1. Executive Summary

With this re-submittal, the City of Doral (City), wishes to re-initiate the annexation process which was first approved by the City Council in 2004. The City wishes to annex approximately 145.5 acres which is contiguous to the City's current northeastern municipal boundary (See Location Aerial). There are no Terminals designated on the Miami-Dade County Land Use Plan Map within ½ mile of this area nor will this annexation create an enclave.

The Annexation Area is described as: the South ¼ of Section 15, Township 53, Range 40 in Miami-Dade County, Florida and is bounded by the Palmetto Expressway (SR 826) to the East, NW 58th Street to the South, NW 87th Avenue to the West, and generally NW 62nd Street to the North. This area contains numerous industrial warehouse facilities.

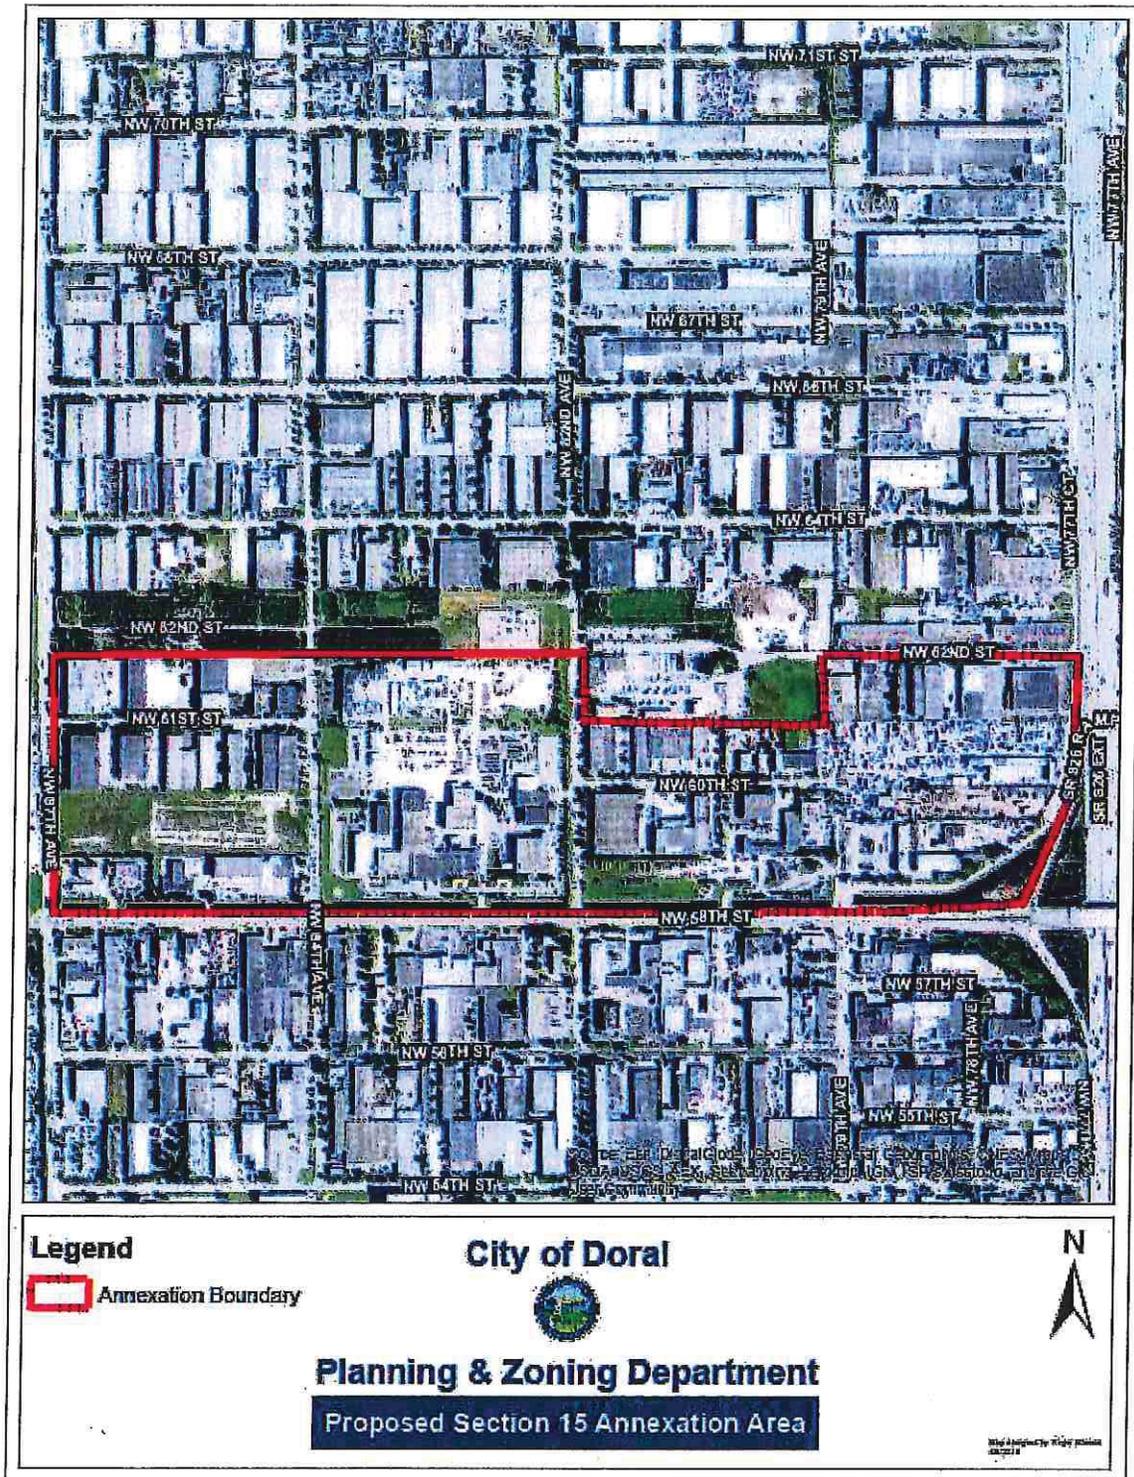

The City is a relatively new municipality, having incorporated in 2003. Miami-Dade County (County) still provides certain services as stipulated in various Interlocal Agreements and will continue to do so for the proposed Annexation Area. The City has adjusted its millage rate downward since the time of incorporation and is now lower than the millage rate for Unincorporated Miami-Dade County. The City is dissimilar from other municipalities that have incorporated in Miami-Dade County over the last 20 or so years due to the unprecedented mix of residential, commercial and industrial uses within the existing boundaries – a benefit to property owners within the annexation area. The City also includes a world class hotel and golf course, excellent schools and is considered an international hub for commerce. Because of the mix of uses and large tax base the City of Doral is considered financially well placed and a donor area.

According to the BEBR, the 2015 population estimate figures show that 55,660 persons reside in the City of Doral. The addition of the Annexation Area, which has zero electors, would not impact the population of the City.

With its current successes the City wishes to expand so that the following goals of the City may be met: Improving services and infrastructure, including streets; and Providing for buffering.

In summary, the Annexation Area will provide additional revenue to the City, provide opportunities to enhance the quality of the environment in this very important commercial/industrial area and allow the City to gain zoning and code enforcement control in order to better buffer residential, commercial and industrial areas existing with the City. Through more localized planning and review and enforcement of regulations the needs of this very important employment and economic center, which is the City of Doral, will be fully realized.

3. Resolutions

7. Statement of Reason for Boundary Changes

The proposed annexation area as shown abuts the City of Doral along NW 58th Street. Annexing the approximately 145.5 acre (<.25 square mile) area will insure that the Doral standards of high quality of life for residents, businesses and visitors will remain and will be brought to the annexation area through continued proper planning and development practices which are extremely important to the City.

