1. Executive Summary

With this re-submittal, the City of Doral (City), wishes to reinitiate the annexation process begun over six years ago. The City wishes to annex approximately a **one square mile area** which is contiguous to the City's current northern municipal boundary (See Location Aerial). There are no Terminals designated on the Miami-Dade County Land Use Plan Map within ½ mile of this area nor will this annexation create an enclave.

The Annexation Area is described as: Section 6, Township 53, Range 40 in Miami-Dade County, Florida and is bounded by NW 90th Street on the south, NW 107th Avenue on the east, NW 106th Street on the north, and the NW 117th Avenue Canal and Road Right-of-Way to the west. This area is completely accessible through the existing street network of Doral.

The City is a relatively new municipality, having incorporated in 2003. Miami-Dade County (County) still provides certain services as stipulated in various Interlocal Agreements and will continue to do so for the proposed Annexation Area. The City has adjusted its millage rate downward since the time of incorporation and is now lower than the millage rate for Unincorporated Miami-Dade County.

The City is dissimilar from other municipalities that have incorporated in Miami-Dade County over the last 20 or so years due to the unprecedented mix of residential, commercial and industrial uses within the existing boundaries – a benefit to property owners within the annexation area. The City also includes a world class hotel and golf course, excellent schools and is considered an international hub for commerce. Because of the mix of uses and large tax base the City of Doral is considered financially well placed and a donor area.

According the BEBR, the 2015 population estimate figures show that 55,660 persons reside in the City of Doral. The addition of the Annexation Area, which has zero electors, would not impact the population of the City.

With its current successes the City wishes to expand so that the following goals may also benefit the Annexation Area:

- Improving services and infrastructure;
- Having a local government that is aware of and concerned with the business community's development and the quality of life for local residents and businesses;
- Instilling pride and participation;
- Improving the process of development regulation; and
- Providing for a local government that is accountable for how taxes are spent and is willing to participate with all other Miami-Dade municipalities, old and

new, in providing financial assistance to some of the less fortunate areas of the County.

In summary, the Annexation Area will further provide for the fiscal strength of the City by increasing its tax base and allowing for significant job creation opportunities. Through more localized planning and review and enforcement of regulations the needs of this very important employment and economic center will be fully realized.

3. Resolutions

As stated previously, the current application for annexation of Section 6 is a resubmittal and update of previous requests. In addition to the current Resolution No. 16-92 approved by the City of Doral City Council on April 20, 2016, Resolutions 13-19, 08-100 and 04-99 have been included in order to provide a historical record of past City Council actions on this matter.

The determination of whether an area is more or less than fifty (50) percent developed residential shall be made in the sole discretion of the Director of the Department of Planning and Zoning *(now RER)*."

7. Statement of Reason for Boundary Changes

The proposed annexation area as shown abuts the City of Doral at its northern limit. Annexing the approximately 1.0 square mile area will also insure that the high quality of life for businesses and visitors will remain through continued proper planning and development practices. It is a fact that the excellent quality of existing and proposed development within the annexation area is compatible with and complementary to development already existing in Doral's office and industrial zones.

As stated in the previous paragraph, proper planning and development practices and compatibility are extremely important to the City. And in this case, more so, because Section 7 to the south is almost fully developed with residential land uses which is shown on the Comprehensive Development Master Plan Future Land Use Map.

Again, through more localized planning, review and enforcement of regulations the needs of this very important employment and economic center will be fully realized.

Finally, since the City of Doral is fiscally very sound it will be able to service the area without impact to residents, businesses and other stakeholders within the current municipal boundaries. Also, property owners within the proposed annexation area **will benefit from more localized government**.

8. **Notification of Property Owners and Municipalities of City Intent**

Formal notice of the public hearing by the City proceeding with the annexation has been sent to property owners and municipalities within the area and within 600 feet thereof. Proof of compliance with this section shall be required. **(See Attachment "A" - CERTIFIED LIST OF PROPERTY OWNERS)**

9. Land Use Plan and Zoning

The land use and zoning consists mostly of industrial and office, with a number of larger undeveloped parcels, as shown on the Miami-Dade County Comprehensive Development Master Plan Future Land Use Plan Map and the respective Zoning Map.

According to the Inventory of Existing Land Uses provided by the Miami-Dade County Department of Regulatory and Economic Resources the Annexation Area is approximately 1.0 square mile (640.2 acres) in size. The following table details the major land use categories by number of acres and percentage of total. A map of the existing land uses may be found under Section 6 of this report.

Table 1.

The City has adopted its Comprehensive Development Master Plan. Additionally, the City adopted its first Land Development Code.

The Miami-Dade Existing Land Use Map – March 2016 is shown above.

Future Land Use Designation for Section

Section 6 53 40 is designated Industrial and Office and Restricted Industrial and Office on the Miami-Dade County Future Land Use Plan Map. Upon annexation, the City will re-designate those properties to the City's closest Land Use equivalent.

Please see Future Land Use Plan Map for more detailed Land Use designation locations.

Also, for reference purposes, the relevant Land Use Designation descriptions are included and were obtained from the Miami-Dade County Comprehensive Development Master Plan 2015-2025 and the City of Doral Comprehensive Development Master Plan.

