largest public utilities in the United States, serving a population of more than 2.6 million. WASD provides direct service to more than 428,000 accounts, wholesale water service to 15 municipalities, and wholesale sewer service to 13 municipalities. WASD requires a qualified consultant to prepare a Rate Study (Study) of WASD's retail and wholesale rates and bond consulting engineering services to act in the capacity of WASD's Consultant pursuant to the Senior Bond Ordinance No. 93-134.

REQUIREMENTS AND SERVICES TO BE PROVIDED BY THE ENGINEER

Task 1: Annual Adequacy of Rates and Charges Report

The ENGINEER shall be responsible for preparing a written annual report on the water and sewer utility system before September 1st of each year. In the Report, the ENGINEER will set forth recommendations as to any necessary revision of rates and charges; determine the amount to be deposited in the renewal and replacement fund during the next fiscal year; and advise and/or make recommendations as appropriate.

Task 2: Annual Bond Consultant Report

The ENGINEER shall conduct an annual inspection of approximately one-third of WASD'S facilities; render a written report as to the condition and state of repair of the water and sewer system; and generate recommendations, approvals and/or certifications in connection with the various sections of the Bond Ordinance before September 1st of each year.

Task 3: Engineering Consultant's Report

The ENGINEER shall issue an Engineering Consultant's Report for inclusion in official statements for water and sewer revenue bond offerings.

Task 4: Annual Wholesale Rate Review and Meeting

The ENGINEER shall annually be tasked with a thorough analysis of Wholesale Customer costs allocations and rate calculations based on actual, projected, proposed, and budgeted costs. On an annual basis, the ENGINEER will perform an analysis and make recommendations regarding: a) True-Up of actual audited costs, including allocations to regional and local costs and b) Proposed wholesale rate calculations and allocations. In addition, on an annual basis, the ENGINEER shall hold a minimum of one meeting by June 30th with Wholesale customers to include a written and visual presentation in support of costs methodologies and rate calculations. The County Project Manager may request additional analysis on an as needed basis.

Task 5 Retail Rate Study

The water and wastewater systems operating revenues streams need to provide sufficient funding for WASD'S costs requirements including reserves. Adequate revenue streams are necessary to operate and maintain both the water and wastewater systems and to maintain strong financial ratios that determine the cost of financing future debt required to fund the Multi-Year Capital Improvement Plan ("MYCIP"). For the past several years, revenues from the water system have been needed to cover shortfalls in wastewater revenue. The water and wastewater tiered rate structures require annual analysis to ensure that the adopted rates and fees allocation is achieving the amount of anticipated revenues through the course of annual rate adjustments. WASD is facing a \$13.5 billion capital program, which includes a \$1.6 billion Consent Decree Settlement Agreement. Given the magnitude of future capital needs, a review of retail rates and rate structure to fully recover revenue requirements of both the systems is needed.

SCOPE OF SERVICES

During the term of the AGREEMENT, the ENGINEER, at the sole discretion of WASD, will also provide consulting services for WASD, such as planning; feasibility, vulnerability and risk assessment; process studies; sea level rise analyses; and other relevant studies or tasks, which do not present conflicts of interest relative to the firm's bond consultant duties. In addition, WASD may require services from the ENGINEER which may be related to, but not included in the Scope of Services above.

The ENGINEER and/or Subconsultant under this AGREEMENT will not be allowed to propose or be considered for any design projects for WASD advertised during the term of this AGREEMENT.