It is a fact that the existing development within the annexation area is compatible with and complementary to development already existing in Doral's surrounding office and industrial zones to the south.

Again, through more localized planning, review and enforcement of regulations the needs of this very important employment and economic center will be fully realized.

Finally, since the City is fiscally very sound it is able to service this area without impact to residents, businesses and other stakeholders within the current municipal boundaries.

8. Notification of Property Owners of City Intent

Formal notice of the public hearing by the City proceeding with the annexation has been sent to property owners within the area and within 600 feet thereof. Proof of compliance with this section shall be required. **(See Attachment "A" - CERTIFIED LIST OF PROPERTY OWNERS)**

9. Land Use Plan and Zoning

The majority of Section 15 is industrial and commercial and supporting services.

The designated future land use is Industrial and Office. The annexation area is zoned IU-3 except for a small portion at the intersection of NW 58th Street and NW 87th Avenue which is zoned BU-1A. These are shown on the Miami-Dade County Comprehensive Development Master Plan Future Land Use Plan Map and the respective Zoning Map.

According to the Inventory of Existing Land Uses provided by the Miami-Dade County Department of Planning & Zoning the Annexation Area is approximately <.25 square mile (145.5 acres) in size. The following table details the major land use categories by number of acres and percentage of total. A map of the existing land uses may be found under Section 6 of this report.

Table 1.
Inventory of Land Uses

Land Use	Number of Acres	Percent of Total
Residential	0.0	
Commercial & Office & Transient Residential	15.7	10.8
Industrial	83.4	57.3
Institutional	0.6	0.4
Parks & Recreation Open Space	0.0	0.0
Transportation, Communications, Utilities	29.7	20.4
Agriculture	0.0	0.0
Undeveloped (Vacant, government owned)	9.6	6.6
Inland Water	9.6	4.5
TOTAL		100.00