Future Land Use Plan Map Designations (Miami-Dade County)

Industrial and Office

Manufacturing operations, maintenance and repair facilities, warehouses, mini-warehouses, office buildings, wholesale showrooms, distribution centers, and similar uses are permitted in areas designated as "Industrial and Office" on the LUP map. Also included are construction and utility-equipment maintenance yards, utility plants, public facilities, hospitals and medical buildings. The full range of telecommunication facilities, including switching and transmission facilities, satellite telecommunications facilities, microwave towers, radar stations and cell towers is also allowed. Very limited commercial uses to serve the firms and workers in the industrial and office area are allowed dispersed as small business districts and centers throughout the industrial areas. Hotels and motels are also authorized. Freestanding retail and personal service uses and shopping centers larger than 10 acres in size are prohibited in these areas because they would deplete the industrial land supply and they are better located in commercially designated areas and in closer proximity to residential areas. Freestanding retail and personal service uses and shops that are approved in Industrial and Office areas should front on major access roads, particularly near major intersections. In addition, uncommon commercial uses such as amusement uses, and others with unusual siting requirements may also be considered at appropriate locations. Quarrying activities and ancillary uses may also be approved in areas designated Industrial and Office where compatible with the surrounding area and environment. The specific range and intensity of uses appropriate in a particular Industrial and Office area vary by location as a function of the availability of public services and access and, among other factors, compatibility with neighboring development. Through the zoning review process, use of particular sites or areas may be limited to something less than the maximum allowed in this category. Moreover, special limitations may be imposed where necessary to protect environmental resources.

If the land is the subject of an application for rezoning, zoning approval or a plan amendment and is located in an MSA with less than a 15-year supply of industrial land, in order to receive approval for a non-industrial use, the applicant must demonstrate that such use will not have a significant adverse impact on future industrial development.

In general, the typical residential development is incompatible with major industrial concentrations and shall not occur in areas designated as "Industrial and Office" on the LUP map to avoid use conflicts and for health and safety reasons. Exceptions may be granted for the following: (1) the development of live-work or work-live buildings or the adaptive reuse of existing structures for these purposes in areas of light industrial uses such as office, wholesale, distribution and the assembling of pre-manufactured parts; (2) the development of a TND as provided herein; and (3) the residential development of a portion of an industrially designated area where the portion is, a) 10 acres or smaller and is bounded on

two or more sides by existing residential development or zoning, or is b) the perimeter of a Plan-designated industrial area which perimeter does not exceed a depth of 150 feet; and c) the subject portion of the industrially designated site immediately adjoins a currently developed or platted residential area and the Director of the Department of Planning and Zoning determines that the inclusion of a residential component in the Industrially designated area, designed to provide compatible transition along the boundary, is the best means of maintaining the quality of the adjoining residential area. Notwithstanding the foregoing, applications for residential zoning that were properly filed prior to August 25, 2000, can be considered where adjoining land is residentially zoned, designated or developed. Residential developments in this land use category may participate in the inclusionary zoning program. The properties utilized for residential development will be eligible within the limits provided in this paragraph for the density allowances of the inclusionary zoning program in the Residential Communities section.

TNDs may be permitted in Industrial and Office areas where: 1) compatible with nearby development and with the objectives and policies of this Plan, 2) necessary services exist or will be provided by the developer, and 3) adjacent to land designated Residential Communities on the LUP map (including across an abutting major or minor roadway) along 30 percent or more of the total perimeter of the TND, provided that land designated Residential Communities exists along at least some portion of the two or more sides. (Multiple sides created by an out parcel shall count as one side only). TND located within Industrial and Office areas shall be allocated to Workshop Uses a minimum of 15 percent and a maximum of 30 percent of the gross built up area planned for development within a TND, and shall have a residential density no greater than the average of the adjacent Residential Communities designations or ten units per acre, whichever is higher. Workshops Uses shall be oriented to adjacent non-residential areas, while the residential uses shall be oriented to the adjacent Residential Communities designations. All criteria for TNDs enumerated in the Residential Communities section of this Chapter, other than the provisions governing percent of built per area which may be devoted to workshop uses addressed herein and the maximum permitted residential density, shall govern the development of TNDs in areas designated Industrial and Office.

Restricted Industrial and Office

Industrial and Office areas designated as "Restricted" are areas where the range of uses and design of facilities are governed by special groundwater protection regulations. This category primarily affects "wellfield protection areas" designated in the Miami-Dade County Code (Chapter 24, Code of Miami-Dade County). The boundaries of the "Restricted" areas shall be periodically reviewed and amended as necessary to maintain consistency with wellfield protection area boundaries provided by Chapter 24, Code of Miami-Dade County. Development in Restricted Industrial and Office areas should generally be limited to office uses, but certain

business, warehousing and manufacturing uses may be permitted, provided that the use employs best management practices, and the use does not involve the on-site use, handling, storage, manufacture or disposal of hazardous materials or waste as defined in Chapter 24 of the County Code. Provisions of the "Industrial and Office" category which allow and limit residential and business uses, TNDs and hotels also apply to the Restricted category. Quarrying and environmentally compatible ancillary uses may also be approved in these areas. The inclusion of this Restricted category on the LUP map does not preclude the application of these or similar use limitations to other land contained in the Industrial and Office or any other land use category where necessary to protect groundwater resources.

It is intended that this district shall be utilized to provide an adequate reservoir of lands suited for the needs and requirements of large industries, and industrial park developments, to the end that desirable industrial concerns may be attracted to this area. It is intended, however, that this district shall not be used indiscriminately, so as to permit any industrial use which might be offensive or obnoxious by reason of the emanation of odors, gases, dust, noise or vibration, pollution of air or water, or otherwise detrimental to the general welfare of this community; but that it shall be restricted and confined to only those large industrial uses and industrial park type developments which produce a net gain to the community. It is recognized that the rapid development of new and different industrial uses and operations makes it impossible and impractical to accurately enumerate those which would be beneficial or detrimental to the welfare of this community. Therefore, the intent and purpose for the establishment of this district is expressly set forth, and standards set forth for the use of lands embraced within this district.

Sec. 33-268. Permitted uses.
No land, body of water, or structure in an IU-C District shall be used or permitted to be used, and no structure shall be erected, constructed, moved or
