South Operations Division Juvenile Crime Information

The South Operations Division has received positive feedback from residents relating to this initiative to keep juvenile safe and off the streets during curfew hours.

The following are enforcement measures taken in order to reduce future delinquencies involving juveniles:

- **Traffic Enforcement** - On a weekly basis, officers conducted high visibility traffic enforcement details in areas frequented by youth, before and after school. In addition to radar speed enforcement, officers conduct public education campaigns at local schools and community events. Traffic details included enforcement and/or education initiatives such as speed zone enforcement, and seat belt violations.

- **Truancy Sweeps** - Officers participated in monthly sweeps on dates established by Miami-Dade Schools Police Department, as well as conducted regular truancy sweeps on dates likely to have high truancy (i.e. national skip day) activity.

- **Route Safety** - Enhanced visibility and directed patrol were provided at bus stops/routes (Miami-Dade Transit and Schools Transportation stops) identified as problematic or having rowdy students.

- **Curfew Sweeps** - Officers conducted weekly curfew sweeps targeting specific areas where juvenile delinquency was prevalent.

- **Park and Talk** - During available patrol time, officers responded to schools in their area, parked in a visible location, and engaged in conversation with school staff, parents, and students.

- **Roll Calls at Schools** - Area squads routinely conducted roll calls outside of schools in a visible location.

- **radKIDS** - The radKIDS® Personal Empowerment Safety Education Program is 10-hour family-centered safety education program that emphasizes essential decision-making skills, as well as physical resistance options to escape violence. Children from 5-12 years of age participate in the program with their adult caregivers to create a true safety partnership.

- **D.A.R.E.** - Drug Abuse Resistance Education - Officer discusses with 5th graders about the dangers of drugs and how to resist the use of drugs.

- **S.T.A.N.D.** - Students Together Against Negative Decisions - Officer speaks to high school students about the effects of negative decisions and the dangers of alcohol. An art contest is held depicting the impact stemming from bad decisions made by youth.

- **McDonald's Restaurant Duty** - Patrols are conducted at the restaurant located in West District due to the many youths who congregate there from the nearby ice skating rink and during spring break and early release days.

- **Police Explorer Program** - Police explorer advisors trained, taught, and provided team building concepts to the youths in an organized group setting, while learning and implementing rank structure.

- **SNAP Group (Stop Now and Plan)** - The Institute for Child and Family's Health's Stop Now and Plan (SNAP) Program helps kids regulate feelings by getting them to stop, think, and plan positive alternatives before they act impulsively. NRU officers meet monthly with kids in the SNAP program and assist them and their parents with strategies and techniques to improve their overall communication within the family structure.

- **Youth Empowerment Rally** - The Youth Empowerment rally was developed to educate and encourage the youth to find alternative programs and groups to join; bring awareness to gun violence that effect our communities daily. Local youth organizations, social services, churches, and a variety of Miami-Dade Police Department agencies attended.