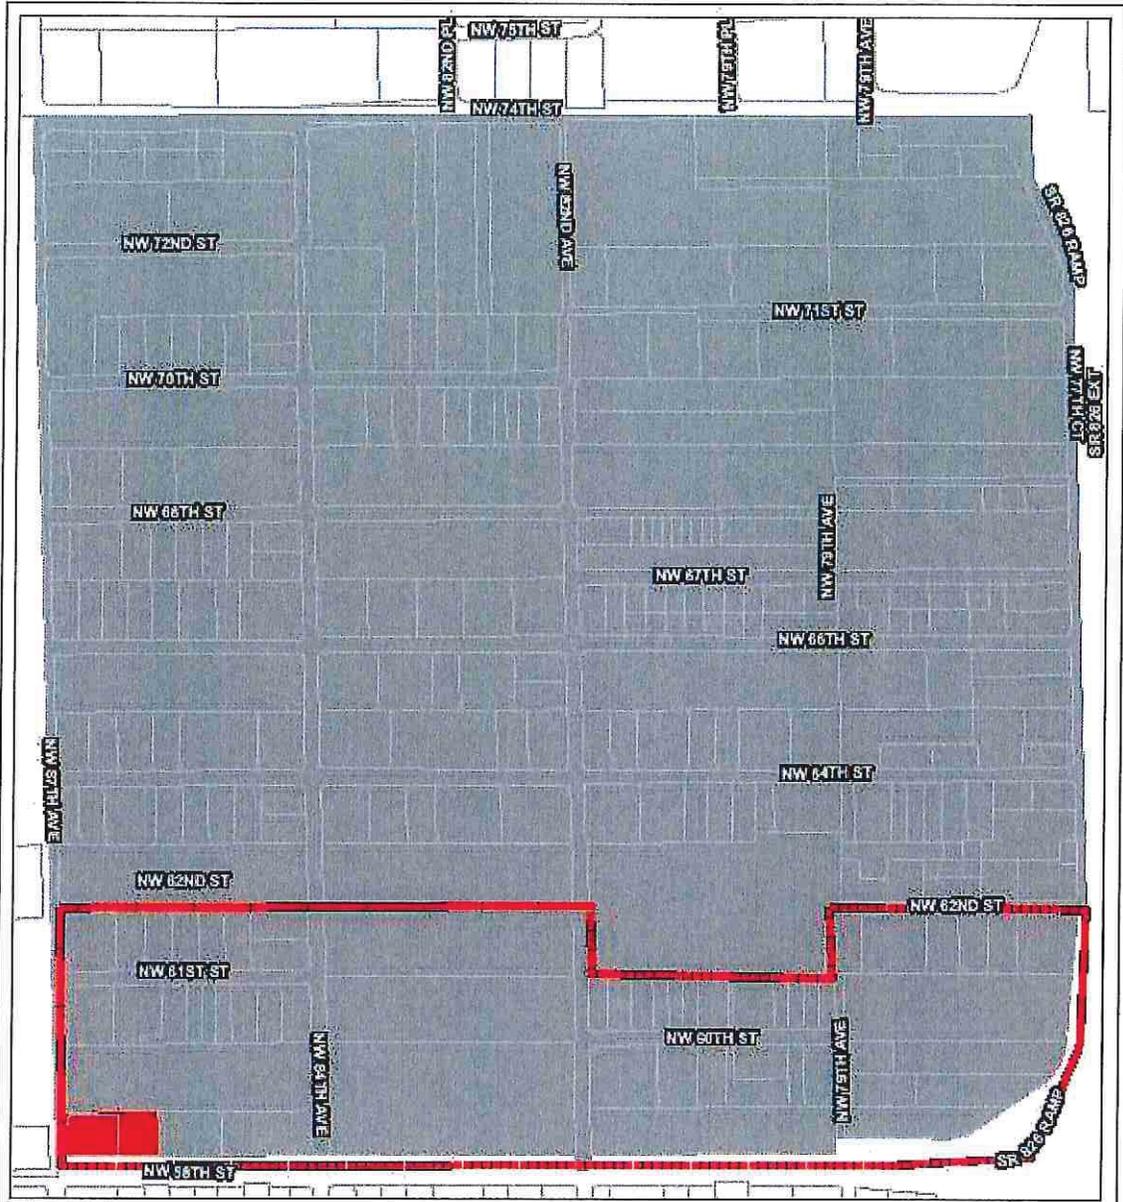

The City has an adopted Comprehensive Development Master Plan and Land Development Code.

Future Land Use Designation for Section

Section 15 53 40 is designated Industrial and Office on the Miami-Dade County Future Land Use Plan Map. Upon annexation of the Southern 1/4, the City will re-designate those properties to the City's closest Land Use equivalent.

Please see Future Land Use Plan Map for more detailed Land Use designation locations.

Also, for reference purposes, the relevant Land Use Designation descriptions are included and were obtained from the Miami-Dade County Comprehensive Development Master Plan 2015-2025 and the City of Doral Comprehensive Development Master Plan.

Any person, firm, corporation or other legal entity desiring to use any property or premises situated in an IU-3 District for the manufacture, assembly, processing or packaging of any article or matter enumerated in Section 33-264(3), or for the storage of relatively large quantities of such article or matter (not to include storage where storage is relatively small and incidental to the use of small quantities of such article or matter in connection with manufacture, processing or use permitted in more restrictive districts), or manufacture, assembly, processing, packaging or storage of similar articles or matter, or for any use or operation enumerated in said Section 33-264(3) or for similar use or operation, shall file with the Director a written application setting forth a full description of the proposed use or occupancy, and accurate legal description of the property or premises, a description of the structure or structures to be constructed or occupied, satisfactory proof that the proposed use will conform to the requirements of the Miami-Dade County Pollution Control Ordinance, and such other information as may be reasonably required by the Director, who shall determine from such information, whether or not the proposed use will, in fact, create objectionable influences ordinarily associated with the general type of such uses. If it is found that such use because of the method of operation, or type of materials used, the usual degree of hazardous conditions will not be created, the Director may assign the use to the IU-3 District or to a less restrictive zoning district. However, if it is determined that the high hazards usually anticipated in connection with the uses listed involving fire, explosions, noise, vibration, dust or emissions of smoke, odors, or toxic gases, or other hazards to public health, safety or welfare will be created, the Director shall require approval as result of a public hearing before such use is permitted. Upon filing of the application, the Director shall transmit such application, together with his recommendations, to the Community Zoning Appeals Board, who shall consider the application in accordance with the zoning procedure prescribed by article XXXVI of this chapter, and transmit its recommendations to the County Commission. Provided, however, no use specified in Section 33-264(3) shall be established within five hundred (500) feet of any RU or EU District except after approval after public hearing. Provided, that the spacing limitation shall be two hundred fifty (250) feet if the use is confined within a building and an exterior wall or walls of the building located on the establishment is not penetrated with any openings directly facing the RU or EU District. It is further provided that, except for exterior uses, such distances shall be measured from the closest point of the subject use in the building to the RU or EU District. In connection with exterior uses, the distance of five hundred (500) feet shall be measured from the closest point of the IU District to the RU or EU District.

For purposes of establishing such distances, the applicant for such use shall furnish a certified survey from a registered surveyor, which shall indicate such distances. In case of dispute, the measurement scaled by the Director of the Department of Planning and Zoning shall govern.

Sec. 33-266. - Wall or dike for storage of petroleum products.

The premises used by gasoline, oil and petroleum storage tanks shall be surrounded by an unpierced fire wall or dike of such height and dimensions as to contain the maximum capacity required by current applicable Miami-Dade County codes. Where an abandoned rock pit is located in an IU-2 or IU-3 District, a permit may be issued to use such pits for oil storage tanks in which dikes may be omitted if the pit has the required capacity. All storage tanks and adjacent structures shall meet the requirements of the current applicable Miami-Dade County codes.

The foregoing paragraph requiring an unpierced fire wall or dike shall not apply to storage tanks containing liquefied petroleum, commonly known as bottled gas; such tanks may be erected without said wall or dike.

Sec. 33-266.1. - Uses confined to buildings or within wall enclosures.

At all manufacturing establishments or rebuildings, storage or repair places permitted in an IU-3 District, all materials and products shall be stored and all manufacturing, rebuilding, storing or renovating operations shall be carried on entirely within an enclosed building or confined and completely enclosed within masonry walls, at least six (6) feet in height but no higher than eight (8) feet, excepting only shipyards, dry docks, boat slips, and the like, where necessary frontage on the water may be open.

10. List of Services to be Provided

a. Police

The City of Doral Police Department comprises 139 full time sworn officers for the current 2015/2016 budget year. There are also 41 administrative positions within the Department. With a \$20.55 Million current year budget the Police Department is prepared to absorb any additional required police services.

Upon completion of the annexation process and municipal boundary change the City would provide immediate coverage to the area without degradation of police service. If the annexation is successful, an increase of one officer would be contemplated.

b. Fire Protection

Primary Fire Rescue service for the proposed annexation area will be provided by Fire Battalion 11 and Battalion 12, as referenced below. The following station territories lie within the proposed annexation area.

Although these units primarily serve their own communities (Miami Springs, Medley, Miami Gardens) they come together in response to any major incident in the area. They also provide support services when primary response units are on other service calls. To develop proficiency and unit coordination, the Battalion units regularly drill together.

Battalion 11 is also part of Miami Dade Fire Rescue's Special Operations Division. In addition to their normal firefighting, dive rescue and emergency medical activities, Stations 17, 28, 46, and 48 have some very special capabilities.

Station 46 serves as part of the urban search and rescue (USAR-1) and the Technical Rescue Team (TRT Units). Members of these units are trained in vehicle extraction, confined space rescue, trench rescue and elevated victim rescue. Station 17 is equipped with aerial apparatus units that are especially suited for taller buildings. Stations 28 and 48 comprise the core of the County's Hazardous Materials Response Team, Rescue and USAR-1 rescue support services.
